Foreign Financial Review. [Copyrighted 1891 by James Corton Bennett.] Lonnos, Nov. 21. -[New York Herald Cable -Special to The Birk]-Business on the stock exchance was fairly active for a Saturday, and prices have tended upward. American rails were strength-enened by the prohibition of exports of wheat from Russia. Siles on continental ne-count have ceased. There is more disposition here to buy, especially in Atchesons and divi-dend payers. Foreign securities remain steady, with no special feature. Russians, after being weak, rallied despite the stoppage of the wheat exports. Owing to influential sup-port in Paris copper shares firmed up, as the prospects of the metal are considered good. Home stocks are rather better. Money is cheap, discounts of three months hand bills being 2% per cent at the bank. There was fifts,000 of goid received from Lisbon, Silver firmer. A big rise in gold shares is expected shortly. Almost a general reduction is ex-pected in English railway dividents owing to increased expenditares.

# Boston Stock Market.

OMARA LIVE STOCK MARKET. OMARA. Nov. 21. Receipts were: Fifty-two cars of eattle, 1.292 head; ninety-nine cars of hogs 6,021 head; thirteen cars of sheep, 3.624 head, and two cars of horses, 52 head. The receipts for the week foot up 16,092 cattle, 45,736 hogs, 4,966 sheep, against 17,147 cattle, 23,326 hogs, 4,966 sheep last week and 9,666 cattle, 40,411 hogs, 11,585 sheep the corresponding week last year. Cartis,-The beef cattle market was in very bad shape today. In the first piace the quality of the meager offerings was common in the extreme. Add to this the fact that the killers were wanting very few cattle, and the condition of the narket is not surprising. The Chicago market has leen bad all week and shippers are consequently doing nothing. Feeders

the market is not surprising. The Chicago market has been bad all week and shippers are consequently doing nothing. Feeders were flat, and the outlook for the common cattle was blocked in that direction. Beef cattle have not sold so low for a year, and the worst part of it is that with the present light demand, which is main y accourted for by the extensive use of ovsters and game, and with nothing to supply that demand but the com-monest kind of rangers and immature mitives, there is no chance for an advance in values. About the only life to the market was in the butcher stock line. The fresh receipts added to the holdovers made the supply about 25 loads. One prominent killer was doing virtu-ally nothing and the demand was only mod-erate. Prices were generally a shade lower, the range being from \$4.00 to \$2.50 for poor to pre ty good cows. Buils showed little or no change at \$1.25 to \$2.5. Calves were in light supply and sold on the basis of \$3.50 to \$4.55 for good veal and \$1.60 to \$3.60 for "neither beef nor yeal."

or veal." The stocker and feeder trade was about as The stocker and feeder trade was about as slow as it gets. The pens are full of all but good to choice grades and several loads of common stuff have been held here in the yards several days without even a bid. The market is simply dat and precieally dead. It is almost impossible to move the ordinary grades at prices from 20c to 50c lower than last week. Good to choice 1,100 to 1,250-1b feeders are still nominally quotable at from \$2.55 to \$k15, but by far the greater number of the cattle are selling from \$2.00 to \$3.50. Feeders are very choich just now, but considering the prices the so-called far cattle are brinking feeders, even at present prices, are poor prop-erty. Representative sales: STERIS.

Nov. 21.-Counselman & Day o Cockreil Bros: Wheat opened active and

demand and in spite of the fact that we will probably export considerable more of agricul-tural products than in any previous year. In corn and outs no consulctions features in either of these grains. Corn has relied it mer-on wet weather and in symmethy with wheat, in spite of receipts considerably above the estimates. The fact that the old crop shorts have sold themselves into a corner where they are somewhat at the mercy of a clause that may easily above the phores and caused a nervous and unsolted feeling that may continue until the old crop barts have been forced to ever. In provis-loss the trading and small that can be said of this market.

# STOCKS AND BONDS.

NEW YORK, Nov. 21 .- The stock market to day continued to advance in the same manner that it began yesterday and while these important gains of the day were confined almost exclusively to the general mactive shares. the whole list felt the stimulus and higher prices are the rule all along the line. The mying of the day was largely by commission houses and this fact was the peculiar feature of dealings which attracted most attention, and meeting with little or no resistance outside of the operations of the trailers who as usual have been left in the trailers who as usual have been left in the rise, the unward movement had no serious sethack. The foreigners were not a factor in the dealings, hoving smull orders on either side of the marker, and the stimutous came from domestic sour, escentirely. The opening was strong at gains extending to 1% per cert over those last night, and as of inte, the trans lines tave monopolized the greater share of feature of the day. The grangers were not however, and both St. Paul and Hock Island

## Financial Review.

Financial Review. New Yonk, Nov. 21. The Post says: The bear faction being now to a large extent out of the market, the builts are on trial to see what they can do with prees. The market was favorable to them this norming, notwith-standing the other sales by room traders to realize their profit on yesterday's advance. There was considerable weakness in Lackawanna, the only alleged reason for which is disampointment in the coal trade over the milder weather and in New York Central the selling orders fairly matched the buying demand. But in the grangers there was a stendy inprovement in processional support—with an agreeable sating of commission house orders. The most aution the street agree that vester-day's advance was an experiment by the pro-feesional buil operators to test the feeling of the outsiders. Hence it is likely that their operations will be cautious especially when the short interest is wholly eliminated. Golden Trensure. Gold Rock
