It is better to come and be fitted—no trouble to us.

Second floor.

Our Goods, Our Methods and Our Prices are Correct. The Lasting Satisfaction of the Customer is the Condition of Every Sale.

THE OMAHA DAILY BEE

HER LOVER TO THE RESCUE

A Pretty Young Emigrant Faved from Being Sent Back to Germany.

SHE WAS SICK AND WITHOUT FUNDS.

But a Young Man at Lincoln Loved Her and Put Up a Bond to Care for Her Through Life.

LINCOLN, Neb., Sept. 5.—[Special to THE BEE.]—A pretty little romance is told in which one of Lincoln's young men figures as one of the principals. It is as follows:

On last Tuesday there landed in New York among the other passengers a pretty young German woman. She was unattended and was very sick. The commissioner of immigration inquired into her case and learned that she had come alone all the way from Germany to join her lover, who was in Lincoln, Neb. She had a ticket to that city, but had no money. She was almost crushed with despair when she was informed that under the paper immigration act they would be obliged to send her back to Germany unless she had friends who would furnish a bond guaranteeing that she would not become a charge upon the charity of the country. The sick girl said she had only one friend in the United States and that was her lover in Lincoln and that his name was Olaf J. Linder. The commissioner telegraphed to the lover the state of affairs and he wired back to allow the young lady to come on as they were to be married. The commissioner telegraphed back that it would be necessary for Linder to give a \$1,000 bond for the young lady and that she would be sent back to Germany again. This was received yesterday afternoon and Linder hurriedly banded up an attorney, had a bond drawn up that would care for her the remainder of her natural life, and then forwarded it to the officials in New York.

Linder and the young lady were lovers in Germany and were engaged to be married. Not making money, she was in a difficult land, he decided to seek his fortune in America, promising to send for her when he had accumulated sufficient to build a home. The heart of the young German girl, however, yearned for her lover and she decided not to be kept away from him by a mere matter of dollars and thought to give him a pleasant surprise by crossing the ocean and coming to him in Lincoln. The surprise was prevented by the events detailed above, but in a few days she will be with her lover, who is impatient to see her. Meanwhile he is fitting up a cozy cottage and on the evening of his sweetheart's arrival the home will be consecrated with a quiet little wedding.

CONCERNED AN AMAZON.

Deputy Sheriff McFarland returned last evening from North Bluff precinct, whither he had gone to retrieve a female school house. He demanded peaceable entry and possession, but Mrs. Webster's didn't shoot, and sullenly gave up the battle. The house was moved and the war is ended.

ACIDENT OR SUICIDE.

It is believed that the death of Rosa Sprague, the domestic in James Aitken's family, was accidental rather than suicidal, as she was addicted to the use of chloroform. Several empty bottles marked with the name of that drug were found in the trunk of the dead girl, and the undertaker who prepared her for burial found another partially filled in her stockings.

The home of the deceased is at some place in Michigan, where her father now resides. She married a man named Waldman about eight years ago, and with him removed to Seward county. Waldman discovering that his wife was untrue, left her. She afterwards secured a divorce from

him, and was restored to her maiden name. Soon afterwards she went to live with a man named Jack Anderson, and passed as his wife at Columbus and Seward until three years ago, when Jack was sent to the penitentiary. She was a well built woman and about 20 years of age.

The commissioners refused to allow the corner to hold an inquest, asserting that it was too expensive. The remains were removed to the undertaking rooms of Roberts & Co., and on an order from the commissioners was interred in Wyuka cemetery this afternoon.

CANNOT CHANGE THE SITE.

The following decision has been handed down by Hon. E. K. Goudy, superintendent of public instruction, in the case of district 15, Fillmore county, on the legality of the action of said district in changing the school house at an adjourned session of the annual meeting:

Section 4, sub-division II, provides that the qualified voters, when a time as may be necessary to designate a site for a school house, and to change the same by a similar (two-thirds) vote at any annual meeting.

The former language of the statute was: "And to change the same at any regular meeting."

The word "annual" in our present statute meant to designate a site for a school house, the suggestion of a former superintendent with the purpose of making the meaning of the law as it is now.

In 1874 a bill was introduced embodying the interpretation of this provision in this particular point. This bill, which provided for locating a site, then in a separate act, to change a site (two-thirds) vote at any annual meeting.

The former language of the statute was: "And to change the same at any regular meeting."
