Cmaha's Obristian Young Foot Ball Players Outdone in a Nice Game.

PRETTY WORK ON PART OF BOTH TEAMS.

Kansas City Flogged by Denver-Chicago Dropped a Game-Some Lively Hustling to Finish Schedules.

The 300 foot ball enthusiasts who journeyed out to McCormick park to see the match between the 'Varsity students and the Young Men's Christian association team were well repaid for their trouble, as the game was a well contested and interesting one. Follow-ing were the players and their positions:

College. =	Positions.	Y. M. C. A.
Brown	Right End.	Foreman
There area	Right Tackle.	
Patrick	Right Guard	Shalden
Thomas	Center	Heawn

Hoseland	Left End	Bowle
Cowin	Ouarterback.	TRACKEY
Rustin	Right Halfback	Osgood
J. Dodge	Left Halfback	Morrow
F. Rustin	Full Back	

In the kick off the Young Men's Christian association boys rushed the ball in danger ous proximity to the 'Varsity's goal. Con-ners made a fine rush, breaking through the rush line of the Collegians, but went before Fred Rustin's neat under tackle. The College boys worked the pig skin into the Coung Men's Christian associations' domain. both the Rustins, for the 'Varsity's, making beautiful runs, and Osgood, Conners and Sheldon of the Young Men's Christian asso-clations doing some splendid tackling and tricky rush line work.

tricky rush line work. A clever dribble and bunt by W. Rustin brought the ball across the Young Men's Christian association goal line. Fred Rustin tried a kick for goal, but missed. At the close of the first balf hour the score stood 4 to 0 in favor of the Students.

When time was called the Young Men's Christian association kicked off the ball Their rush line worken the sphere in front of the college goal, Morrow, Sheldon, Osgood and Connors cushing the ball in great style Thomas, Patrick and Morseman secured the ball and by a series of brilliant passes and rushes got the sphere over the Young Men's Christian association line again. William Rustin punted the pigskin over the goa beautifully, raising the score six points. The game now stood 10 to 0.

Again the collegians kicked off, and had gotten the ball into the Young Men's Chris-tian association's territory when time was called with score standing 10 to 0 for the

RACING ACROSS THE RIVER.

Plans Laid for the Next Meeting at Union in W Park.

FULL LIST OF, ENTRIES UP TO DATE.

One Finish at Latonia That Did Not Suit the Crowd-News from the Other Race Tracks.

The early fall meeting of the Union Park

Racing association will be held next Tuesday, Wednesday, Thursday and Friday, Sep tember 8, 9, 10 and 11, at Union Park, Council Bluffs. Liberal preparations have been made for this session and the management is anticipating the most successful and profitable meeting ever held here. The spring meet was a most satisfactory one, but every effort will be put forth to made this a bigger success in all details. The list of entries is much larger and embraces a much larger number of well known horses. The purses aggregate in the neighborhood of \$7,000

In addition to each day's excellent trotting and pacing programme there will be seven running races, including two hurdle races, interspersed, and this will afford ample ex citement for those who fancy the bang tails. In fact, the management has exercised much discretion in preparing the week's card, and it is not extravagant to state that it has never en excelled here.

The park at present presents a beautiful view with his magnificent track in primo condition, its remodeled grandstand and other buildings, new fences and closely cropped sward. Every day the track is alive with the nags in training, and the sight of which well repays a visit there. The electric motor cars from both this city and the Bluffs run directly to the grand stand, thus obviating all inconvenience in reach-ing the scene. Nat Brown is head over heels in the preparatory work, but will always be found ready to give any and all in-formation that may be desired. The complete list of entries is as follows:

Woman's First Husband Come Back to Trouble Her.

NEW YORK, Sept. 5.- A suit for aivorce t cending in the New Jersey court of chancery under peculiar circumstances. Fifteen years ago the defendant in the case was a girl of

16, and was married to a young man of fine prospects in life and a well known name. In less than a week after the marriage, he was arrested for crime, convicted in the courts, and sent to state prison for a term of years. A lawyer informed the young wife that the sentence was equivalent to a decree of divorce and in the course of a year she was married again and had a child.

Two years atterward, having discovered her second husband's infidelity, she sought and obtained a divorce from him. Some time afterward she was again courted and married, and has lived happily with the third busband and raised a family. This husband is in entire ignorance of the first marriage. Two months ago the first husband called upon the wife and made hirrself known, an explanation followed. He had no desire, he ud, to claim her or make their relationship known, but simply wanted a legal dissolution of their marriage in order that he might marry without bigamy, hence the suit with the first husband as the petitioner.

