### IN THE SUPREME COURT. Only Place Where a United States Patent May Be Annulled.

STEELE CITY, Neb., March 20 .- To the Editer of THE BEE: There is a great deal of ment going on in regard to the Otee rese, vation land, which was put on the market in 1878. As I understood the law it was to be sold to actual settlers only and not to exceed 160 acres to one person, the head of a family. There were a great many claims taken by men and women both, or by a man and his minor sons, and some was taken by speculators who would stay on the land for a night and then go to the land office, prove up on the claim and get a patent for the same. I would like to have you to answer through THE BEE if a contestor would have any chance of success if the patent on the land had been obtained fraudulently. There have been a number of contests placed on file at

the land office in Lincoln.
AN OLD SUBSCRIBER. The agent at the United States land office at Lincoln says the proper time to enter a contest against a claim fraudulently obtained is before the patent to it is issued. After that time the only recourse is the supreme court of the United States, and that is an expensive luxury. A number of persons living in the vicinity of the Otoe reservation have been bilked by unscrupulous lawyers who were after a fee, and these people have been made to believe that by filing a caveat with the United States and agent at Lincoln, to the Greet that to the effect that a patent had been fraudu-lently secured, the patent could be annulled. The filing of a caveat in such a case, how-ever is a waste of time and paper, as the suprema court of the United States alone is qualified to cancel any patent after it has once been issued.]

# ANNOUNCEMENTS.

The Hanlon Brothers' greatest master-The Hanlon Brothers' greatest masterpiece in their spectacular line, which opens
for a one week's engagement at Boyd's opera
house. Monday evening and Saturday matlinee
included, is aid to excel anything before that
those famous brothers have presented in this
or any other country. It has a story of interest and it is clearly told, and with appropriate dramatic action. There are effective
climaxes and characters of interest to the
plot which will hold public attention. The
Hanlons carry with them this season 100 people in the production and three car loads of ple in the production and three car loads of wenderful scenery, besides they have the greatest living clown pantomimist with them in Mr. George Melville, who will introduce many new and nevel specialties. The sale of seats for the entire week opens tomorrow.

Lee W. Townsend, advance representative of Stuart Robson, is in the city. Mr. Robson and company will appear in the Boyd on Wednesday and Thursdry, April 1 and 2, in the following reportoire: Wednesday evening, "Is Marriage a Failure;" Thursday evening, "The Henrietta."

Mr. Harry Rich, comedian of the Patti Rosa company, stopped in Omaha yesterday enroute to his home in Toronto, Canada, where he will rest the next four weeks, joining the company in Philadelphia about April 25. Mr. Rich has been suffering from grippe and it has been found

necessary to take a rest. The sale of seats for the Omaha lodge of Elks was opened vesterday morning at the Boyd, for the benefit tomorrow evening, and by noon nearly half the house was sold, cating that the house will be crowded for the third annual benefit. The programme as arthird annual benefit. The programme as arranged by the executive committee is very strong including the Patti Rosa company in two acts, one from "Margery Daw" and one "The Imp." Mr. William Colder, the veterna actor who played in Omaha twenty-one years ago, a member of the Academy of Music stock company, will appear in the kitchen scene from "Rip Van Winkle" assisted by Miss Hatch, the loading lady of the Patti Rosa company, who will appear as Gretchen and the two Sornborne children who will appear as Henirich and Meenie. Colonel William F. Cody (Buffalo Bill) will give a fifteen minutes' talk, while several give a fifteen minutes' talk, while several professionals now appearing at the Eden Musee will be seen in specialty turns. Owing to the length of the programme the curtain will rise promptly at 8 o'clock.

Dr. Richmond Declines to Allow Dr. Gross-

NOT INTERESTED IN LYMPH.

READ AND DISCUSSED.

man to Present a Case.

Many Matters of Interest to the Medical Profession Conned Over-Using Koch's Lymph in Omaha.

Dr. Richmond of St. Joseph, president of the Missouri Valley Medical society, added largely to his reputation by an exhibition of snubbing such has not been witnessed in these parts in many a day. The performance took place at the opening of the morn-

irg session of the society yesterday. The meeting was held at the board of trade rooms, and it that been semi-officially announced that Dr. Grossman would exhibit a case of lupus which he had been treating very successfully with the celebrated Koch lymph. As this was the first case in this locality in which this remedy had been used, a great deal of interest was excited among those who heard of the matter.

