Secretary Sutton Speaks Concerning the Meeting of the Irish National League.

COMPLIMENTING SENATOR PADDOCK.

Carclessness Causes the Loss of Three Dozen Fine Horses by Fire-Suicide of a Lincoln Young Man.

Lixcoln, Neb., Sept. 5 .- | Special to Tun Bug.]-A representative of Tue Bee called on tion. John P. Sutton, secretary of the Irish National League of America, and elicited the following information regarding the forthcoming convention at Chicago. In reply to the query whether the convention would be in favor of the Parnellites or anti-Parnellites Mr. Sutton made the following statement:

The convention will be perfectly independent of all Irish factions. In accordance with the resolutions of the Cincinnati council meeting, offers of arbitration were made to Parnell and McCarthy. Parnell's answer was studiously evasive and McCarthy made no reply. When the convention was called to meet at Chicago October 1 and 2, the following cablegram was sent the leaders of each faction:

onvention meets Chicago October 1.' Mr. Parnell replied as follows: Regret unable visit America October, sibly later what do you suggest? "Mr. Parnell probably wanted a further postponement of the convention; but the days for sub-mission to the whims of Irish leaders have passed forever." said Mr. Sutton Mr. McCarthy, after many days of medita-

tion, answered :

Cablegram received, thanks ! "By Parnell in power and Parnell out of power, and by the members of McCarthy's following, whether united or disunited, the treatment accorded to the Irish National league of America has been cowardly discourteous, and I may say, treacherous, de-clared the gentleman. "You can therefore be perfectly certain that the coming convenwill be entirely independent of Irish fac-

"But have you not seen comments in Catholic newspapers stating that the convention was to be a Parnellits convention! Sutton smiled and replied:

My dear sir, what the average editor of a distinctively Catholic newspaper does not know about the Irish movement would fill volumes. Excepting a half dozen really able ournals, the rest are mere—barnacles on the Catholic church. The respectable class of Catholic papers are slow to form opinions on matters of which they cannot be supposed to have a thorough knowlege, and they value too highly their character for truth and sound judgment to rush into editorials on the basis of imperfect information. The barnacles make up for deficiency of intellectual power in the vehemence of their scurrility and the shamelessness of their falsehoods. The call for the convention, made on the broadest possible basis, the objects for which the gathering has been convened, the very wording of the circular, all point to the desire of the league executive that this convention shall devote its sole attention to the adoption of the best means to reunite the Irish peo-ple and remove from the Irish name the disgrace inflicted upon it by the present condition of affairs in Ireland. There will be rumors and whisperings of trouble at this convention, as before at all previous conven-tions of the Irish race, but the coming gath-ering will only be one more proof of the conservatism of the Irish character, and like its predecessors, the next convention will be one of harmony, and in that quality, in marked contrast to many American political conven-tions that I have attended."

A resolution adopted appointing Traffic Managers White, Hawley and Hannaford, repefic and Northern Pacific respectively, to act with Commissioners Walker, Smith, Finley and Vining, in preparing a schedule for emigrant and other transcontinental business. Another important case that was heard relates to rates and divisions on copper matter from Montana points. This is a case in which the Union Pacific claims a larger division of the rate west of the Missouri river than its connections east of the river are willing to concede to it. The decision of the ommissioners will be awaited with no little interest in the latter case by the lines con-necting with the Union Pacific at Omaha.

WILL STUDY INDIAN IDEAS.

Secretary Proctor Determined to Prepare for the Future.

WOUNDED KNEE NOT TO BE REPEATED.

Competent Officer Detailed to Thoroughly Investigate the Views of the Red Men Concerning Battle Field Movements.

> WASHINGTON BUREAU OF THE BEE,) 513 FOURTEENTS STREET, WASHINGTON, D. C., Sept. 5.

Secretary Proctor has determined to pre

pare for the future handling of America's warlike Indians. He found during the scrimmage with the Sioux of the northwest last winter that the army officers were deficient in knowledge of the Indians plans of carry ing on war. It is the general idea with America's soldiers and citizens that the Indians rely upon their dash and cunning for success in battle; that they have no well matured plans for organizing and carrying on battle. It is true they do not have quadruple lines and care nothing for the tactics of regulars, but it was soon found that they do not fight without system and deliberation, and that in skirmishing and attack they are superior to soldiers, both regular and citizens Secretary Proctor has detailed Captain Cussick of the army to ascertain all possible information about the Indians' modes and write them out in a comprehensive report for general circulation in the army and the In-dian sections of the country generally. Concerning Douglas' Successor.

