More Sheep Wanted.

The receipts of mutton at the stockyards have not been equal to the demand of late, notwithstanding the active and advancing market. Yesterday a prominent buyer at the yards said that he would buy 1,000 a day if good muttons were received. It is claimed that not one of the packing houses has been able to buy as many muttons as wanted.

COLONEL O'BRIEN'S DEATH.

Colonel Morrow's Successor Does Not Live to Reach His Post.

The dispatch in another column from New York, conveying the intelligence of the death of Colonel Richard F. O'Brien, was the first intimation the officials at army headquarters had received in this matter. Sorrow and regret were expressed at the sudden taking off of a good and brave soldier.

Colonel O'Brien had recently been promoted to be colonel of the Twenty-first Infantry, to succeed Colonel Morrow, deceased. He was formerly a commander at Fort Sherman, and was a member of the staff party to which he joined his regiment at Fort Sherman, in this state. He was formerly connected with the Second regiments as a captain and was stationed at Fort Omaha in 1861.

The son of Col. O'Brien was an aide-de-camp to Major General Joseph S. Conrad of the Twenty-second infantry to fill the vacancy. Major John E. Page of the Eleventh Infantry will be advanced to the grade of lieutenant colonel of the Twenty-second and Major Brian B. Morris will be appointed major. This will promote Major Butler to be lieutenant colonel on March 9, by the retirement of Colonel Douglas of the Tenth Infantry. Lieutenant Colonel Butler will be retired ten days after his promotion.

THE SPRING POETS

Do not have the beautiful budding season to themselves. Melodious as they are they do not attract as much attention as the tell-tale symptoms that make their appearance when the blood is impure and the system is in a state of disorder. The boils and eruptions that take advantage of the season to tell their story are dumb, but eloquent. Their meaning cannot be mistaken. Spring is not by any means a beautiful season to those whose systems have been neglected until the warning comes in the shape of boils and eruptions. It is a season, however, that can be thoroughly enjoyed by those who are thoughtful enough to take time by the forelock. A bottle or two of the great tonic and blood purifier will accomplish wonders. It drives out all humors of the blood. James L. Boyle, of Atlanta, writes: "I had awful sores and pimples on my face, and after using two bottles of **S.S.S.** I was cured."

THE STAN DAIRY COCOA OF THE WORLD.

UNIQUE TEA & COFFEE—GOOD FOR THE NERVES.

The claims of cocoa as a useful article of diet are steadily winning recognition. Unlike tea and coffee, it is not only a stimulant but a nourisher; and it has the great advantage of leaving no narcotic effects. Hence it is adapted to general use. The strong may take it with pleasure, and the weak with impunity.

The aspirants are not confined to the ranks of those who have had experience in pestle matters, but several outside parties are anxious to draw the \$1,500 salary connected with the office.

Those who are desirous of filling the position of those who have had experience in pestle matters, should apply to the manager of the Standard Oil Company, 111 Dodge Street, for appointment.
