THE SPECULATIVE MARKETS.

Wheat Ruled Nervously Strong Throughout the Entire Session.

EFFECT OF GREAT BRITAIN'S WAR PLANS.

Traders Lost Faith in the Scare Later in the Day and Manifested an Uneasy Disposition in Deals.

CHICAGO, Ill., Sept. 14.-Wheat has ruled nervously strong throughout the session. There were occasional weak spots, but the market showed good rallying power. The opening of the session was a fraction over 2c over the Saturday's close, and the close was 1%c higher. Paris cables reported a strong market in Liverpool with quotations a half penny higher on spot and a half penny higher on futures, while the continental markets were firm and in better tone. This, in connection with the fact that the alliance was sending out another "Hold your wheat" circular made the shorts very nervous and there was good covering. December opened at from 964c to 964c against 964c at the close on Saturday. advanced to 97%, but eased off some on

realizing sales. The enormous receipts held the market in check some, there being 925 cars here and about 1,800 cars in the northwest; but there about 1.800 cars in the northwest; but there was little disposition to sell, and, outside markets showing strength, the feeling was generally firm. Later in the day the news of Great Britain's action in the Dardanelies matter caused a stampede of shorts to cover and speculative buying put the price up to \$854c; then realizing sales broke the price to \$155c, the trade losing some faith in the war scare. News of wet weather in the United Kingdom again sent the price to \$854c and the close was steady at \$155c.

again sent the price to 984c and the close was steady at 574c.

The increase in the visible supply was a strengthening feature, as it was much less than had been looked for. The closing reported a decline of 2 marks in Berlin and 10 centimes off for October at Paris.

Corn opened weak on the enormous receipts, the absence of frost and free selling. During the first half hour September sold down to 62c. October to 504c and May to 454c. But the bulge in wheat started good buying and there was a sharp reaction. September selling to 674c. October 564c and May to 444c. October was made stronger than the other fatures and closed at an advance of 24c compared with Saturday's close, while September was unchanged to half a cent-lower and May unchanged.

Outs were weak at the start but strength-

changed.

Outs were weak at the start, but strengthened with other cereals, though fluctuations were confined to five-eighths of a cent. Provisions opened weak but railied with corneasing off later and closing slightly lower than a strength of the cornessing of th isn on Saturday. The leading futures ranged as follows:

British Grain Trade Review. British Grain Trade Review.

London, Sept. 14.—The Mark Lane Express, in its weekly review of the British grain trade says: New English wheat is liberally offered. Reds are quoted at 37s and whites at 48s. Foreign has fallen heavily. At Liverpool prices have fallen 40 her cental and at London is per quarter. Large arrivals of Indiana, Russian and American have helped the depression. Red winter and California cargoes declined 2s. Corn is weak and prices have fallen 9d both for near and future delivery. Bariey and oats are quiet. At today's market the prices of wheat were still in the buyer's favor; new red English wheats were quoted at from 34s to 31s, and whites at from 37s to 41s. Foreign wheats were steader. Flour was down delper sack.

STOCKS AND BONDS.

NEW YORK, Sept. 14.-The stock market today was rather less active than the average of last week and displaying on the whole rather more of the reactionary temper than was usual of late, though the losses suffered were of no moment outside of the leading active shares, the market showing a narrowing tendency and remaining without special feature in the general list. The buying today was not of an urgent nature and while encouraged by some foreign purchases, the London houses were also sellers to a limited ex-

The opening of the market was made in most stocks at advances extending to one-half of 1 per cent, but the bears brought pressure to bear immediately, and the opening prices in many cases were the highest of the day. The early weakness, however, accomp Ished most of the losses suffered, and was most conspicuous in Union Pacific, Missouri Pacific and Leckalosses suffered, and was most conspicuous in Union Pacific, Missouri Pacific and Lzckawanna, although the whole competative stocks yielded large fractions. The low priced shares were in no way prominent in the dealings today and attention was concentrated by a larger extent than of late in the leading shares. The weak, feverish and declining tendency in prices Insted until well in the afternoon, where the pressure to sell abated perceptibly and dullness once more marked the trading outside of a few stocks like Atchison. Distillers, St. Paul and some others.