It is said, by way of explanation of the ap pointment of a temporary resident of Hayti as minister to that country to succeed Fred Douglas, instead of naming one of the many applicants among the colored republican from Ohio, Indiana, New York, states that the president arrived at the con-clusion some time ago from what Minister Douglas and others ramiliar with the subject reported to him that it would simply be ar experiment to send another man to that pos-directly from the United States, as few mer would be willing to suffer the ordeat or take important that some one should be named who was acclimated. War Department Rumors.

At the war department this afternoon was announced that nothing was known of the report that the neadquarters of the department of Arizona were to be removed from Diego to Denver and Colorado taken from san Diego to Denver and Colorado taken from the Department of the Platte, as stated in a regular dispatch from Omaha this morning. There has been some dissatisfaction among certain officers with the present arrangement, but no one here appears to know of any contemplated step like that suggested in the Omaha dispatch. NOT YET RECOGNIZED. Chili's New Government Has Not Been

Recognized by This Government. Washington, D. C., Sept. 5 .- Whether of not the congressional junta has been recognized as the de facto government of Chil cannot be officially learned at the Department of State, as the acting secretary refuses to make any statement whatever on the subject. Nevertheless there is good reason to believe that, acting upon Minister Egan's information, that the authority of the junta is suprime in Chili, he has, as already predicted, been directed to open relations with them. If there has been any question as to the proper treatment of the refugees aboard Admiral Brown's flagshin—the Balti-more—it has been decided by the admiral himself, as appears from the following cablegram received by Secratary Tracy from bi-

this afternoon:

Valparatso, Chill, Sept. 5, 1801.—The Baltimore left yesterday for Mollendo, Peru, taking away twenty refugees whose lives were not safe in Chill, no other way to reach neutral territory. The Baltin ore to return without delay. Excitement subsiding raindity.

They Sinned and Sought to Hide Their Shame in Death-Australian and

SAS FRANCISCO, Cal., Sept. 5.-The steamship Mariposa arrived today from Australia via Honolulu.

John Domini, prince consort of Hawaii, died August 27 from a sudden attack of pneumonia. Queen Litiuokatini is much affected by the death of her husband. His remains were lying in state at the palace when the steamer left. Domini was born in Schenectdy, N. Y., in 1838, his father being an Italian and his mother an American. He was taken to Hawaii when a child and has since resided there, except for a few years during the California gold excitement, when he lived in that state. He was married to the present queen of Hawaii several years ago.

There was a severe shock of earthquake on the island on August 25, but no great damage resulted.

The Mariposa was delayed one day in arriving here because of a severe storm be-tween Sydney and Auckland. The pilot house and smoke room were stove in the cabins flooded and considerable other damage done. Antonio, one of Mme. Bernhardt's valets, and the ship's doctor were slightly injured. The steamer was six days in making the passage between Sydney and Auck-land, which is usually made in four days. Among the steamer's passengers were Mmc. Bernhardt and company, who were tendered a reception on arrival here. When the steamer loft Sydney John L. Sullivan's combination was about to proceed to Melbourne. A number of Americans greeted Sullivan on his arrival in the colonies, but no reception of note was given him. Sullivan proceeded to indulge in liquor on his arrival in Sydney, but did not create any disturb-ance. Captain Haywood stated that the stories of Sullivan's conduct on shipboard were much exaggerated. A party of five roughs attacked Sullivan while in Her Majesty's saloon, but Sullivan and his compan-ions promptly knocked them down, after

which the roughs escaped.

All accounts of the Goddard-Choynski fight, the result of which was capled at the time, agree that the contest was one of the most desperate ever seen in the colonies. Both men were bathed in blood in the second round. Goddard was the stronger and his rib blows, together with his right swings on the jaw, eventually decided the fight in his favor in the fourth round.

A warrant had been issued for their arrest and it is presumed this came to their knowledge, for a the vessel reached port. Davidson shot him
