THE SPECULATIVE MARKETS.

General Tendency of Prices Upward on the Chicago Board of Trade.

LOCAL AND FOREIGN BULL NEWS PLENTY

Live Stock Values Quoted Slightly Lower-Range of Leading Grain Futures-On Wall Street -Mining Shares.

CHICAGO, May 21.—There was heavy trading in wheat today and many round lots change: hands. Before the opening the bears anticipated lower prices as the result of the continued rains in the wheat beit and the lower foreign market, but the sentiment of the trade was against them almost from the outset and though they succeeded in engineering two or three breaks during the course of the session the general tendency of prices was upward and the close was firm at the top figures of the day. The items of news which favored the bulls were reports that an area of low temperature was spreading over the northwestern wheat belt, accompanied some places, and a notification by the government signal service that severe frosts might be expected in and Wisconson tonight. Added to this was wheat at St. Louis for export to France; that exports from the semboard were free: runners that heavy engagements of room for salpment were being quietly negotiated here; and that rust had appeared in the growing wheat at some points. Moreover, the Cincinnati Price Current noted a lower average condition as the result of the recent drouth, and the As sociated press Paris cables spoke of the critleal condition of the French crop which was estimated to be 29,000,000 bushels short, and of an attempt by French speculators to corner the market.

July, which closed at \$1.00 yesterday, opened at 99%6000ge, sold up to \$1.00%, eased off to 99%c, advanced to \$1.00%c, declined to 99%c, and rallied to \$1.00\(\frac{1}{2}\). desinted to \$2\(\frac{1}{2}\).

and rallied to \$1.00\(\frac{1}{2}\). By this time the small shorts had become thoroughly scared, and when near the close, dispatches came in reporting large engagements for prompt shipment from the seaboard and heavy charters here they rashed in to cover, and lifted the price to \$1.01\(\frac{1}{2}\). The charters here were said to be due to the break in rates. Wheat, corn and on ast soom was offered at let to Buffalo.

Corn opened weak on account of the fine growing rams in the corn belt and receipts in excess of the amount expected, but rallied with wheat and on covering by shorts. Estimates of heavy receipts for tomorrow and reports of large loading at country stations broke prices later. July opened at 55\(\frac{1}{2}\)esc. Soid down to 55\(\frac{1}{2}\)e. Up to 55\(\frac{1}{2}\)e, and off to 55\(\frac{1}{2}\)e.

The closing rally in wheat lifted it to 55\(\frac{1}{2}\)e.

The closing rally in wheat lifted it to 55\(\frac{1}{2}\)e.

Provisions had a weakening influence in the large receipts of hogs and the weakness in corn thou h the fluctuations were narrow. July pork shows a loss, compared with yesterday of 5\(\frac{1}{2}\)entire and in the state of the productions were narrow. July pirk shows a loss, compared with yesterday of 5\(\frac{1}{2}\)entire fligher.

STOCKS AND BONDS.

NEW YORK, May 21.- The temper of the stock market today was rather reactionary, but there was a lack of life in the defilings. There was a strong opening, but except in Reading there was no material improvement. capture of the business of the Coxes and other new freight contracts, which will bring the tonnage of the country up some 2,000,000 more for the ensuing year, and the approach of the time when a vote is to be taken upon the extension of the trust, made the stock attractive to buyers for the time being and a rise of 2% per cent was the result. The general list, however, suffered from the waiting attitude of those who might be buyers owing to the prevailing uncertainty of the money market. The concessions from the best prices, however, were very material in the leading stocks. St. Paul and Union Pacific yielding most readily and showing the most animation besides Reading. However, both the Lake Erie and Great Northern showed marked strength at times. The announcement that a large amount of gold would go out on Saturday gave the bears an opportunity to press the list down, and buoyaney in Reading was short lived, and special weakness was soon developed in the others because of the possible complications which may rise because of the transactions in Reading. Lackawaana dropped off about 2½ and Jersey Central about 2 per cent, while pressure upon the result of the active stocks was sufficient to cause losses which in most cases exceeded 1 per cent. Atchison, Burlington Rock Island, Union Pacific and Chicago Gas were conspicuous for their weakness under the pressure. The late trading, however, saw a partial raily when the shorts began to take their profits for the day and then closed quiet that a fractional improvement from the lowest figures.

The final losses are generally confined to fractions, but Lackawanna is down Ps. Cleveland. Columbus, Chicago & St. Louis, Ps. Louisville & Nashville, Ps. and St. Paul, I per cent. The sluggish condition of the bond market gives great encouragement to the bears at present who point to the fact that some improvement must be seen in this department before any material advance can be hoped for in the stock list. Today there was a little more animation and the total transactions were brought up to \$85,000, though there was the usual lack of marked features and a heavy tone prevailed in sympathy with the downward movement in shares. The Reading firsts, however, made a substantial gain of 2 per cent to \$25 for the same cause that bejied the stock but the rest of the list were traded in within narrow limits.

Government bonds have been dull and beaver. yielding most readily and showing the most animation besides Reading. However, both

Government bonds have been dull and heavy.

State bonds have been dull and steady.

Petroleum was devoid of feature; opened dull and remained so all day. Pennsylvania oli closed at 68%; June option closed at 68%.

New York, May 21.—The Post says: The possibility of the Bank of England making a further advance on the premium of gold is a question of only secondary importance. An advance of 14d per ounce for gold is only about 1-16 of 1 per cent on the dollar and would be equal to only a little more than 14c reduction on the pound in the rates for exchange. The only thing that will stop the exports of gold are either a decrease in demand from importers for exchange or an increase in the supply of exchange from other sources than the gold exports. The exports for discounts yesterday and still easier feeling today afford the prospect that commercial bills from this side may soon be discounted on such terms as to afford the supply of demand exchange, but the supply of commercial bills is still very small.