The rush to cover shorts then made itself manifest and at the same time the concessions in prices induced considerable buying for the long account which increased in volume as the time wore along. The list moved up, but Rleinnond & West Point lost almost all of its early rise, though the preferred retained all of it. Distillers was the great feature of the afternoon, moving up from 304 per cent to 54 per cent on the announcement that the trust had at last made arrangements with the outside distilleries by which it would have complete control of the business. In the late dealings New England became a feature, making one of its sudden and inexplicable advances. The market finally closed strong with most of the list at about the opening figures. The final changes are generally slight gains, but New England is up 14 per cent and Distillers 34 per cent. England is up to per cent and positive op-per cent.

Government bonds have been dull and steadler. State bonds have been dull and steady.

Financial Review.

New York, Sept. 14.—The Post says: The movement of prices in stocks today simply illustrated the blight which has fallen upon the market through the public notice of embarrassment served by two such important corporations as the Union Pacific and the Richmond Terminal. It is the concrete specific items of news, especially when they come somewhat in the nature of a surprise, which most powerfully influence the professional speculator's mind. There is little occasion for wonder therefore that this element in Wall street has for the time deserted absolutely the bull side of the market and that they are not vigorously assailing prices, is due of course to the firm substratum laid by the providential harvest and the certainty of a consequent revival in business prosperity generally. With a deficient or an average yield the developments of the past month would have been sufficient to bring on a bear campaign. As it is, the professional contingent is puzzled in a very unusual degree for to what extent the discounting of a prosperous future can counterbalance suffering for actual results of a disastrous past is a problem of peculiar difficulty. On London's Stock Exchange. On London's Stock Exchange.

London, Sept. 14.—This is settling day of the Stock exchange. The settlement is heavy, but it is progressing favorably. Despite the abundance of money railroads were charged from 3 to 4 per cent. The general tendency of business is towards realization. This is partly due to the report concerning the island of Mytiline being occupied by the English and partly to the feeling that the bull account has been overdone. Heavy sales of Constantinople and Frankfort orders caused Turkish securities to drop 134 per cent. Russians one-half of 1 per cent and Italian and Hungarian seven-eighths of 1 per cent.

Coffee Market. RIO DE JANEIRO, Sept. 14.—COFFEE—Regular first, 8,100 reis per 10 kilos; good second, 75 rels.
RECEIPTS-During the week, 18,000 bags.
PURCHASES-For the United States, 40,000 SHIPMENTS-To the United States, 21,000 bags; stocks, 3,7,000 bags.

New York Dry Goods Market. New York. Sept. 14.—Agents of dry goods were in receipt of numerous moderate orders for cotton and woolen fabries for immediate replenishments, and there were many bids for larze lots of the latter at slight differences from agent's prices. The market, however, was very firm and well sold up. The Hartei prints have been advanced 2½ per cent.

Santos Market. SANTOS, Sept. 14.—COFFEE—Good average 8,70° reis per 10 kilos.

RECEIPTS during the week 106,000 bags; purchases for the United States 15,000.

SHIPMENTS to the United States, none; stock. 27,000 bags.

Foreign Oil Market. LONDON, Sept. 14.—SPERM OIL—£47 per ton. ROSIN—American strained, 485d per cwt. CALCUTTA LINSEED—428 4½d per quarter. LINSEED OIL—298 per cwt.

Charleston Oil Market. Charleston, S. C., Sept. 14.—Turpentine— Steady at 34%c. Rosin—Firm; good strained, \$1.15.

Elgin Butter Market. ELUIN, Ill., Sept. 14.—BUTTER-Firm. Sales 13,200 lbs at 25c.

Traders' Talk.

