SOME ONE HAS BLUNDERED.

Unfortunate Mistake Opporning the Clifton Ected Heating Plans.

WILL COST MONEY TO MAKE IT RIGHT.

Mr. Martin Explains How the Affair Came About-General Actions of the Board of Education Last Night.

After the Board of Education had shuffled through a batch of routine posiness last night, Mr. Euclid Martin grose and called the attention of the educational congress to the fact that the committee on buildings and property had encountered a white elephant in the basement of the new Hitchwock school at Clifton Hill. He asked the advice of the entire board as to the manner of dealing with the animal

Mr. Martin explained that when the committee recommended to the board the adoption of the Smead system of heating and ventilation for the Hitchcock school it was fully understood that the extra brickwork in the basement necessary for the proper putting in of this system would cost not more than \$100.

Made a Great Mistake.

The contract price of the Smead furnace and ventilasors and complete apparatus for the building, he explained, was \$1,200, and with the extra brick work the total cost was to have been about \$1,600. But a mistake or misunderstanding had occurred, by which the excavating and brick work for the dry closets, that form a part of the Smead system, had not been properly done, and to do the work new as it should be done would incur an additional outlay of about \$500. Mr. Martin confessed frunkly that the expensiveness of the scheme had staggered him, and he as chairman of the committee on buildings and property did not feel like going on with the matter without the consent of the b are. The heating and ventilating plant could be put in at the expense first reported, but that would make it necessary to have the closets outside of the building. In order to have the Smead system all complete in the building with dry closets in the pasement the extra expense would be abso-'What shall we do about the matter?" Mr. Martin asked, and then sat down.

both painful and unbroken. Estimating Extra Expense. Dr. Gibbs broke the spell by asking Super-intendent Hamilton if he had ligared the matter carefully and if he didn't think the

For about one minute there was a silence

vork could be done for less money.

Mr. Hamilton replied that he had, and the entire cost of the Smend system—brick work, excavating and all-would foot up about Mr. Babcock murmured something about

Dr. Gibbs thought the Smead system improvement rather expensive, but the board had started in to have a thorough system of heating and ventilation at the Hitchcock site and it would be unwise to turn back on account of a few hundred dollars. It was rather an unpleasant dose to swallow but the board, he thought, had better take it and

hope for the best.
Dr. Spalding claimed that all this expense should not be attributed to the Smead system. He held that it would have cost \$1,000 to have built a cesspool and closets, and with this system that would be saved. Mr. Smyth delivered an impressive speech upon health and hygiene, saying in conclusion that if the Smead system saved one solitary little boy from the ravages of discuse

incident to poorly ventilated rooms, it would be very cheap at \$2,100. A resolution instructing the committee on buildings and property to proceed with the completion of the Smead system in the Hitchcock school was then introduced and Yeas-Babcock, Coryeli, Gibbs, Martin, Rees, Smyth, Spalding and President Good-

Nays-Kelly, McConnell, Morrison and

Bonds and Other Pusiness Mr. Rees moved that the date of the school

bonds be fixed as January 1, 1892.
A special committee was appointed to consider and determine the rate of interest that the school bonds should bear. Dr. Spalding, Mr. Martin and Mr. Points were appointed as this committee and were instructed to re-port at the next meeting.

The resignation of Miss Ella H. Davis was

read and accepted. Miss Lucy L. Wood also Several capplicants for the janitorship of

the Kellom school presented recommenda-A petition signed by about twenty pupils in the vicinity of the Hartman school, asking for the opening of a night school, was presented and referred to the committee on

instruction. Miss Lillis Crummel of the Lathrop school was granted a leave of absence without pay from January 4 until the opening of the

spring term.
Superintendent Fitzpatrick reported that he had closed a room at the Hartman school by transferring eight pupils in the Eighth grade to another school. The bill of William Lyle Dickey & Co. for ballot boxes had been the subject of dispute between the board and Mr. Dickey. The board had become convinced that the tin used in the new boxes was not first class and Mr. Dickey's bill was rejected for more thorough examination.
Miss Whitmore was allowed \$20 additional

pay for filling the position of assistant principal for two months at the Lake school in addition to her work as principal. Some Committee Reports.

