BRITISH REVIEW OF TRADE.

Average Price of Wheat in Excess of Last .Eesson.

FLOUR FIRM WITH A GOOD INQUIRY.

Russian Ryc Shipments Ended With But a Small Quantity of That Cereal Now on Passage to the Continent.

LONDON, Sept. 7.-The Mark Lane Express, In its weekly review of the British grain trade, English wheat has brought an average price of 41s. Some new English wheat sold for 43s per 504 pounds. The average price of Enelish wheat shows a net advance over last season of 4s 31 per quarter. The prices of foreign wheats are against holders. There has been an average drop in red wheats of 5d and in Californian of 9d. Fine California is quoted at 45s 6d.

Flour is firm, with a good inquiry; American corn is weak; September American shipments

Onts are from 6d to is dearer. The Russian rye shipments have ended and there are but 60,500 quarters now on passage to the conti-nent, against 244,000 quarters at the corre-sponding period in 1800. Cargoes are unsal-able above 42s d. against 46s a fortnight ago. A number of speculators lost heavily.

At today's market new English wheat brought barely 40s; business was dull; foreign wheats averaged 6d lower.

Outs were down 6d. The prices of barley. corn and bears and peas were against sellers.

Liverpool Markets. LIVERPOOL, Sept. 7.-WHEAT-Quiet; demand poor; holders offer moderately; California No. 1, 8s 11d per cental. No. 2 winter.

Havana A arkets. HAVANA, Sept. 7.-SPANISH GOLD-\$2,3346 EXCHANGE—Quiet on the United States: ort sight gold, 10% premium; on London SUGAR--Quiet; nothing doing, holders aloof

New York, Sept. 7.—Henry Clews, the banker, says: The upward movement which started in so energetically several weeks ago continued to hold full sway during the early part of the present week, the result being another sharp advance in nearly all the prominent shares; but at this juncture the long-looked-for reaction made its appearance, and the most successful buil campaign seen for many a day was brought temporarily to a halt and the hears for the first time in five weeks were allowed to take an imning. When it is t ken into consideration the enormous advance which has taken place in such stocks as Chicago Burlington & Quinev, Rock Island, Lake Shore, Missouri Pacific, Northern Pacific preferred, and in fact all the prominent shares actively traded in, it is not surprising that the market should receive a setback, but on the other hand, to have been able to stand the strain of moving in one direction for such a long seried, outwithstanding free residence. Traders' Talk. strain of moving in one direction for such a long period, notwithstanding free realizings from time to time, clearly demonstrates the good quality of the market and the improved condition of affairs brought about by the wonderful crops with which this country has been blessed. With the almost famine crops which has reported in nearly every country which are reported in nearly every country other than the United States, it is interesting to compare the figures of our last year's crops ith the estimated figures for this year's

......1,489,970,000 2,040,000,000 550,030

300,202,000 585,600,003 185,738,000 523,621,000 700,000,000 176,379,000 27,140,000 29,000,003 1,862,000 for shipment to this country from the continent. It is understood that these are "special" transactions, as the rates of exchange are not yet low enough to admit of gold being imported at a profit. It will be remembered that a great part of the gold recently shipped from this country was taken from us under was termed "special" transactions. It is highly gratifying, therefore, that the first consignments of the return flow should come back to us under the same heading. These "special" transactions will probably favor us from now on, and it is expected that the movement to this side will receive a fresh impetus soon, as foreign exchange is becoming heavier each day, and, if continued, will soon be at the gold importing polat. Under these circumstances it is not unreasonable to expect that, if not the whole, at least the greater part of the precious metal which was taken away from us will soon find its way back again to its naturai resting place. The money market, during the past week, has shown signs of working a little closer, the fates for demand loans one day having ad-

vanced to 5 per cent, while time loans commend the full legal rate for nearly all dates. This is but matural at this time of the year, as the currency movement is always against this ceptre, owing to the argent demand for money to move the crops. Still, there seems to be no grounds for upeasiness on this secre, as the imports of gold, which are expected to continue, will be apt to check any tendency towards stringency in money. The rates this year are in marked contrast to the high rates which fuled a year go, when call money was quoted at a premium of one-half of 1 per cent per diem and interest—equivalent to 185 per cent per annum. Secretary Foster's pet scheme of extending the 45 per cent bonds at 2 per cent has not been entirely successful, as the holders of only about \$2,000,000 have signified their intention of taking the new bonds. There is no alternative, therefore, for the government but to redeem the other \$2,000,000, which will increase the circuintion to that extent.

