Lincoln, 9: Omaha, 4. Milwaukee, 9; Daluth, 4. Kansas City, 7; Denver, 3. Minneapolis, 5; Sloux City, 4.

OWE'S Farmers get in a good day's work yesterday afternoon, and in a measure made up for the short crop of the day before. At an early stage in the performance they got out their clubs, and, driving

fence corner they fairly beat the stuffin' out It was a fine crowd, too, that witnessed the annihilation of the flock, the stand being comfortably filled, while the cordon of venicles environing the outfield reminded one

very much of a big holiday. In the first inning short work was made of Omaha, Shannon, Halligan and Sutcliffe re-

tiring in order. But Lincoln was not so summarily disposed of.

Cline was very patient with the Commodore and took a walk down to first. The Professor's accurate throw to Papa sent Raymond to the bench a moment after the Monkey was squelched in an attempt to steal second.

That made the spectators happy, but they had but little time to felicitate in, for Deacon White's old running mate cracked out a single, Burkett got his base on balls and big Dave sent one out through the hay toward Halligan. Jocko protty nearly stopped it, but it took

him about two minutes to turn 'round, and while he was engaged in this laudable undertaking fack and Burkett both sprinted home, while Dave stopped on second to stuff his But I tell you it is a difficult thing for a

man to turn round sometimes. Don't it?
On Flanagan's hit Daye wheeled in the third run. Shannon made a fine catch of Roat's rifle shot, and the jig was up.
In the third the Lambs got a tally.
After Traffley had flied Brother Dave.

Manager Dan hit safe and stole second, followed with a spanking three-cushion

He was feeling a little better just then. That ended the scoring until the seventh, when Wilson got his base on balls and crossed the plate on Monk's three-sacker. And in the eighth they ran in only five

Burkett and Dave Rowe made singles, Fiannagan a three-bagger, Ehret a single and Cline a homer, and the thing was done. And every blasted one of these runs were

earned, too.
In the ninth the Lambs caught their sec ond wind, and on a single by Sutcliffe, a two-bagger by the Deacon, and singles by Mc-Cauley, Waish and Traffley, they added three runs to their score, and that was all The Farmers didn't play their last half be-

cause they didn't half to.

Nobody felt very sore over the defeat, for somehow or other it was expected, still they couldn't help but wonder why Manager Dan will insist on making a very poor pitch of one of the finest fielders in the land. Old Anse has two pitchers whom he uses

day in and day out, and he comes about as near being the Generalissimo of base ball as Omaha needs no more twirling talent as long as she possesses Eddie Eitiljorg, Dad Clarke and Norman Baker. They can do all the work required of them 'twixt this and sleep or turn a hair.

Give the pitchers a chance, and let the fielders take care of the flies and other vegetables that mostly frequent the field.

Champions Pound Out Another Victory From Denver.

KANSAS CITY, Mo., July 11,-The blues batted out a victory today. Swartzei was very effective at critical stages. The soggy condition of the grounds from last night's heavy rain rendered sharp fielding very difficult. A pretty triple play by Tebeau and Beard, and couple of running catches by Foster were the features of the game. Attendance eighteen hundred. Score:

Omaha Young Men Meet for Some

Lively Sets. A targe, brilliant and enthusiastic crowd witnessed the tennis tournament at the Young Men's Christian association courts, I wentieth and Harney streets. The scene was enlivened by the gay and breezy costumes of the ladies who, as is usual on such occasions, were in the majority. The games were called promptly at 3 o'clock. The entries were: Class A—Messrs. Wilbur, Carter, Murray, Clarke, Cookson, Osgood, Battin, Baker, Brown, Stigar and Rogers. Class B—Hinokey, Holcomb, Dickey, Denise, Stone, Young and Thomas.

In the prelimnary sets Murray won from Carter 6-4 and 6-3; Osgood from Botkin, 6-4 and 6-2; Brown from Baker, 6-love and 6-1; Regers from Stiger, 6-3. In class B. Holtumes of the ladies who, as is usual on such

Osgood and Denise won the final prelimin-ary sets and will try for the championship and prize in the finals, which will be played next Monday, Tuesday and Thursday eve In the deciding games Clark will be pitted

The referees were Messrs. Brown, Connery, Morrow, Hill and Carmichael. Mr. W. S. Sheldon, chairman of the tournament con

Messrs, Osgood and Murray put up remarkably fine staying games, but Rogers is palpably the most brilliant manipulator of the racket among the seniors. The championship of the juniors is easily conceded to belong to Larry Denise, who puts up a stronger game than many of the class A men. The winner of the senior sets secures the club champion-ship and a fine Sear's racket, the gift of Cross & Dunmire, and the junior winner gets the elegant Petit racket, presented by