About the time for the opening of the ses sion Dr. Grossman appeared on the scene of the meeting with his patient and accompanied by Dr. Galbraith. Dr. Grossman had been solicited to produce his case for the examination of the society by Drs. Gifford and Galbraith, both of whom are members of the profession is high standing, and eath usia stic members of the medical society. Dr. Gross-man is not a member of the society.

man is not a member of the society.

Dr. Galbraith approached President Richmond, after the meeting had been called to order, and asked that Dr. Grossman be given five minutes in which to present his case to the notice of the society.

The president replied very curtly that if Dr. Grossman wished to present any case he would have to wait with a far the present may

would have to wait until after the programme of papers had been concluded. "But," remonstrated Dr. Galbraith, "Dr.

Grossman is a prominent physician here. This case is one of great interest, and the society cannot afford to insuit a man of Dr. Grossman's standing."

The president was stubborn and persisted in his stand.
The business of the meeting proceeded and the president announced that the first subject to be presented was the discussion on renal casts, which had been passed over yesterday. Papers on the subject under discussion were read by Dr. L. A. Merriam, M. Heifritz Jonas, B. F. Crummer and A. B. Somers, all

The papers contained matter of interest only to the profession. When the reading of these papers had been completed Dr. Grossman, who had nervously waited in the lobby for a favorable oppor-tunity, bastened to the side of the president

and asked if he would be allowed to present his case to the notice of the society. "All clinical cases must wait until after the papers have been concluded," snapped Dr. Richmond. "We cannot reach your case until this evening, if at all. We cannot consider clinical matters now."

At that Dr. Grossman withdrewin a hurry,

accompanied by Dr. Galbraith and the pa

It was then announced that Dr. J. E. Summers, jr., had a clinical case to present, and the president gave his gracious permission to the presentation of the case.

The case was that of a little boy about

seven years of age whose right clavicle, or collar bone, had been entirely removed last September and had been replaced by a new growth of bone. The case was one of tuber-culis caries and the bone had been removed from articulation to articulation.

Dr. Summers also presented another case, that of a little girl about twelve years of age, whose right side and arm had been very se-riously burned, the tissues of the body unit-ing with those of the arm from the shoulder to a point half-way between the shoulder and elbow. The case was also complicated by a large tumor on the back near the arm. Both cases excited great interest and were closely examined by all the members of the

The next matter presented was a paper by Dr. A. F. Jonas on a case of vaginal hysterectomy, in which the entire uterus was re moved. The operation was performed suc-

cessfully and the patient recovered.

The next paper was by Dr. S. Stewart of Council Bluffs on the subject "A Neglected Phase of Sanitary Science." The speaker dwelt at some length on the progress of sanitary science and referred to the measures for tary science and referred to the measures for safety which had been thrown about man and beast by an enlightened generation. He spoke of the popular idea that great danger might exist in a glass of water and commended the progress in this matter. The same precaution should be extended to the general inspection of food. Statistics from the large government abattoirs of Berlin were cited to show that diseases of all kinds existed among the animals sinughtered for consumption, which were only detected by rigid examination.

The dauger of using impure meat, and also the great danger of using the milk of cows which are infected with tuberculosis, was dwelt on at great length. Several cases were cited in which whole families had become infected by using milk from cattle so dis-

Several other cases of disease peculiar to cattle, hogs, sheep and fowls were discussed and the danger which results from the use of meat from such diseased stock were dwelt

upon at length. The speaker said that the educated veteri narian was the one who was to solve the problem of how these evils were to be avoided, and he prophesied that a great change in this matter would be witnessed in the near future.

the near future.

The paper drew forth great applause and was listened to with close attention.

At the afternoon session the paper was discussed, a number of members taking part in the discussion.
Following this Dr. J. E. Summers read

paper on abdominal surgery which was dis-

paper on abdominal surgery which was dis-cussed briefly.

