THE AFTER EFFECTS.

Where the Fearful Danger of Grip Lies and How to Counteract it.

Here is something which one of the most prominent doctors in America recently said about the grip:

"Have you noticed that only those persons who where aged and feeble or debilitated died of the grip? The Grip itself is not so serious or dangerous, but it is the terribly weakened condition that it leaves one in and the fearful after effects which it brings. The people who die do not have vitality enough to recover; they do not possess vigor enough to throw off the after effects. Such people, in fact all people, should have help in some sensible way to throw off the depressing, the debilitating, the almost suicidal feelings which the Grip always causes. Nothing will do this, nothing will help nature except some pure stimulant and there is nothing in the way of stimulants equal to pure whiskey."

No medicinal stimulant ever has produced the results, ever has received the endorsements or ever has been so popular as Duffy's Pure Malt Whiskey. The reason is exceedingly simple. It is because it has gently, healthily and completely assisted Nature, toned it up, enabled it to resist the outside influences which tended to disease and to assist toward the attractive path which leads to health. The after effects of the Grip are the worst feature of it. They must be counteracted if strength and health are to be regained. They can be overcome in but one certain way and that is by the use of the sensible, efficient and highly endorsed stimulant above mentioned. There is nothing before the public which can for a moment compare with it and the genuine should be insisted upon.
