Remarkable Dispute Growing Out of the McKinley Tariff.

IMAGES OF CHRIST NOT IMPORTED FREE.

Interesting Decision of a Chicago Jurist—Public Policy Opposed to All Combinations—Enormous Lake Traffic.

CHICAGO OFFICE OF THE BEE, Chicago, July 23.

There was received at the office of Collector Clark today a decision of the general board of appraisers at New York which is perhaps the most remarkable of the kind...

In January of this year Ole Munger of this city imported on the French steamer La Glascope a number of images of Christ lying on the cross.

Appraiser Pierson put the tariff up to the highest notch, viz: 60 per cent.

Mr. Munger objected and appealed to the board of general appraisers, but after considering all the facts the board rendered a decision in this obnoxious way:

"The corpus or body of Christ is made of metal or nickel plated and is four and a half inches in length. Above the head of the figure of our Saviour is a metal scroll containing the letters J. M. R. L., and beneath the feet of the same is a skull and cross bones, while a thin band of metal containing the inscription 'CHRISTUS' is fastened to the lower edge of the base.

"We will be setting 60 cents a bushel on wheat from Duluth by September 1, and 6 cents from Chicago."

A clean cut decision on public policy was found among the opinions filed in the appellate court today. It. Wilson Moore and J. H. Bennett were the authors of an organization known as the Chicago Law Stenographers' association, which had adopted a schedule of rates.

The sentiment among vessel owners is now decidedly bullish and immense business at high rates is anticipated from August 1 to the close of navigation.

The Leland hotel was yesterday again the scene of a romantic marriage. Last Monday there arrived in the city a young man, the late Miss Jane Daley.

Special Commissioner Frederick A. Ober, who has been ransacking Santo Domingo for world's fair exhibits, has returned to the remains of Columbus on exhibition in that city are quite genuine, although he secured a good photograph of the same.

A life size equestrian bronze statue of the late General P. H. Sheridan, as he appeared on the occasion of his famous ride to Winchester, is to be presented to the city of New York by the North and West Side cable railways.

Prof. A. C. Hirst of the University of the Pacific at San Jose, Cal., is in the city. He says the Leland hotel is the finest and most liberally endowed institution of learning in the world.

It is reported from reliable sources," said Mr. Hirst, "that the Stanford fund already made his will so that the university will secure an endowment of \$20,000,000 over and above any other source of income spent for the college. With \$20,000,000 as expended, as per the plan he is preparing, nothing in the shape of a seat of learning will so far as buildings, paraphernalia, etc. are concerned, be able to compare with the Stanford university."

SAVI INDIANS STILL FIGHTING. According to the statements of two young Mexicans now in Chicago, there is a blood war raging in the mountains of Mexico, unknown to the outside world. It has been supposed that with the death of the great leader of the Yaqui Indians, Chief Cajeme, the Indian war in Mexico had ceased.

PASSENGER RATES SLASHED.

Competition for Grand Army Traffic Causes an Open Rupture.

WABASH INTERESTS WITH THE ALTON.

Hearts of the Ticket Brokers Made Happy by an Extended Margin on Through Business.

CHICAGO, July 23.—General Passenger Agent Charlton of the Alton wrote today to Chairman Finley of the Western Passenger association saying it had been found necessary to change the Alton's schedule in regard to Grand Army rates.

"What we do for veterans in Illinois we cannot consistently do for veterans in Missouri. We shall, therefore, adopt the same limits and form of ticket on all our lines in Illinois and Missouri. We are unable to understand why your association did not do this and why you are less generous to veterans than the Central Traffic association."

This action of the Alton will extend the limit on the Grand Army tickets which are sold July 21, August 1 and 3 good going on or before August 3, and good for return passage to and including August 15.

These tickets will be sold from Kansas City to Chicago, and from Chicago to St. Paul, a round trip rate of \$17 having been made to Cincinnati in connection with the Erie-Missouri schedule. The rate to St. Louis and return will be \$20 and to Chicago and return \$10. After writing the above letter General Passenger Agent Charlton journeyed to St. Louis to discuss the matter with the Wabash.

It has been discovered that the Wabash road has filed with the interstate commerce commission a tariff which will cut the Missouri, Kansas & Texas road quoting a rate on coal from Toledo to the Missouri river of 70 cents per ton lower than the established rate via the Alton.

