Dullest Day in Many Moons Experienced by Both Bulls and Bears.

CONDITIONS AGAINST BRISK BUSINESS.

Wheat Holds Up Well on Good Bear News-Corn Sing ish and Oats Neglected-A Predicted Provision Break.

CHICAGO, Feb. 6 .- [Special Telegram to THE BEE !- It has been many weeks since there was as general duliness as was witnessed on change early today. There was a little flurry In all the pits for a short time followed by a heavy feeling, largely attributable to the weather, which was most favorable every-where. While this was true in the grain markets, the unexpected receipts of hogs ex-teeding 40,000 made the provision market Sales the first hour were: May wheat, 99% to 98% to 99%; corn, 51% to 53%; oats, 46%; trees pork, \$10.10 to \$10.05; lard, \$6.05;

ribs, 55, 1065, 1214.
With almost everything imaginable against it, the extreme decline in May wheat before I o'clock was about Ic. To begin with. the day was a dult one on 'change in all quarters. This was against prices. Receipts here were larger than the estimate. Receipts at Minneapolis and Duluth were large at 310 cars. Cables were entirely indifferent and wheat was quoted dull and stendy for Liverpool. Such California dispatches as were at hand said there was light rains at several points and threatening weather. The weather prevailing over the entire winter wheat sections was the most favorable and on the side of the seller. Atlantic ports showed but 4,000 bushels of wheat and II,000 packages of flour cleared from New York, and 1000 barrels of floor and no wheat from Baltimore. Liverpool showed but 60,900 quarters American wheat for three days, or about 16,000 bushels per day for the great British-American port. There was another effort at Russian crop figures. This time the Russlanminister says the crops exceed last year by 18,000,000 bushets of wheat and by 12,000,000 ushels of rye. New York was a seller of wheat in this market. Then, too, St. Louis conveyed the idea that Oregon and Washington wheat was flowing to that market in abundance. Minneapous held cash wheat at 95c early, but sold at 94 4c. This was the array of dlluted bear news for the day. There was nothing on the bull side except Milwaukee being bid \$1.04 for No. 2 spring to be delivered at Buffalo and some sales of cash were for Rochesterat 4c under May. The action of the market was as follows: May opened at 90%c, sold at 98%c to 99%c to 98%c to 99%c to 9814c to 9914c again before I o'clock. This left the price just 5c off from last night. July wheat received better support and after selling at 95% to 95% to 95% c early, yielded to 94 % c and recovered to 95 c. There was no dashing business by any one. Cudahy was a seller and Hutchiason bought May. At the close in wheat the decline for the day was 1/2c for the month, Me for July and Me for May. February sold at 96c and 95c, closing at 95'je nomi-nal. May closed at 98'ye. July was quoted at 943ge at the low point and closed at 95c. Estimate for tomorrow 47 cars. The corn market showed signs of weakness

at one time during the session, and on the story that the inspection sheet had not shown any corn billed through, there was son dumping of stuff. The idea that country correspondents claimed a free and larger movement in the near future was pretty well circulated. Estimate for Saturday was 220 cars, quite large, and helped to con-firm the claim of larger receipts. On this the price of May touched its low point at 5316. Receipts today were 129 cars, and with Liverpooleables 14d up the market opened firm at 5ic. Before the break the price touched 54%, and late in the session the price recovered from 53% to 53% and at 10 clock rested at 534c. In the pit Hutchinson was the one conspicuous buyer. The crowd acted bearish and sold cautiously. Tuttle. Bartlett, Frazer, Patton Brothers and Bryant led the selling. There was a good support in corn to the close, when May was 514c, or less than 4c under last night. February was quoted at 514c to bic, closing at 51%c. March, 52%c to 51%c 52c. June, 53%e to 5le to 5lec. July, 53%e to 5 3 4c to 534c.

