OMAHA HAS WON ONCE MORE.

MR. KILLEN WAS A VERY EASY MARK.

Duluth Gave Lincoln a Taste of What Omaha had been Enjoying-Kansas City Downed Milwankee.

MINNEAPOLIS, Minn., Aug. 6 .- [Special Telegram to THE BEE. | -Minneapolis opened a series with the reconstructed Omahas this afternoon and promptly dcopped the first game after having it won. Sommers, a new man from Evansville, Ind., played first and played acceptably. He seems to be a good man with the stick. Wentz, who was billed to play second has not yet arrived. Killen was taken out of the box in the seventh inning after one man had been put out and Rettger, also a new man, substituted. He gave evidence of being a first-class man, striking out four of the five succeeding batsmen. The game was characterized by costly errors on both sides.

Minneapolis made a tally in each inning for four innings, all of them through gross errors of the visitors. In the fifth McQuaid's double and Sommer's home run gave two more. In the sixth two hits, a base on balls and Waish's errors gave two more, and in the seventh a double and two singles gave the

locals their last tally, McClellan for Omaha got around in the first inning by being hit with a pitched ball, a sacrifice, a passed ball and Darling's error. Three blanks were then drawn. In the fifth Three binness were then drawn. In this little four singles and White's error netted two runs. In the sixth, but for Tredway's muff of Whitehead's fly, the side would have been retired without a run, and as it was the visitors went at Killen rough shod. Treadway muffed another ily and made a wild throw, the total result of the circus being five uncarned runs.

being five uncarned runs.

In the seventh there were some fireworks for Killen's benefit, and a dizzy old error on Minnehan's part.

After five men had chased themselves home, Killen went to the bench and Rettger into the box. That settled the run getting, as he struck the next two men out and in the eighth fanned out two of the three. Score: MINNEAPOLIS.

Duluth Made Scores While Lincoln Made Errors Yesterday.

DULUTH, Minn., Aug. 6. - Special Telegram to THE BEE. |-Duluth kept up her string of victories today by defeating the Lincolns, more by good luck and the errors of the statesmen and by hitting Ehret. The pitching honors were about equally divided between Inks and Ehret, each being touched up for a total of ten bases. The former gave seven bases on balls and hit a batsman and had two bad wild pitches against him, but he struck out more men than Ehret and did better work at critical points. Ehret had poor support. The visitors did some very ragged heiding. In the first Stafford dropped an easy fly, and in the second fumbles, muffs and a wild throw let in three runs on In the eighth Lincoln had two chances to

put out Inks after he had got to first on a hit but both times failed through errors. Lin coln was able to find Inks only in the second and ninth. Duluth's hits were generally lucky ones. The home team played a splendid game in the field. O'Rourke especially distinguishing himself. McMaho split his finger in the third and had to retire from the game, Baldwin taking his place. Umpire Emslie was presented with a hand-seme bouquet started by Duluth admirers. He has been here ever since the Duluth sea son opened, but leaves after this series.

New York, Aug. 6.—Today's game at the Polo grounds between New York and Pittsburg was a spirited one, the Glants winning in the tenth inning. Rusic pitched his usual great game, holding down Pittsburg to six hits, and striking out ten men. Shugart did some great work, and his errors were of the excusable kind. Richardson and Buckley also did superbly. The winning runs were made on two bases on balls, a sacrifice by O'Rourke, a two bagger by Ewing and a single by Bassett, Score:

Blair Won It.

BLAIR, Neb., Aug. 6 .- Special Telegram to THE BEE. |-The Fremont paseoull team dropped the second game here today with the locals score 12 to 5 and then left for home on the 9 o'clock train with their bends down. The home team made four scores in the first inning, and the visitors got badly rattled over it, and it took them some time to recover themselves. When they did it was too late n the season to catch up. The hits were about evenly divided. Fremont made ten and Blair eleven. The visitors' hits did not do them much good, for as soon as they filled the bases Welbaum would retire the side by strike outs. The home team stole bases like thieves, getting ten, which aided much winning the game. Score toward nnings:

Liveringhouse's Books in a Chaotic Condition-Marelessness" in Making Purchases -No Recommendations Made.

