Ladies' fast black silk hose \$1 pair, worth \$1.50.

Ladies' black silk hose \$1 pair, worth \$1.50.

BENNISON BROS

SYMPOSIUM OF SUMMER SPORTS

The Customary Weekly Round-Up of Baseball Intelligence.

MOVEMENTS OF THE GUNNERS.

The Bykers Budget—Within the Squared Circle—Echoes from the Turf, and Breezy Miscellany.

The Omaha team returned yesterday in good condition physically, but considerably broken up over the misfortunes of Manager Shannon. They were in high spirits before the sad intelligence of Mrs. Shannon's death reached them and were playing the greatest kind of a game. Since then they have been greatly dejected, but will not let their hands be tied by the news. They are now a most satisfactory one. They won nine games out of the fifteen played. That is pretty good and the ratio could be well well claim to the pennant. The record of the trip including all the games played by each team is as follows:

Table with columns for Club, Won, Lost, and other statistics for various teams including Omaha, Minneapolis, St. Paul, etc.

With the exception of Lincoln, it will be seen that Omaha made the best record of all the teams.

Denver's Cycle Tourney.

Arrangements are rapidly formulating for the second tournament of the Denver Cyclists' union, which is booked to come off at Sportsman's park on Saturday and Sunday, May 30 and 31. As the dates fall on Decoration day and Sunday, respectively, it is looked forward to by all the racing enthusiasts as a gala event. The wheelmen of Denver generally carry out in a praiseworthy style any undertaking which they take upon themselves, and the event of the D. C. U.'s second tournament will be no exception. The prize for pneumatic and cushion tires will undoubtedly draw many wheelmen there from the tributary towns, and the very appropriate dates for a nine or four days' excursion to the Queen City should attract many there to witness the sport alone. Every accommodation for visitors will be looked for. Accommodations are being made for a large gathering and many celebrities are expected to compete. Omaha will likely send out the boy wonder, Plicky, and Jack Prince has promised to be on hand. Pneumatics will also be seen and cushions in great variety. In order to give the solids a fair show, the pneumatic and cushion will be penalized according to their superiority. No pains will be spared to make this tournament the most successful one ever held in Colorado, and Sports Affid sends out a hearty good wish to the creditable undertaking, as well as to those who are putting forth such worthy efforts to make it such. For information regarding any detail of the meet, a postal note to either C. C. Hopkins, president, Times office, or J. A. McGuire, secretary, Sports Affid, Denver, will receive prompt attention.

The Omaha Athletic Club.

The Omaha athletic club seems to be flourishing like a green bay tree. They are to have a splendid new club house, completely equipped with gymnastic apparatus, bicycle and pedestrian track and all other appointments pertaining to such an enterprise. Judge T. J. Redick has made the club a proposition to build the club house on his lot next

to the northeast corner of Fifteenth and Harney streets. The lot is forty-four feet wide by seventy feet deep. The building is to be of brick with walls twenty feet high and the front to be of Chicago or St. Louis pressed brick.

Judge Redick stated in his proposition that he would have the building completed in sixty days, from date, and at a rental of \$1,000 per year will be charged. The club is to have entire control of the building. The proposition of Judge Redick was accepted by the following gentlemen appointed a committee to conclude arrangements and superintend the building: President George W. Ames, James McDonald, Chat Redick, Robert Wells and H. P. McCormick. The plans of the building will be completed at once and the work pushed as rapidly as possible. It is the intention of the association to have one of the finest athletic club houses in the west. Particular attention will be paid to the interior furnishings and the setting up of the gymnastic apparatus. Twenty-two new applications for membership were read and upon a favorable report of the directors were elected to full membership, making a total of eighty-five members in good standing.

A gentleman desiring to join the club should send their application to any of the following gentlemen: H. Wells, 1114 Farman street; W. H. Hetty, postoffice box 553; W. H. Cray, 305 New York Life building; H. V. Cook, 1112 Farman street; S. Roberts, 2610 Harney street; G. W. Ames, 1507 Farman street.

The Situation Growing Squally.

Already there is a cloud hovering on the horizon of the Western baseball association. This is as exasperating as it is regretful, and thoroughly demonstrates the necessities in the case. St. Paul isn't "dragging files" simply because her team is four or five games behind the leaders, and for some unaccountable reason Denver is growing weakly. What has become of that \$3,000 guarantee each club was obliged to have deposited with Treasurer Krauthoff as a surety for play out the season? It would have served a handy turn about now, but of course was only a bluff. It seems that there are no winning ball towns in this whole west, at least at the present juncture. They must all have them or fall by the wayside, and Omaha is no exception to the rule. So far the patronage here has been miserable, and with another spurt of bad luck would grow worse. Lincoln is alive simply by the grace of the Farmers' good fortune on their first trip. Sioux City is chafing, as their team is falling short of expectations, and there is an uneasy rumble in other quarters. This is all to be lamented, but where is the remedy?

