terday consisted of ten cars of tin plate from Wales, seven cars for the Cudahy packing company, two for Rector & Wilhelmy and one for the Lee, Clarke, Andreesen company.

They Giv . Their Ressons. Below are given ten reasons why Chamber-lain's Cough Remedy is the best:

1. It will cure a severe cold in less time than

ny other treatment.
2. It does not suppress a cough or cold; but loosens and relieves it.
3. It relieves the lungs, which is of great

importance in treating a cold.

4. It is the only remedy that will cause the expulsion of mucus from the air cells of the lungs.
5. It renders the mucus less tenacious and

easier to expectorate. 6. If freely used as soon as the first symptoms appear, it will cure a severe cold in a

7. It will prevet croup and avert all danger and anxiety arising from that dreaded disease.

disease.

8. It has cured thousands of cases of croup, and careful inquiry fails to discover a single case in which it has ever failed.

9. It does not contain opium, chloroform, nor any other injurious substance. There is not the least danger in giving it to children.

10. Chamberlain's Cough Remedy acts in perfect harmony with nature and aids nature in relieving the lungs and freeing the system of morbid matter, accumulated by cause of the cold. 50 cents per bottle.

### An Important Change.

Madame Wallace, the well known dressmaker, will take entire charge of our custom dressmaking department on March 1. The growth of this business branch of our business has been so rapid that our present force was unable to do justice to the work demanded of it, and we feel assured that we have made a change that will be appreciated by our own as well as Madame Wallace's customers. Our parlors and work rooms occupy our entire 5th floor, nearly twelve thousand square feet. To make room for so important an establishment as Madame Wallace's, whose stock we have purchased, we shall offer our magnificent stock, added to hers, on our silk counter next Thursday morning-all Paris novelties, at less than cost to import. The combined stocks are worth

TWENTY-FIVE THOUSAND dollars (\$25,000), and will be sold at a great sacrifice-all single dress patterns and no duplicates. They will be made to order until March 1, at very low prices or the goods will be sold by itself. THE MORSE DRY GOODS CO.

### DIED AMONG STRANGERS.

J. F. Chenowith, a new-comer to this city, died suddenly of heart disease at 10:30 o'clock yesterday morning in a Chinese laundry at 1008 Harney street.

The deceased had just moved here with his family from Sioux City, Ia., and was engaged in superintending the removal of his goods from the depot to the residence at 1445 North Seventeenth street.

He entered the laundry to get some clothing that had been left there. He complained of feeling tired, and sat down, but almost immediately fell to the floor a corpse.

The coroner was notified, but he was en-gaged at the Connors' inquest at Heafey & Heafey's, and after waiting for him for over half an hour the remains were removed to Maul's undertaking rooms. The body was viewed by a coroner's jury last evening and a post mortem made to de-

termine the cause of death. The remains were removed to Lennox, Ia., the former home of the deceased, last night by the son, and the inquest will be held at 11 o'clock this morning.

The editor of the Lewis, Iowa, Independant, relates his experience for the benefit of the public, as follows: "We have advertised a great many different patent medicines but have never taken the pains to editorially "puff" one. We are going to do so now for the first time. Chamberlain & Co., Des Moines, lowa, manufacture a cough remedy which is absolutely the best thing we have ever seen. We have used it in our family for the past year, and consider it indispensable. the past year, and consider it indispensable. Its effects are almost instantaneous, and there is no use talking, it is a dead shot on a cough or cold. We don't say this for pay, but because we consider Chamberlain's Cough Remedy the best made, and we want the people to know it and use it.

### ANNOUNCEMENTS.

One of the greatest wonders, or rather enigmas, of the latter days is now on exhibition at the Eden Musee. Bill Jones is known far and wide as the human ostrich, owning to his appetite and habit of eating glass. He will munch a large chimney with as much satisfaction as a child eats an apple as much satisfaction as a child eats an apple or a tramp gets away with a beef steak. He eats all kinds of glass with evident reiish. In the Bijou theater the famous talented Rhinehart family appears. This company of beautiful girls are decidedly pop-ular in Omaha and will be royally welcomed by all. Beatrice and Goldie Rinehart are famous for their beauty, wit, grace and talent. Their singing and dancing is fine and graceful. Austin, the musical king, and Seville, the Irish comedian, are also with this company.

Mr. B. B. Young will sing the baritone part of the Sea King in "The Bride of Dunkarron," originally assigned to Mr. Thomas J. Pennell at the concert of the Apollo club Thursday evening. Mr. Young comes on from Chicago for the occasion, and while he takes the part at short notice, nis well known ability warrants the expectation that he will make a success of the heavy part. The reserved seat sale now open at Max Meyer & Bro.'s music store is already very large.

Townsend's Promotion.

Information comes from a reliable source that the Gould policy of consolidation of forces is to be carried out in the passenger departments of the Union Pacific, Missouri Pacific and Richmond Terminal roads by the appointment of H. C. Townsend, the present general passenger agent of the Missouri Pacific, to the position of general passenger traffic manager of the three roads. This will give Mr. Townsend control of about twenty-five thousand miles of road.

This move is the first toward attaining the

purpose of separating the freight and passenger business of the Gould roads, which is generally understood to be the intention of

WILL BENEFIT THE DISTRICT. A New Plan for Changing the Grade

of Douglas Street. Property owners protesting against the appraisement on account of damages to result from the contemplated change of the Douglas street grade, sprang an entirely new proposition on the city council sitting as a board of equalization.

The charter says that appraisers for a change of grade must take into consideration the benefits to the property, and that the cost of the damages can be recovered by levying a special tax upon the property specially ben

efited.

The proposition that has been spring is to levy a special tax for these benefits upon all the property in the district. The property owners who are protesting, claim that inasmuch as the charter provides for the appraisers taking into account the benefits that have practically been assumed against all property to which damages have been given, and that the city has no further right to levy a tax for benefits on any property that has received any damages.

ages.
"If this theory of those wno are protesting holds good," says the city engineer, "it will reduce the amount of taxable frontage in the district very materially, and proportionately increase the tax on the balance."

The board and city engineer decided to get the city attorney's opinion on the matter.
