

TRAINING TO DEFEAT SHERMAN.

Plans of the Independents to Retire the Ohio Senator.

THEY WILL MAKE A THOROUGH CANVASS.

Chicago Will Try an Experiment with Electric Cars Operated by Underground Wires—New Enterprises in Prospect.

CHICAGO OFFICE OF THE BEE, CHICAGO, June 8.

An organized effort is to be made by the new people's party in Ohio to defeat John Sherman for re-election to the United States senate. This will be the leading fight of the party during the present year. Pursuant to this determination it is intended to place a ticket in nomination in each county and every senatorial district, in addition to the state ticket to be named at Springfield in August. Preliminary to this work there will be held at Columbus Friday next a meeting for conference of fifty or more of the leaders of the movement in the state, whereat the rate of appointment for delegates to the Springfield convention will be fixed and other matters of interest to the party will be considered. A systematic canvass of the state is to be made by such leading lights of the party as Senator Peffer and Congressman Simpson of Kansas, General James B. Weaver of Iowa, Colonel Davis of Texas, Messrs. Taylor, Beck and Stetson of Illinois, and others to the number of more than fifty.

A NEW ELECTRIC STREET CAR SYSTEM.

Arrangements are being made for the trial of a new system of applying electric power as motive power for street railway cars on the tracks of the North Side company on Webster and Fullerton avenues. The electric wires are being strung overhead and conduits between the rails. A slot like that in the cable railways permits the placing of the car in the circuit. It is claimed that the proprietors of the patent that the tests will show their system to be wholly practicable, securing a speed equal to the cable cars, at less expense and without the danger of the overhead electric systems.

SILK INDUSTRY FOR CHICAGO.

According to Otto Schilne of the silk manufacturing firm of Robinson & Co. of Yokohama, Japan, a quantity of imported silks will be bought 30 per cent cheaper a year hence, and at the same time an important industry will be established in Chicago. Mr. Schilne says the silk industry of Japan has developed no further than the making of plain silk pieces. No dyeing or stamping is done.

"What we intend doing," said Mr. Schilne, "is sending our product to Chicago and New York, and believe it can be marketed and finished just as well as in France. This will result in a great saving, doing away with the extra duties that must be paid when the goods as finished are imported here."

NO ONE BOMBED.

As a Chicago, Milwaukee & St. Paul excursion train of six coaches, loaded with passengers, was returning from Frankland last evening the engine pulling the train jumped the track at the intersection of Ashland avenue and Bloomington road. The passengers were thrown from their seats and a panic ensued for a few moments, but as the train was running slowly no one was seriously injured.

TO PAREN AFTER PARIS.

It is stated on high authority that resident and outside capitalists have placed in the hands of a prominent real estate broker of this city an order to try to secure an entire block in the business district, the object being to erect upon it a monster structure sixteen to eighteen, and possibly more, stories in height, after the style of the Magazin de Louvre in Paris. The building will cost between \$8,000,000 and \$10,000,000, and is to be occupied by retail dealers in all kinds of goods, so that one may make all his purchases under one roof.

School Exhibits. A novel and interesting exhibition of school work has been prepared by Superintendent Munroe and his corps of teachers in the city school for parents of pupils and persons interested in the public schools. Commencing next Thursday and lasting three days and three evenings, a public exhibition will be made of the written work of all the pupils of the schools during the past school year. Room 510, street, occupied by Masson & McMillen, will be used for the display. As this is simply a means of giving parents an opportunity to become familiar with the work of their children, the exhibits will consist simply of the daily routine of the past school year. All parents of pupils and persons interested are invited to visit the room.

DAISY FINDS HER MA.