There is no contradiction of any of the facts asserted in the petition. The case was before Special Master in Chancery John Whitehead of Newars yesterday, and he will probably advise a decree, and it will be nee essary for the wife to go through another marriage with her third husband in order to legitimatize her children. Her husband has yet to be informed of the state of things.

PEARY IN THE FROZEN NORTH.

Some of His Companions Return and Tell Dismal Tates.

PHILADELPHIA, Pa., Sept. 5.-The members of the West Greenland expedition that traveled with Lieutenant Peary a part of the way into the frozen north, who have returned to this city, say that unless rescued by a relief expedition, Lieutenant Perry and his entire party will never be heard of again. There were eight in the company that landed at Baltimore yesterday from the steamship Nova Scotian from St. Johns, N. B. They were sent by the Academy of Natural Science to investigate the geology, botany and biology of western Greenland. Dr. Robert N. Keeley, one of the party, says: "Our expedition was entirely distinct from

Lieutenant Perry's. He went intending to push to the furthest point north yet reached by man. We went merely to study the west coast of Greenland and bring back specimens. We were exceedingly successful, but every member of our party, I believe, considers the situation of Peary and the seven companions he now has as most perilons. He is about six hundred miles north of Upernavik, the Danish town which trading vessels reach about once a year. His idea when we left him was to push several hundred miles northward toward the pole and to get back to Up

ernavik again by August I next. "In the first place, north of Upernavik stretches Melville bay, which has always baffled navigators. We, in our little barken-tine, the Kile, were for three weeks packed in the ice of the bay and had given up al bope of getting through, when it finally opened up. But we brought back the Kile with us and Peary will have to de-pend on his whale boat to get him south."

FROM THE HARVEST FIELDS.

Stories of Large Crops and Well Filled Granaries.

GREATLY IMPROVED BY RECENT RAINS.

All Cereals in Excess of Those of Any Previous Yield While Potatoes Fall Considerably Below the Average.

DETROIT, Mich., Sept. 5 .- The Michigan crop report, issued monthly by the secretary of state, gives the following important figures on wheat, which are returned from threshers up to August 25: Jobs, 3,348; acres, 79,384; bushels, 1,431,403; average per acre, 18.8 bushels; number of jobs reported threshed in the central countles, 449; acres, 4,066; bushels, 63,441; avorage per acre, 15.60 bushels; number of jobs reported threshed in the northern counties, 66; acres, 353; bushels, 3,235; average per acre 9.16 bushels. The figures indicate a total crop in the state slightly in excess of 25,000,000 bushels. Oats in the southern counties yield 35.48 bushels and in the central counties 30.78 bushels per acce, and bartey in the state averages 10.26 bushels per acre. Potatoes will yield about 85 per cent of an average crop. The crop has been injured by the drouth, but the recent rains will greatly improvent. Winter apples will yield about 30 per cent and late peaches about 31 per cent of an average crop. Oats in the central and northern counties are not all stored, but have been considerably damaged by wet weather. Some wheat in stack is also injured. Late corn is in a condition to

be greatly improved. Sr. PAUL, Minn., Sept. 5 .- As threshing progresses throughout the northwest reports of large vields of wheat increase in number. Fifty tushels to the acre comes from Devil's Lake, N. D., while Bottineau county, in the same state, where the piece of wheat of the New Orleans World's fair was grown, claims that all of its wheat this season is of the prize winning kind. The most conservative estimate places the wheat yield of Minnesota and the Dakotas at 125,000,000 bushels as against 90,000,000 bushels inst year. The Great Northern people claim that the wheat crop in the three states would fill a train 250

miles long. Sr. Louis, Mo., Sept. 5.-The secretary of the State Board of Agriculture furnishes the Associated press with the following weather crop bulletin, for the week ending Saturday, September 5: The rainfall for the week was elow normal for the state; two counties only -St. Louis and Monetau-reporting an ex-C655. cess. St. Clair and Christian counties re-ported light frost, slightly injuring late corn. The temperature was below the normal, frost being reported from Holt county, but no damage. Sunshine above the normal and very beneficial to fruit and cora, especially in the northwest section. The week, while splendid for farm work, plowing and wheat and corn cutting was not seasonable for maturing corn, the weather being too cool. Des Morxes, Ia, Sept. 5.-This week's bulletin of the Iowa weather crop service says: Frost on the 3d and 4th did slight damage. Corn made slow progress, and at least two weeks warm weather is needed to place the bulk of the crop beyond dauger. About one-third will require all of September without frost to mature, and the prospect is not favorable. All other crops are excep-tionally heavy. Fail plowing is in progress and there will be a large increase in the acreage of winter wheat and rye.

