THE OMAHA DAILY BEE: MONDAY, JUNE 22, 1891.

FOREIGN FINANCIAL REVIEW. Clessation of the Gold Movement in the Bank of England. TOCK EXCHANGE INTENSELY DULL. American Railroad Securities Show a Tendency to Improve-Firm Busi-

ness on the Paris Bourse-Dull at Frankfort. LONDON, June 21 .- There was a fair de-

mand for discount during the past week at 1354701357d. The gold movement in the Bank of England ceasing, the official price of bars has been lowered to 77s 9d per ounce and American engles to 76s 4)/d. Silver advanced 136d to 45%d under the renowal of speculation for a rise. The stock exchange was intensely dull during the week, business being stagnant in every department and prices were supported. The uncasiness over the position of Murrietzs is lessening owing to the reported fresh arrangement with the trustees and executors of the company for assisting the firm. Under the rise in silver rupee paper gained 254d. In foreign securities Portuguese relapsed 2s on Paris selling; Spanish lost \mathcal{H}_{2}^{*} : Argentine national and provincial issues advanced 2: Brazilian rose I and Chilian \mathcal{H}_{2}^{*} . English railway securities were flat; the average fail of the leading stocks was 1_{2}^{*} . American railroads show a tendency to im-

prove, but the further shipment of gold dis-courages operators and adverse rumors about dividends add to the discouragement of the public. The volume of dealings, aiways small at this period of the year, is smaller than ever now. Variations for the week in prices of American railway securities inprices of American railway sectimes interested wabash preferred, 1: Mexican Central, %; Central Pacific shares, Lake Shore and Ohio & Mississippi ordinary, % each; Erie seconds, %. Decreases - Denver & Rio Grande pre-ferred, 2: Union Pacific shares, Louisville & Nashvilla %; Decrea & Rio Grande com. BERLIN, June 21 .- The bourse was inaniing the past week.

be coined for use as money, not bought as a commodity. It is a demand that silver itself shall be money and be coined in the same manner for use as money as it was for thous ands of years before Mr. Sherman omitted from the mint bill in 1883 the silver doilar. If the silver of the world and all that GRAND can be produced cannot be restored to its piace as money to supplement gold, bank-ruptcy and ruin are inevitable, unless some other kind of money can be devised to take the place of both. Let the Obio convention, representing the gold trust, take warning hat if silver cannot be remonstized gold will that if silver cannot be remonstized gold will be demonstized and paper substituted for both gold and silver. The people will not be destroyed for want of money. The gold trust, by rejecting one of the precious met-als, has taught how both may be rejected. The radicalism of the republican party of Ohlo for contraction is in danger of being met by a radicalism for inflation. The time for subterfuge and ambiguity of language is past. Platforms intended to deceive voters are insulting to the intelligence of the Amorare insulting to the intelligence of the American people,

How well we remember grandmother's attic, so fragrant with medicinal roots and herbs! Poor old soul, how precious they seemed to her! And yet, one bottle of Ayer's Sarsaparilla would do more good than her whole collection of "yarbs."

FRANKFORT. June 21 .- On the bours during the past week business was dull, but prides were steady. The final quotations in-clude the following: Italians, 92.10; Portu-gueso, 60; Spanish, 73.75 Russian, 99.20; short exchange on London, 20,38; private discount, 814.

On the Paris Bourse.

PARIS, June 21.-Business was very quiet on the bourse during the past week and showed a tendency to firmness. The week's increases included 3 per cent rentes, 5 con-times; Rio tinto, $1\frac{3}{4}f$; Suez canal, 75f, on the sustained development of traffic.

GOING FOR GOLD BUGS.

An Address to the Public from the National Silver Committee.