President Lydard of the Michigan Central is in the city today in consultation with officials of the Illinois Central. It is understood that the Michigan Central is to be the passenger station, which these two companies intend to build if they can ever reach an agreement.

Indiana, Ind., July 23.—Judge Jenkins, before whom the suit of the Cincinnati, Hamilton & Dayton road against the Erie, Keon to recover damages growing out of the live purchase was tried, deciding that the plaintiff has no grounds for the suit.

Announced at Kansas City. KANSAS CITY, Mo., July 23.—The Chicago & Alton road today announced a rate of \$14.50 from Kansas City to St. Paul for return for the Grand Army of the Republic campaign. This is a cut of \$3.25 of the established rate.

Killed by a Vicious Horse. HORRIBLE DEATH OF GEORGE ROSS AT ST. LOUIS. St. Louis, Mo., July 23.—George Ross met a horrible death yesterday. His employer sent him out to drive a stray horse from the yard adjoining the residence. When Ross approached the horse it rushed at him and bit him in the forehead and cheek. Ross started to run across the field and the horse pursuing him knocked him down and attempted to trample on him. Ross succeeded again in getting out of the way and jumping a fence, but tripped over the rail and fell to the ground, striking his head on a stone and was rendered unconscious. The horse paid no attention to the man who, after his infuriated beast had been shot, was brought to the hospital. Ross' body was shockingly swollen and his right cheek torn by the horse's snout. His head crushed in like an egg shell and the brains scattered about on the ground. He leaves a wife and two children.

Shot at the Ceiling. CHICAGO, July 23.—Henry Adkins created a deadly feud in the city of Chicago by appearing in the great hall about 11 o'clock and firing 10 shots from a large revolver toward the ceiling. He was quickly overpowered and turned over to the police. He says he has a claim against Thomas Wells, manager for Kirtwood & Co., and has been unable to obtain satisfaction. He had no intention of harming any one, but fired the shots to scare Wells and with a view to getting his case into the courts. He had no intention of shooting anyone. The trouble grows out of some old deals on the board and Wells asserts the firm owes Adkins nothing.

Wonderful Gold Strike. SPOKANE FALLS, Wash., July 23.—Jacob P. Parker, a journalist of Idaho, has telephoned the Review from Orangeville as follows: Theobert Walls has just arrived here from Elk City with news that Dr. Poyner of Parkersburg, W. Va., has made a fabulous gold strike on the Red River. He has a four-foot vein absolutely thick all over with gold. From all accounts it is a genuine and wonderful strike.

HIS WIFE BROKE UP HIS LITTLE FUN.

She Waded into the Surf and Pulled Him Out—Used Tooth and Nail on Her Spouse.

ADRIAN PARK, N. J., July 23.—There was any amount of fun and excitement on the beach yesterday morning. It was at Bradley's Fourth Avenue pavilion. Bathers were started by seeing a woman fully dressed in street clothing run into the surf.

The woman grabbed the man about the shoulders, at the same time showering all sorts of abuse upon him. The man left his fair companion and came steadily to the shore, but on the way the woman hit him repeatedly, and bit hard and straight. Then she sat on the man's head and left many marks and cuts and scratches on the man's face and arms. On the beach she continued her attack, screaming wildly in rage, and reproaching him for neglecting her for another woman.

The man was Charles A. Baker, a prominent New Yorker, and the woman was his wife. Mr. and Mrs. Baker came nearly a week ago, accompanied by their three children. Mr. Baker's father, who is a prominent bather with a young lady whose father owns a cottage here. Mrs. Baker did not like this. She went to Ocean Grove and saw Mr. Baker's father, who is a prominent bather there. The Rev. Dr. Baker talked with his son about the matter. Yesterday morning Mrs. Baker said she was going to New York to do some shopping. She started evidently for the railroad station. She did not board the cars, however, but went directly to Mr. Baker's father, who is a prominent bather, and she was seen to go back to the hotel.

AUSTIN CORBIN'S JOKE. The Railroad Magnate's Philanthropic Offer Which Was Refused.

New York, July 23.—Everybody on Long Island regards Mr. Austin Corbin as the individual owner of the Long Island railroad, of three-quarters of the island and of a blanket mortgage on the other quarter. As a result he is constantly receiving letters from all kinds of complainants. He received a letter recently from a correspondent who complained that some newly painted green benches had been placed in the ferry in the Bay Ridge; that he had seated himself on one of these benches and that he had been scratched by the paint. Mr. Corbin replied to the writer that the Staten Island ferry company benches are painted in a light green color, and that the benches in the Bay Ridge are painted in a darker green color. He offered, if the clothes were sent to his office, to have an attempt made to clean them with benzene, but the correspondent refused to send them. At last accounts he had not received the trousers.