New York, Sept. 14.—Henry Clews says: For the last few days, the stock market has been subjected to the effective test of realizing profits. The sellers have included many large and influential holders, and the "bears" also have made "short" sales. These combined transactions have been large enough to try the confidence of the market pretty sharply; but their effect has appeared rather in checking the upward tendency than in producing any material decline in prices. In other words the result has shown that the disposition to buy about equals the disposition to sell. The condition of the market must be conceded to be a strong and healthy one. The speculative movement is backed by a revival of the long domant investment demand for bonds and the better class of shares, and a considerable amount of securities are going out of the floating supply into the strong boxes of permanent holders. London, Boston, Chicago, Philadelphia and the minor clies participate in the renewed activity, and appearances indicate that the "hoom" has substantial elements of permanence. It remains to be seen what may be the attitude of the important class of operators who have been realising. Some of them conclude that they have been hasty in realizing and are buying in again; but a larger proportion are waiting, or perhaps are using their influence to create a reaction in order to get in at lower prices. It seems reasonable to infer that unless some unforcesen inflating element appears, the present haling attitude of the market may be questioned that the status of the chief conditions that regulate values has improved quite as much as prices have advanced. In every condition there has been a gain beyond what was expected six weeks or two months ago. The apprehension then folt about the supposed weakness of finances in Europe have been dissipated by a large recovery of confidence and even by the beginning of a revival of speculation, especially in American securities. It is no longer tweeks or two months ago. The apprehension then felt abou

· · · · · · · · · · · · · · · · · · ·	correspondents in Europe express no alarm over the attitude of Russia on the Dardanelles question, and unless the outlook is particularly lurid tomorrow we don't look for another decline. Corn is manipulated for higher prices by the New York clique. At the present rate of receipts it looks to us as though they were facing an enormous outlay and a severe strain, but they may carry the zeal through September and possibly October but we regard later futures a sale on all rallies. Provisions were dull and easy. Receipts of hogs have increased and packers would like to see a decline. They are selling January pork and ribs and the hard spots. In spite of the strength in grain today provisions averaged lower.

	spots. In spite of the strength in grain today
-	provisions averaged lower.
	provisions averaged lower. CHICAGO, 111., Sept. 14.—Swartz Dupee & Mc- Cormick to F. C. Swartz & Co.: Wheat opened
n.i	firmer on more steadings in foreign markets
y	and on foreign buying. The receipts were
	firmer on more steadiness in foreign markets and on foreign buying. The receipts were very large, 225 cars here and 1,800 cars in Min- neapoits and Duloth. The clearances were large from the seaboard and this influenced eastern traders who bought largely in this
7	neapolis and Duloth. The clearances were
5	eastern traders who bought largely in this
9	punited Cables were conflicting some anot-

neapolis and Dulath. The clearances were large from the seaboard and this influenced eastern traders who bought largely in this market. Cables were conflicting, some quoting lower markets, others higher. British consuls were a trille lower. A cable saying that Great Britain had taken possession of an island in the Helicspont was construed into a war rumor and had the effect to advance prices. The French crop was officially announced to be 115,000,000 bushels less than a year ago. The cash demand was reported to be better. Although the receipts of corn. 1.127 cars, were above expectation and although the weather in the corn belt was perfect, prices of the near by deliveries were very firm. Charters were made for 401.00 bushels. The low grades are at a big discount, No. 36c under No. 2. There was unquestionably some sympathy with wheat. Provisions were sold liberally by the packers and as a result were easier.

Chicago, Ill., Sept. 14.—Kennett, Hopkins & Co. to S. A. McWhorter: Early sales on open board were 95½ for December, but cables brought news of wet weather in England and stronger markets, which advanced prices sharply at the opening. It was believed the foreign demand would show new life under such conditions, and so it proved, for over 300,000 bushels were exported during the day. The advance was well sustained, the close being within half a cent of the top. Late cables were quite conflicting. Liverbool being strong; 300,000 bushels were exported during the day. The advance was well sustained, the close being within half a cent of the top. Late cables were quite conflicting, Liverpool being strong, London and Berlin weak, and Parls and Australia steady. A special cable reported shipments for the past week to the United Kingeom and continent 10,740,000 bushels, against about 7,000,000 weekly requirements, and this was considered a bearish feature. Much will depend on tomorrow's foreign advices. If they should indicate an active demand for wheat we may get a further substantial advance, but our market will not sold unless the export demand keeps up. Corn and oats were heavy all day, the receipts being large and demand for cash stuff slow. Later corn frimed up, in sympathy with wheat, and closed strong. Oats failed to respond materially. Provisions have been quiet and featureless, but slow, no evidence of weakness.

