

DAD CLARKE DID THE WORK.

Admirably Assisted, the Old Man Beautifully Trounced the Milwaukee Outfit.

STORY OF AN INTERESTING CONTEST.

St. Paul of Kansas City and Minneapolis of Lincoln.

Omaha, 4; Milwaukee, 2. St. Paul, 6; Denver, 5. Minneapolis, 8; Lincoln, 7. St. Paul, 10; Kansas City, 7.

Shannon's Lambs took after that Wisconsin hoodoo yesterday afternoon and chased him into his hole. May the good Lord keep him there.

It was a perfect day for ball playing. The atmosphere was just right, and a gray curtain tempered the rays of the sun just enough to make the light all right.

And maybe the Omahas don't play ball. Ask any one of the thousand cranks who saw them, and they will express the whole story in the monosyllabic: "Great."

Probably many means will want and want such another brilliant contest is seen at McCormick park.

The old chestnut, "sharper sharp and deceiver," chronicles the character of the event. Dad Clarke was in the box for the Lambs, and on my oh me how that boy did shout and curl 'em over the plate.

At no stage of the play were the Brewers enabled to do business with him. He was simply invulnerable.

In nine lively innings they were allowed only one solitary little hit, a semi-scratch in the last inning by that prince of gentlemen felloes and great ball players, Abner Dalrymple.

Dad just toyed with them as an cat does with a mouse, and the ovation he received from his hosts of friends was worth hundreds of dollars to him.

The score was 4 to 1, with Omaha on top, and of course everybody was happy.

The Brewers were on hand as large as life, but some how they got lost in the shuffle. When they were engaged in chasing two-sackers, singles and other curious things over the victory, the game was being bunched.

But it was no use. The hand of the old man was upon them, and when the game closed but one of the graybacks had straddled the circuit and he wasn't to blame for that.

BUSINESS OUTLOOK ENCOURAGING. Less Pressure in the Money Market—Crop Prospects Good—Increase in Futures the Past Week.

NEW YORK, April 16.—(Special Telegram to THE BEE.)—R. G. Dun & Co.'s weekly review of trade says: With better weather there is a visible improvement in trade and collections, and while it is but slight as yet, the outlook for the future is generally regarded as encouraging.

THE FUTURE OF THE CROP. There is less monetary pressure at points where some stringency has existed, and in the chief industries there is some improvement in the demand. Although the volume of trade continues nearly as large in aggregate value as it was a year ago, some decrease in the quantities of important products being balanced by an advance in the level of prices, which was nearly 15 per cent higher than a year ago April 1, and is still more than 13 per cent higher.

THE FUTURE OF THE CROP. The iron trade shows a greater stringency than any other. There is some demand for finished products, especially for structural iron and rails. The automotive coal trade still drags. The consumption of copper is slow, and tin is a quarter weak, with lead dull.

THE FUTURE OF THE CROP. The speculative market there has been a general advance in breadstuffs, hogs and wool, a decline in oil, and no change in cotton and sugar. A large export demand and reports of scarcity abroad, have lifted wheat 24 cents to \$1.07, with sales of 40,000 bushels here. Oats have risen 2 1/2 cents to 60 1/2 cents, and corn 3 1/2 cents to 29 1/2 cents on small sales.

THE FUTURE OF THE CROP. The actual security of corn and oats makes an advance price but of good iron a slight advance in the market. The price of lumber and flour are improving. Business is dull at Kansas City and Memphis, but improved at New Orleans. Eighteen ballots have been taken in caucus with result: In the speculative market there has been a general advance in breadstuffs, hogs and wool, a decline in oil, and no change in cotton and sugar.

THE FUTURE OF THE CROP. Iron and its products and the range of manufactured products are generally rather lower, notwithstanding the fact that more than \$80,000,000 in the circulation during the year. The treasury has again paid out this week more money than it has taken in. The exports of merchandise are increasing and for two weeks at New York exceed last year's by 18 per cent. In March the exports of New York were \$100,000,000, cattle and petroleum from all the chief ports were in value \$24,400,037, against \$22,766,392 last year, indicating no increase in the aggregate of exports, while the heavy imports of sugar raised the aggregate about \$5,400,000 at New York alone above that of the same month last year. Probably the imports begin to exceed the exports in that month and an outward movement of merchandise may be expected until the new crop comes in.

THE FUTURE OF THE CROP. The business failures occurring throughout the country during the last seven days number 23, as compared with a total of 34 last week. For the corresponding week of last year the figures were 214.

THE FUTURE OF THE CROP. Los Angeles, Cal., April 17.—An investigation into the Kaweah colony, started on the Bellamian place some years ago and reported to own 5,000 acres of timber and grazing land, shows that no property is held by the colony. The Evening Express here says thousands of people who were duped by glaring advertisements have lost all they have and much suffering has been experienced among them.

THE FUTURE OF THE CROP. Business Troubles. BOSTON, Mass., April 17.—Francis Hayward, dealer in rubber goods, has failed. His debts amount to \$70,000.

THE FUTURE OF THE CROP. New York, April 17.—The failure of J. M. Shaw & Co. of New York and Chicago has been announced on the exchange. The firm has been mainly interested in grain.

THE FUTURE OF THE CROP. A Bohemian Humbug. LOS ANGELES, Cal., April 17.—An investigation into the Kaweah colony, started on the Bellamian place some years ago and reported to own 5,000 acres of timber and grazing land, shows that no property is held by the colony.
