Declined Later. TRADE WAS BROADER AND MORE ACTIVE.

War Question Did Not Exert Much Influ-

ence. But the Bullish Sentiment Was Rullt on the Confidence in the Situation.

CRICAGO, Il'., Jan. 21 .- The action of the wheat market today was the reverse of that of yesterday. Then it opened weak and lower and closed strong with a boom. Today it was strong and advanced early but weakened and declined later, closing easy at about the lowest price of the day. It was a good deal of a speculative market, that is, the market was governed largely by supply and demand, irrespective of outside or regular influence. Early th re was a good demand, helped along by firmer foreign markets and small receipts and

th re was a good demand, helped along by firmer foreign markets and small receipts and a continuation of the bullish feeling which existed yesteriany, but the advance brought out free offerings and realizing sales without any particularly unfavorable news and a sharp reaction followed. The opening reports from all direct domestic markets quoted them firm and higher and the trade was broader and more active. As the short interest was large there was a lively scramble to cover, but there was little forsale and the advance was easy. The war question did not seem to exert much influence, but the builtsh sentiment seemed to have been built upon the growing confidence in the legitlmate strength of the situation. New York and St. Louis operators had lar e-buying orders at the start and nearly all the private wire houses were kept busy on the buying side. Logan, Swartz-Dupee, Mi mine-Bodman, Gifford, Mitchell, Counselman & Day and MeDougal led the buying most of the day.

It was noticeable that many commission houses had scattering orders for fives and tens from outside, showing that confidence is spreading and the trade broadening. There was a story that Pardridge and Kanffman of St. Louis were short fully 10,000,000 bm, but the belief that they would be forced in gave the market some additional strength. Pardridge, however, announced this as grossiy untrue and was still seiling short with his usual vigor. A story was cabled from London that Beerbohm estimates the remaining requirements of Europe at 14,000,000, or 40,000, 500 bm, but the belief that they would be forced in gave the market some additional strength. Pardridge, however, announced this as grossiy untrue and was still seiling short with his usual vigor. A story was cabled from London that Beerbohm estimates the remaining requirements of Europe at 14,000,000, or 40,000,500 bm, but the belief that they would be forced in gave the hard spots. May opened at from 224 to 224 c, against 924 c at the close yesterday, and after hesitating around these figures for a

Corn was quiet and weak throughout the session and especially toward the close, when wheat was so weak and closed with a loss of wheat was so weak and closed with a loss of 15c on May.
Outs sympathized with the weakness in other grains and lost 15c.
Hog products were strong and higher early on smaller receipts of hogs than was expected and firm prices, but broke later on free selling by packers and other longs, closing at about bottom figures. Pork is 15c off, lard 5c and r ba alike amount. and ros a like amount. Estimated receipts for tomorrow: Wheat.

Minneapolis Wheat Market.

Minneapolis Minn. Jan. 21.—Wheat held to lay to the advance of yes creasy until near the close when it broke tee. This morning there was a good deal of uncertainty about the situation but sentiment favored the builts and the trading up to noon was along that line, with occasional slumps below 88c. The buying fell off near the close and there was a decline. It developed in the morning that the foreign markets were not responding to the advance on this side yesterday, and this had a depressing influence, for it indicated that the foreigners have all the wheat they care for just now. May opened at 884c, last night's cosing price, and fluctuated until noon between 87%c and 8 %c. About 1 o'clock the break came, which sold off the market for May to 87%c. There was no trading in January, the closing price being 84%c. The cash offerings were not heavy and were sold off promptly. Receipts of wheat here were 156 cars and at Duluth and Superior 29. Closer January, closing at 84%c. May, opening at 83%c, lavest 87%c, declared the control of the same of the Minneapolis Wheat Market. B. Close: January, closing at 84%: May pening at 88%: highest 88%: lowest 87%: dosing at 87%: On track: No. I hard, 87c, No. northern, 87%: No. 2 northern from 82c

Foreign Oil Market, London, Jan. 21.—CALCUTTA LINSEED OIL— 41874d per quarter.

