

MORE BOMBS ARE EXPLODED.

Continued Surprises in the Hastings Insane Asylum Investigation. HORSE HIRE AND MINISTERIAL FEES. Wine Suppers Swell the Figures of the Drug Bills of the Institution—Was Zeigler Dosed to Death?

HASTINGS, Neb., June 28.—[Special to THE BEE.]—The Bee is more than ever in demand these days because of the investigation of the officials of the insane asylum at this place. Much as the people had expected, the cringing disclosures which have been made have surprised even those who had placed their confidence in the accused.

The gratification which these disclosures regarding Superintendent Test and Steward Liveringhouse and their management of the hospital has been received has been equalled only by the fear which they have aroused among their confederates. The mass of people were overjoyed when it was learned, several years ago, that the asylum had been located at this place.

Such a designation added to the importance of the city, even though the latter desired little or no pecuniary advantage in the purchase of supplies. Many of our people hold that the furnishing of the latter should not be considered a local matter. They held that the necessities of the institution should be purchased where the most reasonable prices can be obtained, because the taxpayers of the state had to stand the expense.

They also held, and still hold, that where other things being equal, Hastings merchants could supply the goods, the latter should be obtained here. The investigation, however, has shown that, so far from buying the goods required at the lowest prices, the purchases have been made in the interest of a few people here to the exclusion of a number of others who sought to secure the contracts. The explanation, therefore, which Steward Liveringhouse makes of increased cost because of a deficiency is laughed at by nearly all the disinterested merchants of this city.

WINNERS OF THE LAURELS.

Fair Hands Crown the Victors in the Contests of the Turbuzik. OMAHA ATHLETES CAPTURE THEIR SHARE. The Sun Shines on the Last Day's Sports—Chadron Conductors—Dance a Night Away—Chautauquians.

FREMONT, Neb., June 28.—[Special to THE BEE.]—The exercises of the second day of the Turbuzik were held in Turner hall and were very interesting throughout. This forenoon was devoted to a continuation of the class work, the performances being by the Omaha class. These consisted of jumping, putting the shot, wand exercises, parallel and horizontal bar work.

At 2 o'clock in the afternoon the delayed street parade took place. The procession was more than two blocks in length and was made only of the bands and active turners, all in uniform. It was a very creditable demonstration and elicited many compliments from the spectators.

Several new additions have been made to the programme and improvements are being made on all sides. A final lecture than the one given by Prof. Shelton last night would be the last of the series. The subject was "Travels in Brazil," and it handled it in a manner which filled with enthusiasm all who heard it.

The active turners were continued at Turner hall in the afternoon, the contests being individual work on the horse, horizontal and parallel bars, wand and jumping. To-night a grand ball was given at the hall, the attendance being very large and the occasion a highly enjoyable one.

NEW FRENCH PARTY FORMING.

It Will Oppose Cardinal Lavigne's Policy in Support of the Papal Legation. COMPOSITION DISTINCTLY MONARCHIST. If Prince Victor Wants Ex-Empress Eugenie's Fortune He Will Have to Improve His Moral Conduct.

PARIS, June 28.—Under prompting from Cardinal Lavigne the other leaders of the Episcopacy in France have united in opposition to the republic and a new party is forming called the Union de la France Chretienne. The organizing committee includes the principal conservative senators and deputies. The composition of the union is distinctly monarchist, but in the meantime legislative action will be limited to a demand for the alteration of ecclesiastical law effecting religious teachings and to the abolition of the military law involving a period of service for steeled novitiates.

The committee aims to embrace Protestants within the union, although the prevailing spirit is Catholic. M. Ribot, minister of foreign affairs, has obtained an assurance that the czar and his family will visit the French squadron at Constantinople on August 1st and that the czar will on his return from Siberia also visit the fleet. The French officers will be invited to a gala reception at Peterhof, while the czar will be received at St. Petersburg and another contingent be feted at Moscow.

In short, everything will be done to encourage the union, more but the czar will on his return from Siberia also visit the fleet. The French officers will be invited to a gala reception at Peterhof, while the czar will be received at St. Petersburg and another contingent be feted at Moscow.

THE CENTRAL ASSEMBLY.

A Bright Outlook for the Chautauqua at Fremont. FLEMONT, Neb., June 28.—[Special to THE BEE.]—Everything is progressing nicely at the assembly grounds. The river is falling rapidly, the grounds are in good condition and every one is happy. Visitors are constantly arriving and crowds are expected next week.

Several new additions have been made to the programme and improvements are being made on all sides. A final lecture than the one given by Prof. Shelton last night would be the last of the series. The subject was "Travels in Brazil," and it handled it in a manner which filled with enthusiasm all who heard it.

DAMAGE WAS EXAGGERATED.

Losses at Merville, Holstein and Correctionville Not Up to Reports. FLOOD FATALITIES WERE VERY FEW. Only Five Lives Known to Be Lost So Far—Work of Clearing Away the Debris Progressing Rapidly.