Taking the situation as a whole, it is certainly favorable to an ultimately higher rance of values, but there are several things on the surface which may retard for the time being any further pronounced upward movement, and which it will be well not to lose sight of. Union Pacific's affairs still continue to be somewhat tangled; rumors of a receiver, together with a statement that the collaterals held against an uncancelled loan had been thrown on the market by a bank which became impatient at the delay in taking the loan up, have caused that stock to be looked upon again with a little suspicion both at home and sbroad. Another thing to be watched is the statement issued by the Bank of England as having a bearing on the future conditions of affairs across the water. This week's tatement shows that the proportion of reserve to liability has declined from 45.7 inst week's to the find and the proportion of reserve to liability and bearing on the future. But the proportion of reserve to liability and the proportion of reserve to liability

OMAHA LIFE STOCK MARKETS.

OMAHA, Sept. 7.

UATTLE—Official receipts of cattle, 3.8 8 as compared with 803 Saturday and 1.022 Monday of last week. The market was slow and about steady on good grades and a shade lower on common grades of beeves and butcher stock, and slow and about steady on the best grades of feeders, and slow and lower on other grades of feeders. The receipts of butcher stock, feeders and stockers were very large. OMAHA, Sept. 7.

Hoss-Official receipts of hogs 373, as compared with 2,907 Saturday, and 68 Monday of last week. The market was steady to strong. All were sold. The range of the prices paid was \$4.93 as compared with \$5.00 Saturday and \$4.94 Monday of last week. ast week.

Fourth infantry, had carried off the Inter Ocean purse of \$100 to the enlisted competitor, making the great-est number of bullsoyes at 200, 300 and 500 yards. His score is as follows: Two hundred yards, four bull's eyes; 300, three; 500 eight; total, fifteen.
Licutenant W. N. Hughes, Thirteenth infantry, won the gold medal offered by the Tribune to the officer making the greatest number of bull's eyes at 200, 300 and 500

total of twelve.
In the afternoon the shooting was begun at ood vards and at that range closed two contests. One, the Inter-Ocean gold medal to the officer making the highest score at 200, 300, 500 and 600 yards at bullsave firing, was won by Lieutenant F. D. Ramsey, who scored 167 points. Lieutenant W. N. Hughes was a good second, making 166 points, and Lieuten-ant Colonel W. D. Hotchkiss, Second Illinois infantry, 164 points. Lieutenant Colonel Hotchkiss won the prize offered to the officer making the greatest score at 500 yards in bullseye firing. He scored forty-five points, which is reparded as remarkable shooting. General Miles was on the range this afternoon. He occupied a seat on the grass close enough to the men firing to smell the powder smoke and congratulate them on a lucky shot. One week tomorrow the prizes, medals and purses wil be presented to the successful contestants by General Miles in person, with

stipation and liver regulator.

10c lower. There were about 4,500 of them and they sold on a basis of from \$1.00 to \$4.05. Texans were in large supply and the average quality was common, the proportion of cows

eing larger. The early market was active and strong. [CONTINUED FROM FIRST PAGE.] and the Omaha Flower company.

The early market was active and strong. Shippers and packers buying freely at from 24-5 to 5c advance. The market continued to display fair activity, but after the middle of the forenoon there was a weaker feeling and the close was at substantially Saturday's quotations. From \$4.50 to \$4.80 for grassers and rough stuff, prices ranged opward to \$5.55 for fancy, heavy. The greater part of the supply, however, changed hands at from \$5.20 to \$4.40 heavy weights going largely at from \$5.20 to \$4.40, and from \$3.10 to \$5.35 taking the bulk of the light and medium. Grass hogs were neglected at from 55c to \$1.00 off from the prices paid for those fatted on corn.

ARMY MARKSMEN.

Some Good Shooting at Fort Sheridan Yesterday.

CHICAGO, Ill., Sept. 7 .- Shooting began in earnest at the national tournament at Fort Sheridan today. The tempting purses and golden medals brought forth the vest efforts of the marksmen and some phenominal work was done.

