The Nonpareil has at last been found. Rumors that such a thing would take place soon have been circulated so often that the public long ago got into the habit of crying "cheaters" whenever the subject was mentioned. Test, and ever since that time has been devoting himself to the task of keeping the matter secret.

Pat Burns spent yesterday afternoon going about the city working the different storekeepers for articles of cost of clothing. Among others, he tackled Bert Sargent for a pair of shoes, and was fitted out in proper shape by that gentleman. This was too much for even Mr. Sargent's generosity, and he had Burns arrested on the charge of vagrancy.

A Disappointed Burglar.

M. I. Serris, who keeps an insurance office in the Everett block, made the discovery yesterday morning that some one had entered his place during the night. The lock of the door had been picked and the papers and books that lay on the desk had been scattered around the floor in a frantic endeavor to find something valuable. The nocturnal visitor was evidently some one who knew the lay of the land pretty thoroughly, for the combination to the safe door had been turned on and the door had been opened without injury. All the wooden drawers inside the safe had been torn from their moorings in the effort to get the cash drawer opened, but when at last it was opened it was found that there was not a cent in it, and the burglar must have left as empty handed as he came. The only loss is by the injury to the safe, which will amount to about \$10.

NEWS FROM COUNCIL BLUFFS.

Application for a Receiver for the Keenan Estate.

CHARGES AGAINST THE ADMINISTRATOR.

Hearing Criminal Cases in the District Court—Pleading Insanity for a Culprit—The Nonpareil Sold—Minor Mention.

Judge Deemer held an evening session of the district court for the purpose of hearing the evidence in regard to the application for a receiver for the estate of Catherine Keenan. Catherine Keenan was the wife of Felix Keenan, alias Jim Wilson, who is now an inmate of St. Bernard's insane hospital. John Scheller was appointed administrator of the estate, but Henry Wagner has conceived a notion that he is going to get cheated out of a judgment which he holds against the estate. He has therefore made application to the court for the appointment of a receiver. Wagner's main ground for the application is that Scheller is squandering the property, which consists of the California house on Lower Broadway, a dwelling on Glen avenue and some other real estate of more or less value. He was put on the stand to testify to the character of Scheller and during the pumping that followed some very nice bits of testimony were brought out. If Wagner's story is to be believed, there has been a gambling outfit over the "Office" at 346 Broadway, for several months past, in spite of the fact that the authorities believed there was not a gambling house in the business portion of the city. When asked what grounds he had for his opinion, he replied that he had heard so on the street, and, furthermore, he had a friend in Atlantic that was done up for \$800 in the house. Scheller, he claims, is interested in the gambling house referred to, and he is not willing to trust his fortune to the hands of a man who is so in pecuniary straits.

Sent to Glenwood.

Thomas Witkie, a boy fifteen years of age, was brought before the insane commissioners yesterday for an examination on the charge of insanity. His father, Fred Witkie, who lives on Williams street, said that he has never been quite right in his mind, but ever since he was a baby has been afflicted with a harmless sort of idiotcy. Of late his idiosyncrasy has taken on a more dangerous form and he does not consider it safe for him to run at large. The boy, he says, attempted to carve a neighbor's little daughter not long ago with a knife and has done other rash things. Dr. Thomas, who is in charge of the institution, recommended that the boy be sent to the institution at Glenwood.

PHILADELPHIA, June 8.—The grand jury today returned a true bill of indictment against John Bardsley, ex-city treasurer, charged with appropriating funds belonging to the city.

DeWitt's Little Early Risers; best little pills for dyspepsia, sour stomach, bad breath

Court Notes.

The trial of the state against Harry Rousch came to a sudden termination yesterday afternoon. The boy was charged with the theft of a \$80 bank check. His attorney raised the point that as his client had not been given a copy of the indictment, the court held that the check had no value and the prisoner was released.

When Baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria.

Mr. R. B. Peattie, as the second speaker, said he did not know much about booms, and would tell what he did know. He had experienced a boom as a municipal fever, and was naturally followed by a period of exhaustion. He pointed out the commercial and industrial life in certain towns which wild expectations had no possibility of fruition, and which is solely an American attribute. He was aware that a town which had a boom, and which is sometimes branded as confidence, but did not think it honest to advise were doing. They introduced the number of the boy with you, when you know that there are already 3,000 men in town who are out of work. He favored a moral boom, a boom that would result in the election of honest county commissioners, and councilmen above suspicion, and a police force not in collusion with the keepers of a gambling house.

General Butterworth was called upon and said that he was brought during Omaha's boom to invest some of his savings here and his refusal to do so had cost him a fortune. He thought there was no justification in plain lying, even if it applied to a boom of municipal fever. He thought that the boom of Omaha was not a boom when it passes the line of the legitimate. The distinguished gentleman proved himself to be a boomer because he had been and got in several good words for his adopted city of Chicago in a very interesting way.

