WIRES BACK ON THE BOARD,

End of a Long Struggle Among Chicago Speculators on 'Change.

HURT THEM WORSE THAN BUCKET SHOPS.

Cabinet Makers Apt to Win in Their Fight for Better Wages-Proposition for spanish Bull Fights Declined.

CHICAGO BUREAU OF THE BES, 1

CHICAGO, Ill., Sept. 9. The wires are to be restored to the floor of the Board of Trade. The matter has been discussed quietly among the members for several days, but until today there was no certainty what action would be taken. This will end a long struggle between the opposing forces among the members and will be the means of healing a great many wounds. The wires were taken off the floor in pursuance of a policy outlined for the present administration by the members of the board to crush the bucket shop evil. The sentiment which at one time was in favor of taking out the wires is now as strong in favor of putting them back again. The change among the prominent commission men has been a gradual one, forced by the realization that the taking off of the wires hurt the business more than it did the bucket shops.

IN THE LABOR WORLD. Affairs have taken a turn favorable to the striking cabinetmakers. Some of the leading manufacturers are getting tired of keeping their factories closed and their capital locked up, and are talking of a compromise. This week will see either a settlement effected or measures taken to wage determined war all

H. McCormack, local organizer for the Carpenters' Brotherhood, has mapped out a scheme for organizing all the carpenters within a radius of tifty miles of Chicago. DECLINED TO HAVE BULL PIGHTS.

The world's fair committee on ways and means has declined a proposition from M. Noyes of Madrid, who, in a letter to the exposition managers, says:

My friend Luis Mazantini, the prominent buil killer (in my opinion the first one), asked me if it would be possible to give buil fights in Chicago at the exposition time, and I transmit to you his consultation in order to have your valuable opinion.

LADIES PROPOSE TO HAVE HARMONY. The lady board of world's fair commis-Sioners, apropos of the charges that Mrs. Palmer had tampered with the minutes of the organization, passed a resolution introduced by Mrs. Logan to the effect that "This duced by Mrs. the action of these members, and that in the future any member of this board who causes anything to be printed or circulated to produce discord or inharmonious action, shall receive the cen-sure of this body and a petition will sent to the commissioner whom represents to ask for her resignation, and that another be appointed as her suc-

PROSPECTIVE CHANGE IN DISTILLERIES. Collector Chris Mamer is in Washington, where he will discuss with Commissioner Mason the project of adopting the weigning instead of the gauging system now in vogue in most distilleries. If the scheme is adopted it will result in cutting down the force of

Yesterday was the First regiment's seven-teenth anniversary and was celebrated by the regiment moving into its magnificent new armory at Sixteenth street and Michigan avenue. The armory is the largest and finest in the country

WANT THE BUILDINGS SAFE. A local paper says: At a secret meeting of the board of control of the World's Columbian exposition held yesterday afternoon, after the national commission had adjourned, the following resolution in substance was unanimously adopted:

Resolved, That the director general be in-structed to petition the secretary of war of the United States government to defail two competent and skilled engineers—one from the army and one from the navy—to examine and report upon the strength of the founda-tion and superstructure of the various worlds fair buildings now in course of con-

While the proceedings of the meeting were intended to be kept secret the fact leaked out. The act of the buildings and grounds committee a few days ago in enlarging the manufactures and liberal arts buildings, and adding great annexes to machinery hall, all of which had been published, aroused public attention. Then, the action of the construc-tion department in suspending work on the woman's building and the mines and mining building until the foundations had been strengthened, intensified the feeling. Night before last the grounds and building commit tee held one of its usual executive meetings and authorized the chief of construction to enlarge and strengthen the foundations of the big manufactures and liberal arts building, which covers thirty acres of ground, to meet the increased strain on it caused by the change in superstructure. All these facts rendered the action taken last evening by the board of control which represents the federal government as well as the local directory, imperative.

One of the commissioners said that the res-clution implied no criticism of the construction department, but the national commission s representative of the federal government and the various states wished to make sure yond a doubt that no point of safety was being overlooked. THURSTON ON GOULD'S HEALTH.