Lieutenant Ramsey drove seven leaden missiles out of a possible ten through the blinking bulis-eye at the 600 yard range. Sergeant A. C. Austin pierced eight out of a possible ten at the 500 yard limit, and a score of forty-eight points with only fifty chances was made by a crack shot from the

Today, besides being the opening of the tournament proper, was the day set apart for bulls-eye firing. Two purses, four gold medals and one prize were offered. Sixtyeight competitors including Lieutenant Colonel W. D. Hotchkiss and Captain John H. Ingraham of the Second infantry, Illinois National guards, entered the lists. Firing began early and continued incessantly till darkness intervened. Use of the 1,000 yards

medal the contest at the close of 800 yards firing seemed to rest botween Lieutenant F D. Ramsey, 210 points; Lieutenant Colonel W. D. Hotchkiss, Second Illinois infantry, 202 points, and Lieutenant W. N. Hughes, Thirteenth infantry, 198 points. The three highest in the contest for the enlisted men's purse are: Private C. H. Clark, company E. Fourth infantry, 115 points; Private D McKenzie, company D. Eighteenth infantry 210 points, and Sergeant S Kenny, company J. Eighteenth infantry, 209 points. While it is generally accepted that the three named in each of the above con-tests will include both winners, it is possible that bad luck on it is possible that bad luck on their part, accompanied by some phenomenal work by some one dangerously close in the final acore, will change the outcome ma-terially. When the shooting began the cavalry men held their own splendidly with their infantry brethren, but when the long ranges were reached their "shooting irons" were far too short to compete with the "long toms" of the footmen. Jackson, the colored crack of the "Fighting Ninth" missed the target entirely several times in the 800 range. When the signal was given for dinner the firing had been completed on the 200, 300 and 500 yard ranges and a gold medai and a \$100

yards. Lieutenant Hughes secured three bull's eyes at the 200 yard range, four at the 300 yard, and tive at the 500 yard, making a

appropriate military pomp. Use Haller's German Pills, the great co n

boda, W. J. Hesser, B. Hans, Sawyer & Co.,

A better exhibit was never seen in Art ball than that crowded into its octagonal quarters this year. The needle work rises truly into the realm of art, and attracts a great deal of favorable comment. The paintings, crayon and pastel work are also superior to those of previous exhibits. There are many efforts that would attract attention anywhere. There are a number of clumsy, crude daubs, but they are in the

minority this year,

First and foremost among the work of
Nebraska's artists are the paintings contributed by Mrs. C. D. Alexander of Syracuse, The quiet country scene with cows in the foreground is regarded by many as her best effort, although the larger painting of 'Cows at the Brook,' lemons, begonias, glass of water and nut have each admirers. The pen work of Judge Higgins' 14-year-nid son, marry, of Grand Island attracts con-

picture of a Greek maiden on tapestry exe-cuted by Mrs. John B. Wright, The same lady also has a beautiful collection of china, hand painted, The head of the Madonna by Sarah C

surpasses anything else presented by that lady.
Among the more notable articles presented by Miss Mabel Merrill are the head of a dog nd a marine scene, both in pastel, and a very handsome screen. very nandsome screen,

Mrs. Mabel Clason has shown what she can
do in the "Roses" and "Dice Throwers." Mrs. Anna Junk shows herself to be

lever artist in her pictures of apples, ducks, figure pieces, rose panel and lemons.

Miss Edith E. Russell has an attractive display of china and a number of painting dis-playing unusual skill. The picture, "Lady Playing a Mandolin," is one of the most striking pictures in the hall. Pharoah's horses loom up as usual in no less than five different style of drawing and

coloring.
Among other artists who have praisevorthy efforts are Mr. George, Mrs. Bohanan, Miss Blanche Root, Mr. George and O. R Wilson, Among the other notable features of the

display are the brass work by Mrs. George K. Brown and the pottery work of Annie J. Mercantile Hall.

In this department are to be found the exhibits of local and foreign merchants who deal in articles in the main for use in the lousehold and in connection with it. The Kansas Sait company makes a large dis-play of rock sait and the following firms are also represented by fine exhibits, although the number is scarcely so large as had been expected yet all the space in the building is occupied: Young & Elder, music; Rudge & Morris, hardware; H. Wittman, harnesses; Korsemeyer & Co., sanitary plumb-ing; Herpolsheimer, bouse furnishing; S. B. Hobman, organs; Woodworth & Mc-Faul, harnesses; Reynolds Brothers, shoes; Normal university, specimens of penmar ship; Lakeside company, organs; Lincol Rubber company, rubber goods; Max Meyer & Bro., Omaha, pianos and organs; N. P. Curtice, pianos; Parker & Sanderson, shoes; Leighton, stationery; Davis & Son, car-pets; State Journal company, stationery; Nebraska university, herbaria, ornitholog-Nebraska university, herbaria, ornithological specimens, photographs of the college farm and sugar beet patches; Hardy & Pitcher, furniture; Crandail's pattern works; Bradley & Raising, white bronze monument and statuary; Hodges' iron works; Nebraska Mantel company; Rathbun's college, Omaha, specimens of penmanship. Webster & Rozers shoes mans drawship: Webster & Rogers, shoes, maps, drawings, mineral specimens, herbaria by child-dren in the public schools of Lancaster and Kearney counties, Weeping Water, Sutton, York, Seward and other cities. These displays were finished tonight.