The committee on text books reported adversely upon the question of introducing a reading book now in manuscript from and prepared by Miss Foos.

The committee on judiciary reported in favor of deferring action upon the payment of the judges and cierks of election until the case now in the courts pertaining to that subject should be decided according to law.
The report was adopted. The same committee reported in layor of instructing the secretary to petition the city to refund the money paid the city treasurer as taxes for the year 1889. The report was adopted.
The special committee appointed to prepare

a suitable form for the bonds to be issu the school district submitted a bond which Mr. Fred Perkins registered the usual about his salary for a of September. He month employed as engineer for the manual training department, but as there was no teacher for the department until the middle of October. Mr. Perkins had nothing to do in the capacity of an engineer. He presented biouself, however, at the building, he claims, and therefore holds that he should have his saiary in full. The matter was referred to

the judiciary committee.

A resolution was adopted authorizing the president and secretary to draw warrants for the teachers, janitors and all regular em-ployes of the board for the month of Decem-ber when the pay rols were approved by the superintendent, the committee on heating and ventilation and the committee on claims. The secretary was instructed to purchase

twenty-five chairs for the High school music About a Fuel Experiment.

Mr. Babcock introduced a resolution to instruct the secretary to purchase some slack coal for the Mason, Waluut Hill, Omaha View and Webster schools for the purpose of ascertaining whether or not it would be more economical than to continue the use of lump coal. The resolution provoked a spirited discussion. Mr. Morrison thought it was useless to purchase slack coal for heating the school build ags until it had been ascertained whether such coal could be used in the furnaces of the school build age.

Mr. Martin thought it would be all right to experiment a little with stack coal. If money could be saved by heating the school buildings with slack coal he was in favor of burning the school. burning slack coal.

McConnell moved an amendment to the resolution authorizing the committee on heating and ventilation and buildings and property to make a careful experiment with Union road, a "stao" of the

neer for this special purpose at an expense of not more than \$25.

"I don't want to see any more experi-ments," shouted Mr. Morrison, rising sud-denty. "We have experimented all the way from Dan to Beersheba, from Silicon plaster to a Smead system, and I am opposed to any further experiments. Let the new board experiment if it wants to, but let us keep on safe ground."

Mr. Babcock said that his experiment would cost but a trifle, and might be the means of saving the board a great deal of money. He said that the school buildings in Denver were heated with slack coal, and he oddn't see any good reason why the same might not be done in Omaha.

Mr. McConnell's amendment to Mr. Ban-cock's resolution was put and carried and the resolution was then adopted.

Wound up on Routine.

The board then took up the matter of fixing the amount of the city treasurer's bond to be furnished the school board. The amount of the bond that will be required of Mr. Henry Bollo by the school board was fixed at \$500,000, or double the amount of the funds that he will probably have in his pos-session belonging to the school district. Mr. McConnell introduced a resolution exressing the idea that the erection of a central school building should be the firuilding operation undertaken in the early pring, so that the building could be com-

II. The resolution was adopted.
Miss Margaret Vincent was elected as rincipal of the Sherman school. On resolution of Mr. Martin the committee a buildings and property was instructed to ascertain if it would not be possible in the near future to get possession of the rooms in the new city hall building assigned to the Board of Education.

eted by the opening of the school year next

Are you nervous and irritable! A glass of Cook's Imperial wine banishes that feeling. It's the pure grape juice naturally fermented.

BEGINNING 10 THINK.

Board of Education Members Discussing School Sites Seriously. The article in THE MORNING BER of yester sy, calling attention to the situation with reference to the Keilom school site has set he members of the school board to thinking and talking about school sites in general.

The disposition of the Izard school when the Kellom school has been completed is going to create considerable debate in the board. When the board decided to build the Kellom school it was argued that the Izard school could be entirely wiped out as soon as the Kellom school was opened. The superintendent says now, however, that if the pupils from the Izard school are all taken to the Kellom with the pupils now in the Paul or the old Kellom building, they will completely fill the new building and then no relief can be afforded the Lake school. It is doubtful, therefore, if the Izard school can be abandoned and sold. going to create considerable debate in the med and sold.