Lincoln, Neb., Aug. 6.—[Special to The Bes.]—At a special meeting this evening the board of public lands and buildings adopted and signed their findings on the investigation of the Hastings hospital for the insane-as prepared by the attorney general. It does not embody, but merely refers to the report of the expert accountant who examined the books of the institution, which report will be attached to the board's findings and transmitted to Governor Thayer. The report is very long and damaging, showing numerous irregularities and the grossest carelessness in the financial records of the hospital. The board has made no recommendation to the governor, believing that the simple statement of its findings, backed by nearly four hundred pages of testimony, is sufficient. The members of the board fee! that the results have justified the investigation. They are willing to rest on their report and let the governor take the responsibility of further action. Following are the board's findings: action. Following are the board's findings:
LINCOLN, Neb., Aug. 6.—Hon. John M.
Thayer, Governor of the State of Nebraska:
Sir.—The board of public lands and buildings
respectfully begs leave to report that early in
the month of June. 1891, charges of a serious
nature, severely reflecting upon the management of the asylum for the incurable insane
at Hastings, Neb., were made to this board.
The charges were as follows:

1. Irregularities, which were alleged to have
occurred in the financial management of the
asylum. Neglect and misconduct on the part of the officers and employes of said institution toward the patients committed to their

2. Neglect and misconduct on the part of the officers and employes of said institution toward the patients committed to their charge.

3. Conduct unbecoming officers and detrimental to the good management and good name of said institution.

We have made as careful and as thorough an investigation of these several charges as was possible, under existing circumstances, and herewith we transmit to you aid of the evidence which we have taken, which you will observe was commenced on the 26th day of June, 1891, and was ended on the 5th day of August, 1891.

A brief history of the matter, in our opinion, will not be out of place. June 8, 1891, Hop. John C. Allon, secretary of state, made the discovery that certain practices had been indulged in by the officers in charge of the asylum for the incurable instance at Hastings, Nob., viz. Dr. F. G. Test, superintendent, and J. W. Liveringhouse, steward. In the matter of drawing money from the state ostensibly for the institution, on vouchers duly certified to by them as just and correct, which were irregular and apparently fraudulent. These several vouchers were drawn by the steward, certified by the superintendent, and the money represented by them, was regularly drawnfrom the state treasury. At once, upon such discovery, Secretary Allen communicated the above facts to this board. The board directed him to communicate with Steward Liveringhouse regarding the matter, in order that an opportunity for an explanation of the transaction might be had. In pursuance of such direction, there was addressed to Steward Liveringhouse regarding the matter, in order that an opportunity for an explanation of the transaction might be had. I would suggest to you the advisability of appearing before the board of public lands and buildings at an early date to explain to its satisfaction these two transactions. Awaiting a reply from you. I remain, yours truly,

John C. Allen,

Secretary Allen, received from Mr. Liveringhouse two replies to the above communication, each of which was written on the same day, of which the following are copies:

"HASTINGS, Neb., June 15th, 1891, J.C. Allen, Dear Sir.—I ask this personal favor of you that yen cone out and see our books, and allow me in justice to myself to show the matter public until you satisfy yourself about the facts; these matters given to the public that would reach the distance the first report would. The party that has been pursuing ne for two years, that I think is doing this, will stop short of nothing to rain me. Vould deem it a great favor if you would come out, or stop over on your way home, or to McCook. I trust you will assist me in getting the facts to the board in proper form. Let me hear from you. Yours truly.

"HASTINGS, Neb., June 13.—Hon J. C. Allen, Lincoln, Neb. Dear Sir. After mailing a letter to you yesterday morning I received yours in reference to the vouchers referred to, would say in reply that in the rush of business at the close of the blennial period some errors were made, among them those referred to in your letter, but were discovered and reported to the superintendent, and by his order the money was transferred to the cash fund and put on deposit in the bank inside of forty-eight hours after its receipt, as our books will show, where it has remained ever since; he also ordered that the same be reported to your books and accounts, and I am confident these things will be satisfactorily explained. We would be very glad to have you come if it is possible. Very respectfully yours, "J. W. Liveninghous."