OMAHA LIVE STOCK MARKETS.

OMAHA LIVE STOCK MARKETS.

OMAHA, Sept. 14.

CATTLE—Official receipts of cattle, 3:446, as compared with 1.711 Saturday and 3:508

Monday of last week. Cattle were almost entirely rangers. The demand was good, but on account of bad break in prices and beavy receipts at Chicago the market was 10:015c lower than Saturday, and slow on beef steers. Good cows active and stronger; common grades dull and unchanged. Feeders dull and weak.

Hogs—Official receipts of hogs 961, as compared with 3:518 Saturday, and 3:73 Monday of last week. The market was slow, there and steady to 50:01c lower. About all sold. Light \$4.805.05; heavy, \$4.00625.1215; mixed, \$4.850.409.

SHEEF—Official receipts of sheep 432, as compared with 4:3 Saturday, and 1.110 Monday of last week. Market firm. Demand good. Natives, \$3.0004.50; westerns, \$3.5004.25.

Receipts and Disposition of Stock. Official receipts and disposition of stock as shown by the books of the Union stockyards company for the twenty-four hours ending at 5 o'clock, p. m., September 14, 1891: KECEIPTS

Chicago Live Stock Markets.

Chicago Lil. Sept. 14.—[Special Telegram to The Beel—Something like 25,000 cattle were dumped into the yards today, and the market "slumped" badly, only a smail percentage of the offerlags were of prime quality and that class meeting with a good eastern and export demand, was not subjected to any important shrinkage in value, but in other descriptions there was a decline ringing from 10c to 25c per 100 lbs. This reduction was severe enough to wipe out all margin of profit for western shippers. and they were a gloomy set. As there was no encouragement for owners to carry their stock over until tonorrow there was a general eagerness to close out, and many droves of cattle charged hands at a reduction from last Friday's prices of from 20c to 25c per 100 lbs. Not quite one-half of the supply consisted of natives. They were quotad at from \$1.00 to \$2.50 for inferior to choice cows, bulls and heifers, at from \$1.85 to \$3.25 for stockers and feeders, and at \$3.00 to \$4.25 for common to extra shipping steers. The sales of rangers were on a basis of from \$1.40 to \$1.25 for Texas and from \$1.90 to \$4.00 for westerns. Although the volume of trading was large, many cattle had to be carried over. The receipts were much the largest ever recorded for one day. Prices declined 10c per 100 pounds or to \$4.65 to \$5.40 for heavy and medium weights and from \$4.50 to \$5.55 for light. The weakness was ascribed to the fact that the receipts were larger than had been expected, and that the arrivals for tomorrow and Wednesday promise to run considerably above the average. At the above quotations the market developed a good degree of activity, but salesmen did not succeed in emptying the pens and the late sales were not a whit more satisfactory than those made early in the day. The quality was poor, to which citcumstance was due in a measure the depressed tone of the market. Sales of heavy and medium weights were largely at from \$5.15 to \$5.55, and fro Chicago Live Stock Markets.

©5.00. SHEEP—Receipts, 8,000; shipments, 2,600; market slow; natives, \$4,00@4.80; westerns, \$3.75@4.40; Texans, \$3.50@4.25; lambs, \$3.50@5.40.

New York Live Stock Market. New York. Sept. 14.—Beeves—Recelpts, 1,814 head, including 95 cars for sale; market a shade firmer; native steers, \$4.1065.75; Texans and Colorados, \$3.00624.05; ulls and cows. \$1.7064.25; dressed beef steady at 76094.05; by the lib.