CRICAGO, Ill., Jan. 21.—Counselman & Day to Cockreil Bros.: Wheat opened buoyant on higher Liverpool quotations and an active demand for shipping grades. Receipts were very small, and interior millers paid fully 20 advance by sample, while futures sold le over very small, and interior millers paid fully 20 advance by sample, while futures sold le over very small, and interior prices and only ten and one-fourth londs were reported taken at New York on new business. The second cables quoted Encilsh markets \$\frac{1}{2}\$ to be per bushel lower for deferred futures. This caused sufficient reselling to give this market a weak closing at \$\frac{1}{2}\$ decline from yesterday. The decline in ocean freights, however, is in favor of shippers and we expect renewed export buying will follow this break. Corn and ontscontinue to be principally a scalper's market and to follow the course of wheat but in a narrow range. Provisions opened higher on account of smaller receipts and advanced prices at the stock yards. Packers started out by covering snies made vesterday, but the scarelty of water caused by trouble with the lee at the crib, caused some apprehensions of holders lest underwriters should cancel insurance, and the feeling, tozether with weaker grain markets, brou ht out heavy selling later in the session, and the market closed weak at the bottom for the day. We do not look for much further dee ine tomorrow.

Chicago, Ill., Jan. 21.—F. G. Logan & Co. to J. Sands Commission Company: The liberal offerings of wheat at the opening of the session were cosily absorbed and the market crapidly advanced from \$\frac{1}{2}\$ for May to \$\frac{1}{2}\$ is a very heavy line case. English markets are all better, and so are the interior markets of this continent. Our adverse from Indiana state that farmers are not selling, and mills are going half time owing to the want of supplies. Latest estimates of the water of supplies. Latest estimates of the interior markets of this continent. Our adverse from Indiana strong and recommend buying t

STOCKS AND BOYDS.

NEW YORK, Jan. 2) .- The strength, which was the feature of the stock murket yesterday, was lacking tonly and in its place there was great feverishness under the frequent attacks of the coom traders who have not covered their shorts. There was an attempt to cover at the opening, but the advances over last night's figures shown by the first sales, which extended to \$ per cent in Louisville & Nashville, changed the tactics and drives were made from time to time, here and there the list without any material effect and prices tonight are practically where they were yesterday. The dem and for stocks was not particularly orgent at any time tolay, ut there was a stubborn strength d splayed by the list, which served to neutralize all the forts of a reaction and the market at times. luting the cessition or offorts looking to ower prices, fell away into positive duliness. There was, however, particularly good buy ng among the specia ties and Northern Paific profesred and the Wheeling & Lake Eric stocks were notable in that respect. The industrials were stronger than usual of late and a drive at Distillers, credition to Chicago parties, while it knocked the stock off from 5%, to 56% in a very short time, was just as quickly neutralized and the stock shows only a fractional loss for the day.

The great feature of the day, however, was the sudden and decided strength in the coalers, especially Lackawanna and Reading. The movement, however, was only sufficient to recover the early losses in Reading, although the business in the stock was very large, while Lackawanna was advanced nearly 3 per cent from its lowest figures and it closed with a very substantial gain. stocks were notable in that respect. The in-

it closed with a very substantial gain. The general list was in the main quiet

and hed within narrow limits, being beavy in the foremon but rallying the last hour with the upward movement in Lackawanna. Corlage was the only other result strong point in the list and both the common and preferred risk about I her come of the market was quiet and cenerally firm at insignificant changes for the with allowing about country. day with edvances and towers about equally divided. The advance in Luckawanna was 2 per cent. Government bonds have been oull and steady. State bonds have been entirely neglected.

The fc lowing are the closing augustions for the leading stocks on the New York Stock exchange today:

Financial Review.