Happy Final Act in the Hudson Girl's Romance. The identity of Mrs. Hudson-Davis, the mother of Daisy Hudson, whose romantic discovery of her mother's whereabouts has been the subject of considerable press notice, has been learned, says the St. Louis Globe-Democrat. She is the wife of Charles F. Betts of this city, a well known real estate man and capitalist. It was learned that Mr. Betts went to Omaha on Friday night to claim Daisy. Moreover, it is hinted that money considerations cut a prominent figure in the case. Mr. Betts' wealth leading some possibility to these statements.

Henry Strosburg, who lives on North Tenth street, between O'Fallon street and Cass avenue, has been accused of mistreating Mrs. Hudson-Davis-Betts. Mr. Strosburg is the husband of Mrs. Betts' mother in law, who is her step-father. He was seen by a Globe-Democrat reporter and asked concerning his connection with the case. He spoke really the facts having a direct bearing on the case, but declined to go deeply into his step-father's past history. He denied having treated her in the extent of their differences being that he simply did a father's duty in advising her. He said she was inclined to be rather sociable and he only tried to restrain her. In the fall of 1874 she was married to William P. Hudson, her first husband. He did not bear of the union until two months after it took place. Later, when Hudson disappeared from his family, Mr. Strosburg supported Mrs. Hudson and her daughter, Daisy, for three years, he says. Hudson was employed in the Golden Eagle, Humphrey's and Famous clothing houses, and up to the time he fell a victim to the liquor habit. Mr. Strosburg says he was a good, square, well-meaning man and a good provider. He furnished and maintained a nice house for his family, the couple living on the west side of North street, between O'Fallon street and Cass avenue in 1874. The same year Mr. Strosburg met Hudson in front of the Everett House one evening. The latter remarking that he had registered himself and wife at the hotel and that he had "Daisy where you could not get her."

Mr. Strosburg corrected the statement that Daisy was kidnapped in the following words: "Newspaper readers are misinformed as to how Daisy left her mother's arms. I saw her parting myself. Elton—she is generally called Nellie—gave up her daughter voluntarily. It was on Sixth street, between Cass avenue and O'Fallon street, in broad daylight, in 1881. Nellie not only told Hudson to take the child, but gave him a bundle of her clothing and then ordered him to take her in sight. He placed the value at \$30,000. The property was then ordered to be sold, claiming that the assessment is unjust. The Byron asphalt company has listed \$3,000 of property.

The brewer, swears he has \$5,335 of personal property, including twenty horses. Metz, who is in the same business, could find \$8,190 of personal property, which includes thirteen horses.

The Byron road company listed \$14,500, while Herman Kountze put in \$8,000, all cash and nothing else.

A. J. Hanscom is the largest individual tax payer on personally. He is willing to be assessed with \$27,035 of goods and chattels. McCord, Brady & Co. pay on \$18,325; the McCormick harvester company on \$10,025; Paxton, Gallagher & Co. on \$20,929; D. M. Steele & Co. on \$18,120; Sloan, Johnson & Co. on \$8,550 and Linsinger, Metcalf & Co. on \$5,250.

Among the retail dealers S. P. Morse & Co. own that they own \$15,350 of property. Hayden Brothers \$14,800 and Falconer \$8,800.

The books of the country precincts show a gain in valuation, especially so in personal property.

MAIL MEN IN ARMS.

Politics Creates Trouble in the Letter Carriers' Association.

The Omaha branch of the national association of letter carriers has struck a snag and the order is about to be rescinded.

Some days ago at a regular meeting of the association held one rainy evening, there were but few members in attendance. George C. Cleffner, who is a central labor union man, as well as a mail carrier, saw a grand opportunity to swing the association into the political arena and at once, through a resolution negating the support of the letter carriers' association to the central labor union.

He was then elected a member of the letter carriers' convention that convenes in Detroit the last of this month.

The next morning the news of the meeting spread among the carriers, many of whom denounced the methods employed in the most emphatic terms. Simply in denouncing the matter did not end for fifteen of the members withdrew. There are more to follow and those who denounce the meeting as a political movement state that they will discontinue the association until it swings back into line.