A paper on "Feeding in Acute Diseases" was then read by Dr. J. F. White of Council Bluffs, which drew forth a rather lengthy discussion. In his paper Dr. White took the stand that physicians were in the habit of feeding their patients too much. He counseled moderation in the feeding of patients and took the ground that it was better at times to allow the patient to go without food for a short time rather than to take the risk for a short time rather than to take the risk of overloading the stomach. In the discus-sion which followed nearly all of the speakers took the same ground as that taken by

At the conclusion of the discussion the committee on credentials proposed the names of Drs. Chase, Swartzlander and Parker of

of Drs. Chase, Swartzlander and Parker of Omaha for membership. They were accepted and admitted to membership.

Following this Dr. S. G. Gant of Ransas City read a paper on "Strictures of the Rectum," with a statement of a case.

There being no discussion on this paper, Dr. H. Gifford of this city read a paper on "A New Operation for Eutropium of the Eyelids," The paper was very brief and pointed, and treated of a matter pertaining perculiarly to the practice of an oculist. There was no discussion on the subject.

Following the reading of this paper Dr. Following the reading of this paper Dr. Duncau of Kansas City read a paper on

"Lupus Vulgaris."

The next order of business being miscellaneous matters, Dr. J. E. Summers, jr., introduced an amendment to the constitution providing that the annual meeting of the society be held in Council Bluffs. Under the rules this was laid over until the next annual

meeting.

After discussion of matters of a professional nature, the society adjourned.

Or. Grossman's Patient. The patient whom Dr. Grossman bad intended to present to the notice of the society was Jules Hugoliot, a blacksmith living at 1342 South Nineteenth street, in this city. He was afflicted with lupus of the pharynx extending through the lachrymal channel to the eye. It appeared that the patient had been seen by a number of Omaha physi-cians who testified as to his condition before treatment with the lymph. The disease first assumed a serious form in June last, the throat being first affected. In a short time the patient was unable to take any nourishment except bread and milk. Several physicians pronounced the disease cancer. The disease spread to the eye, which was surrounded by a raw ulcer covering the region about the eye for a distance of over an

inch from the eye itseif. A small hole also made its appearance near the inner corner of the eye, in the cheek. Treatment with the lymph was commenced about four weeks ago lymph was commenced about four weeks ago and fifty-three injections were given. The lymph was injected into the back, between the shoulder blades, and was used cautiously at first, one fiftieth of a drop only being used at a time. This amount was gradually increased until a dose of one and one-half drops of the original lymph was given. The disease succumbed to the treatment and the resident is nearly covered. The ulcertains of observed and the discretifier and the patient is nearly cured. The ulceration of the throat has disappeared and the patient announced that he is now able to eat chowchow. The ulceration about the eye has almost entirely disappeared and presents a beautiful disappeared and presents a

WANT TO CANCEL CONTRACTS. The Board of Public Works After the

Asphalt Pavers. Recent developments indicate that ere many days a large sized war cloud will pass between Charles E. Squires of the Barber asphalt company and Major Birkhauser chairman of the board of public works.

The major has given it out that he will cancel all of the 1890 paving contracts of the asphalt company, which include those for paying Lowe avenue from Hamilton to Cuming street; Grove street from Farnam to Dodge street; Thirty-first avenue from Farnam to Douglas; Twenty-fourth street from Spalding to the Belt line railway and Twenty-seventh street from St. Mary's avenue from St. Mary's avenue. me to Half Howard street.
This information has just reached the ear

of the property owners along the line of the several streets, and there is anything but a happy feeling manifested toward the chairman of the board.

These same property owners besiege the office of the chairman and demand an explanation, but meet with a smile and are fur nished with the information that as the Bar ber company has broken faith with the city contracts must be cancelled and let again

this time to parties who will do the work in the specified time.

