

TO THE THINKING PUBLIC

Michael Cane, who has worked for the U.P.R.R. for over twenty-five years, says: "I had an immense growth on my chest, which had been developing for 13 years, and finally confined me to my bed. The doctors after experimenting and using their instruments, pronounced it dropsy, and heart disease. People kept telling me to try the Chinese doctor, and I was carried up to his office. In three day's time I was able to go to work. If anyone wishes to find out the particulars of my case, call and see me at anytime."

MICHAEL CANE,
405 Chicago street.

A STRANGE STORY

I was troubled with heart disease and consumption, was told nothing more could be done for me. Finally last spring was in the last stage. My heart jumped terribly. Acknowledged to myself that I must die; told my mother so. All of my family had congregated around my bed to await the end. My brother-in-law said that Aug. Anderson had been cured of consumption by the Chinese Physician, after the doctors had given him up. My wife went after medicine and in twenty minutes after taking I was setting up eating. I now weigh 185 pounds and am the picture of health. I know I owe my life to Dr. C. Gee Wo, and feel as though I must not be ashamed to say it. I will gladly make affidavit if it be necessary.

JOHN BAILEY,
4728 Elk Street, Omaha.

Mrs. P. O. Hirsh, 24th street, between J. and R., South Omaha, says: I am sixty-two years of age, and have been a sufferer from asthma for seven years. Several physicians helped me but it always came back. I tried Dr. C. Gee Wo about a year ago, and he has completely cured me. I had no idea that I was entirely cured, and expected a return this June, as usual, but you can judge how agreeably surprised I was when I have not had the least symptom of it. I can heartily recommend him as a skillful physician and a clever man.

MRS. P. O. HIRSH,
South Omaha.

Now, the Doctor keeps no record of his cases, and has not space to give each case, but each one of the following patients, though at the risk of being ridiculed by ignorant people, can tell a story similar to the above.

Now, not one of these people would have treated with the Chinese physician if they had hopes of being cured elsewhere. What American or European doctor could build up a reputation on such a practice. Not one. How then can a Chinaman. The doctor will state a few facts: China has about half the people of the globe. They have been practicing and perfecting medicine **OVER 4,000 YEARS**. Chung Nung (see Ency. Brit.) discovered 72 poisons and their antidotes 2,456 years before Christ.

Campini, one of the first Europeans who entered China, says: "Their physicians have a thorough knowledge of the nature of herbs and an admirable skill in diagnosing by the pulse." (see Willard's Middle Empire.)

It is well known that gunpowder, steam and electricity are old in China, and that the Chinese were printing their delicate books 900 years before Gutenberg was born.

But it was to medicine the Chinese gave their attention and when the emperor Chin Wong ordered all the books to be burned he excepted the medical works.

The celebrated Dr. Hobson states that one of the Chinese dispensaries gives **442 HERBAL REMEDIES ALONE**. Can you wonder then at the doctor's success.

He comes here with the only germ destroyer. Has the greatest nervine whereby he nourishes and tones the nerves instead of paralyzing them with narcotics (no Chinese physician will prescribe opium) and whereby he cures dyspepsia, sick-headache, heart disease, &c., **INCURABLE IN THIS COUNTRY**.

This is the man whom they are persecuting instead of investigating, but every day his remarkable cures make him new friends. If you are suffering from acute diseases, and your life be in danger, remember that the doctor cures **TYPHOID FEVER AND THE LIKE IN 24 HOURS**. If you need the services of this great physician, why not try him? His remedies are new to the system and will work like magic. **ONE WEEK'S TRIAL** will convince the most skeptical. The doctor does not cater to the patronage of the weak and credulous, but rather solicits that of the educated and intelligent people.

On arriving in this country, the doctor selected Omaha, Neb., as the geographical center of the U. S., and supposing that that thriving city where he has largely invested, would also be the center of population in a few years, he resolved to locate here where he could dispense his remedies with the greatest facility. The doctor does not claim to be a Chinaman, as is understood in this country. They are principally coolies. He belongs to the Manchoo, or nobility. If you do not believe it call on him and see if you ever saw such a Chinaman.

The doctor has organized a stock company, The Chinese Medical Co., headquarters at Pekin, China, Capital, \$100,000, (limited). It is for the purpose of compounding remedies for the following eight diseases, which seem to be the most prevalent here: Blood Purifier, Rheumatism Cure, Catarrh Cure, Indigestion and Dyspepsia Cure, Sick Headach Cure, Lost Manhood Cure, Female Weakness Cure and Kidney and Liver Cure. These troubles can easily be diagnosed and the proper remedies procured. For all other troubles write, enclosing stamp for question blank and book, as the doctor uses a special remedy for each disease. They can be had at \$1 per bottle, of the above company, or of

DOCTOR C. GEE WO,

The Chinese Physician,

No. 519½ North 16th Street, . . . Omaha, Neb.