New York, Jan. 21.—The Post says: It was a curious stock market which followed, today, the earlier sensational trading of the week, During the greater part of the day the movethe earlier sensational trading of the week. During the greater part of the day the movement of prices was sluggish, and at times lusiness appeared to be wholly suspended. What this stagnation showed, however, beyond question, was the total absence of an aggressive outside interest, and this was worth discovering, because there were some signs in yesterday's early trading that the nonprofessional buyers were still alert to the market's changing phases. In the early trading of today prices, although somewhat irregular, showed great firmness, and there were numerous further advances. But the professional operators were not active in either direction. In the afternoon some restless spirits attacked the market with transparent and not at all ingenious bear rumors, but the result was disastrous to the sellers. Lack awanna, for instance, advanced sharply in the face of their sales. In fact, durin; the last ten or 'ifteen minutes, these bears discovered that they had walked deliberately into a trap and were forced to cover in the steeks attacked at rapidly advancing prices.

London Stock Market. [Copyrighted 1892 by James Gordon Bennett.] London, Ian 21--(New York Hera'd Cable-Special to THE BER.]- Business on the stock exchange was much inteffered with by a dense fog which prevalled today. The reduction of the bank rate to 3 per cent scarcely had any effect on the markets. Funds are unchanged. Home rails were more or less duil all day, owing to yesterday's traffic statements. Americans were firm in response to the sharp recovery in New York Central. A general recovery ranging from ½ to 2 per cent has taken place, the most prominent being Lake Shore. Wabash debenture. Union Pacific, Eric, Missouri, Kansas & Texas, Denvers, Northern Pacific preferred and Atchison Canadian lines are strong. In sympathy with Canadian Pacific Grand Tranks were ½ to % higher. Mexican fluctuated a good deal. In preference there was a marked decline, while ordinary shows a small rise. Money has been quite a drag. Short loans were offered at ½ to 1 per cent. The discount market was also quet. Two and three months' bills were quoted at 1½ to 1½ per cent.

OMAHA LIVE STOCK MARKET.

ON VIIA. Jan. 21.

There has been some improvement in receipts both Weinesday and today, but the four days show a decrease of 3,500 cattle and 1,500 ho,s compared with the corresponding four days last week. There has been an increase of about 800 sheep.

Discouraging reports from eastern markets, coupled with the it eral supply here, proved more than the present weak market could stand, and a still further decline of 10c was experienced. With eastern markets bad and liable to go still lower, shippers could do nothing, and the dressed beef men had things practically their own way. They did consideralle selecting and took their own time to it. Trading was on the dull and dragging order all day and the close found a good many pretty decent cattle still unsold. Good 1,100 to 1,250-16, cattle that soid Tuesday at from \$1,30 to \$1,50 were hard to sell today at from \$1,30 to \$1,50. were hard to sell today at from \$1,30 to \$1,50. were hard to sell today at from \$1,30 to \$2,50.

The situation was even worse in the butcher stock line the supply being excessive and the quality rather indifferent. Buyers were not overly anxious for the stock and bids were all of 10c lower than Wednesday and from 1c to 25c lower than Tuesday on fair to good stuff, while canners were not wanted at any price. Good to choice cows and helfers sold from \$2,40 to \$2,55, fair to good cows from \$2,50 to \$4,51 calves firm at from \$1,50 to \$3,50.

There was more life to the stocker and feeder market and prices were a shade firmer than yesterday. The fresh receipts were not very heavy, but regular dealers found a good number of outside buyers, and at the close of business their supplies were materially reduced. Sales were from \$2,25 to \$1,15 for poor to very good stock. Representative sales:

Chleago Live Stock Market.

uneventy lower. Butchers' and canners' stock generally sold at from lee to be lower than at the beginning of the week, and there was a decline of from life to lie in ordinary to good steers as compared with Thresday's prices. The supply was much tee large for the demand, which, by reason of recent heavy supplies, is just now lighter than usual. Sales were on a basis of from \$1.00 to \$1.20 to \$1.20 for yeary common to choice steers, and from \$1.00 to \$1.00 to \$1.00 for poor to choice cows and buils. As regards extra shippint sorts, any quotations would be nominal as none in that class has been offered of late. There were sales of extra buils for export account around \$1.50. Trade was sow in all grades of extra buils for export account around \$1.50. Trade was sow in all grades of catho and so many were left over unsold that the outlook for longerow is rather niscouraging to holders, it takes a pretty good bunch of steers to bring \$4.51 as the market now stands and there were exceedingly few sales today at higher figures. The bulk of the sales to dressed beef firms and shippers were at from \$1.25 to \$1.35.