There was a very narrow market in oats al l day. May sold at 461/646 %c and 461/c, closing at 40%c. June, 46c to 45%c to 46c. July, 42%c

The belief appears to be pretty general that there must be a break in pork and other products. This is on the theory that the packers have been holding the market just enough to sell their products at a good profit and that the outside trade holds the stuff. The opinion also prevails that the unusual run of hogs is to continue! The receipts for the day were 41,000 and had a bearish influence on the pro-vision market. With the estimate of 25.000 hogs for Saturday, the week's receipts will run up to 130,000 or 40,000 over the estimate of last week. The market opened with lard about steady at .05, ribs 5c off at \$5.12% and pork 10c off at \$10.10. These were the best prices of the day. Porkfurther weakened to \$10.0214@10.05 and closed at \$10.07%, or 12% lower. Lard closed at the bottom at \$6.0026.02%, and buying orders placed at \$5.00 could not be filled. Ribs at \$5.07% or 10c lower. These were May prices: PRICES AT CHICAGO. COMMODITY Open. | High. | Low. | Close. | Yes'y,

ers today on account of better receipts. The close of the market is very tame at some reaction from lower prices. Large receipts of bogs induced heavy seiling of provisions at the start which met very few buying orders until tork mached the neighborhood of \$10.65 at which there seemed to be a large domand. We regard this buying as of a sentimental character from parties who have set their pegs at \$10 as the bottom price, but in the face of engrances stocks both here and elsewhere we fear they will be disappointed.

J. G. Legan & Co. to Toneray & Bryan—Wheat opened with free selling from \$\mathbb{Q}_2\$ to \$18\mathbb{Q}_2\$ for May, but the buying was scattered. The outside business was slightly better and orincipally on the selling side. Cables are steady; no change invalues. Receipts in the west and southwest continue good. The demand here for No. 3 and 2 winter for interior sills continues, with not much of either grade offered. One prominent scalper for the last two days has been a liberal buyer of July and has predicted this option would sell at the May price before the week closed. The prediction may be right, but we think it will be on a lower levelthan \$\mathbb{Q}_2\$ for May and \$\mathbb{Q}_2\$ for July. There is little in it beyond a scalp for small profits. We think selling July on all bulges will make good money. Corn is fally setive. Receipts continue light. The market fluctuates \$\mathbb{Q}_2\$ on any little buying. One receiving house was a moderate solier at the opening. Provisions without any feature, dull and small trade.

CHICAGO LIVE STOCK.

CHICAGO, Feb. 6.—[Special Telegram to THE BEE.]—CATTLE—About the only noticeable change in the duliness that has prevailed in the trade here for the past three days was that buyers were looking over the market and making slightly better offers than yesterday. and this only on the best expert and choice shipping steers. Nearly everything else in the steer line was slow, almost neglected, with no particular change on the ow range of values for a week or so past. Fat ows and helfers may be quoted a shade better than at the beginning of the week, but canning cows and buils are about as low as at any time. The demand for stockers was not brisk as for a day or two, yet there was a fair business and steady prices. The best price today for steers was \$5.10, the next best price today for steers was 5.10, the next best \$4.70@4.00; mediums, \$1.00@4.50; common, \$1.00 @3.50; cows, \$1.50@3,10; stocks, \$2.10@4.25.

Hoss—Values dropped about a nickle and at the decline there was a big shipping demand, but local dealers held back until late in the day. Prime big heavy hogs were not wanted, so a large number of such were carried over for want of bids that salesmen deemed satisfactory. About all the light shipping grades and the ordinary run of mixed, however, were sold. Rough and common, \$1.45@4.50; packers and mixed, \$3.55@3.50; prime heavy and butchers weights, \$3.65@3.70; light, \$3.60@3.65; pigs, \$2.80@3.50.

STOCKS AND BONDS.

