SIOUX CITY'S FIRST DEFEAT.

It Happens in the First Game They Play with Lincoln.

SECOND DAY OF THE AMERICAN SEASON.

Louisville, Boston and the Athletics Winners-Nebraska City Will Have a Team-Other Sporting News.

LINCOLN, Neb., April 9 .- [Special Telegram to THE BRE |- A large number of baseball entiredasts gathered at the ball grounds this afternoon to witness the struggle in which the Lincols and Sloux City sines met for the first time.

The Lincoln team delighted the spectators with its very heavy hitting and general all around good playing. Hart was in the box for the first five mnings and did some superb work. He was succeeded by Siebel in the sixth inning, but the change seemed unfortunate, as the home team hit Siebel hard.

Patterson's fielding for the Lincoln nine was splendid. Raymond did some excellent work on third. Cline, Burkett and Irwin made the crowd fairly wild with their hard hitting. Whenever either of these came to bat it was expected that they would send the ball into the adjoining pasture, and acy generally succeeded. The Sioux City team appeared on the dia

mond for the first time today and did excel-cellent work, notwithstanding. The playing of Genins and Earl was superb and Swartwood did some magaificent batting. The

A Russian Expedition Into Abyssinia Exciting English Jealousy-Mr. Davitt Offers an Explanation.

Loxnon, April .- [Special Cablegram to THE BER.]-A St. Petersburg dispatch says hat Russia will consider as an act of war any interference by Italy with the Russian expedition, starting in three or four days

for Abyssinia. Russia regards Emperor Menelek as the independent sovereign of an independent nation and will tolerate no ob-struction in dealing directly with him. The expedition is under command of Lieutenant Mashkoff, a very determined man of an ap-proved courage and powerful physique. He s thirty-three years of age and has served two years in the army of the Cau-casus. The second in command is a monk named Tikhou. The expedition expects to be about two months on the journey to the heasquarters of Monelek at Antoga. A substantial habita-tion will be crected there for use during the

rainy season, and excursions will be made in various directions to gather scientific facts and make inquiries as to the condition and history of the people. The expedi-tion will remain three years in the country and make an attempt to reach the great lakes from a direction not yet attempted by Europeans. It is this part of the programme that excites English jealousy, and it is feared it may lead to underhanded attempts o injure the expedition, or at least defeating ets. Consideration of the Irish Land Bill

Commenced. Losnov, April 9.-[Special Cablegram to THE BEE. |- The house of commons preented an air of liveliness this evening. There was a goodly muster of members or he benches and the galleries were well filled. All the Irish leaders with the single exception of Mr. Parnell, when the house was called to order, were in their places, an unusual scene lately on the Irish benches. Mr. Gladstone occupied his accustomed seat and presented a spruce appearance. Mr. Balfour was debonaire and smiling, apparently happy in the thought of the house having at last reached the Irish land bill. Mr. Balfour's pleasant manner was in marked contrast with the solemnity displayed by the Irish members, who were affected by their knowledge of the difference

of opinion which existed in their ranks in re gard to the measure, Mr. Parnell and his fol lowers favoring a rapid passage of the bill. Both sides were prepared to make a demon-station upon the introduction into the house of the new members for Ashton Manor and

North Silgo. During the proceedings this evening Mr. Timothy Healy assailed Messrs. Notan and Thomas W. Russell for supporting the government against the quibbling amendment offered by Mr. Healy.
