Aged But Speedy.

STOCKTON, Cal., Oct. 27, -Paio Alto, the old hero of the Stanford stables, beat his record teday by trotting a mile in 2:10 flat. He made the quarters in 32, 3114, 33 and 3314. It was a game race against Father Time from start to fluish, and the old campaigner did not make a skip in the entire mile. When he went to the quarter in 32 seconds, horsemen said the pace was too fast, and when he reached the half in 1:0314 they said he could not keep his feet. But Palo Alto was out today to best the mile without even a touch of Marvin's whip. Expert horsemen contend that Palo Alto will beat the world's stallion record of 2:004, held by Allerton. They expect to send him again in a few days on this track if the weather holds good.

Another Australian Victory. San Francisco, Cal., Oct. 27 .- Con Riordan of San Francisco and Billy Smith of Australia, heavy weights, buttled at the California club tonight for a \$1,200 purse. From the fifth to the sixteenth round Smith kept the aggressive, driving his left for the jaw and planting his right over the heart. He bled a little at the nose from Riordan's left stops. Riordan's

In the twenty-sixth Smith smashed both hands into Riordon's injured eye. O'Brien, in his speech, said the Parnellites might blow up the newspaper offices of the McCarthylie party, but they couldn't destroy the spirit which animated that party. This was received with applause, mingled with some hooting. After the county convention adjourned there was a serious fight in the streets.

Dilion and O'Brien passed through the city, still accompanied by the procession, which met them at the station. Edgerton Was Not There. Walloo, Neb., Oct. 27 .- [Special Telegram to THE BEE. |-Hon. J. W. Edgerton, who was billed here to meet a republican speaker in joint discussion, failed to put in an appearance, not during to face his opponent. The only ground upon which he could fail to appear was that of being "sick," but as he spoke last night at Sutton and was billed for tonight at Hastings it shows that it was something else that caused him to send a substitute in the person of W. L. Green of Kearney. The republicans were represented by F. W. Collins of Lincoln, who opened the cussion in a talk of one hour, in which he discussed the money question, national banks and sub-treasury scheme, and fully exposed the extravagance of the last legislature paid his compliments to Representatives Stevens and Madie and Secretary Pirtle on the pass question. Mr. Green followed in a talk of one hour and a quarter, in which he re hearsed one of J. B. SURROUNDED BY PEOPLE.

About the time that Andrew Carnegle, millionaire owner of a dozen great factories and foundries, was engaged in working out the foundation for his great fortune, and who had been just promoted to be a plug operator, a boy but searcely 6 years of age was able to send a message from Norfolk to Cleveland, saying to his mother that he was at the key. Then such an achievement was recarded as a great wonder, as it would be today. That same boy a quarter of a century ago. filled with the desire for exploration with the enthusiasm of youth to spur bim on, enlisted under the flag of the nineteenth century crasaders and left for Siberia to assist in surveying a line of telegraph through Siberia which wis destined to connect with an overland line from the United States to the Behring sea. But the building of the Atlantic cable made such a gizantic undertaking useless and the young man returned to his native land, not without, however, having experience of the most dramatic character.

On his return he made his first appearance in literature by writing an interesting book entitled "Camp Life in Siberia." I had been acquainted with the young man, not personnly, but through the medium that one telegrapher talks to another, the click of the insirament which means so much to the operator. I read his book and found so much that was new and interesting Nebraska's Advertising Train Attracting Much Attention in Ohio. the click of the instrument which means so much to the operator. I read his book and found so much that was new and interesting in it that the conviction dawned upon me that in our association there was a man of great ability, far-sighted and incisive, an honor to the profession, which he dignified in early days. Four tours has this same man made to Siberia, and with each one something distinctively novel and intensely exetting has come. I take pleasure in introducing to you to night the most famous American, who has nenetrated to the depths of Siberia, the champion of a broad-humanity, the exponent of liberty and equality for those pointed convicts now serving sentences in the mines and prisons of Siberia, Mr. George Kennan.

shut in for the night. In each of these cells twenty-nine men were placed, and they slept on benches in their clothes, no beds or covering being al-

lowed. Some Features of His Trip. His interview with Captain Nikolin, a gendarme officer, and the strategy he practleed in giving the impression that he was a traveler investigating science, the mines and

other outdoor features of Siberia, were interesting bits in the story.