NEW YORK, June 20 .- The national executive silver committee which met at the Hoffman house last night was in session the most of the day today. There were present General A. J. Warner of Ohio, Chairman Francis G. Newland of Nevada, Vice Chairman L. M. Rumsey of Missouri and Lee Crandall of Washington, Hon. Edward Pierepont was unable to be present. Senators Jones and Stewart of Nevada were at the hotel and gave the committee the benefit of their advice. 'As a result of their deliberations the committee gave out this evening the following address to the public:

The national executive silver committee desires to call the attention of the country to the object lesson which is being exhibited in the desperate struggle of the great financial institutions on both sides of the Atlantic to increase the gold reserves to avoid bankroptcy and ruin, and that any increase by any one necessarily reduces the reserves of the other. Why should such a condition of things exist in a time of profound peace and abundant harvests? Why should all the great banking institutions attribute stagnation and hard times to scarcity of money while they are exerting all their power to make mone scarce by adhering to the gold standard when they admit that there is not enough gold to maintain business and credit in gold standard countries has been growing narrower as the single standard has been extended and the production of gold fallen off, while the structure of credit

has been growing proportionately iarger and more insecure, until the relation of credit to actual money, as disclosed in the Baring's failure in gold standard England, has alarmed the world and started a new scramble for gold that threatens business undertakings and stalks as a menace to every legitimate enterprise. We have been doing business, paying debts and distributing our annual products by a money standard that has been growing dearer and dearer until it is 50 per cent larger than eighteen years ago when silver was clandestinely demoralized. The people are determined that this injus-

tice shall cease, and it will cease in spite the sophistry of the gold worshippers or the cupidity of the credit holding classes. The remedy is in the restoring of bimetalism. Support the credit structure of the banks and the country by both the metals under free and unlimited coinage. Had it not been for the increased coinage of silver under the act of July, 1890, we could not have stood the drain of gold that has recently been going on with-out the precipitation of panic and the pros-tration of business. Gold and silver without limit are money by the constitution and this money loust be restored to the people. This This is the par amount issued in this country and should be made such in the elections this year. We regret that the republican state

year, we regret that the republican state convention in Chicago practically declared against the free use of silver as money when they endorsed an act of congress which treats silver as a commodity. The demand for free coinage of silver is a demand that silver shall

John McFarland of Decham was fatally shot by the accidental discharge of his gur while drawing it through a wire fence. Shaw & Kent's hardware store at Emmensburg was broken into by burglars, who se-cured \$250 in money, some silverware and other goods.

The wife of a Keokuk man led him out of a saloon by the ear and then demolished th par-room mirror and several glasses with a proom handle.

Martha and Mary Thompson aged thirtee and seven years respectively, ran away from their home in Clinton, and a dilligent search has failed to disclose their whereabouts They had started for Sunday school.

William Shinn, a Wever blacksmith, was in Fort Madison and drank considerable liquor. He started for home late at night in a road cart, fell out, his foot catching in the slats of the cart and was dragged to death. He leaves a wife and four children

A welt is being sunk on a farm west of Spencer which is something of a wonder. It is now 165 feet deep and there is a current of cold air rushing from the mouth with im-mense force. It will raise a man sitting on a board placed across the mouth of the pipe James Mabee of Greene was swindled out of \$50. He received a telegram supposed to be from his son, which said he was in Minneapolis broke and asking for \$50. The money was telegraphed immediately and since he has discovered that the son was not in Minneapolis and had not asked for any money. Mrs. R. A. Downer, of Waterloo, was arrested and jailed at Alta because she refused to take out a license to sell soap. Mrs Downer said she had sold no soap and wanted to leave town, but the mayor fined her \$15 and costs and sent her to jail. The ladies of

Alta finally raised the money and paid the woman's fine and she was liberated. Roy Long, a little four-year-old of Cres cent, was missing the other night and the whole population turned out and assisted in the search. After two bours' tramping over fields the searchers returned with no tidings of the boy. The mother was almost crazy with fear, but soon after the little fellow came out of a chicken coop near the house into which he had crawled and gone to sleep. It has been discovered that Boone's lat lection, at which it was voted to issue \$10, 000 worth of bonds to build a new schoo house, was illegal. When Boone and Boones-boro were consolidated in 1887 the respective school districts remained separate, and as the law commands that when two cities con-solidate their school districts must also be combined, the act of the Boone electors in

without effect. A Dubuque man named Hampton was ar ted at the instance of his wife for assault and battery. The husband had become er amored of another young woman and had started out to pay her a visit loaded down with fruits and other delicacies. His wife followed him and remonstrated against his action when he slapped her and kicked her into the street. Mrs. Hampton then followed the husband at a safe distance until he took refuge in the house of his new love, when she gathered a quantity of rocks and broke every vindow in the building.

