The funeral of W. H. Brightman took place yesterday morning, the body and a large number of friends being carried to the depot on a special motor train furnished by the company. Among those who attended were the Odd Fellows of the various loages of this city, who occupied one of the cars. The remains were taken to Creston for burial.

The house of M. F. Bohrer on Vine street was visited by burgiars at an early hour Sunday morning. They confined their attention mainly to the pantry, and when the family awoke in the morning they found it had been a clean sweep. All the contents of the pantry and the refrigerator that could be eaten had disappeared. The residence of Mr. Brue, near by, was also visited, where a number of small articles were taken.

Joe Wardian, who keeps a store at the corner of Broadway and Sixteenth street, got into controversy yesterday afternoon with a couple of men who gave their names as J. Bigley and George Schuktz, over a dressed hog. Words led to blows, but finally War-dian got away from his assailants and went to the office of the city clerk, where he had a warrant issued for their arrest on the charge of disturbing the peace. They were arrested by Officer Murphy.

Marshal Templeton returned vesterday morning from Carrell, with the two girls in charge who are accused of stealing \$50 worth of clothing belonging to Belle Clover. All three were slated with larceny and will have a hearing before Judge McGee this morning.

Justice Swearingen's court was the scene of a lively little lawsuit yesterday. The case of D. A. Kistler and J. J. Heckman was on trial, and F. A. Shaver appeared as attorney for the defense. While the plaintiff was on the stand a war of words took place between them, in the course of which some personal remarks were made on both Finally the plaintiff became enraged at some thrust from Shaver and made a bolt for the attorney. The latter waved one fist in the air, while the other went quickly to the bottom of the pocket where pistols are usually carried. The justice and the spec-tators fully expected to see a lot of red, warm blood split, but the combatants were quickly separated before either had toyed with the features of his adversary.

DISCUSSED THE COAL QUESTION.

Echool Teachers Will Not Receive Compensation for Service During the Holidays-Other Interesting News Notes.

An audience consisting mainly of coal dealers gathered at the Board of Education rooms last evening, a special meeting of the board being held for the purpose of opening bids and letting contracts for furnishing coal to the schools for the present year. Members Wells, Schoentgen, Shubert and Hunter were present. The sealed bids were opened by Chairman Hunter of the fuel committee, and read. They were as follows: F. R. Smith, \$4; Sackett & Preston, \$3.60 F. R. Smith, \$1: Sackett & Presion, \$3.60; W. W. Walkace, Centerville or Walnut block, \$6.65. L. C. Knotts-Missouri lump, \$1.60; Marion county, \$1.25; large Missouri nut, \$2; small Missouri nut, \$2.75. Carbon Coal company-Lump, \$1.49; Centerville, \$1.25; Walnut block, \$1.25; screened, \$1.75.

As soon as the reading was finished Hunter moved that the contract be awarded to the Carbon Coal company as its price, \$1.40, was Carbon Coal company, as its price, \$3.49, was the lowest. Schoentgent objected, as he understood that, in proportion to the quality of oal, Wallace's at \$3.55 was cheaper than the other at \$3.49. Some discussion ensued, and t was evident that neither side would give in. It was therefore decided to appoint a committee to consider the matter and report at another meeting to be held this afternoon at 5 o'clock at the office of Secretary Wright. This committee consists of Wells, Schoent

gen and Hunter, Shubert moved that the teachers be paid for the three weeks of this month when there is school, deducting for the holiday vacation, and that the chairmen of the teachers' and finance committees be authorized to pay them when their work is done. The motion was

He wanted the board to pass a resolution providing that anyone in the employ of the school board owing a deimquent bill without being able to show just cause, should be summarily fired, or words to that effect. This resolution was declared out of order by the president, and was not voted on.