Mr. Kennan at this point retired for a noment and returned dressed in the costume of the convict, every article having been worn by some more or less noted member of the "army of liberty," and which were presented to the speaker by desolate beings dying in the penal settle-ettlement at Kara. He described the tor-ures experienced by the convicts, the clankng of the leg chains which are riveted upon the ankles of the victims being the only sound that would be heard for hours along he snow covered roads, and he told of the hardships experienced by wearing these modern engines of punishment.

His visit during the night to the house of one of the "frue command," Miss Natthi Ahnefeldt, was a dramatic portrayal of the sufferings of the "politicals." His great risk in making this visit surprised this highly educated woman, who was a niece of Count Leo Telstoi, and she could hardly speak with him because of the wonder his coming excited. Another meeting at this cultured woman,'s house introduced him to the little colony of "politicals" who told of atrocities which would make the stoutest heart quail and grow ick. Several of these meeting took place and hen came the leave taking, he to go back to civilization, they to wait as patiently as possible for the coming of Death, who was to end the strange, eventful history. But with him he bore letters from the exiles to friends in Russia, which he was compelled to burn in order to save himself, as he thought, and those who had intrusted him with grave political secrets.

Message from the Mines.

One letter, which was written by a highly educated physician, a graduate of the univer-sity at St. Petersburg and a man who had re-ceived many medals for bravery on the field of battle, who committed suicide, was read last night, and so pathetic was the story told that one could not help but feel an indignation at the monstrous methods pursued by the czar of all the Russians in proving to his subjects that he had a God given right to rule, as is alleged by the head of the Greek church, Alexander's former tutor. Mr. Kennan closed his highly interesting story with a description of the centennial Fourth of July as practiced by 330 "politi-

cals" in the gloomy contines of the prison in St. Petersburg. And his percention sent the audience nome with profounder sympathy for the wretched men and women whose lives are demanded as the price of good government in the land ruled over with the iron hand of Alexander III. "The exar may break hearts and whiten the hairs of these unfortunates," said the lec-"but a time will come when their turer, "but a time win come on the roll names will stand higher than his on the roll

Traffic Manager Reeve of that company is thoroughly aroused and has no intention of weakening. He says be has proof that other roads have been manipulating rates right along. It was reported on the street this afternoon that the Chicago & Grand Trunk was not only abolishing switch ing charges, but was making no charge for cartage. This report applied particularly to the commercial express line, which is con trolled by the Grand Trunk. General Man ager Moore of the line said there had been n free charge as yet, but that it would probably come to that in a few days. In the mean time another prevails that the Grand Trunk has only partially showed its hand and that the worst is yet to come. SEVENTH WARD REPUBLICANS

Campaign Issues Discussed and Democratio Schemes Exposed.

POINTS ON THE MAYORALTY QUESTION.

Mr. Osthoff's Claims to the Suffrage of the Dear People-Comparison of the Two Candidates.

The republicans of the Seventh ward met at 1212 Park avenue inst night and indulged in a large sized and enthusiastic rally. The hail was filled to the door with voters. Mr. R. C. Breckenridge was elected chairman of the meeting. Mr. John Steel, candidate for the council,

was first introduced and said a few words hat were received with applause. Judge Smith was the next speaker. He made an able and vigorous speech in which he took up the candidates on the state, county and city tickets, and showed that the republican nominces were entitled to the confidence and the support of the voters Judge Smith made many excellent points and carried everything before him. Mr. Breckenridge then introduced Mr. Henry Bolln as a representative Gor-man-American. The statement was preced with applause and when Bolin arose to speak he

Boita arose to speak he was heartly cheered. Mr. Boita spoke earnestly for a few minutes and then the chairman introduced Judge Stenburg, candidate for ounty commissioner.
The chairman said there was one office that a democrat had held for two years that smelled to heaven. That was the of-fice of the coroner of Douglas county. He believed that Mike Maul was the man to clean out the coroner's office. He then called Mr. Maul to the front. Mr. Maul said he was not much of a speaker. A coroner did not have to do much speaking. His duty was

to sit on people. Mr. Maul's remarks were

to sit on people. Mr. Maul's remarks were heartly applicated.

