At this season when so many contemlate European or other tours, a word in reference to providing the necessary funds may save much delay and trouble

the growing and marketing of this fruit thas come to be a very important indus-try, giving employment to many thou-sands of people. The popular appetite has become so strong for the luscious fruit that strawberries, like lemons, are to be found on the market level the Inforeign countries. If the traveler carries actual money he runs an undue risk of losing it by thoft or accident. If he carries drafts he has not the freedom to draw in each place and country just the amount he place and country just the amount he needs there, but is bound to col-lect their full amount in the particular to be found on the market almost the whole year round. In December California sent her berries here to delight the eye and tickle places drawn upon, which will be especially aggravating if he changes his place of travel. To obviate all this the Omaha National bank is prepared the palate of the epicure and it was not many weeks later when Georgia and Florida berries found their way to Omaha. Then came the Louisiana and Texas crop and we are now getting Tennessee and Arkansas berries. A lit-tle later will come southern Missouri fruit, but the finest of all strawberries are those grown in St Louis county to issue circular letters of credit available in all parts of the world. By means of these letters of credit just the amount the traveler requires can be obtained anywhere in the currency of the country are those grown in St. Louis county, Missiouri, which will be on the market until the amount of the letter is ex-hausted. These letters serve at once to introduce the tourist to ar eminently respectable bank in whatsoever city he

may visit to whom he may turn for counsel or friendly advice in case he finds himself involved in any difficulty.

ANOTHER SYSTEM. The Omaha National bank is also an agent for the Cheque bank of London cheques. These cheques are sold singly or in books. They can be filled out by the holder the same as the ordinary cheque. The cheques are cashed by the principal banks and most of the steamship lines and hotels receive them in payment of passage, freight or ho-tel bills. Travelers purchasing cheques are supplied with special letters of identification. The security is the best in the world for the reason that the bank's capital and guarantee fund are invested in British government securi-ties, and securities of an unquestionable character. They have the highest indorsement of leading banks and all who have used them. For full information regarding the cheque system and for letters of credit travelers are referred to the Omaha National bank.

In the Courts.

The courts were in session yesterday mornng, and devoted a greater portion of the time to hearing motions. Judge Wakeley handed down a decision in the case of the Bank of Commerce against the Omaha banking company. The action was brought for the purpose of holding the tockholders of the defunct bank liable for the amount of stock subscribed. To this the defendants filed a demurrer. The court held that the action now stands not as an action

of law and equity, but as an action at law. The demurrer was sustained. In the case of Johnson against Van Closter, the petition of intervention was allowed, and the case will now be heard upon the proofs.

Scott was not the man to be balked by such triffes and so commenced to look around for means to raise the wind. A suit of clothes belonging to Phelps, a South Omaha commision man, caught his eye and he appropriated