Threatens to Sue the County. An Omaha man was in the city yesterday with blood in his eye, looking up some of the county officials who had been responsible for having the pipes in the basement of the court house covered with a patent aspestos cover ing. Omong others he came across County Commissioner A. C. Graham, whom he notified that the covering that had been used was a patent of his own, and that the county, the ontractor, and all who had anything to de with the job were liable to have a law suit come clattering down about their heads. ome clattering down about their heads.

The contract was let to G. H. Udell, an out of town party, for \$90, the next lowest bid being for \$175, and the work was done on the \$90 basis. Now the man who claims to own the exclusive right to use the covering slips in and demands that the county either him the cost of the covering or else stand a legal action. Mr. Graham told the Omana man that the county was not doing business that way, and he also remarked that the county would spend \$10,000 in attorney fees before it would pay him \$2.50 for using his

patent. He went away breathing threats of one kind and another, but all of them very Hotinay Books.

Stuhr Was Not in it.

John P. Stuhr, the bankrupt Minden merchant, has been generally supposed to be interested in the firm of Stuhr Bros., implement dealers of the same place. A day or two ago an eastern creditor of the latter firm sent on a claim to nim for payment, but was sent on a claim to him for payment, but was notified that he was not connected with it in any way. E. W. Peterson, manager for R. G. Dunn's commercial agency at this point, was directed to look up the matter, and found that Stuhr now claimed that his wife was a member of the firm but that he was not. Yesterday a paper was filed in the county recorder's office transferring the stock of Mrs. Amelia Stuhr, wife of John P., to Julia Stuhr. Mr. Peterson states that Stuhr, in his sworn statements, has given him to understand all along that he was a member of the firm, and yesterday was the first time he found anything to the con-trary. Cox to be captain of hose company No. 7; George C. Crager, captain of No. 8; George C. Blake, captain of No. 9; Joseph Wayrin, captain of No. 10; Thomas Gray, captain at No. 11 house; Augustus Williams, captain of truck 3; George T. Anderson, captain of chemical No. 2, Transfers: Robert Van-derford, from No. 1 to No. 11; and J. A. Reils from No. 11 to No. 1. This report was signed by the committee, Messrs, Gilbert, Coburn and Hartman.

Mr. Coburn asked Chief Galligan if the proposed changes were satisfactory. The chief stated that there was no necessity for a captain on chemical 2, and that Gray should be kept on a truck and not sent to : hose house. In the place of Gray the chief suggested Noonan.

That man shall never be a captain as long

as I can prevent it, nor Murphy either," said Mr. Gilbert rather hotly, Chief Galligan then climbed out of his chair and told the commission that Mr. Gilbert had been listening to a lot of talk among the men who were chronic kickers and per-

petual fighters.

Mr. Gilbert pointed his long finger at Gailigan and said: "Yes. I have heard lots of things about Murphy and Noonan, and about "Weil, what you have heard about me

don't cut any figure here. I am not on trial," replied the chief.

Here the mayor took a hand by saying very decidedly and in no pleasant tone to Mr. Gilbert: "What you may have heard cutside should not be introduced in your report here; neither should you say who shall or who shall not be promoted or exchanged. If you want to influence this board by outside talk, bring the men up before the whole board and let it decide and not make a decision according to your own prejudices and say it must go,"

Mr. Coburn said: "I signed that report on

Mr. Hartman thought a member ought to be allowed that privilege, and so the report was laid over and a motion by Mr. Smith to adjourn was hastily carried.

FOR GOOD REASONS.

The Uniform Rate of \$5 a Month is Extended for the Remainder of the Year. Unt I January

Until January.

