

MUSIC AN ART, NOT A TRADE.

Union Labor Given a Pointer by the Park Commissioners.

PRONOUNCEMENT ON THE QUESTION.

Labor Organizations Will Not Be Considered Concerning the Concert - Rules of the Road Will Be Enforced.

The park commissioners met yesterday afternoon and considered several matters of importance. The first item of business considered was the report of the arbitration committee appointed to adjust the difficulty between the board and Stevens & Son, the Hanscom park pavilion contractors.

Dr. Miller presented a slight difficulty that had arisen in Hanscom park between Superintendent Adams and Sergeant Graves as guardians of the peace and a headstrong citizen who persisted in driving around the west side of the band stand in defiance of the rules during the throng of vehicles in the park.

Mr. Adams, the superintendent, was present and explained that the policeman had simply done his duty in making an arrest. The man was told not to drive around the west side of the band stand, for there was such a crush of vehicles coming down the road that he would have collided with them.

The board decided to stand by Mr. Adams in the discharge of his duty, and he was instructed to proceed in the future as in the past, firmly but respectfully, keeping the roadways open so that no unpleasant and dangerous blockade should occur in the park on Sunday afternoon.

The communication from the Central labor union requesting the board to employ only such bands as belonged to the labor union was discussed, and upon motion of Mr. Pratt the board instructed the secretary to state to the Central labor union by letter that the park commissioners will in the future, as in the past, employ whomever it sees fit, without regard to membership or non-membership in any labor or other organization.

Mr. Lininger spoke upon the resolution, saying that he thought the labor union was going clear outside of its legitimate field when it attempted to control the musical organizations of the city. He considered music one of the fine arts and the park commission believes that all the good bands of the city should have a share in the park playing. The street car company had refused to pay its share of the expense of the park concerts if the band employed were not the Musical Union band. The street car company wanted all the bands to be treated alike, and Mr. Lininger thought the company was right.

Mr. Pratt and others spoke in a like strain and the motion was carried. The Union Pacific band will play at Hanscom park next Sunday and the seventh ward band on July 5.

Mr. Lininger submitted a proposition to pay \$25 per concert at Hanscom park during the mid-week evenings, provided the Musical Union band should be employed. The proposition was referred to the committee on music.

Harry Cramer submitted a proposition to place boats in the Hanscom park lake, referred. Mr. Johnson, who has the contract for building bridges at Elwood park, reported that he had the bridge almost completed. He was allowed an estimate of \$1,000 upon the contract.
