Omaha Pounds Another Victory Out of Old Dark Days Conway.

HAT was different wasn't it!

There was no mud for the Lambs to flounder around in yesterday, and as a consequence they pulled out another handsome victory. The day was pleasant and there

was a good crowd out, still not as good as there should have been. Those who were there, however, were compensated by witnessing one of the most brilliant games that has been played here this season. Not the semblance of a misplay

marred the work of the home team. The Cowboys came up flushed with their victories of the Fourth and over-confident of their abilities to take a fall out of the Lambs. But they were disappointed, and for the fifth straight time this season.

Is it any wonder that Manager Manning is Yesterday, before the game opened, he said

that his men never were in such condition, and that he expected three out of the four and that the first was as good as his then. He never considered the fact that the best pitcher in the Western association was on hand, fully determined to "do" him again. He had already done it twice without straining the muscles of his good right arm, and he saw no reason why he shouldn't repeat the

performance.

And there was none. He quickly had them well in hand, and before the strile was half over they were ready to take to the woods.

In fact, His Ideljaglets never pitched a

finer game.
On the other hand Mr. Conway, with his laughing eyes, sunshiny face and fluffy curls, was in the pen for the Cowboys, and it was whiz, zizz, sunsh, crack, bang! from almost the very opening to the close.

The pyrotechines of the giorious Fourth

weren't a markor.
The first was a short one on both sides.
Shannon altitudinized one for big Hoover's benefit; Halligan was thrown out at first by Manning, and King Elmer took care of Old

Cy's good intentions miscarried.

Then Manning spit on his hands and invited Eddle to cut loose, and Eddle gave him his highest priced stant. Captain Jimmy met it and so did Manager Dan, and of course Papa got the first put out.
Secretary Foster then minced his way to

the plate.

He was as full of ginger as a dog is of fleas.

He looked formidable as he bent back to

to smash her, and the crowd held its breath and for a moment the suspense was trying on those with delicate nerves.

Eddie caressed the ball fondly as if he never expected to see it again. He seemed reluctant to let it go, but he did finally, and the profound silence was broken by

kane's club colliding with the resistant winds with a victous smash.

This rather deepened than disturbed the silence, however, and the air seemed full of mysterious promptings, "Swish."

That was Spokane's club again cutting its way through the July afternoon.
"It only takes one," encouragingly called Captain Jack from the bench.

Then Spokane struck out! And the crowd broke forth into one grand dispason of applause. That was like the barbarous nations studding storks and ostriches with jewels and bowing before them in worship, you say?
Not a bit of it.
The cheers weren't for Spokane—they were

The Professor's brilliant stop and throw

completed the inning.

The Deacon was the first man up in the second. He approached the plate as if loth to disturb the quiet of the dreamy Sabbath afternoon. Then for a moment he sadly watched Mr. Conway wrap his fingers about the ball. The solitude seemed so intense he fain would have lingered there and gazed. Far away was the world, with all its darkening sorrows and corroding cares, and he couldn't see why Mr. Conway would insist polluting the scene by tessing the ball over

the plate when he was there.

Twice he tried to push it away from him, but failed, but the third time was the charm. Talk about Mozart's "Twelfth Mass," the symphonies of Beethoven, Wagner, Strauss and the Troubadours—but the song of the iome run hit is the most bewitching of all.
When King Elmer fished the sphere out o the lagoon way out in the northwest pre-cinct, the Deacon was standing at the oatmeal trough, cooling his fevered brow with his moistened handkerchief.

his moistened handkerchief.

It was rude in him, wasn't it, to hit Mr.
Conway such a rap, and on Sunday, too.

Papa and the Commodore followed with
outs at first and the Professor sent one to

Again the Cowboys were unable to do anything but furnish a little exercise for the Lambs. King Elmer flied to Halligan, Danny Stearns to Manager Dan, while Jack Pickett fouled to Old Cy.