REESE FOR SUPREME JUDGE. Definite Rumors That He Will Be a

Candidate for the Position. Lincoln, Neb., July 11 .- [Special to Tue BEE. |-The report 13 now current that Judge Reese is in the race for the nomination to the position for supreme judge. He was seen this afternoon and asked in regard to the matter. He smiled and remarked: "Isn't it rather early to begin agitating

such a matter!" "But is it a fact that you are or will be a candidate?" "Well, now, I don't care to say. In fact, I

gard to the matter. I have noticed a few highly complimentary notices, one of them from Justice Maxwell appeared in the Wahoo Wasp. But the judge credits me with quali-ties that I am afraid I do not possess." "Then you will not affirm or deny that you are a candidate?"
"No, I am not yet prepared to say any-

thing. This is all that the judge would say about the matter. A number of well known repubiteans were seen in regard to Reese's chances for election in case he was nominated. Nearly all were unanimous in de-claring that he would make a strong race. Captain Billingsley was the first seen. He said that Judge Reese would be a good man no matter what party nominated him.

Colonel Philpot—I believe that Reese would be elected if nominated. Some of the old line republicans might not vote for him, but he would more than make up the loss by the votes he would get from the persons of alliance tendencies,
General Leese—I have no doubt but that
nomination of Reese won!d prove the defeat

RECEIVER APPOINTED.

Cherokee Strip Live Stock Association's Effects Taken Possession Of. CALDWELL, Kan., July 11.-Charles Gambriel of Wellington was appointed receiver vesterday of the old Cherokee Strip Live Stock association on application of the Cherokee nation, which claims to be a creditor of the association for \$200,000 lease money which the association refused to pay when it was ordered to vacate by the govern ment. Mr. Gambriel took possession of the association's offices and assets in this city today. The assets consist wholly of the office fixtures and notes given in payment for grazing privileges, which notes are long past

due and practically worthless.

Captain Hill with a company of infantry has established headquarters at Pond Creek, T. He is carrying out to the letter his orders to expel all occupants of the Cherokee strip. Today numerous cowboys were ar-rested and they were started on a march to Guthrie, where they will be examined by the United States authori-ties. Some of the arrests were made with drawn weapons and trouble was averated only by the superion numbers of the troops. The trespassing cattle have been rounded up and are closely herded by the soldiers. The Cherokee nation had levied a tax upon the grazing cattle and the Indians are enraged because the government's action prevents its collection. The eattle men who have so far escaped the soldiers will attempt to drive their herds into Kansas, but they will experience trouble in passing the inspection mes, inasmuch as the cattle will come from the quarantined district.

Dumped from Their Cart. Harry and John Brodka, two boys seven and nine years old, were driving out Cuming street in a borrowed road cart about 5:30 o'clock yesterday afternoon. Near Twentyseventh street the pony got scared at a motor car and started to run, throwing the children upon the pavement. As soon as possible the crying lads were taken into the house of Mrs. Lyons, 2728 Cuming street, and cared for until the patrol

wagon arrived.

The boys were more scared than hurt, though the oldest, Harry, had several scratches on his face.

Officer Dibborn in charge of the wagon, examined the children and found that there was nothing serious the matter. They were conveyed to their home on Leavenworth street, between Fourteenth and Fifteenth, in the patrol wagon.

Liquor Brought it Out. William Rexford, a veterinary surgeon who has an office on Harney street, was arrested last night for being drunk and threatening to kill James Shephard. There is an old standing fued between the men which breaks out whenever either of them

HOW JAKE PRICE RETURNED A FAVOR.

He Drank Beer With the Woman and Then Murdered Her-The Story of a Fear-

ful Crime.