Superintendent Fitzpatrick thinks it would be advisable, in the near future, to open a branch High school at the Kellom for pupils in the north end of the city. Speaking of eligible locations for school

speaking of engine locations for school buildings yesterday a member of the board said: "A mistake was made in purchasing the Paul or Kollom school site. The building is now very awkwardly situated, being shut off from the principal street that runs past it, but I am in hopes that we shall eventually get that strip of ground now owned by Mr. Harbaugh and have a frontage on Twenty-second street, as we intended when the ground was purchased. Since this matter has been brought up, it is well to consider some other school sites when new buildings are to be erected the coming summer. There s the Hickory site, for instance, at Sixth and Hickory. Those lots are nearly Sixth and Hickory. Those lots are nearly forty feet above the grade. It is absurd and extravagant, in my opinion, to attempt to bring those lots to grade. I think the board should dispose of those lots and buy ground more eligible for school purposes. This matter of locating school buildings should be very carefully considered. The board has made some errors alread; and an honest effort should be made to avoid blunders in

The delicious fragrance, refreshing coolness and soft beauty imparted to the skin by Pozzoni's Powder, commands it to all ladies.

Reel's Grocery Stock. The grocery stock of Hiram F. Reel, at 522 North Sixteenth street, which was placed in the hands of the sheriff a short time ago for the benefit of the creditors, was sold yesterday at assignee's sale. The stock was bought by the assignee at \$4,250.

There were several grocers present and the stock was thoroughly inspected. It was the opinion of all present that the stock sold for all it was worth. The goods held by the ereditors include several wagons, teams and other appurtenances belonging to the business. Some of the wagons have been sold and others will be disposed of soon. The total indebtedness is about \$15,000.

DeWitt's Little Early Risers. Best little pill ever made. Cure constipation every time. None equal. Use them now.

Insolvent Insurance Companies. HARRISBURG, Pa., Dec. 21.-Judge Simonton today made a decree dissolving the Farmers and Mechanics Fire Insurance company of Millersburg, Merchants of Altoona, Pa., and Dauphin Fire Insurance com-pany of Dauphin and appointed re-ceivers. The companies are mutual fire in-surance companies and are insolvent.

Constipation poisons the blood; DeWitt's Little Early Risers cure constipation. The cause removed, the disease is gone.

LINCOLN CAPTURES A PRIZE,

Local Capitalists Will Erect an Immense

Beet Sugar Plant.

Capacity of the Contemplated Factory

MACHINERY WILL BE USED.

Will Be Three Hundred and Fifty Tons Daily-Other Local News Notes.

LINCOLN, Neb., Dec. 21.-[Special to Tun Bng. |-The chances are that the city of Lincoln will be the next in Nebraska to draw a prize in the shape of a big beet sugar factory. Mr. Arthur Stayner, representing the firm which erected the factory at Lehi, U. T., has been in Lincoln several days conferring with the officers of the Board of Trace and prominent capitalists, and it is understood today that he will make a definite proposition. His proposition will be, that a joint stock company will be formed, the company he represents to take one-half of the capital stock. The officers and a majority of the directors

the company will be Lincoln men. He agrees that his company will furnish the experts to operate the factory. The plant will be fully as complete as any in the United States and will have a capacity of at least 350 tons of pure granulated sugar per day. Further than this, the factory will be equipped with machinery manufactured entirely in the United States. Mr. Stayner represents the company-Dyer Bros.-which erected the big factory now in operation at Lehi, and the success at that place is a guarantee that he knows what he is talking about when he says that Dyer Bros. can put m an American plant equal to any in the country equipped with machinery shipped to this country from France or Belgium.