New York Dry Goods Market. New York Dry Goods Market.

New York, May 21.—Business in dry goods continued on the favorable besis of yesterday with jobbers more active. The demands in the hands of agents were important and contracts are daily made for future delivery. In some directions there is as yet no improvement, but the indications are that the demand will be very general in a short time.

New York Coffee Options. New York Coffee Options opened steady, unchanged to 5 points down; closed steady to 11 points down. Sales, 12,250 bags, including May, \$7.8; June, \$17.00(17.7); July, \$17.506(17.30); August, \$17.05@17.10; September, \$16.46(15.6); October, \$15.85; December, \$15.006(15.05); March, \$14.80. Spot Rio dull, but steady; fair cargoes \$20.00; No. 7, \$18.50.

Miscellaneous Markets. New York, May 21.—Petroleum—Dull and weak; crude in barrels, Parkers, \$5.65; crude in bulk, \$1.10; united closed at \$5.85 for June. Cotton Seed Oil.—Strong and quiet. Tallow—Weak; city, \$2.00 for packages. Ross—Quiet and steady. TURPENTINE—Dull; lower; 374@3c. Pig IRON—Dull.

COPPER-Quiet and steady; Lake, May. \$12.90. LEAD-Stronger in tone; domestic, \$4.32\frac{1}{2}.
Tin-Steady and quiet; straits, \$2.40.

Traders' Talk. Chicago. May 21.—Logan & Co. to Toneray & Bryan—Wheat cables came easy this morning and there was some selling orders at the opening, but these were quickly absorbed, there being good buying orders on hand and through most of the session the market ruled firm and closed at the top. Lower tempera-ture in the extreme northwest caused fears of frost and there were liberal charters here and considerable takings of wheat on the seaboard which had their effect, while California rewhich had their effect, while California reported the sale of cargoes at the highest price
yet secured on this advance. Another flood
of corn came on this market again and the
only strength was apparently berrowed from
the wheat pit. The closing was at about the
opening price, while wheat closes nearly 2c
higher. Provisions early were heavy, but
later there was fair buying, and especially for
July, and some curiosity is expressed at the
meagre carrying charges from July to September on pork.

Chicago, May 21.—W. G. McCormick & Co. to

later there was fair buying, and especially for July, and some curiosity is expressed at the meagre carrying charges from July to Sentember on pork.

Chicago, May 21.—W. G. McCormick & Co. to F. C. Swartz & Co.: Heavy rains fell tast night throughout the spring and winter wheat regions. The local scalpers started free selling at the opening, based on the rains, but soon found that the effect had been discounted yesterday and that the break met heavy buying from the outside and from our better class of local operators, both to cover shorts and for long account. Except the improvement in our own crop prospects the news has been decidedly of a builish character. Cables, aithough lower, did not show as much decline as was expected. The undertone of the market at the close was strong and it looks as if for the present the dollar mark was about the bottom of the break. Corn is very weak. The urgent cash demand so noticeable during last month seems to have fallen off entirely and receivers quote car lots as unsaleable at fair prices, most of them being sent to elevators. Receipts are increasing and an evident discouragement is beginning to show itself among the buils who have held on up to the present time. Provisions opened weak and lower. Bears took advantage of the large receipts of hogs and the lower hog market to hammer provisions at the opening, causing the unloading of many lots of outside stuff. The decline in the price of corn and the prospect of a good growing crop is rendering bears in provisions very bold. Outside trade is small and, unless it improves, we think prices will go lower.

Chicago, May 21.—Kennett, Hopkins & Co. to S. A. McWhorter: Show storms in the far west and frosty weather in the northwest didn't prevent wheat from opening weak. There were some good buying orders that railied the price about le, but it was a duil market most of the day and as soon as buying ceased the price broke back to the opening faures. Cables were fairly good, not materially ower for American wheat, considers that the

PIGS AND ROUGH.

Chicago Live Stock Market.

CHICAGO, May 21.—[Special Telegram to Till

BEE 1-Sales of cattle were at steady price.

for good to extra qualities, but there was con-

The latter are arriving in larger number than the legitimate demand will absorb, while

choice grade offerings are inadequate From \$3.40%5.50 for extra 1.450 to 1.6 0 pour.

teers prices range down as low as \$1.5 @1.7 or skeleton cows and emaclated bulls. Th

steers prices range down as low as \$1.5.62.1.75 for skeleton cows and emaclated buils. The latter are dear at any price. Canners are the only buyers for that class. Thin grass Texas cattle are also selling very low. They were fairly steady today as compared with Wednesday's prices, out within the last fifteen days they have sustained a decline of 50c 551.00 per 100 pounds. The receipts of Texas cattle during the last six days exceed 15,000 head. For so early in the season these receipts are unprecedently large. It is scarcely to be supposed that they will containe on so generous a scale and the next few days may therefore see a reaction.

There was continued weakness in the hormarket, today's trading having been done at prices averaging about 10c lower than for yesterday. Comparatively few trades were effected at better than \$4.65 and at the close \$1.60 was the extreme outside quotation. Very good heavy hogs changed owners at \$1.5075.35, and there were few sales of light sorts at over \$4.65. Fair activity was developed at reduced price, but not all of the hogs could be worked off and the market was decidedly limp at the close.

CATTLE-Receipts, El.500; shipments, 6.200

tinued weakness in poor and common grade
