ANNOUNCEMENTS.

Some fourteen opera companies will claim attention the coming season as having been highly endorsed by the press of New York and other large cities, but none has received the universal praise as "The Sea King," which was given during the past season at Palmer's theater, New York, and was voted by the leading critics as being the best of the three then being given in that city. Dut of this large number will come to Boyd's spera house on Thursday next, the William J. Gilmore opera company, who will present the new comic opera, "The Sea King." Later advices point to the fact that Manager Gilmore, who seems to have embarked in the new enterprise with a vast amount of confidence and liberality, has been busy in strength. ening a cast which appeared already strong, and that when it reaches Omaha it will be and that when it reaches Omaha it will be composed almost entirely of comic opera favorites. Gilmore is essentially a shrewd as well as an experienced man in the theatrical business, and the fact that he purchased Stahl's work outright points to his conviction that it contains more than the average perpentage of the elements of popularity. Milwaukee Operators Worsted-Other

Rail Notes. Mr.F.A.Nash, general western agent of the Milwaukee road, stated that the operators strike had been a fallure. Only a few men had gone out, nearly all of them being on the Council Bluffs division, and their places had been supplied without difficulty, so that the road had not suffered by any interruption of

traffic.
He had heard of the reported closing of two stations of the Council Bluffs division be-cause of boycotts against new agents, and characterized the story as ridiculous.

The St. Joe & Grand Island.

The press dispatches Monday contained information to the effect that the minority stockholders of the St. Joseph & Grand Island division of the Union Pacific would be-

gin suit to restrain the removal of the general offices of that division to this city.

Assistant General Manager Holcomb of the Union Pacific stated that he had heard nothing of the move and could not say what the result would be, but he expressed surprise that such a movement was contemplated. It would be better for the stockholders, he said to have the affairs of the holders, he said, to have the affairs of the road managed as economically as possible and this could best be done by dispensing with the numerous headquarters and consolidating the duties of those offices.