On the Grounds.

Outside the buildings provided for the display of goods by the association there are There are every conceivable purpose. There are restaurants, English kitchens, dining rooms conducted under the auspices of almost every church in the city. These sauctimonious life supporters are ranged in one row, distant many feet from the hostelries which have not the seat of religion. Then there are confection aries, toy booths, cidar stalls, book stands and fakirs with freaks, and shows, catch penny devices well nigh innumerable. The

fied woman, which the militia boys drove out of camp at Grand Island is here, as is also the wild man of Alabama, and people are found who are curious enough to patronize In the space allotted to threshers there are about twenty of these peripatetic machines quartered. Each is connected with an immense traction engine by a belt. The noise they make when set in motion at the same ime is almost deafening, especially when he superfluous engines permit their steam to

escape and pierce the air with their shrill and demoniacal whistle.

In another section there are about fifty windmills revolving at the rate of a mile a minute before the breeze. Some of these work at a dizzy height upon iron and wood frames and others exhibit themselves at a istance of only a few feet above the ground Some are geared to pumps, corn shellers, elevators, and a dozen other machines, whil some are satisfied to revolve without doing

anything more. There are several acres of mowing ma chines, sulkies, plows, harrows, buggies and farmers' wagons, and the number is being constantly added to. In these respects the exhibition excells that of any preceding year. The display of horses and cattle will be re-

Turners' Prizes.

The medals offered by the State Fair association for turning and other athletic exer-cises attracted the following turnvereins: Omaha, Lincoln, Nebraska City, Plattsnouth, Sioux City and Fremont.

The exercises took place immediately in front of the amphitheater, and were con ducted during the races. Both entertain nents were, for this reason, within range of the spectator at the same time judges were Philip Andres of Omaha,

Kostlan, Fremont; Robert Schneider, The turning was of a very high order and frequently evoked peals of applause. The awards was made as follows: First medal, Fred Bretling, Fremont, 22% points out of a possible 30; second, F. Fell, Sioux City, 21% points; third prize, Fred Fruchauf, Omaha; fourth prize G. Blattert, Omaha. The presentation was made by ex-Governor Furnas in a very neat speech.

Programmine for Today. The programme is as follows. In passing

upon the blooded stock experts will be em Class A - Horses. Percherons, French draft,
Enclish shire or draft,
Class B - Cattle. Smort Horns, Herefords.
Class C - Sheep. Cgtswold, Southdowns.
Hampshire Downs.
Class D - Swine. Berkshire, Polana China.
Class F - Farm products. Flour, etc., wine.
Flass G - Textile, department. Silk and
wool.

wool.

Class H-Fine arts, Oil paintings.

Class M-Mechanical arts. Light machines, printing, bookbinding.

Class A-Horses. Oilydesdale. Cleveland Bays, grade draft, registered trotting horses.

Biass B-Cattle. Polied Angus. Galloways.

Red Polled cattle, Swiss. Devon.

The season of 1891 will be one that the farmers of the United States will not soon forget.

The Latest Conundrum. Why is Haller's Sarsapardia and Burdock like the most popular soap of the day. Because they both cleanse the skin and leave it both soft and velvety.

FREE DELIVERY.

Experiments in Small Towns More Than a Success. WASHINGTON, D. C., Sept. 7 .- The post-

master general was indignant when he

learned that during his absence on a vacation an ill-informed clerk in one of the bureaus of the Postoffice department had given out false information to the press, namely, that the free delivery experiments in small towns are not a success. He caused an examination of the latest reports from these experiments to be made, and found that they were succeeding beyond his most sanguine expectations and in a way utterly to confound the critics of the experiment. already an established fact, it is stated, that the increased revenue in those offices where the free delivery experiment is on trial ost pays for the increased expenditure. Even if the free delivery does not quite pay for itself, it is likely that the postmaster general will ask congress to consider the mestion whether the rural districts of the country may not properly expect this slight contribution to their postal facilities where, in so many quarters they have, up to the present time, been so limited.

CHILL'S PROVISIONAL GOVERNMENT. Minister Egan in Cordial Communica-

tion with It. Washington, D. C., Sept. 7 .- The Depart ment of State telegraphed to Minister Egan on September 4 that if a government had been formed by the congressional party which was acceptable to the people that he should recognize it and open communication with its head. Today, the 7th inst., the department received a telegram from Mr. Egan answer to the above, stating that a visional government had been established on the 4th inst, with Jeorg Montt as president nd was universally accepted by the and that he (Mr. Egan) was in very cordial ommunication with it

TO GUARD AMERICAN INTERESTS.