The Sleepy Hollows.

The famous Sleepy Hollows have been reorganized under a much stronger management and are ready to cope with all clubs in Omaha and Nebraska. They play their first with the Nonpareils today on the Nonpareils' new grounds at 3:30. Following are the players of the Sleepy Hollow: Cullen, pitcher; McVea, catcher; Olmsted, first base; Kelley, second base; Howies, third base; Gibelow, short stop; Ahlquist, left field; Weller, center field; H. McVea, right field; Smith, substitute. King's club ought to be a ringer, as they are a very fine lot of base runners, batters and fielders.

A Break in the Staff.

The Western association has been unusually fortunate so far with her umpirical attachments. But one member has proven incompetent, and he was resigned. But the selection was a bad one to begin with. In addition to being a man of very poor judgment, Collins is an invalid, and unfit for the onerous duties and severe trials that must befall any one in his position. No failure should be made in filling his place. Give us a strong man physically and intellectually—another Knight, Gaffney or Emalie for instance, and the season will be finished peacefully and successfully.

A Team Surely Tried.

The members of the Omaha team have benefited very much by the grim visitor this season. Three weeks ago Pitcher Clarke mourned the loss of his aged father, who died suddenly at his home in Oswego, N. Y., at about the same time Jamie Donnelly and received the sad intelligence of the death of a favorite sister. On top of this comes the

news of the death of Mrs. Shannon and the season illness of Mr. Shannon. Under such circumstances a team could hardly be expected to play up to their rightful standard, and yet they have done remarkably well.

The Syracuse Races.

The Syracuse, Neb., spring races will be held June 24, 25 and 26. Following is the programme: First day, trotting, 3:00 class, closed, \$500; trotting, 2:35 class, closed, \$500; trotting, 2:30 class, closed, \$500. Second day, trotting, 2:35 class, \$500; pacing, 2:35 class, \$500; trotting, 2:40 class, \$500. Third day, trotting, 2:45 class, closed, \$500; pacing, 2:30 class, \$500; trotting, 2:50 class, \$500; pacing, 2:50 class, \$500.

Mrs. McCauley Improving.

The denial of the report of the death of Allen McCauley's wife is welcome news. She was dangerously sick, however, and her life despaired of, but is mending now. McCauley telegraphs, and the big first baseman may be here on time to play this afternoon at Lincoln.

Breakfast for the Crank.

Game called at 3:30 this afternoon. Buck Ewing is sadly missed by the Giants. The Omahas returned in the lead, anyway.

For a tied score—horse and young is the latest caper.

Kansas City has engaged a horse pitcher named Johnson. Shugart's playing has been a revelation to the Omaha fans.

Pickett's hitting for Kansas City avails much, but his fielding is poor.

Anson left St. Louis to Kansas City, and then thought he wouldn't do it. The Western association race continues the closest and hottest of them all.

Kansas City took a big drop last week and landed at the tail end of the procession.

Manager Shannon made the first home run of the season at Athletic park, Minneapolis. Carroll has joined Kansas City and young Grier will hereafter play general utility man.

Walsh had on his home run hitting clothes at Minneapolis, and got in quite a number of them.

"Runs batted in" did a peaceful death. The committee on rules massacred it in cold blood.

Samuel Larouque has been released by Pittsburgh. He is a clever ball player and original on the lines.

Umpire Collins has resigned. He was about the only one on the staff who failed to fill the bill.

Perry Werden is leading the association in batting and is one of the four who are ahead of King Kelly.

Manning is full of confidence and plays a great game. He is batting this season better than ever before.

Watkins made a big find when he secured Second Baseman Conroy. He is playing a remarkable game.

Pickett recently made the longest hit ever seen on the St. Paul grounds. The same month-end chestnut again.

Joe Halligan has been hitting safely more times than any other player in the Western association—Sporting Times.

Edward Rife is said. He says: "The Boston team is in the 2:12 class. Columbus belongs to the 2:40 selling players."

a short time when he'll be lining the ball in all directions.

Fournier is wilder than an Indian buck on the warpath. Seventeen bases on balls is a pretty decent record. And then after that to get caught stealing!

Willie Mains is Captain Kelly's winning pitcher. He has pitched but one losing game and that was against Boston. Out of six games he has won five.

In the North Pacific league on Saturday the Tacoma defeated the Seattle team 6 to 5 in twenty-two innings! It was one of the most notable games on record.

The Cuban cigar factory, 1515 Farman street, will present the first member of the Omaha team making a home run on the local grounds with a box of fine cigars.

Minneapolis clings up the top with a very much grip. It looks as if the "Millers" were under the impression that every game counts—and so it does.