Overwhelming evidence was eiven that the public appreciates the low winarges and the professional care and skill which the offer of Drs. Copeland and Mansfleid during October and November, made possible to all. For this reason and because of the commonness and frequency of cattrinal troubles; the fact that a arge majority of the people in this climate suffer from this disease; that winter is at hand with its in grippe and pneumonia and that there is yet abundant to ward off the probability of altacks of these diseases, by curing catarrhal canditions which make patients liable to them. Drs Copeland and Mansfield have decided to maintain the five-dollar per month rate of treatment, confining it however, to catarrh and kindred diseases, during December to January they will treat catarrh and kindred diseases at the rate of \$5 for each month's treatment—this sum including all medicines, care and treatment. This offer does not apply to all diseases, but to catarrh and its various complications, such as bronchilds, gastric catarrh, or devenents, as the

My great trouble was the continual dripping in the back part of my throat. I would have to hawk and spit to get rid of it. This would leave my throat raw and sore. I had a bad cough at times, especially in the morning, and I would have severe pains in my chest. My trouble extended until my stomach became affected. I treated for my trouble time after time, but could not secure any relief until I began treatment with Drs. Cepeland and Mansheid. They had been treating several friends of mine with such marked success that I determined to give them a trial. I did so with the result that I am feeling spiendra again. I don't have the dull, heavy pains in my head not water any more. My nose does not stop on mear so much any more, while the dripping in my throat is almost entirely gone. I have no more cough, no more pains in the chest. My stomach trouble is greatly relieved, and I am more than satisfied with the speedy result in my case, and have all conflicince in the skill of Drs. The Distinction and Difference Between Advertising Doctors and Doctors Who Advertise.

A lady who recently placed herself under treatment with Drs. Copeland and his associates, said:

"I never would think of going to advertising doctors; I never did such a thing in my life. I have a brother who is a doctor in the country and who knew Dr. Copeland at Bellevine Hospital College in New York years ago; he advised me to consult film and I followed his advise." is advised.

To speak with entire frankness, the lady was right in her opinion of "Advertising Doctors," so called, and the sentiment, which she holds by no means alone, has good cause.

We have no fault to flad with the sentiment, which is a sentiment, we have no fault to flad with the sentiment.

holds by no means alone, has good cause.

We have no fault to field with the sentiment. The term "advertising doctors," as she uses it, and it is used by intelligent and sensible people, includes the whole wide range of unscruptions, unprincipiled and disreputable quackery.

The phrase "advertising doctors" has been for years, and is stille to a great extent, a synonym for quackery in its worst phrases, and we do not blame sensible, thinking and intelligent people for steering clear of it.

Ors. Copeland and Mansield which however, to make one point very clear and very distinct:

There are "advertising doctors" and doctors who advert se, and there is a wide difference. "Advertising dictors," in the first place are, as a rule, no doctors at all. The large majority of them have never seen the inside of a medical rolle c.

Unser the hend of advertising doctors are included all that class of unprincipled and unseruptions men—who prey upon the sick and unfortunate. Their ways are only too well known to need description. They are often translend, traveling from place to place, irresponsible and unprincipled. As a rule they promise miracles, and, by theirs cunning and plausibility, extert irresponsible and unprincipled. As a rule they promise miracles, and, by theirs cunning and plausibility, extert irresponsible with the power classes and those who can least afford to be pobled.

There are "advertising doctors," and advertising doctors as the term is used means fakirs. There are doctors who advertise, and

who have passed through the usual course of medical college and hospital study, and who have devoted their lives to certain lines of practice—confining themselves to these special lines. Their experience and their study has riven them special and pre-eminent skill in them and they choose the daily papers as a means of tetting the public know their specialties and their success. As conscientions physicians, and as honorable men, they believe in advertising.

First in this class of doctors who advertise their specialties are Urs. Copeland and Mansfield. They state to the public some of the results of their work—their location, their specialties. Their credentials which challenge denial are before the beople.

They say to the public from the basis of the printed columns containing many testimonials from well-known men and women in this community: "This is the work we do. These are the results we accomplish. We ask to be judged by them."

Catarrh and Deafness Cured. "Five years ago my trouble began, from the effects, I think, of a bad cold. My nose would stop up, first one side and then the other; the mucus would drop from my head into my throat, cousing a constant hawking and spit-