The buoyancy characterizing the hog morning sprices, and there was no time later in the day when sales could be effected to any better advantage. The only apparent reason for the reaction was the fact of asmall increase in the arrivals. Li ht hogs averaged about steady at from \$1.5 to \$1.35 to \$4.40 for heavy well his. There was an active domand and if the hogs were not all disposed of it was because sellers were onwilling to accept the raling prices. There were scattering sales of heavy and medium weights at from \$4.5 to \$4.50 and a few light hogs of superior quality fetched \$1.35. The general market closed teady.

No change of importance took place in the sales market. There was a fair demand at the sales market. There was a fair demand at

No change of importance took place in the sheep market. There was a fair demand at from \$1.50 to \$5.5 for poor to extra qualities. Lambs were in better request and showed more strength than for two or three days previous. Trey were quoted at from \$4.25 to \$5.50, according to quality.

Receipts were: Cattle, 18,900; hogs, 40,000; sheep, 6,900. sheep, 6,000.

PERILS OF WINTER.

Some of the Commonest Classified Under Three Heads. Youth's Companion offers the following healthful suggestions:

1. Perils from heedless exposure. Winter is the gay season, the season of balls and dancing parties, and, in general, of prolonged amusements and excitements. We need not say how common it is for young ladies to attend such gatherings imperfectly clad.

The excitement, physical and mental, extending to a late hour of the night, renders the surface of the body peculiarly susceptible to the outside chill; the susceptibility is enhanced by exhaustion, which at the same time lessens the power of resistance.

The danger is especially great in rural

districts, where so many must ride long distances to their homes through air. Tens of thousands have in this way laid the foundation of fatal diseases. 2. Perils from infectious diseases In

summer our dwellings ventilate themselves, with little care on our part, but in winter we economize heat at the expense of ventilation. Few houses are provided with artificial ventilators while the drainage is generally far from perfect. Even houses supposeed to be above suspicion in this respect are often found to be dangerously defective. Unnoticed leaks are common and a bad leak in a neighbor's house may long

have been discharging itself friely be neath the wooden floor of our own cellar The main sewer is never or seldom free Cockreii Dr. 5.

Life Building.

nished with adequate adjustments for ventilation. Hence the pupils, at an age of great susceptibility, breathe much bad air, often from diseased lungs, and always charged with deleterious bodily exhalations. At the very least, the vital resistance of the system is dangerously lowered.

On the other hand, when the air becomes insufferable, the teacher may order the window opened, thus endangering those who sit within the draught, at a time when they are least able to bear exposure.

An Empress' Mantle.

One of the handsomest silver wedding presents received by the empress of Russia is an ermine mantle, which cost over \$50,000, says Harper's Bazar. It was presented to the czarina by the nobility of the province of Kherson, but was made up in Paris, for the making up of furs has been for years and remains still a pre-eminently Parisian art. Parisian furriers are almost always intrusted with the manufacture of the splendid fur garments that become heirlooms in the greatest families of Europe. Ermine, besides being the emblem of royalty, is also that of purity and stainlessness; but it is, nevertheess, so delicate a fabric that no white fur gets so easily soiled. Very few people know how to clean white furs, and it may therefore be of interest elegantes to learn the method recommended to me a few famous St. ago by the HILLSON Petersburg furrier Paul Cubeus. The furs must first be washed with tailow soap and lukewarm water, and then rinsed with a weak solution of crystals of soda, all the soapsuds being removed from the fur with a hard brush. Should there be dark stains, such as are made by carringe grease or other fat substances, on the fur, it will be necessary to rub them with benzine a few hours before washing it. It sometimes hap-pens that in spite of this treatment the furs retain a yellowish hue; this can, however, be removed by hue; bleaching them in the follow-ing manner: whilst still damp, the articles must be immersed in very cold