Smooth Swindler Arrested. M. B. Humphreys, day clerk at the St Julian hotel in this city, was today arrested upon the strength of a telegram received from the authorities of Lansing, Mich. Humphreys came to Lincola a week are and registered at one of the leading hotels as from Chicago. Seeking out the proprietor, he stated that he had had long experience as a hotel clerk and desired a situation in some good hotel in the west. He left several references and the next day went to Omaha. The notel proprietor wrote to the references in Chicago and the replies indicated that Mr. Humphreys had the reputation of being a very smooth article. One of the letters re-ceived from Chicago contained a newspaper clipping stating that Humphreys was wanted at Lausing, Mich., for swinding a hotel keeper there out of \$259. The letter was at nce forwarded to Lansing and the authorities at that city today wired Chief of Police Dinges to hold the man. Humphreys re-turned from Omana last Friday and secured a position as clerk at the St. Julian, where Chief Dinges found him today. He is a young man, apparently about 30 years old, well dressed and a good talker. He takes his arrest hard and has been weeping in his cell

Senator Peffer Wants to Know. Governor Thayer today received a letter from Senator Peffer of Kansas in which he earnestly requests some information. He

In investigating the general subject of state taxation. I have difficulty in ascertaining what part of the property listed for taxes is money. Will you kindly favor me with such information on this boint as the records of this state show for any one year since 1879? What I want is simply the total assessed value of all property listed for taxation, dividing between real and personal (if such division is made under your laws), and how much of it is money.

Governor Thayer referred the letter to the

Governor Thayer referred the letter to the State Board of Statistics and the officers of that bureau directed the bewhiskered states man of the sunflower state to the congressional library in Washington where the annual reports of the auditor of Nebraska are easily be obtained.

Red Willow County Responds. When Commissioner Ludden, who will have charge of the matter of sending a train load of Nebraska corn to the famishing farm ers of Russia, arrived at his office in the state house this morning he found a letter awaiting him from Judge C. W. Beek, secre-tary of the Red Willow County Agricultural society. Judge Beck read the proposition in yesterday's Bag and at once wrote Commis-sioner Ludden that Red Willow county will contribute her share of the corn and that he would commence gathering it in today. The interesting part of this is that Red Willow county was one of the counties that received aid from the State relief commission last winter. Her farmers prespered this year and are now the first to respond to the cry of

distress from others.

They'll Be Married in a Week, A green young couple were arrested in an O street block about 3 o'clock yesterday morning, all because they lacked the neces-sary credentials to prove that they were man and wife. At the police station they gave their names as J. Bertram and Lena Benton, Today they told Judge Cocbran that they were anxious to get married and if he would dismiss the case they would gladly enter non a life of conjugal felicity under th provisions of the statutes in such cases made and provided. It seems that Lena was at one time encumbered with a husband in ime in which to prove her assertion that she has a divorce.

In the Supreme Court.

A case involving an interesting point of law was filed with the clerk of the supreme court today. It comes from Fillmore county, and is entitled Barrett vs Provincher. In the lower court Barrett, in his legal capacity as the guardian of Alanson Barrett, sued Provincher for \$72.39 due the boy as wages, At the trial the fact was developed that the boy was dead. The defense at once moved the court to dismiss the case on the grouthat Harrett had no legar capacity to s The lower court sustained the motion, dis-missed the case and taxed the costs up to Barrett. The supreme court is asked for a new trial.

Undausted Woman With a Gun.

Harry Rhodes is the name of a young man now lying in the city jan under the charge of stealing a silk dress-valued at \$40. Harry tole the dress from his landlady and carried it to a dusky dive in the half world where he pawned it for \$1. The landsuly secured her husband's revolver and after making the young man confess to the theft compelled him to accompany her to the house where he had left it. Here the handy revolver again had the best of the argument and the colored siren gave up the dress.

Rev. Mr. Ludden Pleasantly Surpris d Rev. L. P. Ludden, pastor of Grace Lutheran church, and also the very efficient state commissioner of labor and statistics, was treated to a pleasant surprise Saturday eve-ning. The occasion was Mr. Ludden's thirty-seventh birthday, and his friends dropped in upon him to remind him of the fact. They brought with them a handsomely upholstered chair, which will always serve to remind him of the esteem in which he is held by his friends.

SOUTH OMAIL.