Hop. John M. Thurston of Omaha, who is at the Grand Pacific, does not think Jay Gould is the physical wreck that New York dispatches make him out. Mr. Thurston was with Mr. Gould on his recent hunting and fishing vacation in Idaho and the western states. "I watched Mr. Gould carefully," said Mr. Thurston to an Evening News reporter, "and I found no evidence of an un-dermined constitution. He fished longer and harder than any member of the party. Then he took long daily walks, frequently return-ing sunbursed and rugged as a miner. Now he has returned to New York and the sensational writers have made a mountain out of a mole hill. The whole matter is just this: Mr. Gould has an enormous fortune and he has arrived at that period in life when all sensible, successful business men leave the swirl of business cares to enjoy their money. 'How about the great railroad interests! Will Mr. Gould continue to direct his managers!"
"His sons are able to do that. Of course

Mr. Gould may think a certain amount of the supervision should remain in his keeping.

ANOTHER LARGE HOTEL. The World's fair district is to be improved with another large botel, for which plans are now being prepared. White & Coleman will erect a building on the southeast corner of Jackson Park terrace and Hope street, con-taining in the neighborhood of 2,000 rooms, to be devoted exclusively to hotel purposes This will be by far the largest structure of this kind in the city. The structure will be six stories high and will cover the entire site, which has a frontage of 525 feet on Jackson Park terrace by 125 feet on Hope

Bloody Three-Cornered Fight.

SAVANNAH, Ga., Sept. 9. - A terrible tragedy occurred at Pembroke Monday, in which three young men were mortally wounded, two of whom were the sons of Hop. J. B. Brown, ex-ordinary of Bryan county, and the Alpine district.

other Mr. P. H. Patrick, a highly respected oung man. The trouble arose over a dis-ute between the young Browns and Patrick in which they came to blows, over a small settlement between the parties. The other young brother to the one engaged interfered trying to seperate the parties, when Patrick mistaking his motive, drew a pistol and shot him. Then all three drew pistols and began to shoot. After all had emptied their pistols, fifteen shots being fired, there lay on the ground three voung men, who bad been friends from childhood up to the time of this The physician in attenuance seen after the affair occurred gave it as his opinion that all parties will die.

A Nerve Tonic.

Horsford's Acid Phosphate. Dr. Eohraim Bateman, Cedarville, N. J. ays: "I have used it for several years, not only in my practice, but in my own individual case, and consider it under all circumstances one of the best nerve tonics that we possess For mental exhaustion or overwork it gives renewed strength and vigor to the entire

SPOILED A BLOODY PLOT.

Boston Police Prevent a Murder and

Robbery. Boston, Mass., Sept. 9.—The arrest of James E. Cutier by the Boston police has spoiled a diabotical scheme to murder and rob, and brought to light a collection of infernal machines sufficient to blow up half the

Cutler's sister married Luther H. Rowe, a

wealthy manufacturer. Mr. Rowe's home is at Melrose, but his manufactory is at Haverhill. Cutler was angry because his wealthy brother-in-law refused to advance as much cash as his extravagant tastes demanded and tried to take his life. In 1888 he made the first attempt and was arrested and sentenced to two years' imbrisonment. As soon as he was released he again laid his plans to secure his brother in-law's wealth. He roomed on Chambers street, and after his arrest ves terday the nature of his plot was revealed. His original plan was to blow up his vic tim. He laid in a big stock of giant pow

der, nitro-glycerine, dynamite and a regular arsonal of firearms. In addition to these weapons he has many bombs ready for use. His original scheme was to conceal a bomb in an umbreila and leave it in Mr. Rowe's hands. Upon reflection he decided that there was too much danger to himself in that plan, o he abandoned it for the plan of blowing up But that might involve the struction of his sister and that scheme was

given up.

Last Wednesday he confided his plan to an old friend, William Butler. He and Butler had worked together in the same shop. He asked Butler's assistance in removing Rowe, and promised him half of the money that was expected as a result of the crime. Butler at first thought the whole matter was a joke, but when he discovered that Cutler was really bent on murder and robbery, he pre-tended to approve of the scheme in order to hold the man's confidence and then he re-vealed the plot to the police. Cutler's plan was to have been put in operation last night He was at the rendezvous waiting for his accomplice when the police arrested him. He and Butler were to have proceeded to Mr. Rowe's house in Melrose, Butler was to ring the bell, and it was anticipated that Mr. Rowe would answer the Bell in person. As soon as he opened the door, Cutler was to shoot him. If he missed his aim, Butler was to open fire. Then, having disposed of Mr. Rowe, the two were to cover Mrs. Rowe with their revolvers and force her to give up al the money and valuables in the house. In case she refused, she, too, was to be murdered.