O. P. Taylor is seriously ill at his home in New York. He is the manager of the duty S. Goodfriend, one of the globe-circling tourists, is editing the Sporting Times.

A week ago Elmer Smith led the Western association batsmen with a percentage of .450. There are but few of them now ahead of Haligan, Shannon, Walsh, Sutfeld and Tweekell.

Joe Walsh has had to pay more fines so far than all the other clubs put together. What does this mean? If the champions did more playing and less talking they would stay out of court.

Joe Walsh's colors as the "king" shortstop of the Western association are said to have been lowered to Shugart. But the Flour City batsmen are not so sure of it.

The weather has been too frigid to draw good crowds. The weather was better at opening time than it has been since May 1. This is tough, as the Western contingent is now invading the chilly north.

Johnnie Sowders is doing pretty good work in the box for Kansas City. He recently astonished his admirers by cracking out four hits in one game, and several of them have not yet recovered from the shock.

The Western association is having the best batting season in its history. The batting averages are so close that it is a tie-up-and-tie struggle every day.—Sporting Times.

The feature of the contests at Minneapolis has been Umpire Gaffney's work. It is a pleasure to witness games when the players do not quarrel and the umpire is fair.

"Long live the king!"—Minneapolis Tribune.

The St. Pauls and Kansas City played an exciting series of four games in the former city. St. Paul looked away with two of the games, much to Manning's chagrin. Watkins likes to bury Kansas City every time his team plays against them.

A wild and woolly Minneapolisian says: "Excuse me, please, if I grow too enthusiastic, but I consider Shuffeloffs the most valuable man on the Omaha team. How he ever got away from the league is a mystery. Old Cy plays ball all the time."

With his eye to the telescope at New York, Joe Harris makes the following correct observation: "Latham is doing some great ball playing for the Cincinnati, and has proved very conclusively that he has neither a six-eye nor a six-arm, and in fact the dude is playing great ball."

Mr. Leon Vau, says the Inter Ocean, couldn't have pitched a hot of bricks off a ladder last summer. He was so madly in love with his mustache and an unknown brand of chewing gum that baseball lost its zest. But he has freshened up a good deal since.

He is a good deal wrapped up in himself and somewhat giddy at times, but as a pitcher he is becoming quite pert.

Jerry Denny, who was for a long time regarded as the prince of third basemen, is now on the bench. The Washington club ago his release would have brought from \$5,000 to \$8,000, but when he is thrown overboard by the New Yorks, at we will surely be in the course of a few days, he will find it a difficult matter to secure a first-class position. Denny's decline is due to his intemperate habits. The Washington club is really the only one in the two leading organizations anxious to secure him.

It does not take our German cousin long to "scalp" on. The "Pride" Press says that the reason King Kelly's Toledo club didn't win a recent game was because they had

traveled all night and had sand in their eyes.

Wild Bill Winder has failed to set Perry creek on fire and the Corn Huskers will release him.

St. Joe O'Connor has had the bulk of his salary eaten up so far this spring in fines for abusing the umpire.

Billy Moran's Convicts in the Two-Eyed league are tailing the procession, and Billy has caught in every game.

The absence of Shannon and McCauley from the team was responsible for the loss of Wednesday's game at Milwaukee.

Billy Alvord, Des Moines' old third baseman, has been in a game for Cleveland the other day that were responsible for eleven runs.

Edwin F. Stevens of the Herald, and Sir Tim Murnane of the Globe, two of the best knucklers in the country, are in the land, arriving with the Boston leaguers.

Larry McKee, the delivery end of the old time famous Indianapolis battery, Keenan and McKee, has applied for a position on the Western association umpire staff.

Lincoln gave John Irwin the razzle, but Brother Arthur stored him away on the Boston grounds. He is in the land, arriving with the rest of the family on Washington in 1890.

Tip O'Neill is sick and Joe Visner is playing with the Browns. Washington released Joseph on the grave charge of being in cahoots with the green-eyed monster. Chris will get the best of any disorganizer in the land and is likely to find Visner a Moses in meekness after one debate.

Inter Ocean: Along in the game somewhere Pfeffer came to bat. He immediately objected to a shining silver buckle in Clarkson's belt. The referee looked at his eyes he said: "The bloochers laughed full loud and free, and a man in a checked shirt roared and observed, 'Make 'em take off his shoes, too!'"

Frank Hough, the famous "Man Behind the Plate," has said and he says: "If some inventive genius will only coin new expressions for 'You've got a great eye,' 'It ought to be shot to hit,' 'Get in the game,' and 'Make him put it over,' he would earn the everlasting thanks of the spectators, who have grown weary of listening to the same old words in every game."

Harry Stovey hasn't been well this spring, and commenting on an incident in the Chicago series, Leonard Washburne said: "Harry Stovey dropped his six feet up to the plate like a man with one foot in the grave.