Soon after this I was openly charged in the public press and by individuals of this state that not only was the management of the board of the state and det innet in the reac

of that institution could be arrived at you suspend from duty the superintendent and steward. The folinking is a copy of said communication:

"Lincoln, Neb.," June 15.—Hon. John M. Thayer, Governor of Nebraska: Dear Sir—it has come to the knowledge of the board of public lands and buildings that grave irregularities have taken piles in the management of the dinancial affairs of the hospital for the chronic insane. Sic Hastings, Neb. These irregularities are of such a character, as in the opinion of the board, called for astion on their part, and outlie with inst. a letter was transmitted by this secretary of the board to J. W. Liveringhouse, steward of that institution, calling his attention to some of the more important items than discovered, and which were claime; by this board to be irregular and fraudulent in their character. A copy of that letter is herswith enclosed. On the lith inst. Mr. Liveringhouse replied to the board in two communications, copies of which are also enclosed herswith. Other items similar in character as those mentioned in the letter of the board of the 9th last still await an explanation. In the opinion of this board the affairs of that institution demand a thorough and searching investigation, pending which we would suggest that the superintendent and steward of the institution he suspended from further duty, on it such time as an accuract knowledge of all transactions done during their administration shall be arrived at. Yours very respectfully.

Secretary of Board of Public Lands and Buildings."

Owing to the absence of Hon. A. R. Humphrey, commissioner of public lands and buildings, from the city on official business, this board was not called together by him until June 24, on which date Hon. A. R. Humphrey all session for the purpose of considering the several charges so made, at which meeting it was unanimously resolved.

to inverligate the several charges set forth in the notice calling the special meeting, and superintendent Test and Steward Livering; house were duly notified to appear before the board on June 28, 191, and at the same time to produce a detailed account of the amount of cash on hand in what is known at that institution as the "cash fund," together with the amount paid not said fund with date of same, the amount expended with date and vouchers therefor, and that the statement be accompanied by a draft pay able to the order of the state treasurer for the amount of cash on hand in said fund. On the 25th the parties appeared and produced a draft as had been required for the sum of \$---, being the amount of the cash fund then on hand, which draft was, by this board, paced in the possession of Hon. J. E. Hill, state tre surer, and the books of the asylum, together with all of the papers, vouchers, documents and memoranda that had been furnished us by said officers, are still in the pessession of this board, except of course the draft above named. The board deemed it prudent to call to its assistance a skilled and competent accountant, to aid it in its research, and selected Mr. T. H. Leavitt, a gentleman whose reputation as a skillfull-palastaking, thorough and reliable accountto investigate the several charges set forth in its research, and selected Mr. T. II, Leavitt, a gentleman whose reputation as a skiliful, bainstaking, thorough and reliable accountant is second to none, and placed in his hands all of the books, paners, vouchers, checks, do uments and memorands we had been able to procure from the officers of said asyjum, for his investigation, with the following instructions:

all of the books, papers, vouchers, checked, do uments and memoranda we had been able to procure from the officers of said sayium, for his investigation, with the following instructions:

Lincoln, Neb., July 18.—T. H. Leavitt. Esq., City, Dear Sir: We have placed in your hands and at your disposal for your examination at the books of account, vouchers, papers, etc., relating to the financial transactions of the superintendent and steward of the hospital for the chronic insane at Hastings, Neb. We are unable to discover from them, so fully and clearly as we desire, just what has been done, or to learn from them the exact financial condition of that institution You are hereby requested to make a careful and thorough examination and investigation of these books, vouchers, etc., in such manner and to such extent as will enable you to give us a distinct history of the monetary transactions of that institution, from the date on which the same was opened, until the 3 st day of May, 1891, together with the exact condition of affairs of that institution on the last named date and report to us at as early a date as practical. It is the desire of the board, however, that you keep separate and distinct the two administrations that have had the management of the affairs of that institution. If there be a data from any of the offices at the capitol that you will require in order to aid you in the investigation, or to verify or explain any transaction which may not be clearly of record, it will be the pleasure of any member of the state board of public lands and buildings to farnish you with the same. The board desires that you make to it a preliminary report containing such information as you can readly arrive at, and that your ureliminary report be handed in, not later than July 24. ISBI, in which report it desires you to answer the following questions: Do you find a compilete set of accounts in the books, memoranda, etc., of the hospital for the chronic insane at Hastings, Neb., which has been submitted to you by the board Isol, from the books papers, vouchers, etc., which have heretofore been submitted to you? If not will you explain to this board the reason? Do you find from your examination any checks or vouchers among the papers submitted to you that are fictitious or that are not properly entered upon the books? Have you discovered any irregularities in the keeping of any of the accounts? If so, what accounts, the nature of the irregularities? Have you discovered a fund, known to that institution as the eight and the several items composing it, and the amount that has been expended therefrom. Do the charges, so far as you have been able to observe, correspond with the vouchers and checks heretofore submitted to you? So far as you have been able to examine, are these charges of irregularities in the financial management of that institution, corroborated by any of the books of accounts, or by any of the vouchers, paper or other documents submitted to you? Yours very respectfully, "A. R. Humpher," President of Board of Public Lands and Buildings."