That was clever. After Walsh and Eitlejorg had been supplied with return tickets to the bench in the third, Shannon made a hit and stole second, and ran in on Jocko's two-bagger. Old Cy hit a high one back of third for which Old Hick, King Elmer and Pickett all ran, but Pickett got there first and had the felicity of making a beautiful must alone and unaided. Halligan didn't want to take advantage of Jack's misfortune, but he skated home all right, and Cyrus stopped at second.
And the crowd cheered and jeered, just

like the human family has and always will do when they catch one of its members going down hill. The noise jarred grievously in Mr. Con-

way's nerves, and to sort of even up, he soaked the Deacon in the back and gave Papa his base, and they were all full—the bases I But that's all it amounted to for despite the Commodore's laudable effort to smash the ball over the fence, he couldn't get it past King Etmer and the Cowboys came back

Again they scored a blang, as Omaha did in the fourth, but in their half of this latter inning the Cowboys pounded out four runs

and gave the crowd an awful scare. Captain Jim led off with a single, Eddie hit Spokane, Hoover added a safe one and after King Eimer had rustled his club vainly through the otherial three times, Danny Stearns hopped onto Idlejag for a homer. That was stirring work, indeed, but some-

now or other the crowd didn't seem to ap-

It makes all the difference in the world, you know, which side does the stirring.
After this cannonading Eddie let ner slip once more, and this time Colonel Pickett's wishbone was fractured. Then Old Hick forced him at second, and died there himself on an attempt to steal.

Catch anybody getting away with a base when your Uncle Cyrus is at himself.

That was four runs for Kansas City, but that was all they got in the game, while Omaha piled up seven more.

In the fifth they got three of them, again after two hands were out.

Manager Dan fouled to Wilson, and Halligan put up one for Fosfer. Then Sut hit safe, and went to third on the Deacon's two-sacker, and home on Parasi sacker, and home on Papa's safe drive, which also let the Deacon to third, Papa gaining second on the throw in. Twitchell's amash to left brought in the other two runners, and the crowd was rampant again.

Larry's effort to burgle second misfired,

and the Cowboys came in and took another ig the sixth Eiteljorg's three-cushion punch and Shannon's two-bagger netted another run; hits by Donnelly and Walsh another in the eighth, and hits by Old Cy, the

McHale Let Down in the Eighth. DULUTH, Minn., July 5 .- Five thousand people attended the formal opening of Recrea-

Up to the eighth inning the Duluth club had scored one run and blanked the Millers. In the eighth, however, McHale weakened, giving two men bases on balls, which, followed by two three-baggers by Minnehan and Darling, let in four runs

Kansas City Again Today. The Cowbovs and Omahas will have an other tussel this afternoon, on which occasion Dad Clarke and Boney Swartzel will be the opposing pitchers. That it will be a fine game reeds not the telling. The Kansas Citys are terribly sore over their repeated wallopings at Omaha's hands and will strain every nerve, every muscle, fibre and sinew to break the spell that has them enchained. They are playing in elegant form and the Lambs cannot hope to go on beating them

Unique Scheme of Bailroad Managers to Induce Confidence.

TOPEKA, Kan., July 5 .- | Special Telegram to Tax Bes. |- When it was made public that the state board of railroad assessors had reduced the assessed valuation of railroad property \$10,000,000 the most severe criticisms were aimed at the board by the people's party press and not a few charges were made that the reduction was brought about by a monetary consideration. So general have these criticisms become that the board has been forced to explain its position in the official state paper today.

The conditions have been entered into in detail and nearly twenty thousand words are used in the explanation. It is shown that during the past decade, while farm and other property valuations have been steadily decreased by assessors, railroad property has increased until last year railroad companies paid 17 per cent of the taxes of the state. Rolling stock, old and worn out, has formerly been assessed at its original cost. This year it has been put on a basis of its actual worth. Railroad managers are severely scored for swearing to a fictitious cost of property in order to make a showing to stockholders, and their practice of adding expenses for repairs to the value of property is compared to a farmer who would estimate the value of his farm by adding to the origi nal purchase price what he has paid out for interest on mortgage indebtedness. The board is composed of all elective state officers except the governor.