CLAIMANTS AND ATTORNEYS. It is important that claimants under the Indian depositions law should understand that all contracts made by them with attorneys have been cancelled and annulled by that act. Section 9 of the law explicitly says that "all contracts heretofore made for fees and allowances to claimants' attorneys are hereby declared void," and the secretary of the treasury in issuing warrants for judgments is required to make them payable only to claimants, their lawful heirs or other representatives specified in the act, "except so much thereof as shall be allowed the claimants' attorneys by the court for prosecuting said claim, which may be paid directly to the attorneys, the amount of the allowance which shall be made by the court. The claim agents and attorneys are making a fight on the law upon the ground that congress has no power to annul private contracts, and hold that contracts involving a contingent fee are irrevocable. Claimants who are thus informed should pay no attention to the threats of their attorneys and proper counsel to be guided by the provisions of the law, which are so plain and explicit that no one can see as to the meaning, and to pay no regard to opinions or representations of men whose interest it is to defeat the intent of the law. The secretary of the treasury is declaring contracts with attorneys void to protect claimants, and when it is granted that there is a question as to the power of congress to do this, until that question is judicially determined claimants will make a mistake not to take the advantage which the law allows them, and by failure to do so subject their case to the exactions of the greedy claim agents and attorneys. It is highly probable that the power of congress in this matter will never be tested in the courts, since it is hardly to be supposed that the many able lawyers in congress would have allowed so important a feature of the Indian depositions act to remain in it if there was a reasonable doubt regarding the right of congress to so legislate. The thing to be understood by claimants under the above act is that contracts made with attorneys for fees and allowances were rendered void by the act, and that they are at liberty to place their claims in other hands and to obtain satisfaction therefrom by such contracts. WORLD'S FAIR SUBJECT.

How to Select Crop Specimens for Exhibition Purposes.

LINCOLN, Neb., July 23.—(Special to The Bee.)—The following communications are of importance to exhibitors, as indicating the best manner of selecting specimens for this year's crops for exhibition at the world's fair. It is the result of careful investigation by those particularly qualified to discuss the subject.

The last legislature having made an appropriation of \$100,000 for the purpose of exhibiting the products of the world's Columbian exposition to be held at Chicago in 1892, and the United States agriculturalists in securing the best and most perfect of our crops for exhibition, it is important that the farmers be re-energized to select specimens for the world's fair. It is the duty of every farmer to select specimens for the world's fair, and it is the duty of every farmer to select specimens for the world's fair.

CLAIMANTS AND ATTORNEYS. It is important that claimants under the Indian depositions law should understand that all contracts made by them with attorneys have been cancelled and annulled by that act. Section 9 of the law explicitly says that "all contracts heretofore made for fees and allowances to claimants' attorneys are hereby declared void," and the secretary of the treasury in issuing warrants for judgments is required to make them payable only to claimants, their lawful heirs or other representatives specified in the act, "except so much thereof as shall be allowed the claimants' attorneys by the court for prosecuting said claim, which may be paid directly to the attorneys, the amount of the allowance which shall be made by the court. The claim agents and attorneys are making a fight on the law upon the ground that congress has no power to annul private contracts, and hold that contracts involving a contingent fee are irrevocable. Claimants who are thus informed should pay no attention to the threats of their attorneys and proper counsel to be guided by the provisions of the law, which are so plain and explicit that no one can see as to the meaning, and to pay no regard to opinions or representations of men whose interest it is to defeat the intent of the law. The secretary of the treasury is declaring contracts with attorneys void to protect claimants, and when it is granted that there is a question as to the power of congress to do this, until that question is judicially determined claimants will make a mistake not to take the advantage which the law allows them, and by failure to do so subject their case to the exactions of the greedy claim agents and attorneys. It is highly probable that the power of congress in this matter will never be tested in the courts, since it is hardly to be supposed that the many able lawyers in congress would have allowed so important a feature of the Indian depositions act to remain in it if there was a reasonable doubt regarding the right of congress to so legislate. The thing to be understood by claimants under the above act is that contracts made with attorneys for fees and allowances were rendered void by the act, and that they are at liberty to place their claims in other hands and to obtain satisfaction therefrom by such contracts.