On the 5th day of August, 1891, we received

"President of Board of Public Lands and Buildings."

On the 5th day of August, 1891, we received from Mr. Leavitt, the accountant, his prediminary report, which is herewith transmitted. The testimony in this case is exceedingly voluminous, and covers over three hundred pages of closely trypewritten matter, which, with the exhibits, make it quite a formidable, undertaking to attempt to become familiar with, but the interests of the state, as well as the parties under investigation, seemed to demand at our hands the most searching examination. Section 7, article 7, chapter 81, of the compiled statutes of the state of Nebraska provides as follows:

"It shall be the duty of the board (referring to the board of public lands and buildings) to take cognizance of all charges or complaints made against the said public officers, and at a regular meeting to give an impartial hearing to such charges and the defense against them, if any, and report the charges, evidence and thair conclusions in the matter to the governor within six days after the determination of such investigation." While section 11 of the same article and chapter provides as follows: "The president shall have the power to call the board together in special meeting if, in his judgment, the public good requires the same article and chapter pose contemplated in this act, and such call shall be by written notice, stating the purpose of meeting, which notice shall be delivered to each member of the board."

Under the provisions of section 7, it will be observed that it is made the duty of the board, not only to report to your excellency the evidence that has been taken, but our conclusions as well.

After a careful hearing and on due con-

conclusions as well.

After a careful bearing and on due consideration of all the evidence, we have unanimously arrived at the following conclusions:

1. That the vouchers drawn by Steward Liveringhouse, and which were duly certified to by Dr. Test, the superintendent, as being just and correct to the following named persons were drawn and certified to by these to by Dr. Test, the superintendent, as being just and correct to the following named persons, were drawn and certified to by those officers, they well knowing that the state was not indebted to any of those persons in any sum whatever, they being either auplication of other vouchers or else purporting to be drawn for wages for employes, when in fact no such employe was in the service of the state, the warrant in payment of which was drawn by the steward. That is to say; Kelley, \$15.6; Cora Illekman, \$413.72; Lindvig, \$8.16; Miss Bulzer, \$32.73; Marvin, \$92; Clarey, \$15. Robinson, \$48; making a total of \$584.62; that none of these amounts were due any of these parties, and that they were drawn by the steward, after having been duly certified to as correct by the superintendent as above stated; that the steward and superintendent divide I the amounts up into these several small sums for the admitted purpose several small sums for the admitted purpose of deceiving this board, and in order to have the fact of their duplication escape their nonice, fearing, as they claim, if the full amount had been placed in one voucher, or to one person, the board would detect the scheme and refuse to permit the money to be drawn thereon.

It is perhaps only fair to say, however, that

nercon. It is perhaps only fair to say, however, that the steward claims that he drew these fraudulent vouchers with the knowledge and consent of the superintendent for the purpose of drawing out of the state treasury all of the money that had been appropriated for the use of that institution for that year, and that he deposited the same in the bank of Hastings with the balance of the nav roll expenses are, payable to J. W. that he deposited the same in the bank of Hastings with the balance of the pay roll, expenses, etc., payable to J. W. Liveringhouse, steward, and that he did so draw said money, so as to prevent any part of the money which the prior legislature had appropriated to that lastifution from lapsing. The constitution, however, of the state of Nebraska, section 22, article 3, provices as follows: "No allowance shall be made for the incidental expenses of any state officer, except the same be made by general appropriation, and upon an account specifying each item. No money shall be drawn from the treasury except in pursuance of a specific appropriation made by law, and on the presentation of a warrant issued by the auditor thereon, and no money shall be diverted from any appropriation made for any purpose, or taken from any fund whatever, either by joint or separate resolution."

