termined fact, that the aforesaid knell was sounded some time ago, and that Council Bluffs only hope is in getting the several

companies to put up new local depots, and call the matter square. From official sources it is learned that large appropriations were

made at a recent meeting of the directors of the Northwestern for improvements all along

the company's line tetween this city and

Chicago. An appropriation was made for work at this point, but just how much will

purpose of the appropriation, it is said, is to build a local passenger and freight

of all the congressmen and officials who have anything to do with the subject of claims. A letter from Representative Herman of Oregon, chairman of the committee on Indian depredations, has already been published in behalf of the bureau, and similar expressions have come from others. If any subscriber requires such acryjcer and is in doubt where to apply, he will find the address of Tun Ban Bureau of Claims in the advertising column

A NEEDED BUREAU.

The organization of the new court of law claims at Denver last month and the an nouncement that the court will hold itsfirs session in that city on the 17th of November give promise that the long-vexed titles in the western territories and state will soon be in a fair way to settlement. The disputed titles under the Mexican and Spanish grants have proved especially troublesome in Arizona and New Mexico. They have delayed settlement and investment in some of the fairest lands of the southwest, and have proved annoving in the districts farther to the north. After much agitation and complaint congress was induced at the last session to provide a court for the consideration of this business, and it

will soon begin to work. The organization of this court gives The BEE BUREAU OF CLAIMS & chance to extend its usefulness. It will take claums under this law and prosecute them for persons who do not know whom to engage for the service. The business entrusted to the bureau in Washington is being prosecuted with energy. The Indian depredations, patent, land mining and other claims before the courts and departments are being pushed as rapidly as possible, with no delays on accunt of the large amount of business which has been sent to the bureau. The large amount of claims ntrusted to its care is a standing proof of the esteem and confidence in which The Ber is held by the public which it serves. It is likewise a demonstration, if one was required of

The revelations in regard to the Loomis agency which have been published recently go even further in the same direction. When a man sought for by the police for nearly a year on a warrant for embezzlement can set ip as a claim agent, flood the western country with circulars and receive assignments for several million dollar's worth of claims, it appears that there is little protection for the claimant who sends to an unknown repr entative. The men who assigned their claims to Loomis would have had small chance of vir seeing any of their money if schemer had been given time to collect their claims. When such risks are run and men who are not able to go to Washington and know no one there must hire their attorneys at haphazard, the need for a bureau to protect the people and do their work at reason

able rates is apparent. The approval with which THE BEE enter prise is received by journalists and public en is as gratifying as the response of the public.

## BRAZIL'S REFOLUTION.

Rebellion in Rio Grande do Sul Making Much Noise and Little Progress. [Co-yrighted 1891 by James Gordon Bennett.]

VALPARAISO, Chili (via Galveston, Tex., Nov. 20.- By Mexican Caple to the New York Herald - Special to THE BEE, |-The insurgent committee at Porto Alegre, the capital of RioGrande do Sul. Brazil, has sent circulars to all the garriso, commanders and intendentes throughout Brazil, in the name of the provisional junta, asking each of the parties addressed to join the movement against Dictator da Fouseca.

The squadron in the Upper Uruguay river is said to have gone over to the insurgents. General Asserio, who was chosen chief of the military forces of the junta, is now reported to have declared, that he will not side with any party, as his only aim is to defend the constitution and overthrow the dictator. Dr Assiz Bruzil is said to be on his way to Montevideo, to ask the government of Uruguay to recognize the insurgents. The rebels are reported to be receiving large numbers of rifles, swords and pistols.

Likened Unto Anarchy. LONDON, Nov. 20 .- The Exchange Telegraph company has received further advices

business center of the town of Correction-ville, Ia., were destroyed by fire this morn-ing. The loss is about \$75,000. Among the buildings destroyed is the Laub block, Merchants bank, Gay Fletcher & Company, Lyman's millinery store, Rheubottom's har-ness shop, Castle's jeweiry store and Hat-field's grocene. field's grocery.

THE INDIAN CLAIMS.