Dr. Clarke (open throat) is a necessity, but like a pair of spirited horses, it ought to be reined in and controlled. He did not think the aim should be to extend the boom to the city, but to keep it in the city.

Mr. G. H. Hiltchcock announced himself as a believer in booms. He thought God helped those who helped themselves, and believed this applied to communities as well as to individuals. He said that the territory tributary to Omaha can only be lost by neglect, and did not think that she should go on the theory that everything comes to him who waits.

Mr. Marple said that God might help those who helped themselves, but he had noticed that the devil generally had to sign the note. He didn't want to see any more real estate speculation, but wanted to see a man who would Omaha right away. "Give the people a chance," he pathetically pleaded the speaker, "and don't make them merely thank God that they are alive."

None of the other gentlemen seemed anxious to ventilate, and the chairman sprung the early hours, and the banquet was at an end.

Another Brass Thief.

The Omaha turn Verein will give an entertainment at Germania hall Saturday evening, June 30, for the benefit of the class of turners which will go to Fremont to attend the national tournament on June 25, 26, 27 and 28, and compete for the prizes. The entertainment

Storm Lake which threw still further light on the visit and its object. The telegram, which was signed "Nelle R. Hayes Stevens," was directed to Prof. H. W. Sawyer, and it is asserted that the sender is allowed to remain at Storm Lake a few days longer, unless it was absolutely necessary that she return to her home. The wedding occurred is not known, but that it occurred is regarded as a fact, although none of the friends of the young lady had suspected that she intended making such a move up to the time she left the city. Her sudden departure has caused a large sized sensation among the school matrons.

Superior Court News.

A judgment was rendered by Judge McGee yesterday morning in the case of J. W. Squire against F. H. Hiltchcock and G. F. Wright in favor of the plaintiff for the amount of the note which was the subject of the suit, together with costs. The total is something over \$2,000. G. F. Wright at once gave notice of appeal to the supreme court and filed a supersedeas bond. A judgment was also rendered in the case of Yoder against Hoffman & Altsmanperger in favor of the plaintiff.

In the case of the Phoenix furniture company against the firm of I. A. Cragin & Co. and the Kimball-Champ investment company, the last named defendant moved for removal to the United States court, alleging that the amount involved is more than \$2,000, and that the parties are residents of different states.

C. H. Clarke filed a petition of intervention yesterday in the case of J. Sullivan against Cragin & Co., claiming that the horse and buggy which were involved upon writ of attachment to satisfy Sullivan's claim, belonged to him. He threatens to bring suit against the city marshal does not return him his property.

Italy's Big Slice.

Rome, June 8.—Advices from Hadia, Galavina and Trognano, towns in northern Italy visited by earthquakes yesterday, say that some of the inhabitants have taken to the fields for safety. The authorities have furnished a large number of tents to shelter those who have fled from their homes. The subterranean rumblings continue and occasionally slighter shocks than those of yesterday are felt. The damage yesterday is greater than at first reported. Trognano is practically destroyed, and at least three-quarters of the houses are in such condition that public safety demands that they be pulled down entirely. Large bodies of troops are watching the movements of the authorities in clearing the streets of debris, in tearing down dangerous houses and to render other assistance.

She Visited Her Old Home.

CHICAGO, June 8.—It has just been discovered that Mrs. Alice Snell McCrae, the erratic and much married daughter of the murdered millionaire, Amos, J. Snell, who eloped from New York with Douglas Green, the well known stock broker, arrived here May 29 and stopped under an assumed name at the Palmer house. After the announcement of the fact that Mrs. Green had been granted a divorce Mrs. McCrae left the Palmer and presumably went to a small town in Iowa, where she lived for some time. She returned Friday, probably to get some money she had in her own right, a part of which she is credited with infidelity to pay off the indebtedness of \$3,000 resting on Green's \$40,000 seat in the New York stock exchange. Green having squandered all his fortune.

Esmeralda Gets Coal.

PANAMA, (via Galveston), June 8.—With the permission of the government the Chilean steamer Esmeralda is receiving about four hundred tons of coal, which is being supplied by the Panama company. This fuel has been secured to enable the steamer to proceed for Arica, a maritime town of Chili. The boat's license in Chili has not as yet been recognized by this government and the local agents there were quashed in the district court today. District Attorney Stevens declared that there was not sufficient evidence against the gentlemen to maintain a suit.

Evidence Not Sufficient.

DENVER, Colo., June 8.—Ex-Senator Stevenson, Otto Meier, president of the Rio Grande Southern road, ex-State Treasurer Fred Wolson, Representative Mitchell and Jerry Frank, charging them with attempting to bribe certain members of the last general assembly, were quashed in the district court today. District Attorney Stevens declared that there was not sufficient evidence against the gentlemen to maintain a suit.