To a reporter Major Birkhauser said: "I have decided to cancel the contracts on the streets," but why he would not say, adding, The reason will be known soon enough though I will say that this company has failed to carry out the provisions of its contract as to the time in which it agreed to do the

work."
Mr. Squires of the asphalt company is speaking of the matter said: "I have heard this story of what Mr. Birkhauser intends to de, but if he thinks he can cancel one of our 1890 contracts I think he will be convinced

that he is not in it to any great extent.
"Take Lowe avenue for instance. We stopped paying on that street because we were ordered to do so by the court. Dr. Mercer enjoined the work for the reason that the gas, sewer and water connection had not been made. That was no fault of ours as everybody knows. In the matter of the other streets. We expected to have the work completed early last fall and have the work completed early last fall and to rush matters, we put in a large stock material, called our pavers from Kansas City and Chicago and at the request of the chair man put this largegang of men to work, olny to learn that Con-Gallagher had failed to put in his curbing. We increased the capacity of our asphalt plant by putting in \$4,000 worth of new machinery, bought a large amount of pitch and tar and after working a few days

were up with the curbing gangs and then we stopped work for the season.

"All I have to say is that if the city had kept the curbers out of our way, every street we contracted for would have been com pleted last season.
"If the major thinks he can cancel these

contracts you will see a pretty fight, as that contract was for the year 1890. It was let contract was for the year 1800. that season and the work was to have been performed that season. If he attempts to set one of those contracts aside, any property owner can protest and in that event the street could be held for years. So you see he is not liable to make anything more than a

"There is one thing that I do not like. Early in the season I told the board that the curbers were getting behind with their work. and unless they harried we would overtake them. The chairwan never made an effort t keep these contractors out of our way, an as a result we overtook them, stopped work and the whole blame is placed upon my com

### CAPTAIN CAPELEY'S DEFENSE. He Introduces Bestim my to Show He Was Willing to Fight.

The Captain Catley court-martial case began at the usualibour yesterday morning. Sergeant Heasip, company C, Second infantry, was the first witness called by the

After relating the facts as to the movements of his company much the same as other witnesses had told the story the sorgeant was asked if any of the officers of company C were going to stay behind if the company went out to meet the hostiles. The sergeant said he knew of no one who was going to stay behind. Rations were being pre-pared for all the officers going into the field and Capt in Catley was numbered among

the rest.

Sergeant Heaslip said he was present on
the morning of December 30 when company
C was ordered to take up a position
in the field near the post. Captain Catley
was not with his company when the men tell
in line and marched to their position, but he arrived and took command about twenty As Captain Catley proceeded to ask questions relating to the movements of company Cat Pine Ridge the judge advocate arcse

and said to the court:
"In order to show that this line of testimony is entirely unnecessary, I will admit that company C was at Pine Ridge with the Second infantry and that Captain Catley was in command of the company and participated in all the movements of the company while at Pine Ridge."

Captain Catley asked the sergeant if he was present during the march from Rush ville to Pine Ridge The sergeant replied that he was. He saw Captain Catley during the march and heard him complaining about being very tired and sore from the effects of the march. Corporal Charles Snyder was called, but his testimony was very meagre and he was quickly excused.

Second Sergeant Richard E Haves was then ushered into the august presence of the court. The witness was at Pine Ridge on December 30. He saw Captain Catley going to breakfast that morning shortly before company C was ordered out. Captain Catley joined his company about twenty minutes after the company had

Corporal Bergath was called in. The corporal said that when company C was ordered out in skirmish line near the little church on December 29, the Indians came over the hill, dismounted and approached to within a distance of 300 yards. The Indians leveled their gons at the soldiers, but Captain Catley told the men not to fire until they had orders to do so. Captain Catley ordered his mea to lie down, but he did not lie down himself. He walked back and forth in front of the troops. Private John Mangold said he helped to get Captain Calley's personal effects ready for the field on December 30. He believed that Captain Catley was going to the front with

Private William D. Rose gave similar tes Captain Catley submitted a telegram from Captain Catley submitted a telegram from the war department at Washingtan replying to his request for a copy of the proceedings in his trial before a court-martial in 1878, and particularly for a copy of the judge advocate general's review of the case at that time. The message from Washington stated that a copy of the proceedings referred to would not be furnished until Captain Cately had first stated the reason why such Cately had first stated the reason why such papers were desired. Captain Cattey stated to the court that he wanted a copy of the judge advocate general's review of the former trial because the prosecution has lasisted upon dragging the matter into this trial. The president of the court aptain Catley if he had Captain an authenticated copy of the pro-ceedings. He replied that he had, and the court decided that the captain might bring that copy into court if he so desired.

The court then adjourned until 10 a.m. to-