Constipation poisons the blood; De Witt's Little Early Risers cure constitution. The cause removed, the disease is gone.

OUR RELATIONS WITH CHILL

Egan's Course Satisfactory-Samoan and Hawaiian Affairs.

WASHINGTON, D. C., Sept. 9 .- Although the efforts of this government to further the inroduction of American meat products into Europe have not abated as a resuit of the success of the negotiations with Germany, the greater part of official attention is now being directed to the advancement of American interests in the Pacific. Solfar as Chili is concerned the Department

of State is much encouraged by Minister ment of cordial relations between himself and the provisional government. The officials of the department specially call attention to the fact that the provisional government of Chili was not organized until September 4, and on the same day it was recognized by the American minister, who had been instructed by cable to do so. This action is not a formal official recognition, but is all that can be done by any nation at this juncture and is in line with the precedents of juncture and is in line with the precedents of diplomatic practice. When the republicans in Spain in 1873 succeeded in overthrowing the monarchy, Mr. Fish, the secretary of state, instructed Mr. Sickles, the American minister to Spain, as follows: "So soon as the republican government is well established and in possession of the power of ration, you will recognize it."

Thus was followed after the election of the

This was followed after the election of the Spanish president by the issuance of new credentials to Minister Sickles, and so, when a new president of Chili is elected, Mr. Egan will receive credentials of the same kind. Reports are expected to reach the Department of State in a few days from Honor embodying the announcement of the death o John Dominis, the prince consort. Develop ments in that quarter are being narrowly watched on account of the possibility of an upheaval and the resulting jeopardy of Amer-

ican interests.

Such official information as has reached the department from Samoa is indicative of the existence of a feeling of unrest among the natives, and it was believed to be politic to send a man-of-war there. This vessel, the Iroquois, arrived at Apia a few days ago. There is at present a German man-of-war there and an English cruiser is expected to reach Apia in a few days.

SHE NEVER WORE A CORSET.

A Centenarian Explains the Cause of Her Long Life.

EAST MILLSTONE, N. J., Sept. 9.-Mrs. Sarah Van Nostrand, who is now entering upon her 104th year and is still hale and hearty, attributes her longevity and physical condition to the fact that she never wore a corset. The hale old lady celebrated the anniversary of her 103rd birthday the other day at her home here. She was conceded to be one of the "youngest" in the party, so lively and sociable was she. On that occasion she did not hesitate to make it know that her dis-obedience of fashionable dress was the cause

of her hale old age.

"If our girls would abandon the corsets," said she, "they would live longer and be healthier. I always hated corsets and would leave wear them?" never wear them."

She was married in 1810 and during her fifty-five years of married life she gave birth to eight children. The old lady says she thinks she will live to see her 125th year.

The perfume of violets, the purity of the illy, the glow of the rose, and the flush of Hebe compine in Pozzoni's wondrous Powder.

With Dakota's Railroad Muddle. FARGO, N. D., Sept. 9.—Besides the temporary restraining order secured by the railroads against the breaking of car seals for the inspection of grains by the commissioners, a bill in equity has been filed by the Great Northern, which recites inability to properly inspect at night and a consequent delay of trains if the law is enforced. The bill says the orders of the board discriminate in favor of the "Soo" and Milwarkee roads. The orders of the railroad commissioners are claimed to be contrary to the inter-state com-merce law. Similar papers were served by the Northern Pacific.

AT THEIR REGULAR TRICKS.

Chairman Finley and Charlton of the Alton Still Quarrelling.

CHARGES AGAINST THE ASSOCIATION,

Another Open Letter in Which the Question of Cutting Rates is Generally Discussed from Several Points.

