DESVER, Colo., Aug. 18.- Special Telegram to Tus Bss. |--Omaha dropped the game to the men of the mountains today pecause the latter hit Keefe often and at opportune times. The playing was sharp and brisk on both sides, and had the Denvers been a trifle less free with their bats their Omaha brothers would have given them lessons in hustling. As it was Denver took the lead on the first ball pitched and held it throughout without any special trouble. That big, broad shouldered gentleman of brawn, who talks more with his bands than with his voice, Mr. James Burns, met Mr. Keefe's curves with the far end of his bat,

and while one of the rejuvenated was hurling his wind away out in the field. Mr. Burns hustled past the waiting basemen and scotched up a tally. This settled it for all time. The Omahas touched Kennedy lightly, and at times when it amounted to little or nothing.

Several changes are to be made in the Denver team. Some of the men are not playing as well as the managers have a right to expect of them, so their places will be filled by others. Score:

City Attorney Poppleton's Idea of the

Street Sweeping Contract. MUST DISCOUNT THE BILLS A LITTLE.

Long Session of the City Council and Much Important Business Transacted-Warm Discussions En-

gaged in Occasionally.

Last night's council meeting was a lengthy one and continued until after the clock struck 12. Most of the time was devoted to the airing of opinions by the fifteen members who were present.

Contrary to his statement, Mayor Cushing failed to send in the name of W. A. L. Globon as a member of the board of public works.

City Attorney Poppleton expressed an opinion on the old bill of C. E. Squires for that sweeping done during the month of August, September, October and November. It was that as the work was not performed ac-cording to specifications the council had authority to make a deduction of 15 per cent on the gross amount. He recommonded that Squires be paid \$5,503.01 in full payment of all demands.

The report of the city attorney was adopted and referred to the committee on finance to ascertain if Squires will accept the amount and relinquisn his claim against the city. Mr. Morearity spoke against the measure stating that Squires was entitled to the whole of his pay or nothing,

Birkhauser's Bomb.

Chairman Birkhauser fired a bomb into the council and in a lengthy communication stated that last spring the board went over the asphalt pavements of the city and found them in a most wretched condition. The board notified the asphalt company of the repairs needed, but little if any attention was paid to the order. When repairs were made, rotten and second hand material was used. The communication was referred to the city attorney, who will express an opinion as to the legality of the contract with the Barber company and to find out if it can be cancelled

The chairman also reported that of the money set aside for the construction of crosswalks, \$2,503.95 had been expended, leaving a balance of \$496.07 in the fund. The money expended paid for the laying of 291 walks.

Chairman Birkhouser's request that inspectors be paid by the day instead of by the nonth was referred to the committee on finance.

A communication relative to replanking the Eleventh and Sixteenth street viaducts was referred. The chairman of the board of public works recommended that the floors of the viaducts be repaired instead of being replanked.

J. Nelson, N. Niday, Louis Lazarus and Arthur Pulaski submitted bids for the re-moval of dead minimals. The bids were referred to the committee on police to confer with the city attorney to ascertain if the council had a right to award the contract.

Those Burrows Resolutions.

Citizens -I receive with great gratification the very cordial expressions which have fallen from the lips of his excellency, the governor of this great state, and of his honor, the DAVEY, Nep., Aug. 17 .- To the Editor of THE BEE: I noticed in Sunday's Journal, mayor of this great municipality. It is very gratifying to me to be thus assured that, as also in THE Bass, in the account of the proceedings of the independent Lancaster county an American citizen, as a public officer, ad-ministering each different functions in conconvention, a resolution, stated to have been reported by the committee on resolutions nection with the government of the aution. of the state and of the municipality, we, in common, with the great body of citizens, and adopted by the convention, in relation to self-constituted leaders, bosses, dictators, whose servants we all are, have the common etc., claiming that this was a blow aimed at love for our institutions, and that common respect for those who by the appointed con-Burrows.

There has some or hereafter, set themselves up as party leaders. But the disposition of it by the committee was as I stated above. It was times been in some regions of the great west a thought that New York, being largely a creditor state, was disposed to be a little to be ignored, as we did not consider that there was any occasion for a resolution hard with the debtor communities of the great west; but, my fellow cit-izens, no such views ought to preof that kind. When the report of the committee was read by the secretary there was a great deal of noise and confusion in the wall with them or with you, and will not in the light of friendly discussion. The law of commerce may be selfishness, but the law of convention, and only those sitting near could hear the secretary. I could not near it sit-ting near the center of the room. However that may be I am free to make the assertion that it was not adopted by the convention. I was not paying any atention to the reading, supposing, of course, that the resolutions were being read as re-ported by the committee.

But at the close I was paying attention to ascertain what disposition was made of the committee's report. I heard the motion made that the committee's report be adopted, which was unanimously carried. Now the motion having been to adopt the report of the would all shun that condition of things into which many people of the past have drifted, and of which we have had in one of committee, and the committee having never reported any such resolution, but unanimously agreed not to report it, it must be evident to every candid person that no such the South American countries a recent ex-ample, the distress and nopeless condition resolution was adopted by the convention. into which all business enterprises fall when a nation issues unredoemable or depreciated the Journal and The Bee to the contrary notwithstanding.