"Send the wagon quick," called Officer Vance Fields through the patrol box telephone at 10:20 o'clock last night. Sergeant Ormsby, in charge of police headquarters, quickly ordered a couple of extra men into the patrol wagon and, accompanied by a BEE reporter, the "hearse" made a run which has never been equaled in police history. Upon pulling up at the Patrol box at Sixth and Pierce streets Officer Fields said that a woman had been murdered in an alley between Pierce and Pacific and

Fifth and Sixth streets. Found a Woman Dead. The occupants of the wagon hastened to the spot and in an unused wood shed attached to a one story cottage fronting on the alley lay a handsome colored woman rigid in death. An officer at once telephoned to police headquarters for coroner and he was sent for. Sergeant Ormsby and another batch of men left at the same time for the scene of the

murder. The woman who tay there on the straw surrounded by a pointer dog and a half dozen pups was Mrs. Fannie Tate, a mulatto voman perhaps twenty-five years of age. She was dressed in an ordinary calico dress, with a black straw hat lying near her head. A criminal assault had been attempted and she had been choked to death. When the officers arrived the body was still warm, but by the time Coroner Harrigan made his an pearance a haif hour later the body was cold

Her Son's Story. Mrs. Tate was the mother of four young children and her husband is employed at 41, South Tenth street. When the husband left home at 6:30 o'clock for his work, his wife and little ones were well and happy. The oldest boy, a lad of nine years, told this

story: "Mamma and us children were sitting here on the doorstep when Jake Price came along. He stopped and pretty soon mamma sent me for some beer. They drank it, and I was sent for more. Then Price left. He had no angry words with my mother that I know of. Shorty afterward my mother put the babies to bed and left the house, saying she was going to Gertie Kelly's. The next I knew was the excitement and somebody said that my mother was dead." Here the lad broke down and burst into tears and all further efforts to gain any in-

formation from him were in vain. What Nels Turkleson Heard. Nets Turkeison, who lives in the next house, said that about 10:30 he heard a scream and a voice calling, "On, my God don't choke me."

For a moment no attention was paid to the matter. Then young Turkelson started down the alloy with a friend, and as he thought he heard meaning went into the Tate yard. In the wood-shed he found the woman lying. Hardly thinking she was dead he struck a match, saw who it was, felt heart and then ran for Officer Fields. A doctor living near was summoned, but life had left the body before he arrived. Soon a great crowd collected, and before long the husband arrived. Taking a lamp in his hand the stricken father and husband stood by the

side of his dead wife. His first utterance was, "My poor children." Then when the officers told him who was suspected of the crime, he raised his hand to heaven and swore that he would kill Sergeant Ormsby and the coroner were

next upon the scene. The coroner received the remains and gave it as his opinion that a criminal assault had been attempted. Black marks were upon the throat and the prints of finger nails were plainly discernable, while the front of the dress had been torn open. As quickly as possible the body was placed in a casket and taken to Heafey

& Heafey's undertaking rooms. Detectives Going to Work.

Sergeant Ormsby, after he had taken a ook at the body and saw the marks of violence, set to work to get a description of the man who was supposed to have committed the crime. Nels Turkleson told the officer that he saw a man answering Price's description leave the alley next to the coal house and run rapidly down the passage, when he turned onto the railroad tracks and all trace of him was lost.

Price was described as a negro about thirty years of age, five feet ten in height with a black moustache. Quite a number of officers and detectives know the man by name and

Acting Captain Ormsby telephoned to a couple of detectives and also to several trusty officers. These men sent for reported as soon as possible, and were furnished with a full description of the criminal and were told to go and get him.

Will be Lynched if Captured. Coroner Harrigan ordered a post mortem at once. Dr. Charles C. Alleson was called

and made the examination. Dr. Harrigan, who assisted, stated that the organs were all in good condition with the exception of the lungs which showed positive evidence of strangulation.

Mrs. Ira Neison, a relative of the dead woman, said that she saw the couple together early in the evening. Later on she accompanied Sergeant Whalen to South Omaha, where it was reported that Price had been caught. The man in custody answered the description, but claimed a different name. A dozen or more enraged colored men were on a still hunt for Price early this morning

IOWA'S COLD WATER LAW.

Warm Discussion of it at the Western Prohibition Conference.

CHICAGO, July 11 .- The western prohibition conference at Lake Bluff today had a warm discussion over the state of Affairs in Iowa. Prof. J. B. Cornwall of Iowa started the ball rolling by saying that the maintenance of the prohibition law in Iowa in the only way possiblenon-partisan way-is better for the prohibition cause and the party too, than separate party action. This sally was the beginning of a two hours talk. Cornwail was ably supported by several speakers and held his ground. A vote was declined by the purely party men.

Dr. J. G. Evans of Illinois thought the republican party in Iowa was not in harmony with the national republican party, and in considering lows the whole country's interest should be looked at.