Curcago, Ill., Sept. 9.—General Passenger Agent Charlton of the Alton has written anther tart letter to Chairman Finley, On emplaint of the Atchison that the Alton had sold tickets to St. Louis at reduced rates without charging 25 cents extra for admission tickets to the exposition, the chairman authorized all competitors of the Alton to do likewise, In his letter Mr. Charlton savs among other things: "The Santa Fe letter to you is dated the 4th inst., and that company had cut the rate on the 3rd. Your letter to me is dated the 7th and reached me on the 8th, and we, consequence of your omission to advise us, were deprived of the opportunity of meeting the cut rates made by the Santa Fe and sanctioned by you. The alleged advice to you is incorrect and the charge against the Chicago & Alton is untrue. At three of the ten points named we do not sell any tickets and, therefore, cannot have been guilty of cutting rates at those points. At the other seven points our rates are one fare and one-third with 25 cents added for admission ticket. We leave your times to perpetuate the demoralization, while we merely protect ourselves. Your lines have the honor of forcing the fighting in crooked ways on every occasion."

ADJUSTING PREIGHT RATES. At the meeting of the Western Freight association today it was decided to establish rates from Evansville, Cairo and kindred points to the Missouri riper, on the basis of the combined locals via East St. Louis. The southwestern lines convened this afternoon and disposed of a number of matters. It was agreed to establish the same rates from Siony City to New Orleans via Kansas City, that are in effect via the Illinois Central. A rate of 13% c per hundred pounds was made on sewer pipe from Kansas City to St. Paul, and a rate of 15c from Kansas City to Duluth. Resolutions were adopted making the rate on coal from Missouri river points to the interior Missouri river points 45c less than the Chicago rate. Many sub-jects were passed until the next meeting.

IN ATCHISON'S PAVOR. The Atchison, Topeka & Santa Fe has again come out on top in its appeal from a decision of Chairman Finley. Some time ago a large number of mileage tickets that had got into the hands of brokers were bought by the Rock Island people, who un-dertook to compel the Atchison to redeem them at full tariff rates under a provision of an agreement. The Burlington also pre-sented one ticket of the same kind for redemption. The Atchison showed that many of these tickets had been bulletined as irreg-ular and refused to redeem them. Chairman Finley decided that they must all be redeemed whereupon an appeal was taken to arbitration. Traffic Manager Murray of the Big Four, General Passenger Agent Shattue of the Ohio & Mississippi and Vice Chairman Donald of the Central Traffic association were chosen as arou

They submitted a decision today reversing the rulings of Chairman Finley and deciding that the Atchinson could not be compelled to redeem any tickets.

SHATTUC CAUSES CONFUSION. The agreement reached last week by the interested lines to advance the passen-ger rates from Cincinnati and Ohio river points to the Pacific coast has already been knocked to pieces. General Passenger Agent Shattucof the Ohio & Mississippi has given notice that he will continue to make the Chicago rate apply from Mitchell, Ind., on Pacific coast business and that from Cincinnati he will make the same rate per mile to the Missouri river for basing purposes that is now in effect from Chicago to Kansas City, referring to the \$1 rate. The ierks had aiready met to check up Pa cific coast rates on the agreed basis when Mr. Shattuc's announcement caused them to adjourn without action. The situation remains as it was before the the conference.

DeWitt's Little Early Risers for the liver See the two thieves in "Erminie" at the Grand opera house.

ANNOUNCEMENTS.

Thomas W. Keene, supported by a very able company, appears in classic and historic repertoire at the Boyd for four performances, commencing this evening. The opening play is Bulwer's great state play, "Richelleu," in which Mr. Keene gives a very thrilling personation of the crafty cardinal-statesman. Many of the world's greatest actors have ap peared in this part, but none have met with greater cuccess in it than Mr. Keene. For the remainder of the week the bills will be as follows: Friday evening, "Louis XI;"
Saturday matinee, "Merchant of Venice;"
Saturday evening, "Richard III." The advance sale of seats has been very large, and indications are that Mr. Keene's Omaha engagement will be very large.

It is always a pleasure to announce the ning of that sterling artiste, Patti Rosa, for the bare announcement carries with it assurance that a performance of superior merit will be seen. An especial degree of interest attaches to her engagement at Boyd's new theater, opening next Sunday night, in the fact that she will produce an entirely new play and one that has been written especially to meet her line of talents. Its title is "Dolly Varden," and Patri Rosa will, of course, enact the title role. The character is that of a bright and bewitching American girl whom circumstances have sent to England to become a member of the family of an English curate. Miss Rosa has a part in which she delights and it is safe to say that she will delight her many admirers. Her company is an exceptionally good one.

