MANY PEOPLE COMING WEST.

Thousands Take Advantage of the First of the Harvest Excursions.

BEGINNING OF THE PASSENGER RATE WAR.

GENERALLY BELIEVED THAT NUMEROUS WESTERN LINES ARE PLACING LARGE BLOCKS OF TICKETS IN THE HANDS OF BROKERS.

CHICAGO, ILL., AUG. 25.—The western roads did not begin their "passenger business" today, but it is doubtful if any of them will be able to show corresponding results in revenue.

The first of the harvest and home-seekers excursions, and all the west-bound trains were crowded with people taking advantage of the low rates to reach distant points in the north and southwest.

It is evident that the ticket brokers in Chicago, Kansas City, Omaha, St. Louis and St. Paul will reap the highest benefits from this first excursion. In this city they announced one way rates as follows: To Denver, \$20; Kansas City, \$5.50; Omaha, \$10, and St. Paul, \$7.

Of course the man buying to any of these points at the rate named was required to purchase of the broker a round trip excursion ticket, but he also received an order that enabled him on reaching his destination to go to a broker and sell the return portion for an amount sufficient to reduce his actual outlay to the figures quoted above.

The return portions are good for thirty days from date of sale, and as there will be more of these excursions, September 15 and 20, there is every occasion to expect that western passenger rates will be badly demoralized from this time forward until November 1. It is not in reason to suppose that the brokers could be so profitably supplied with these tickets if they were not furnished by the railroads themselves. If any of the railroads are playing this game, and the indications are that they are, they will not do better than to follow it up by supplying brokers at western points with return portions of tickets that have never been sold for the going passage.

SETTING THE SMOKE RATE.

The summer tourist rates adopted by the Soo are to be met by all the western roads that come in competition with it.

Authority has been given by Chairman Finley to an order issued today. The order has been anticipated by the Wisconsin Central, which met the Soo line's rate some time ago.

THIS NEVER HAPPENED BEFORE.

An Indiana Railroad Willing to Have Its Assessment Increased.

INDIANAPOLIS, Ind., Aug. 25.—The state commissioners continue to hear pleas from railroad representatives begging for a reduction of assessment. There is one exception, however, the United States Marshal Hawkins appeared for the Chicago & West Michigan.

He said that he could hardly expect the board to lower the assessment, nor would he feel aggrieved if it should be moderately increased. He stated that the farm property through which the road runs has been increased in value, the company could not expect the board to pass its property without some advance on the amount appraised.

The board was evidently much surprised at this statement, as it is the first of the kind that has been made during the inquiry. The present value of the Indiana farm land made such a poverty stricken showing that the attorney general said to him: "Well, don't you trade off for a paying road if it is to be?"

"Oh," replied the superintendent, after a pause, "the road does not belong to me, and I don't care to trade it, but I have been thinking that I would like to trade my position for a good state office if I can find one."

The commission said nothing, but the smile upon their faces indicated that they thought the "horse" was on the attorney general's side.

A DRUGGIST SURPRISED.

You may be interested in knowing that we are entirely out of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and want more, as per inclosed order for six dozen. The demand for it surprises me greatly. We have never sold a remedy that gave such a good result as this.

The commission said nothing, but the smile upon their faces indicated that they thought the "horse" was on the attorney general's side.

CHECKED HIS CAREER.

Deputy Sheriff Grebe Ends the Course of an Iowa Thief.

Deputy Sheriff Lou Grebe made a very clever catch yesterday afternoon.

Last Friday night a general store at Whitney, Ia., was burglarized and some \$500 or \$600 of silks, dry goods and jewelry carried away.

The sheriff of Monona county at once notified Sheriff Boyd and the case was turned over to Deputy Grebe, who went to work upon what clues he could obtain. A few days ago he was informed that the goods had been sent to Omaha by a freight car that time has made the freight depot of the Chicago, St. Paul, Minneapolis & Omaha railroad his headquarters.