Hence, we conclude in any event the action of the superintendent and steward was illegal, contrary to the constitution and unwarranted by law, and the practice, if induired in could only result disastrously. We further find that no separate fund, known by the officers of this institution as the "cash fund" has been kent by them at the bank, where they have kept the funds of the institution, and that the individual finds of J. W. Liveringhouse and the uncreys belonging to the state have been indiscriminately mingled and kept together in the bank in the name of J. W. Liveringhouse, steward, and have been drawn upon by him at will.

2. We further find from the evidence that the said officers of the state provided for the use of the patients and have sold the same to employes, receiving the money therefor, and for a part of which they have falled to account.

3. In the letter to the board under date of those if 180.

it In the letter to the board under date In the letter to the board under date of June 13, 1801, the matter of two of the vouchers, viz. Kelley \$15.55 and Liveringhouse \$100. Mr. Liveringhouse claimed was a mistake, and that so soon as he discovered the mistake the amount was put not the cash fund," but no mention was made of the other vouchers that were in the same plight. We find from the evidence the duplication of the two vouchers before named, as well as the others above set forth, was not a mistake, but but was deliberately and wilfully done.

4. The report of Mr. T. H. Leavitt, which is subjoine i, shows a most lamentable condition of the books and business methods of the institution. Not only has there been an absolute want of care and business method, but the books appear to be in such a condition

that no person, whatever may be his qualifications can, from them, arrive at the financial condition of the asylam.

5. We forther find from the evidence that there has been an absolute disretard for the interests of the state in the purchase of drues, groceries and other supplies; that there has been an absolute hack of business principles, and exorb tant prices have been paid for merchandise for that institution. In turnishing estimates for merchandise, the interests of the state have been neglected and these estimates furnished in such a manner that it has made leathmate a manner that it has made leathmate as the first of the state have been neglected and these estimates for these supplies, even when made by the same company, or individual varied widely with each recurring quarier, without any corresponding change in the market, and there appears to have been a studied effort on the part of the management to purchase no supplies on while the bid was at a price cental for below the market value of the commodity and to purchase in large quantities those articles that were in a bid at an exorbitant figure. This continued practice indicates to this board that it was by design, and not accidental, and deserves the severest censure.

We cite only a few of the many incidents shown by the testimony. For the quarter ending September 31, 180, Sliver Gras starch was agreed to be furnished that institution at scents per pound, at which price 141 pounds were purchased during the same particle was purchased to be furnished that institution at scents per pound, and at that price no starch was agreed to be furnished that institution at scents per pound, and at that price of starch was purchased. For the quarter miling September 30, 180, the bid for furnishing cider vinezar was Seents per gailon. None, however, was purchased at the price of the days prior to the same party contracted to furnish the same cannodity at 18 cents per gailon, and two barrels were purchased. September 30, 180, strup was agreed to be furnished at 20

the conclusion permit the board to say that it has made this investigation under circumstances exceedingly adverse to say the least. The legisliture placed no funds at its command with which to pay the expenses of the board, officers witnesses or counsel, and when it is considered that it has been obliged to hant up the witnesses, procure their attendance, and attend to all other matters pertains to the layer in the considered to the considered to be a considered to be a considered to be a considered to the considered to the considered to be a considered to the co ance, and attend to all other matters pertaining to the investigation, when the other duties of the respective officers are cialming all of the time at command, and the further fact that the officers under investigation were continued in charge of that institution, for good and sufficient reasons no doubt, not withstanding the fact that the board had recommended their suspension pending this investigation, We congratulate you that we have been enabled to bring this investigation to this speedy close, all of which is most respectfully submitted. Yours very truly.

BLUNT, S. D., Aug. 6.-The mercury is at 100 in the shade and the wind blowing a fearful gaie. About noon an eastbound freight engine fired the prairie west of this city and the entire population turned out to subdue the flames, which were traveling with fearful rapidity north to the grain fields of Sully county. The train hands lent assist-ance, and by strenuous efforts the fire was placed under control. The whole country is like a tinder box and everyone is on the alert for fires, which are liable to spring up at a moment's notice. The fire south of the city yesterday destroyed thousands of acres of hay land and about five hundred tons of cut bay in the stack went up in smoke.