Possible Beet shortage. A Colorado stoexman who was at the stock yards yesterday said: "We occasionally sear persons who are in a position to talk inelligently on the subject express the opinion that a great beef shortage will occur in this country within a few years, Various reasons are given for this opinion, and among them is the allegation that the discouragement attending beef producing the last few years has driven a great many out of the business and has so disheartened them that they are not liable to go into it again even with great encouragement, that ranching has seen its bost days and will never be the rival of farm beef growing which it once was: that our population is steadily increasing and is sure to require a great many more cattle each year than the one preceding, and that the possibilities and ropabilities of our export trade are simply

"These things are true enough. But at the American people are very quick to supply a marked need in any of our markets, and that a variety of other kinds of meats have for some years been substituted for beef. "I have faith in the future of cattle, and believe that the beef grower who keeps his head, supplies him-self with good stock, produces as economically as possible, and strikes

case of any great shortage, which some pre-gict, any kind of cattle, good, bad or indif-ferent, will be certain to make money in the future of which they talk.

"But the only safe plan for the cattle raiser is to prepare for the production of something whose quality will recommend anywhere, and to get his process down to a point where beef can be made with a mini-num of expenditure. Such feeders will at east be comparatively independent of the

for the upper rounds of the market, is cer-tain to make mone, in the course of time. In

future developments of the business." Hustled Across the Line. William Jeans was arrested in Omaha esterday on complaint of Deputy Sheriff Vic McCarthy of Sarpy county on the charge f perjury. He was brought to the South Omaha jail for safe keeping until this mornng. It was learned that a movement was afoot to get him out on a writ of habeas corpus, whereupon McCarthy forestalled such a proceeding by securing a buggy and astling the prisoner across the line into sarpy county.
Jeans was a prominent witness in the re

cut damage suit prought by John S. Mulien

igainst the World Publishing company. Drouth Doesn't Affect Pork. In talking arout the effect of drouth on the nog market, a commission man said yesterday: "I believe the drouth of last year was a pretty good thing after all for stock raisers, as it demonstrated beyond doubt that hogs can be fattened and raised without so much corn. All one has to do in considering this matter is to look at the liberar receipts of nogs this season, all of which were sup-osed to be dependent upon last year's corr rop, yet the porkers have been in as fine condition as any ever received in the market. and the shortage on corn did not apparently affect them in the least."

Yard and Office Notes. Hugus, Mullison & Beat of Saratoga, Wyo., had three cars of grassers on the market. H. Halthusen, a Colorado range cattle man, rought in two cars from Colorado Springs E. S. Sensenig, an extensive and well nown shipper from Craig, brought in three cars of hogs.

SUCCESS CONTINUES.

Dr. C. Gee Wo's Famous Chinese Remedies Read the Testimonials from Patients Who Have Been Cured.

AFTER TWO MONTHS TREAT-MENT HE WAS CURED.

To Whom it May Con-I have been a sufferer for many years and have tried a great many doc-tors and patent medicines

disease and houses. I suffered a great deal and got no relief until, at the advice of a friend, I went to see Dr. C. Gee Wo, the Chinese doctor of Omaha. I took his medicine for two months and am completely cured. Lowe my cure to the Chinese doctor and am thankful to him for it. Very truly, A. O. MOGEL, Oakland.

Too much cannot be said in praise of Dr. C. Gee Wo's famous remedies. To Whom it May Concern: I desire to say in favor of Dr. C. Gee Wo, the Chinese doctor, that he has done me more good than I ever got before in my life for indigestion and stomach trouble, from which I was a constant sufferer for many years. I tried nearly all the doctors of any repute in my locality, and not until I was advised by a friend to call on Dr. C. Gee Wo did I receive

the least show of improvement. After taking his medicine for 2 months I can say I am entirely cured and my former health restored. I owe it all to Dr. C. Goe Wo's skillful treatment and can recommend anyone suffering as I was to call and give him a trial. call and give him a trial. He is a first class physician and can cure a person when he promises to do so. Yours truly, J. HOLMGREN.

FROM MT. AYR IOWA. Dr. C. Gee Wo, Omaha, Neb.:

Dear Doctor: I have your letter of the 1st inst., and in reply will say I do not think I shall require further treat-ment from you, as the medicine you sent has had the desired effect and has entirely cured me of my indigestion troubles, and the general condition of my health is so much improved that I think I am well. Also my nervous system is all right.

rest assured I shall not let an opportunity pass to return the compliment by recommending your skillful assistance to anyone needing treatment. My friend who was taking your rheumatism remedy is also getting better

Please accept my sincere thanks for

the great favor you have done me, and

assist you or help you in any way.