The arrest of W. M. Maynes at Luverne for attempting a criminal assault upon his adopted daughter, Ada Worley, caused a sensation. The parties were brought before the county attorney and by the payment of a certain sum of money the case was sottled. The girl was taken from the Wisconsin orphan asylum four years ago. She was enerate. orphan asylum four years ago. She was engaged to be married to Henry Remington, but Maynes opposed the marriage bitterly until his arrest. Later in the day the girl and her lover were married. Maynes is a county commissioner and was a candidate mist iast fall on the alliance ticket for sheriff, but

was not in the race. While the case rests for the present, neighbors assert that the facts will be presented to the grand jury at its next meeting.

we are charging at full speed. Every carbine is slung to its owner's back; the same is to settle this. They are yelling as they come we "yi! yi! yi!" in reply. Can the wedge enter! Is the impetus strong enough to break away into the solid

wall of the living men and horses! I look along their line as the distance decreases with fearful rapidity, and I realize that the shock will be tremendous. Here it comes! Brace for it! Shut your teeth hard-grip with knees-mind you stirrups! Crash-smash-whirl--dust-your

moke wedge enters! The wedge drives The ahead over fallen horses and dismounted riders-yelling, slashing, cutting-keeping its pace. A trooper slashes at me-a horse goes down in front of mine-I feel myself failing with my horse, and then I am out of the fight for a moment.

The darkness which eashrouded things basses away after a bit, and I find my horse ying across my feet, with the saddle flap so olding them that his dead body must be lifted up to get me clear. The Juarge of the grav troopers was broken

That wedge drove right through the mass and turned to attack them in rear. Swiriing about in circles like the Vulture of War the mass o men edges away until the field around me is clear of all but dead and wounded. I've got a sabre-cut on the shoulder, and can feel the warm blood bathing my arm, but I know I could walk away if I could get my foet clear. I am working to extricate them, when I hear hoof beats behind me, and next moment a riderless horse dashes up and comes to a halt. Ah! but how the glory of battle excites a orse! See how red his nostrils-how high his head-the glare in his eves-the tail held out like a plume-the ears working and the legs dancing! He has not been hit, but he

has left his rider dead back there in the stubble-a federal captain. The horse stands pawing and snorting, when out from the whurl of death, half a milaway, breaks a chestant charger and comes galloping down upon us. There is blood on the saddle flaps drops of blood on his shiny flanks. It is not his blood, but that of the confederate major who rode him, and who

has been cut down by a stroke of the sabre. It is gray vs chestnut-federal vs confed-The newcomer is still a hundred feet away, when the gray horse rushes at him with cars laid back and mouth open, and as I watch them I forget that shells are screambullets whistling and the sabre doing ody work within sound of my voice. As the two horses come together they rear up neigh deflance at each other, and a fight be-gins -a battle within a battle. Each seems imbued with a deadly hatred for the other,

and to be determined to destroy his antag-Now they rear up and strike viciously at each other. Now they wheel as one and kick and utter

shrill screams. Now they bear off to the left-now to the right-now crash together and strike and bite

of a sudden 1 realize that they are close upon me. In their mad fury they see neither dead nor wounded-hear not the shot and shout of battle. The gray kicks a dead man aside as he backs up for a fresh effort; the somebodyn shoot one of dem; de t'other two stay dar! I guess not; dey fly away quicker'n odder fellow falls;' and, profesor, trifling as the story seems, it illustrates the arithmetic you must use in estimating the actual losses resulting from our great battles. The statements you refer to give those missng at the first roll call after the contest, which always exhibits a greatly exaggerated total, especially in the column of the miss-

ing.¹⁷ Mr. William D. Keiley, who relates this incident, says that after leaving the president Goldwin Smith and his party of friends sat beside him (Mr. Kelley) at the dinner table, and he heard one of the gentlemen inquire: "Professor, can you give me the impression President Lincoln made upon

"Yes," was the reply, "it was a very agreeable one. Such a man is quite unknown to our official circles or to those of continental nations. Indeed, I think his place in history will be unique. He has not een trained to dipiomacy or administrative been trained to diplomacy or administrative affairs, and is in all respects one of the peo-ple. But how wonderfully he is endowed and equipped for the performance of the duties of the chief, executive officer of the

United States at this time. The precision and minuteness of his information on all questions to which we referred was a sucession of surprises to me."

Murat Halstead on Wolseley.