## "THE BEE" CLAIM BUREAU.

Pension, Indian Depredation, Land Patent and Other Claims to Be Prosecuted.

READ THE FOLLOWING CONDITIONS

All Claims Arising in Nebraska, Kansas, Iowa and South Dakota Will Be Handled by The Bee Bureau.

About thirty days ago a new departure was inaugurated by the San Francisco Examiner, now the leading paper on the Pacific coast. Its proprietor, Mr. Hearst, son of the late Senator Hearst of California, who has a very large fortune at his command, conceived the idea of establishing a bureau of claims at Washington, manned by the ablest tawyers and specialists conversant with the routine work in the various departments and bureaus of the government. The object of Mr. Hearst in this undertaking is clearly set forth in the prospectus taken from the Examiner

to be published in a later issue of THE BER When the announcement of this new de parture was made negotiations were at once entered into between THE BEE and the proprietor of the Examiner to join hands and mutually share in the enterprise. These arrangements have now been perfected and agreements entered into by which THEBEE be comes a co-worker of the Examiner in the territory where THE BEE enjoys so extensive a subscription patronage.

Under this arrangement all applications for claims, either for pensions, Indian depreda tions, land or mining claims, patent or postal claims in the states of Iowa, Kansas, South Dakota and Nebraska, will be taken in hand by THE BEE Bureau of Claims in Omaha and through it forwarded to headquarters at Washington where the Examiner bureau will prosecute them to a final and speedy con-

THE BEE takes pleasure in offering to at 1 its patrons and particularly to subscribers to THE WEEKLY BEE, the services of this new bureau which, we have no doubt, will prove of great advantage to them, both in prose cuting new claims to a successful issue and in expediting all claims entrusted to Tax BEE bureau. The Conditions.

As a condition precedent to any person availing himself of the services of the bureau The Bee will require that the applicant shall send in a subscription to THE OMAHA WEEKLY BEE for a year. A remittance of \$1 will entitle the person sending it to one year's subscription and also a membership in the Claims Bureau association composed entirely of subscribers to Tun Ban.

All persons now subscribers of The WEEKLY BEE who will send us one new subscriber will be entitled to membership in the association in their own names and the nw subscriber will also receive one certificate of membership besides his paper.

Subscribers of THE DAILY BEE who send n subscriptions to the weekly will be entitled to the same privileges as those of THE WEEKLY BEE. No service will be undertaken for any per-

son who is not an actual subscriber of THE BEE.

The Terms.

The terms under which claims will be prosecuted will depend entirely upon the amount of service rendered in each case. We can safely assure all patrons of the bureau that the energes will be very much lower than rates charged by the regular claims lawy and claims agents at Washington. It go without saying that the Examiner and THE BEE are in position conjointly to expedite business and do service at more liberal rates than any other medium for the

In he matter of fees and charges THE BER desires only to clear expenses. The bureau is intended for the relief of the people from the rapacity of legal sharks. In many cases fees allowed attorneys are irrevocably fixed by law, and in such the question is decided. In other claims such a charge will be made as seems to cover the actual expenses involved in collection

We make no effort to solicit your .. patronage, as does the ordinary agent who seeks your claim for a financial consideration. Such is not our purpose. We offer to one and all the services of a well equipped bureau, where a claim of any nature can be sent, or information in regard thereto be obtained. If your claim is worthless or illegitimate you will be so notified without fear or favor. If the claim is gennine it will receive prompt attention and efficient prosecution. If unsuccessful, no charge will be made; provided, however, that claimants must defray their own ex penses in the preparation of affidavits, depositions, and other evidence outside of Washington. We will furnish the necessary legal papers and boar the Washington expenses only in unsuccessful claims. When claims are allowed, a reasonable fee will be charged to cover actual cost.

All letters will be promptly answered and all information concerning form of applications for claims, terms, etc., will be given with as little delay as practicable. No letter will be answered upless the sender encloses requisite stamps for reply. No information concerning any particular claum will be imparted until the applicant has become a nember of The Bee Claims Bureau associa
