CENTRAL SCHOOL IS AGAIN CROWDED.

Removal of One Grade Proposed-Superintendent Wooley's Case-Mount & Griffin's Bill Discussed and Passed Upon.

The board of education committees got in considerable work yesterday afternoon at the board rooms.

The Wooley investigation committee met and looked over the bills for the construction of Davenport school. Mr. Wooley was present and answered a few questions. The committee is now ready to proceed with the in-

The committee appointed to investigate the condition of the Cass schoots met and talked a couple of hours. There were various opinions as to the best method f relieving the over crowded condition of the Central school and consolidating the Cass school so as to avoid employment of additional teachers in the two schools.

Superintendent James was decidedly in

favor of sending the seventh grade now in the Central school to the Cass school, where there is room to spare.

Mr. Babcock was very much opposed to this plan or any plan that contemplated dispersing the students of the lowergrades from the Central or High school. The committee will probably meet again before reporting a definite plan for the relief of the Central school

The committee on heat and ventilation met to investigate the coal bill for last month presented by Mount & Griffin, concerning which there has been some dispute as to the quality of coal delivered. The board has also charged Mount & Griffin with a bill of \$21.50 for repairs upon the steam heating pipes at the Center school, and that matter

Mr. Clifford, janitor of the Center school, was present and stated that during the month was present and stated that during the month of January one of Mount & Griffin's coal haulers went to the Center school with a load of coal while he (Cufford) was away, proceeded to break in the doors of the cellar and dumped in the load of coal. He then drove away, leaving the doors open, and when Clifford reached the building at 9 p. m. he found the steam pipes all frozen up and several of them had burst. He expended \$21.50 m. sec.

the steam pipes all frozen up and several of them had burst. He expended \$21.50 m repairing the damaged pipes.

Mr. Griffin was present and protested against paying the bill. He said that he could have had the damaged pipes repaired for \$2.50. There was one item of \$2.25 on the bill for a gallon of whisky. Mr. Griffin said he was of the opinion that the whisky was used to thaw out pipes very different from those through which the Center school received its heat. received its heat.

The coal bill was gone over and the committee was convinced that while Mount & Griffin had in several instances furnished a different quality of coal from that specified in the contract with the board, yet they had in nearly every instance supplied a better grade of coal than the contracts specified.

The committee will verset in faces of solvers. The committee will report in favor of making Mount & Griffin pay for the damaged

pipes.

The committee on buildings and property held a long session in which the plans and specifications for the Kellom school were thoroughly discussed in the presence of the architects. Several changes were suggested

#### PERKIN. PLIGHT.

He is in Imminent Danger and

Charges it to His Wife. The trial of the case of the state against Dell Perkins was commenced before Judge Estelle yesterday afternoon. Perkins is murder, his wife, Libbie Perkins, being the prosecuting witness.

The testimony introduced by the state shows that early last year Perkins and his wife separated, she going to live with her father at Twenty-fourth and Blondo streets. On November 11, while under the influence of liquor, Perkins visited the house and requested his wife to go out and buy a bucket of beer. This she refused to do, when he draw a revolve and resisting the second se frew a revolver and pointing it at his wife

"I might as well end this now as any time." Warren Riiey, who was present, grabbed the revolver, knocked Perkins down and held him until the arrival of the police, after

which he was taken to jail.

The defense shows that years ago, when Perkins was working on the railroad, he lost his right leg, for which he was paid the sum of \$1,100. He was sick for some time and expected to die. While in this condition he was married, soon after which his wife conspired with Warren Riley to get possession of his money.

Perkins, the defendant, claims that the

prosecution is a put-up job, and is instigated by Riley, who wants to marry Libbie Per-kins, the prosecuting witness. He denies the attempt to murder and says that at the time the revolver was not loaded.

The Spring, Of all seasons in the year, is the one for making radical changes in regard to health. During the winter, the system becomes to a certain extent clogged with waste, and the blood loaded with impurities, owing to lack of exercise, close confinement in poorly ventilated shops and homes, and other causes. This is the cause of the dull, slurgish, tired feeling so general at this season, and which must be overcome, or the health may be entirely broken down. Hood's Sarsaparilla has attained the greatest popularity all over the country as the favorite spring medicine. It expels the accumulation of impurities through the bowels, kidneys, liver, lungs and skin, gives to the blood the purity and quality nec-essary to good health and overcomes that tired feeling.

A Gambler's Victim Who Knew When A young man whose appearance vividiy suggested early vegetables visited police court yesterday morning and wanted a man named Elberson arrested forthwith and summarily dealt with according to law.

He alleged that Thursday night he was the owner of \$20 in cash and a gold watch valued at \$180. During gold waten valued at \$180. During the hours of darkness, when wicked men are supposed to yield themselves up to the innate cussedness of their natures, Elber-son invited him to his room and the invitation was accepted. It was the same old story and same old sequel-friendly game, sucker skinned and the dead-broke victim calling upon the officers of the law to recover

It so happened that a similar case was re ported only a few days ago, and the gamblers were arrested, but before the case was called they had refunded the money and the upshot of the matter was that the case had to be dismissed because the arrest of the matter was that the case had to be dismissed because the arrest of the same than the case had to be dismissed because the arrest of the same than the case had to be dismissed because the arrest of the same than the case had to be dismissed because the case of the same than the case had to be dismissed because the case of nissed because the prosecuting witness failed

This case was still fresh in the mind of the prosecuting attorney when the youth with the job lot of sorrowful experience asked him to draw up a complaint against Mr. Elberson.
"All right, Mr. Fish," was the reply,
"we'll get Mr. Elberson, but will have to hold you for a witness."

That was a new one on the victim and he concluded that he didn't want to prosecute. For fear that the officers would insist on his being an unwilling witness he made a break for the door, without leaving his name or ad-dress. He didn't even cast a glance behind him, and in all probability is running yet.

The officers will not interfere hereafter to recover money lest in this manner unless the victim desires to prosecute and will guarantee is appearance when the case is called for trial.

## ADVANTAGES

It would not pay the tailor to make up poor material; therefore, in buying misfits you are always certain to get cloth that will give good satisfaction and long service. Then the tailor takes far more care with his work than is bestowed upon factory work, where the idea is to slight the garment as much as possible in order to turn out work cheap. Another great advantage is that, among our five misfits, you will find the half and quarter sizes, and really better fitting goods than can jound in establishments that deal in ready made clothing. Then by buying misfits you are really putting in your pocket what the tailor looses, for you get as good as the tailor would make you for just about half what the tailor would charge.