Naw York, Pob. 6 .- [Special Telegram to THE REE. |- Notwithstanding the bullish talk of the Gould parties last night the stock market started a trifle easier today. With this exception the action of the market early was very similar to that of yesterday. First prices were from 14 to 14 per cent lower than last night's prices, with Chicago Gas down 14. As usual of late, however, a firm tone was developed in the early trading and fractional advances were scored all along the line, though the only stock showing any activity was Union Pacific, which also led for some time in the est price of vesterday. Chicago Gas and Nickel Plate second preferred later became prominent for strength, each rising %, and mong the low priced shares Mobile & Ohio rose 14 to 31 St. Paul also displayed some activity, but the rest of the list was quite dull and industrials were almost neglected. The strength did not hold, and before 10'clock prices dropped back 4 to 4 per cent all around with few exceptions. Northern Pacific preferred and Union Pacific were well supported ferred and Union Pacific were well supported, and Missouri Pacific had support around 88. Northwestern and Rock Island each showed ½ per cent loss from last night. The public was not in the market, and the professional trade languished. There was a good support in a few stocks to close, among which were Lake Shore at it3. Northern Pacific preferred at 73. Missouri Pacific at 68½ and Chicago Gas at 42. Rock Island was off ½. Union Pacific lost its early gain and most other western stocks closel steady. Sales reached 174,000 shares.

One of the points in the private cables was that the continent had stopped buying wheat in England. The late public cables, however, showed that the market at Paris and Berlin were higher.

Beerbohm's Cable: Cargoes off coast, wheat firm; corn, nothing offering. On passage, wheat firmer; corn turn dearer. Mark Lane wheat steady; corn firm; flour steady. French markets firm. Liverpool, wheat quiet and steady; corn firm; receipts wheat past thirty days. 62,000 centals, including 7,000 American.

W. C. McCormick & Co. to F. C. Swartz & Co.—There has been little worthy of note in the wheat market today. Trading, which was heavy, consisted chiefly in a scramble for quarters among our local scalpers. Better weather, very quiet cables and large receipts in the northwest aided rather a bearish feeling and the chief support to the market came from a few local operators whohaving sold considerable lines of puts tried to prevent the wheat belog put to them. The cash demand seems, to have failen off, and clearances from the seaboard are very light. We still predict a scalping market for a while, with a down wand tendency. Corn was quite dull at a lower range of prices. Huchinson, who has been a buyer for several days, was again the chief support of the market and it is remarkable that he should have been able to sustain prices, as the buyers of the pasttwoor three days generally turned sell-Wall Street.

the price of Union Pacific advanced. Mr. Gould's son also favors the public with a statement that Union Pacific earnings for December show a large increase. The general public, however, do not take kindly to receiving statements on earning in this way and London especially disapproves thereof. London has shown disapproval by selling Union Pacific. Rock Island has been weak in the face of an otherwise strong market. The market closed firm, but not active. Total sales, 183,291.

The Wool Market. Boston, Mass., Feb. 6.-[Special Telegram to THE BEE.)—The demand for wood has been good and sales for the week foot up 35,990 pounds of all kinds. Several good sized lots of territory wool have been moved on a secured basis of \$25650 for fine, 585500 for fine medium, or 55c for medium. Texas wools have been duil, with small sales, spring medium selling at 2e and fall at 2k. Orezon wool is quiet at 1722ic. Quite good sales of fall Californias have been made at 2)@22c for best and 15c for defectives. In spring California, there have been small sales at 18202c. Pulled wools are active and sell at 40%45c for the best super, 30@3c for fair to good super and 22@30c for extra. Ohio and Fennsylvania have been quiet at 10% 2c for X and 35%34c for XX. Michizan X fleeces are slow at 25%30c. Unwashed combing wool has sold freely at 27%20c for one-quarter and 25%30c for three-eights. Washed co.abing and delaines have been farm and quiet. In Australian wools there have been large sales at 35%47%c and there has been more doing in foreign carpet wools.

Country Produc:

The warmer weather has had the very natural effect of enlarging the receipts of country produce somewhat. The market, however, was so well cleared up the day before that the increased receipts of yesterday did not have any appreciable effect upon the market and prices remain virtually the same.

Poultrix—Chickens, geese and ducks all sold at about the same range, that is at 8@3c for good stock. Turkeys went at 11@12c.

EGGS—The market held up quite well and 19c was the general price asked.

BUTTER—The best of the country rolls were selected by the local trade at 16@15c and the fair to good grades went at 13@14c. STOCKERS AND FREDERS 1 7.0 270 11 788 280 26 732 300 15 899 300 45.. STAGS. 1. 1320 3 50