In response to a popular demand "Erminie" will continue to hold the boards at the Grand until Saturday evening, when "Olivette" will be put on and will be repeated Surday night. The opera has made a decided hit and is being largely attended. It goes with a dash and swing that is delightful, and all the minor parts are fitted into their places and work smoothly. Next week the company will play their repertoire, including "Grand Duchess," giving a different opera every evening. The management is now putting in the new sounding board in the ceiling, which will be finished next week, making the house as nearly perfect in accoustics as it is possi ble to make a theater. The ladies' reception room is now finished and handsomely fur-nished and the fover has been newly carpeted, making it additionally cozy,

Lincoln J. Carter's scenic production, "The Fast Mail," which will be presented at the Farnam street theater this evening by an excellent company, is one of the most successful plays put on the stage in recent years. The story is thrilling, and justice is done the startling and remistic scenes by a perfection of mechanical effects.

The attraction at the Farnam Street theater next Sunday evening will be the success ful play, "Master and Man."

The Eden Musee presents this week many good features, Lizzie Sturgeon, the armiess planist being the favorite. The lady snake charmer and two big stage shows are the means of drawing good houses. Friday will be ladies' souvenir day.

MASSACHUSETTS PROBIES. They Express Their Opinions in Very

Decided Language. Woncester, Mass., Sept. 9. - The prohibition state convention was called to order this morning. W. H. Partridge was temporary chairman. On taking the chair Partridge addressed the convention at great length. At the close of the chairman's address, many others were made, and the committee on

resolutions reported. The platform assails the liquor traffic in the usual manner and calls for its absolute suppression; denounces high license, and demands the dissolution of the "partnership now existing between the government, national and state, and the rum power;" points out to supporters of missions that the the nort of Boston is foremost in the ex-portation of rum to "Darkest Africa," and that the traffic was doubled during the past

The seventh plank is as follows: The seventh plank is as follows:

We deplore the depth of degradation to which the Department of State has descended in becoming a "urummer" in foreign lands for the beer Tords of this country. Add to this these other facts—the refusal to unite with other nations in a treaty for the suppression of the slave trade and rum traffic in Africa; a president who finds five kinds of wine necessary for his official banquet; a vice-president who applies for a liquor license for his "Shoreham:" a senate that will not tanish the barroom from its wing of the capitol, and a house that strangles all inquiry into the facts of the liquor traffic—and we have a perfect demonstration of the complete dominatory of the rum power in our national affairs and of the slavish subserviency of our public servants to its behests.

The remedies which the pasts proposed are.

ts behests.
The remedies which the party proposes are prohibition by the state and national authority of the manufacture, importation and exportation, transportation, or sale of alcoholic beverages, and the election and appointment of officials, executive, legislative and judicial. in sympathy with, and who will enforce prohibition. These ends, they believe, are attainable only through a party organized for the purpose. The platform also favors the appointment rather than the election of prosecuting officers for the same reasons that udges are appointive, and declares in favor of female suffrage and a strict enforcement of the civil service law.

Charles H. Kimball, Lynn, was nominated for governor by acclamation, Augustus R. Smith for lieutenant governor and Alfred W. Richardson of Springfield for secretary

Frank Compton not having covered my deposit left with the South Omaha representative of THE BER on August 21, nor accepted my challenge of that date I hereby claim the title of champion of Nebraska for skin-ning sheep and stand open to defend the same against any person and all persons now in the state. In defence of my title I hereby challenge any man in Nebraska to contest with me in skinning sheep for a purse of \$100 to \$250, and have deposited with The Ber a certified check for \$250 This challenge

will remain open until 9 o'clock Saturday night, September 19. William H. Chawpord On behalf of William H. Crawford, cham-tion sheep skinner of Nebraska, we hereby challenge Frank Compton to a sheep skin-ning contest with William H. Crawford on the following conditions: That Crawford will skin six sheep while Compton skins five for \$50 and the loser to pay for the sheep. Against time. A \$25 check has been deposited with Tue Beg and the challenge will re main open till Saturday night, September 19 at 9 o'clock. WRIGHT & McDANIEL.