HOLSTEIN, Ia., June 28.—[Special Telegram to THE BEE.]—The reports of great loss throughout the flooded districts are erroneous. The only drowning occurred at Correctionville, the hindrance of the Holstein being unable to escape the fury of the flood. Two men were drowned in the Maple, but they have not been identified yet and it is not known where they were overboard.

A man named Kitterham was drowned at Kingsley yesterday while attempting to secure a household goods from being of John Stotler a fence orchard was destroyed. The loss of stock along the Holstein has been great. Especially is great damage done to bridges. Nearly every road in any direction has lost one or more bridges to the mile. The report that Holstein had been burned is totally without foundation, there having been no fire here. The first at Correctionville was started by lime slaking and firing a number of barrels was confined to the yard. Only one house was moved by the water, and that slightly, but many were badly soaked, the water destroying furniture and doing damage to buildings and merchandise in cellars.

At Merville large damage is done to merchandise and household goods from being of John Stotler a fence orchard was destroyed. The loss of stock along the Holstein has been great. THE KANSAS SENSATION.

Judge Humphrey Makes Some Indignities. TOPEKA, Kan., June 28.—[Special Telegram to THE BEE.]—The charges of conspiracy against Judge Theodosius Botkin and other Republicans in the Thirty-second judicial district to murder Colonel Sam Wood has created a sensation here. Governor Humphrey has written a letter to Attorney General Ives instructing him to investigate the case and conduct the prosecution. The letter written by Mrs. Sam Wood to the Democrat of this city charging the conspiracy is only one of numerous communications which have been prepared by A. W. Mackey, late law partner of Wood, reviewing all the proceedings which have taken place in the Wood case and attempting to show that the courts which were controlled by the republicans have always upheld the Houghton position. K. Lewis and were in possession of party papers of the state on Wednesday next.

Governor Humphrey has been waiting, today, to have a consultation with Judge Botkin, who has started from Houghton to this city. Botkin will probably arrive at Topeka on Friday night, and on Monday the attempt made to saddle the killing on Botkin and the republican party. He said today that it was the rankest kind of nonsense.

"O'Connor, the prosecuting attorney, is a democrat," said he, "and Charles E. Cook, who is his associate, is a republican. I do not think the people's party will succeed in making a hero out of Wood."

Victims of the Samoa Storm. BURLINGAME, Cal., June 28.—The bodies of the nineteen sailors who were drowned in the great storm at Samoa were buried at Burlingame yesterday with military honors. The remains of the nineteen men were taken to the cemetery, seven in one hearse and twelve on a caisson constructed of gun carriages. The escort consisted of a battalion from the United States marine corps, a company of sailors from the Independence, Commander Besson from the French frigate Bourbion, members of Farragut post No. 4, Grand Army of the Republic, Rear Admiral John Irwin and other volunteers from the United States navy, a survivor of the disaster.

The line was preceded by the Independent, which had a band of music. The entire escort was under the charge of Commander C. E. Clark, United States navy. At the graves the services were conducted by Chaplain K. Lewis and were in progress at the conclusion a parting salute was fired over the graves and the last call was sounded by the bugle.

Bound to Die. SALT LAKE, Utah, June 28.—[Special Telegram to THE BEE.]—An Indian, who was an Indian captive confined in the Utah penitentiary, committed suicide last night in a novel manner. He first drove a sharpened nail into his navel, using as a hammer a piece of wood. Next he tied a cloth around his neck so tightly as to cause strangulation. He was discovered this morning dead. Two other Indians confined in the same cell, who were ignorant of the time when the deed was committed. The inquest developed nothing and the savage was buried. The trio were fatal men for murder.

Two Fatal Mine Accidents. ASHLAND, Wis., June 28.—A miner named Miles Loomis fell down the shaft at Ryan Option, near Hesperia, and was instantly killed. Another fatal accident occurred at the Ashland mine, this Johnson, a Swede, being struck on the head by a falling timber.

Stowaway Arrivals. AT NEW YORK.—The Spain, from London; the Ethiopia, from Glasgow; the Servia, from Liverpool. Passed Broadway.—The Aurania, from New York for Liverpool. At Havre.—La Borgogna, from New York.

Blindness Revolution. PARIS, June 28.—A dispatch from Buenos Ayres says that a blindness revolution has taken place in the province of Santiago and that Senator Delatorre, the president, has been arrested and forced to sign his resignation.

Texas Hierarchy Will Guide. DALLAS, Tex., June 28.—Last night the Dallas brewing company filed a deed of trust to secure creditors. Liabilities, \$20,000; assets estimated at \$50,000.

The Copyright Law. President Harrison's long deferred proclamation giving English literary works to the American market under the international copyright law will be issued during the coming week. This is stated on the authority of an official at the executive mansion who is informed upon this facts. Under the copyright law the president was empowered to issue his proclamation whenever he was satisfied that the laws of a foreign country gave American authors copyright privileges in the foreign country reciprocal to those granted by this country to foreigners. There has been some delay in ascertaining the exact extent to which American authors were privileged in Great Britain. Prof. Brock, the eminent author, recently secured from the law officers of the crown, an opinion to the effect that the English law, which grants copyright, affords ample protection to American authors who publish their works simultaneously in