Lord Wolseley's papers on the death of General Sherman are not worthy his lordship, if his lordship is to be taken seriously as a military and literary man. They have in them the hateful tone of British toryism during the war. There is continual exaggeration of the chances against the south, and all manner of making excuses for southern failures. General Sherman is charged with timidity because he was cautious in pushing forward into an intensely hostile country,

against a powerful army ably led, with forests and rivers and mountains that were formidable fortifications, the line of supplies of the invading army extending 400 miles through a hostile country raided by adventurous and desperate cavalry. There is the same tone about the Grant campaign in Virginia and we are informed that Sherman

sents.

was timid again when he thought Lee would shake himself free from Grant and strike southward. Why, that, of all things, was what Sherman's army hoped for. That was what Sherman was looking for when he delined to take ship at Savannah for City Point. some day the great fact will come forth that the majority of the fighting men of this country were throughout the war fav-orable to the cause of leff Davis, rather than that of Abraham Lincoln, for the southern cause had an enormously greater number of sympathizers in the north than the cause of the nation had in the south. The southern politicians runned themselves, first and last First, they threw away the advantage of a democrotic majority in both houses of con-gress. Then they, (abandoned utterly the onstitutition they professed to adore and to interpret by divine right. They also disre-garded the sentiment that clung to the old

flag. What was the uprising after the firing on Sumter! It was the tribute due the long suffering patience and homely sugarity of Abraham Lincoln. The superiority of the statesmanship of Lincoln, as opposed to that of Davis, was then exhibited. The native Kentuckian who moved to Illinois was an abler man and far wiser than the native Kentuckian who had moved to Mississippi It would have been easy for Lincoin to have so mismanaged as to divide some of the west-ern states, if Davis had abandoned his frantic adicalism, but held the north and divided he border states-this with the almost direct assistance of Mr. Davis.

An Interstate Elleam:ment. R. P. Archer, secretary of the proposed interstate encampment at Sedalia, Mo., writes: At a meeting about a month ago a numper of those who wore the blue and gray in

the war of 1801-65 and who believe it was ended fully twenty-six years ago, it was decided that it was not only feasible, but humane, liberal and sensible, to hold an interstate encampment in our city on the the 3d and 5th days (inclusive) of July next, at which thousands who were once arrayed in deadly conflict against each other, may be brought together in their declining years for

Eagle Cornice Works them without any damage and those now Manufacturers of Galvan-ized Iron Cornice. built will carry about thirty-two hundred tons or 100 cars of ore or grain, which, I was lights etc. 1110 and 1112 Dodge St. advised, was fully one-third more than the average boat has been able, heretofore, to handle.

"The principle of the new boat is to be applied to sea-going vessels, so the captain in formed me, and the canals through the lakes are being deepened with a view to the accommodation of a much larger vessel.

"It is well known to those who have been keeping watch of railway building that the Winona, Omaha & Southwestern is now within sixty or seventy-five miles of this city, building in this direction. When completed, it will give Omaha direct communi-cation with Duluth, and I want to call the attention of Omaha people to the importance of agitating the question of an air line Du-luth connection, with a view of making Omaha the principal headquarters for grain of the great western agricultural region as it is

"The building of the new boats, which I understand will run from Duluth, will cheapen transportation rates, and in connection with the line of railway it would give a transportation facilities far beyond anything we have heretofore hoped for.

"In conversation the other day with a ominent member of the Chicago board of trade, he made the remark that in order to become a grain center, Omuha must look for assistance from the railroads not interested in the long haul; in other words, he claimed that two of our leading lines of railway were not specially interested in the pronosed stor age warehouses in Omaha. I have not investigated this feature of the question but in would seem that the quickest solution of the matter would be the completion of the new lines via Duluth. It is possible that some in iuence might be brought to bear on the two tines mentioned which would result in mak-

clate the value of the new warehouse law to Nebraska. It will bring a great many buyers from all parts of the union to this city and will give to our corn which is now graded in Chicago as the best No. 2, an established grade as Omaha No. 2 in the markets of the vorid. "It means also largely increased bank de-

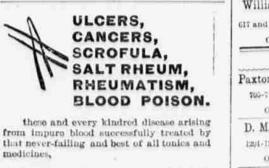

posits and an active demand for funds to handle the product, more elevators, clarks, citizens, and an increased demand for office ouildings. "In my judgment we are just entering upon

of this city and the country which it repre-