THE BEE BUREAU OF CLAIMS, in dealing with the claims arising under the Indian depredations act, has been successful in protecting a large number of subscribers and others from extortion and loss. From com

plaints that have come to it, however, it appears that many of the claimants do not un derstand their position under the act. At i time when there appeared to be little chance that congress would take up the claims or make any appropriation to pay them, they signed contracts with the Washington agents, promising from one-quarter to one-half the amount to the agent in case the money should be collected. In view of this extortion con gress inserted a prevision in the act annul

ing all contracts and limiting the agent's commission to 15 or 20 per cent. The claimants all probably understand that the agent's commission has been limited by the law, but many of them, according to their own statements, do not understand that they are free to do as they please about employing the agent they had first chosen. They consider that they are still bound to employ the agent with whom they signed the exorbitant contracts, whether they are satisfied with him or not

It was the intention of congress to protect them at all points and they were left on the passage of the act free to do as they pleased and employ whom they pleased. Section 9 of the act stated : "That all sales, transfers or assignments of any such claims heretofore or hereafter made, excent such as have occurred in the due tadministration of decedents' es-tates, and all contracts heretofore made for fees and allowances to claimants' attorneys

There could be no mistake about the meaning of this. All claimants had to make new contracts with agents after the passage of the act, and they were at liberty to employ any one they pleased. If they were pleased with the zeal and acts of their first agent they might make their new contract with him. If they were dissatised they might choose any other agent that they pleased. Those who have not signed new contracts since the passage of the act may profit by this to secure much better terms than they could otherwise get from the agents. The fact that THE BEE BLEEN is doing the work for the bare expense involved has had a good effect in moderating the charges of all agents to those who know how to protect themto cope with the claim agents on their own ground THE BEE BUREAU is always open.

INU CARS FOR THEIR GRAIN.

### Iowa and South Dakota Farmers Crying for Relief.

BURLINGTON, Ia., Nov. 20 .- [Special Tele gram to THE BEE. |-"Although millions of bushels of grain have been taken away from Chicago eastward, we don't seem to feel any on the let up of blockade out here," said a railroad official today. "The roads are exerting themselves to clear the grain, but it pours in unceasingly and as fast as removed by eastern lines we choke Chicago up. Today 500 cars of grain crossed the Mississippi for Chicago from lowa points, and the officials are advising farmers to store their grain as a possible solution to the situation. They will have to crib their corn for awhile at least, as the moving of it will be out of the question. We could use to great advantage just now 5,000 more cars and 100 more engines." SHOTX CITY, In., Nov. 20.—[Special Tele-gram to Fut Beg.]—The car famine in this section is become severe. On the lines of

the Chicago, Milwankee & St. Paul alone there were today seventy-five car loads of live stock wating to be shipped to this point for which there were no cars. SIOUX FALLS, S. D., Nov. 20.-[Special Telegram to THE BEE.]-This evening the South Dakote railroad commission started for Chicago to secure relief from the tremendous blockade which exists in the ship-ment of grain. Two hundred complaints from as many towns report no cars, and grain buyers have stopped purchasing. The commission denies emphatically the statement of Roswell Miller, president of the Milwaukee, that no car famine exists and

It is urged that the only way in which this amount could be made to do the required work would be to keep the location of

There will not be a finer or larger dissaved those who have taken advantage of its offer from the unconscionable charges of the play of the beautiful holiday novelties in the city, and his handsome establish-ment will be the headquarters for Santa regular claim agents, and has benefited the others by forcing the agents to demand only moderate fees in order to get business. The long delay over the passage of the act had given the claim agents time to make contracts that would give them the lion's share The finest grade of boots and shoes at of the appropriation. Many of the claimants had been induced to sign contracts guaranteeing the agent from one-third to over 50 per cent of the claims in case they were allowed. The depredations act annulled these exter tionate contracts and set the limit of agents

fees at 15 per cent, to be increased in certain cases to 20 per cent on the order of the court of claims. But so many complaints were made of the action of the agents, and so many inquiries for a reliable agent were sent to this offlee, that it was decided to establish a bureau under the direct charge of Tun BER to prothe association, and delegates to the number of 150 or more are expected to be number of its over the western part of the state. A number of outsiders will also be present and participate in the exercises. An effort is being made to get re-duced rates on all roads, on the certificate tect its subscribers and give them the bene-fits of the law at the lowest possible charges. The bureau has more than justified its es-

tablishment.
