## THE SPECULATIVE MARKETS.

Failure of White & Co. Caused Demoraligation in the Pits.

PARTIAL RECOVERY OCCURRED SHORTLY.

Corn Most Affected by the Temporary Panic as a Corner in This Cereal Resulted in the

Trouble.

CHICAGO, III. Sept. 22.-The simultaneous announcement of the New York Stock Exchange and the Chicago Board of Trade of the fallure of the long established, well known and wealthy New York commission firm of S. V. White & Co., with its branch house in Chicago, at the opening of business this morning, overshadowed all other items of news and caused Instant demoralization in all of the trading pits, including grains and hog products. The panic was short lived, however, and after a partial recovery the markets became comparatively steady though generally at a lower range than that of yesterday and the pits assumed their normal appearance Nevertheless, the feeling was very nervous and the tone weak, and traders were on tiptoe, ready to run at the first sign of danger. Rumor was more or less busy with the names of one or two prominent local houses who were known to have executed large commissions for the broken firm, but they proved groundless, for when the clearing house sheet came out at noon it showed no one in default

except White & Co. Corn was the most affected as it was in an attempt to corner the September and October futures of that cereal that the broken urm was forced to the wall. December wheat started with sales at anywhere between from 98%c to 99%c against \$1.0% at the close yesterday, but as sales for the account of the broken firm were not heavy the market railed gradually to 90 kc, but the following was nervous, and, on the receipt of a cable saying that the Berlin market was demoralized and 4c lower, broke to 190c. It railled to 1915c, broke again to 19c, and closed easy at that price. Core opened tumultuously excited with sales all the way from 47%c to 193c, against 51%c at the close yesterday, brokers who had deals with White & Co. making haste to close them out. The offerings were immense, being absorbed chiefly by receivers and shippers, but the market stood well at the reduction under the limmense load of offerings, and after a time advanced to 49%c and closed at 40%c for September, in which the main deal was closed yesterday at 52%c, opened today at 48%c to 50c, and touched 48%c, but closed at 40%c.

Oats were quiet and weak in sympathy with corn, but closed steady at a reduction of only from one-eighth of a cent to one-fourth of a cent compared with yesterday. Hog products were less affected than wheat and broken firm were not heavy the market rai-

cent compared with yesterday. Hog products were less affected than wheat and corn, as White & Co., had only small lines in them, and after fluctuating within a moderate range, closed with insignificant change from vesterday's last pric The lead ng futures ranged as follows: ARTICLES. | OPEN. | HIGH. | LOW. | CLOSE. WHEAT-No. 2 \$ 984 08954 9954 \$ 96 1 984 08954 1984 9534 99 1 984 089 1 1984 1 953 99 September. December.. STOCKS AND BONDS. New YORK, Sept. 22.-The stock market for the first time in many weeks showed a reactionary temper today and most of the stocks traded in are lower than last evening as the result of the day's operations. When it was announced that the old and powerful firm of S. V. White & Co. was unable to meet its engagements there was a rush to seil, but when t was explained that the failure was entirely on account of a deal in corn and had nothing to do with the stock market a better feeling was seen. The buying was checked for the time being, however, and the bears went in to make the most of the affair. There was in addition to this considerable manipulation of money rates today and loans were made as high as 12 per cent while all offerings were withdrawn at the close and bidders were offering 25 per cent though this was after lenders had withdrawn from the exchange and every one who really wanted to borrow had been supplied. The bears used their most strenuous efforts to force values lower, but a good demand confronted them at every decline and prices delded very slowly after the first scare in the early dealings. The market opened at irregular changes from last evening's prices and while tunion Pacific was up 15 per cent. Northwestern was down three-fourths of 1 per cent. The active stocks were more prominent than usual of late and the losses in them were remark-

of late and the losses in them were remarkably uniform, ranging generally from 1 to 2 per cent, the latter in Reading. Among the specialities, there were some sharp advances and the Pittsburg, Cincinnati & St. Louis common rose 4 per cent and the preferred nearly 3 per cent, retaining the most improvement at the close. More confidence was shown in the atternoon but the rally was confined to fractional amounts. Sugar was especially weak. The market finally closed rather heavy after the rally with most stocks at or near the lower prices of the day. The final changes of note included Atchison, 1% per cent; Missoni'l Pacific and Reading, 1% per cent; Sugar, 1% per cent; Big Four, Burlington, Northwestern, Lake Shore, New England and Wheeling each 1 per cent. Cordage being 1% Wheeling each I per cent. Cordage being 14 per cent.
Government bonds have been dull and stendy. State bonds have been dull and firm.

Financial Review. Financial Review.

New York, Sept. 22.—The Post says: The general situation outside of the grain market is so peculiar, and its way sensitive, that a long continued advantage at such a rate as that of the last few days would make a collapse of some kind at least possible. However, it is apt to be a fruitless task to apply the ordinary process of logic to a buil market, and there has been no bull market in recent years whose underlying factors have been so difficult to locate and measure.

Traders' Talk.