TOPEKA, Kan., Sept. 5.—The monthly cror. report issued this evening by Secretary Moh-ler of the State Board of Agriculture says

that Kansas, throughout its entire breadth, has bountiful harvests of all kinds. In some localities corn has

suffered from insufficient rainfall, yet the state as a whole has never had a more en-

couraging outlook. Since wheat has been

threshed the estimates of the total yield of

both spring and winter has increased 5,000,

Stein Couldn't Win It.

Sioux Cirr, Ia., Sept. 5.-[Special Telegram to THE BEE. |-Stein pitched a fine game today, but let down slightly in the sixth and seventh, when Sioux City bunched its hits and won. In the third, fourth and fifth Stein struck out seven men in succession. Hart was very effective and the battle was wholly with the pitchers. The score would have been smaller but for inopportune errors by McGlone and Fields.

BROUGHT TO A HAPPY TERMINATION.

How Ontario Officials Hush Boudling Scandals.

OTTAWA, Out., Sept. 5 .- The Gaie des Chalierus rritroad scandal will be brought to a happy termination as the result of a conference between the lawyers retained from the various interests. The application of the new company for the dominion act of incorporation was opposed by the Ontario bank and the McFariane estate. Incidentally, during the state com mittee's inquiry, all the boodling disclosures reached by which the measure will not be

further opposed. The new company has agreed to incorporate a clause in the bill pro-viding for the deposit of \$150,000 in the bank of Montreal as security for the payment of Sub-contractor McFariane's claim and also to pay whatover award is made by the courts in the civil cases now in progress.

French froops.

PARIS, Sept. 5 .- The second series of the

great French army maneuvers, in which 110,000 men took part, commenced today. It will last antil September 9 and consist of a five-day's battle between General de Galliffe and General Davout, under the supreme di rection of General Sousier, military governor of Paris, who already has been designated as the probable commander-in-chief of the French armies in case of war.

Special Examiners Appointed.

WASHINGTON, D. C., Sept. 5 .- Secretary Noble today appointed Otis Staples of Minnesota, Harry C. Miller of Minnesota, A. C. Rhinehart of Minnesota and Fred A. K. Debs of Minnesota, G. A. Lawrence of South Dakota, William Hull of Virginia, and E. L. Brookway, of Wisconsin, to be examiners of timbor lands on the White Earth Indian reservation under the act of January 14, 1889.

California Weather.

SAN FRANCISCO, Cal., Sept. 5.-The first rain of the season fell today in the coast counties of California and in some parts of the central valleys. At no point was the precipitation great, and no damage was done to grapes or other crops. The weather bureau indications point to generally settled weather for the coast, with occasional show-ers in the valleys of this state.

Axtell's Valuation Raised

INDIANAPOLIS, Ind., Sept. 5. - The tax commissioners have ruised Axtell's valuation to \$15,000. The chairman of the state tax comnission said the assertions that Axtell had cost \$105,000, was untrue; that the price paid was \$50,000. In the house a resolution was adopted, showing the sense of that body to be that when the present penitentiary lease expires there should never be another made. The bill prepared by the joint military committee, empowering the governor to call out the militia, was introduced in both houses, and the parole bill, authorizing the governor, in his discretion, to parole all con-victs serving terms of not more than five years, provided they have served the min-imum sentence prescribed for their offense, was introduced in the senate. Among the bills introduced in the house

today was one making it a felony to engage in a prize fight, with or without gloves, or to aid or abet a fight.

Involving a Townsite.

LOUISVILLE, Ky., Sept. 5 .- On the third Monday in October 15,000 acres of ground, including the site of the town of Elizabethtown, is to be sold. A judgment was rondered in the Hardin circuit court on Decem ber 13, 1860, in favor of Paul M. Spofford and others of Philadelphia against John Walson and others, the amount involved being about \$40,000. The property in question was pat-ented by the state of Virginia to Nicholas Low in 1786 and the plaintiff secured his judgment in 1860 for money advanced to the \$40,000.

atentee Many citizens of Elizabethtown are alarmed, but it is not believed titles will be affected, as they claim ownership under an older patent.

New Sugar Beet Pest.

SAN FRANCISCO, Cal., Sept. 5.- A new and damaging insoct has recently made its appearance at 'Watsonville, where it has attacked beets grown in that vicinity for the sugar factories. The new insect is of an unknown species and is a sort of mystery to scientists. It is feared that the ravages of this new neet pest will seriously affect the sugar beet industry on the coast, which is just beginning to assume large proportions.