Hon. John L. Webster was then introduced and spoke for half an hour in an elequent manner. He said that he had been told the other day that the democrats had nominated Mr. Osthoff as a representative Jerman. They had nominated him because German. They had nominated him because he was a German. "Has it come to this?" said the speaker. "Has it become impossible in the city of Omsha to elect a man who is an American!" [Applause.] "Our city has been disgraced during the past year by those in authority, actually dis-charging poor laboring men who were born a America in order that men who were born in Ireland might have their places. I have come to the conclusion long ago that the only afe thing for a republican to do is to vote he republican ticket all the way through."

Mr. Webster said that the only thing that had been brought against Junge Post was a musty old campaign yarn similar to the stories that were usually told about demo cratic candidates all the way from Cleveland down. Judge Post's character could not be tarnished by the mud slingers. He was a man of integrity, honesty and ability, and should and would be ability, and should and would be elected to the high and honorable position for which he had been nominated, The speaker then presented the merits of the McKinley bill and gave the calamity shrick-Webster was frequently interrupted by aplause. Mr. Breckenridge announced that he had

hoped to introduce Mr. George P. Bemis, the next mayor of Omaba, but Mr. Bemis had been sudden'y called to Chicago in the interests of Omaha. Believing that he could be of greater service to Omaha by going to Chicago to look after the manufacturing in-terests than in making speeches Mr. Bemis had gone, Mr. Breckenridge said, but the citizens of Omaha would take care of the campaign for Mr. Bemis.

Mr. George A. Bennett, candidate for the office of sheriff, was introduced and spoke a few words that were well received. Judge Berka, candidate for the office of po-Lee judge, was called for and his speech of fifteen minutes was punctuated with ap-

Plause. Hon, Ben S. Baker was introaced and spoke entertainingly a few moments. He spoke chiefly upon the supreme court situation and made some excellent points for Judge Post. Speaking of the World-Heraid, Mr. Baker said that the editor of the paper did somethine last year never before accomplished by nortal man. He supported the candidates of two opposing parties in the columns of his paper from first to last. This year nobody ould tell what the World-Herald was trying to do, excepting to slauder Judge Post and elect an ignorances to the supreme court. Mr. Baker was frequently appianded. Several other speakers and candidates made short addresses, and the meeting closed with a rousing selection of

music by the Seventh Ward band. Second Ward Democrats.

There was a well attended meeting of the econd ward democrats in a saloon at the corner of Sixteenth and Vinton streets last evening, at which several well known democratic hustlers appeared and spoke. Hon, T. J. Mahoney cautioned the democrats to see that no person who took out his first papers after October 3 be allowed to vote, as the law required that first papers must be taken out thirty days refore voting. An ex-planation of the Australian ballot system fol-

owed and then the speaker poomed the democratic candidates. George Townsend was called and told three or four stories before getting down to his work of talking politics. Mr. Townsend urged the voters not to let religion interfers with their political belief and then he urged the election of Osthoff and John Boyd. In closing the speaker said that the republican party was almost dead and that one more democratic victory would

wipe it out of existence. Ed. Rothery made a few remarks and then asked the crowd up to take a drink which they did with the greatest alacrity. George Christoffersen spoke for twenty minutes and urged all democrats to vote a straight ticket. He landed Edgerton and Osthoff and condemned, abused and slandered Judge Post.
At the conclusion of Christoffersen's remarks a recess of fifteen minutes was taken to allow the herde to quench their raging thirst. A few more candidates then made short speeches and the meeting adjourned.
