

MUST COMPLY WITH THE LAW.

Elevators and Warehousemen Shall Take Out Licenses at Once.

NEWS FROM NEBRASKA'S STATE HOUSE.

Important Lawsuit in Which Omaha and Lincoln Parties Figure—L. H. Coy Travels a Rocky Road—Other News Notes.

LINCOLN, Nov. 27.—(Special to The Bee.)—The Board of Transportation has been waiting patiently for the warehousemen of the state to comply with the law and unless it do so within a reasonable length of time legal methods will be adopted to compel them to do so.

There are elevators and warehouses in every town of any considerable size in Nebraska, and up to date but comparatively few of them have been licensed by the State Board of Transportation.

The commissioners of labor are anxious to enter into correspondence with all parties in Nebraska owning parties of cement rock. A syndicate from the State Board of Transportation is negotiating with all such parties with a view to the establishment of cement factories.

DUN'S REVIEW OF THE WEEK.

Weak Speculation, But no Great Change in the General Outlook.

FAVORABLE OUTLOOK FOR BUSINESS.

The Strain Abroad Causes Some Anxiety—Confidence Displayed in All Branches of Trade—Money Easy, Collections Fair.

NEW YORK, Nov. 27.—R. G. Dun & Co.'s weekly review of trade says: A week broken by a holiday has shown the usual characteristics—weak speculation, active retail and moderate wholesale business.

But the great factors which go to make national prosperity are unimpaired. At Boston the market is strong. A market is dull for dry goods and materials, but good for groceries and hardware.

At Philadelphia there is a moderate activity in dry goods and dress goods and hosiery, and a better feeling prevails. At Pittsburg pig iron is weaker, but manufactured iron and steel are in good demand and the glass trade fair.

At Cleveland demand is good in all lines, excepting a less demand for manufactured iron. At Detroit business equals that of last year.

At Chicago some decrease is seen in cut meats, lard, butter and cheese, but there is a slight increase in barley, 30 per cent in flour, the week's trade being the largest in the market since the first of a third in cattle and oats, of a half in hides and receipts of dressed beef and corn are double last year's, and of rye and wheat three times last year's.

Merchandise also largely exceeded those of last year and prospects are favorable. There is the same confidence in the cotton market.

The cotton market is strong. At New Orleans, receipts of cotton are large and in good demand, and annual alone reports present bright and money no easier, but prospects bright. Speculation during the past week has not been active here.

It is Natural

That we should transact the largest business in the suit and overcoat line. It is also natural that our friends competing with us in the same line of business should be annoyed at this lead we hold, and that they should strive desperately to close the gap.

Steam-Propelled Ocean Racer.

We do not boast of unmatchable brain power, great business sagacity or other "swell head" attributes. It is simply our recognition of the laws of production and consumption.

We manufacture the goods and sell them direct to the consumer. THIS CUTS OFF ALL MIDDLEMEN'S PROFITS. We manufacture on a large scale for our retail stores in the leading cities of the union. THIS INSURES ECONOMY IN PRODUCTION.

When a clothmaker or manufacturer of any of the market goods goes into clothing is forced to sell we get a full benefit, as there are but few factories to compete for the goods. Not so with a forced sale of ready-made clothing, as the thousands of retail dealers through out the country are always ready to "light" at any slight reduction. DO YOU SEE THE DIFFERENCE IN OUR FAVOR?

W. J. Gilmore's great spectacle, "The Devil's Auction," which played to the capacity of Boyd's New theater at two performances Thanksgiving, will close its engagement by giving two performances today—a matinee for ladies and children at 2:30 p. m. and an evening performance commencing at 8 o'clock.

"The Millionaire" will be seen at Boyd's New theater to-day and to-morrow. The first time with Dan Sully in the title role. Mr. Sully's performance is spirited and lifelike, and his comedy is possessed of merit.

Another of the comedies by J. J. McNally, the author of "A Straight Tip," and entitled "Boys and Girls," will be presented at the Boyd's New theater to-day and to-morrow. The Rich & Harris Comedy company, Mr. McNally has been happy in creating something of a novelty in the way of a plot, and "Boys and Girls" is a very strong and strong evening's jollity.

Mrs. M. E. Cuming, residing at Anderson, Ind., is in deep trouble. For a number of years prior to last she had a husband who bore the name of James Y. Cuming. About that time James deserted his home, and as she has since been informed removed to Omaha, where he took unto himself the name of James Y. Cuming.

The judge was a candidate for re-election on the republican and independent tickets, and the official returns give him a majority of 82 votes. His election is to be contested, however, by the democratic candidate, Judge J. C. Crawford of West Point.

"I have had no official notice of a contest," said Judge Norris, when asked about the matter, "nor have I been served with a copy of a complaint, but I have been told that contest proceedings have been begun, and presume that the report is correct. My only knowledge of the questions raised by Judge Crawford comes from hearsay. I am told that he will raise the point that the Winnebago Indians on the reservation in Thurston county are not qualified to vote. The Daves bill, under which they were supposed to have gained citizenship, provides, as preceding thereto, that they must sever their tribal relations and take lands in severalty." The Omahas have taken their allotments of land and received patents therefor. The Winnebago Indians have not received their allotments, and are not qualified to vote. The Daves bill, under which they were supposed to have gained citizenship, provides, as preceding thereto, that they must sever their tribal relations and take lands in severalty.

The judge has written the woman that she is on the wrong trail in her search for her James, as the marriage license record fails to disclose the fact that she is not the wife of James Y. Cuming. The city directory also fails to furnish any information to prove that the man is a resident of this municipality.

Does it Contain Ammonia? The charge is being made that the Royal Baking Powder contains ammonia. We would have supposed that the emphatic condemnation of ammonia baking powders by the most eminent physicians throughout the land, and the fact of the three leading chemists of Minnesota making their report to the Senate Committee recently showing that bread baked with the "Royal" contained ammonia and the hostility now being manifested by the public against all ammonia and alum baking powders would have driven them permanently from the market.

In view of the fact that Baking Powder has become an indispensable article in every kitchen, it is gratifying to know that there are brands in the market to which no suspicion of any kind has ever attached. Dr. Price's Cream Baking Powder is a pure cream of tartar powder free from every taint of ammonia, alum or other harmful substance.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

Ho is 14 years old and gives the name of Philip Gardner, which she believes to be a fictitious one.

The youngster has been so and is anxious to go again. Mrs. Sweet is very much interested in his case, and wants the chief to find the boy's parents if possible, as she is sure that she will do anything to bring him home again. She describes the youth as having regular features and is left-handed. Any Omaha family who lost a handsome, left-handed, 14-year-old would be notified three years ago, is requested to make known that fact to Chief Seavey or Mrs. Sweet, and they will ascertain the whereabouts of the ambitious sailor.