Dispatch of a Man-of-War to the Hawaiian Islands.

WASHINGTON, Sept. 7 .- Secretary Tracy this afternoon issued orders for the United States man-of-war Pensacoia, now at San Francisco, to proceed at once to Honeluiu. The state of affairs at the Hawaiian islands, resulting from the death of the prince con sort, is such that the presence there of an American man-of-war is regarded as neces-sary to guard American interests.

No Pension Deficiency. WASHINGTON, D. C., Sept. 7 .- [Special Telegram to THE BEE.]-General Raum said today that he had a surprise in store for the next congress. There has not been a session in congress for years that has not been called upon to appropriate not only for pensions to become due, but also for deficiencies in pension appropriations. The last congress was so generous in its pension legislation that it had been supposed that the next congress would be called upon to make up a large pension deficiency but General Raum says that for the first time in many years this office has much more money on hand than it needs to meet pension demands. He will not only come out even at the end of the year but will have an excess of at least of \$8,000,000. If General Raum is as good as his prophesy the next congress will start not only even but with a large sum to its credit. The last pension deficiency was \$31,000,000 and it was part of the load which helped swell the enormous bulk of the appropriation of the last congress. No such huge deficiency will stare the next congress in the face for it will start with \$8,000,000 credit to apply on pension payments of the next fiscal year.

Mexican Military Band. Washington, D. C., Sept. 7 .- Minister Romera, of Mexico, has written a letter to the Treasury department, asking whether the Mexican National Military band will be permitted to cross the boundary line if it accepts an invitation to go to Portland, Ore. to perform for the state exposition to be held there. He has been informed that the

band will be allowed to cross as desired. Four and a Half Per Cents. WASHINGTON, D. C., Sept. 7,-The amount of 4% per cent bonds received at the treasury department today for continuance at 2 pe cent aggregated \$223,000, making the total to date \$24,037,850. The amount received for redemption today aggregated \$262,400, making the total to date \$9,836,000. These figures do not include the transactions at the New York sub-treasury.

BLOODY DEED OF A DOCTOR.

He Shoots and Kills His Sweethcart and Himself. BLOOMINGTON, Ill., Sept. 7 .- Dr. Charles E. Ballard of Saybreck, Ill., and Miss Bertha Ison of Baker City, Ore., and daughter of the late Judge Ison of that place, were found dead this morning. Dr. Ballard, a young physician, came to this city Friday and ever since then has been importuning Miss Ison, who came here with her mother to attend college, to marry him. She thought much of him, but begged him to postpone the event until after her education was completed. This morning he appeared at the house and had an interview with Miss Ison in the par-lor. While talking with her he pulled out a revolver and shot her twice, once through the head and once through the heart, producing instant death. The doctor then shot himself nve times, dying in a few minutes.

MIXED POLITICS WITH BUSINESS. Why President Moffat and Superintendent Smith Left the Rio Grande. DENVER, Colo., Sept. 7 .- Official informaion was received here this evening that Mr. Moffat and Mr. Smith's resignations as president and general manager of the Rio Grande railway was accepted by the board t directors at their meeting in New York last Thursday. As the resignations went into effect immediately the road is at present without an executive. It is understood that the resignations of these gentlemen were brought about by the legal department of

with the management. CLEARING THE RESERVATION. United States Troopers Driving Out Illegal Settlers.

the road, it having some political differences

SAC AND FOX AGENCY, I. T., Sept. 7 .-Proops B and G, Fifth cavalry, began the work of removing the intruders from the Sac and Fox and Iowa reservations vesterday morning. Boomers are flying in every direction at the word of command. The low boys and renters move a little slower. but everything goes before the sweep of the soldiers. No resistance is being offered to the troops and it is expected the lands will e cleared of illegal occupants by the end of the week.

President Harrison's Doings.

Cape May, N. J., Sept. 7.-The president day pardoned Julies Street, of the southern listrict of Mississippi, who had been senenced to ten years imprisonment for violat g the pension laws. Pardon was refused Jasper Smith of the ame district sentenced to one year for per ury. The entire presidential family witnessed an exhibition drill by the Cape May Point life saving crew, Captain Eldredge, this after-Secretary Noble arrived this evening and he will stay at the presidential cottage.

Dangerously III. SAN FRANCISCO, Cal. Sept. 7.—United States Circuit Judge Lorenzo Sawver is dangerously ill at his residence from a severe attack of bronchitis. Three physicians were in attendance on him today.