Yale Johnson of Newton, Ill., believed the prohibitionists should this fall vote the republican ticket and defeat the rum element. Rev. Dr. Zimmerman of Evanston thought the Iowa republican platform splendid, hoped the prehibitionists would hold Iowa where it s and in 1893 we would vote for national prohibition

Rev. Nate of Lake Bluff wasn't sure but that the defeat of the republican party in Iowa would be a national blessing. Talking of the next national convention, Chicago thought the convention

Haaf of Chicago though, the convenient should be held early next year and such should be held early next year and such plank laid down in the platform that the farmers' alliance convention would be compelied to remove a certain plank in their platform. The conference agreed on a platform con taining prohibition; equal suffrage without reservation except ability to read and write

the English language, a conservative tariff plank, government control of railways and telegraps, abolition of national banks so far as they are banks of issue suppression of trusts, restriction of immigration, pensioning soldiersa nd sailors, and a Sabbath law.

WYOMING AND ARIZONA.

Both Show an Increase According to a Census Bulletin. Washington, July 11 .- A bulletin issued today by the census office on the population of Wyoming by mineral divisions shows an increase during the decade of 39,916, or 191.1 per cent, the population in 1880 being 20,789 and in 1890, 60,705. In all the counties of the state large increases are shown. The largest increase was in Crook county, where the in-crease was 878.24 per cont, and the smallest in Albany county, where the increase was

A bulletin was also made public on the population of Arizona, the population of which on June 1, 1890, is given as 59,620, an which on June 1, 1899, is given as 59,022, an increase during the last ten years of 19,180, or 47.53 per cent. Apache, Pima and Vuma counties show a decrease of 1,002 and 4,833 and 54 respectively. The decrease in Apache and Pima counties is due largely to a decrease in their areas made by the creation of other counties. The largest increase was in

General Miles Sends Captain Huggins to Inquire Into Alleged Abuses. CHICAGO, July 11 .-- General Miles has sent Captain E. L. Huggins, one of his aides, to the Indian agencies along the upper Missouri with the object, it is said, of inquiring into many abuses that are alleged to exist in the treatment by the Indian agents of their charges. It is hinted that the Indians have become dissatisfied with the supplies of food and clothing, furnished them. Recently reports that the Indians were becoming greatly excited and threatening to take the warpath again were received at army headquarters. Telegraphic inquiries to various agencies and army posts in the northwest elicited the information that the reports were false, but General Miles decided to remedy the diffi-culties in their incipiency, and he gave Captain Huggins instructions to make a thorough and complete inquiry and to go among the Indians and personally interview the

Assassins After Stambouloff. Soria, July 11.-Public attention has again been called to the matter of the assassination of M. Constantine Belcheff, the Bulgarian minister of finance, who was shot and killed on the evening of March 27 last, while walking in the streets of this city in company with M. Stambouloff, the Bulgarian prime minister. It was thought he was assassinated in mistake for M. Stambouloff, whom he somewhat resembled. The revival of interest in the case has been caused by the discovery that some unknown persons had inscribed on the tombstone of M. Belcheff the following words: "Forgive us; we aimed at Stam-bouloff and struck you. The second time we will not fail." Although he has had the mat-ter theroughly investigated, M. Stambouloff has failed to find the persons who were guilty of writing the threat on the tombstone.

ENGLAND AND JAPAN SEND GREETINGS.

Delegates Spend the Afternoon at Lake Minnetonka-An Address Delivered on International Fellowship.

MINNEAPOLIS, Minn., July 11.—The regular session of the Christian Endeaver convention was again late in beginning. The morning text was from the Lord's prayer, "Thy Kingdom Come," and the first thing on the programme was reports from all over the field. States, territories and provinces were called on in turn and the representatives of each gave brief reports of the past, present and future of the Endeavor movement in their respective sections.

Cablegrams of greeting were received from England and Japan and one was received from Cuba, reporting a society organized there last night with fifteen members.
After a short prayer service "Pastor's

Millions of Grasshoppers in the Eastern Part of Colorado. TOPEKA, Kan., July 11 .- A reporter of the Popeka Democrat who was sent to investigate the reports that grasshoppers were swarming in the eastern part of Colorado telegraphed his paper today that there had been no exaggeration of the facts. Grasshoppers were swarming in innumerable numbers over a section of the east-ern part of that state and are destroying every green thing above ground. They cover an area of about four hundred and fifty square miles, with Boylina as its center. Train's passing through that section are seriously delayed every night by grasshoppers who swarm upon the warn rails after the sun has gone down and the air cools off. As the engine passes over them they are mashed in a greasy substance, which prevents the revolution of the driving wheels. The grasshoppers are of the smallest kind. Next year they will have developed into the

winged variety and then there will be a re-turn of the plague of 1874 and 1875. POSTAL SUBSIDY BILL.