Chicago. Ill. Sept. 22. -Counselman & Day to Cockrell Brothers: The public announcement by the secretary of the board that S. V. White & Co. requested all their trades ceased at the opening created a markel sensation today, and changed the tone from buoyancy to depression. Wheat opened at put prices and the buying against the privilezes by scalpers gave prices a temperary raily. The suspended firm seemed to have wheat largely bought for December and sold for May and until those contracts had been replaced speculators were not inclined to make new ventures, after Il o'clock the second cable receipts the London market advanced. Paris a shade higher. Antwerp steady, Liverpool iower with a poor demand Beflin demoralized by bulls unloading. On this news seiling became general, prices broke to inside figures, closing steady and lighter. Estimated receipts for tomorrow and 240,000 bushels taken for export in New York. The confidence of holders has received a notable shock and we think the news of today will bring a good many selling orders tomorrow. Corn was affected more than wheat by the suspension, as the firm has been the principal representative of the eastern buil clique. On the opening decline the shipping houses were very heavy buyers of near deliveries which caused active buying of late futures by local scalpers to cause short sales and worked a partial recovery, but one can see no tendency toward a permanent advance in October corn. May firmed on a scattering buying for long account. Provisions were duil but resisted an early attack by bear speculators, but recovered on a good shipping demand for meats and closed with an upward tendency.

Chicago, Sept. 22.—Swartz, Dupree & McCormick to F. C. Swartz, & Co.; Of course the

demand for meats and closed with an upward tendency.
Chicago, Sept. 22.—Swartz, Dupree & McCormick to F. C. Swartz & Co.: Of course the overshadowing influence today in wheat as in everything else was the failure here and in New York of that concern which was most the natural one—lower prices. December wheat, which sold Monday at \$1,00%, sold between 99%c and 98%c and closed 99c. The ordinary routine of circumstances were without influence. There was a decrease in passage of 736,000 bushels. Export clearances were liberal and about 500,000 bushels. Buil failure in one inevitably results in buil discouragement in all the grain puts. The fluctuations today, considering the circumstances, were moderate. in all the grain pits. The fluctuations today, considering the circumstances, were moderate. We believe, however, that the failure of the corn manipulators will result in tedious liquidation all over the floor. In corn the results of the New York collapse was more direct. September dropped about 4c. October about 3c. There was some recovery before the close. Shippers bought considerably on the decline. The prospect, however, is that the built enthusiasm has gone for good. The enormous amount of corn moving toward New York will make that market panicky. New York will make that market panicky. New York cannot get very weak without affecting Chicago. Provisions snowed at the close a little loss, a trifling loss, however. Bear prospects are made more certain by this disastrous result to buil manipulation in corn. Chicago. III. Sept. 22.—Kennett, Hopkins & Co. to S. A. McWhorier: There was not so much carbonic air and gas in the market at any time today as yesteriay. With the foam blown away tracers could more clearly see the actual situation and reflect thereon. The White failure was the principal topic of the day, but that it did not materially affect wheat was evident from the fact that it was down le on the curb before the failure was made public. General regret was expressed that a man of Mr. White's good sense and high character should have undertaken the deal that ended so disastrously It is believed that he and his following have been identified with the manipulation of wheat and a more natural market will result for a time. There is no sign of a let up in receipts. Clearances for some days past have fallen off, but engagements for export today have been quite liberal. It is believed that lower prices will prevail for a few days. Shorts absorbed the offerings of September and Octobercorn on soft spots all day long and it is now pretty well eliminated. There was also good buying by shippers, one firm along having taken 1,500,000 bushels. It is usual for receivers to carry stocks for lconvenience at other lake onsidering the circumstances, were moderate. Ve believe, however, that the failure of the

present. This may offset the effect of closing up so large a short interest and prevent materially lower prices until there has been a further readjustment of conditions oats have been weak and in sympathy, but looks like a purchase on these little breaks. In provisions the bears tried to raid the market at the opening on the supposition that it would follow corn, but the offerings were quietly absorbed by good parties and prices

recovered easily. We would not trade on the short side excent of rood railies, believing in considerably higher values by e and by e.

OMAHA LIFE STOCK MARKETS. ONAHA, Sept. 22.

CATTLE-Official receipts of cattle, 2.136, as compared with 1.841 yesterday and 3,697
Tuesday of last week. The bulk of the offerings were cows and feeders, beef steers were slow and weak. Cows dull and weak at 10c lower, Good feeders strong. Others unchanges.

House-Official ruceipts of hogs, 4,075 as compared with 467 yesterday and 3,461 same day of last week. Market active and a shade higher than Monday all gound. Everything sold early. Bulk at 48,3065.00.

Light, \$4,7525.00; heavy, \$4,9025.10; mixed, \$4,8565.00.

PIGS AND BOUGH. : a 73 74.....139 Chicago Live Stock Market.

Chicago Live Stock the receipts of cattle have been about 12,000 head less than for the same time last week. Ordinarily so marked a decrease would have resulted in a pronounced advance, but it has had no effect beyond imparting to the market a slightly steadier tone. Both local and eastern buyers took advantage of the overstocked condition of the market last, week and bought heavily, consequently they will want comparatively few cattle this week, and should even the same rate of decrease in supplies be maintained it list doubtful that there would be any very radical improvement in prices. All classes were bought sparingly and sellers were unable to push up prices a little bit. Rangers constituted about two-thirds of the arrivals, which included 4,000 natives, 5,000 westerns and 3,000 Texnes. The estimated quotations were from \$1.00 to \$5.20 for natives, \$5.75 to \$4.65 for westerns and \$1.25 to \$4.10 for Texans. The buff of the natives were weighed at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for cows and buils and at from \$1.50 to \$5.20 for leaver builting figures were from \$5.40 to \$5.50 for leaver builting figures were from \$4.50 to \$5.15 for heavy and from \$4.5 Chicago Live Stock Market.

ontset and not all the offerings were taken.
