The international tug of war contest opened In Blum's hall last night and was witnessed byan immense and enthusiastic crowd. The competing teams were Bohemia, Germany, Ireland and Sweden. Rudolph Havelke of the Bohemian Turner society of Omaha acted as referee. The first contest was between Bohemia and Germany. The German team Bohemia and Germany. The German team was as follows: J. H. Eggers, captain; B. Blum, anchor; John Buegge, Henry Behrman, Conrad Prize, G. Ahatza, Antone Ahatza, Ben Myer, Charles Melcher, L. Ambus. The members of the Bohemian team were; Captain, Joseph Percival; anchor, Antone Steka; Joe Blaha, James Skupa, Joseph Vampolna, John Novack, Jone Movric, The German team was about 500 pounds The German team was about 500 pounds heavier than the Bohemian, but the latter made a manful fight. For the first twenty minutes the iron loop hung over the starting point and neither had any advantage. But after that time the sturdy Germans began to get in their work inch by inch, and after a hard fought battle, lasting an hour and a

quarter, Germany had pulled the loop four feet from the starting place and won the Ireland and Sweden next battled for su-premacy and, after a stubborn contest, Scan-dinavia won.

A touching scene was witnessed at the police station yesterday afternoon. It was one in which a father was endeavoring to induce an erring daughter to return to her home. The gentleman's name was Treol, and he called his daughter Hattie. She was 17

years old.

The father, who had the appearance of a weil-to-do merchant, told the officers that he wished to send his daughter to college, but the girl's head had been turned and she had left her home to commence a life of sname. Although soon to become a mother the father was willing to forget the past and have the girl return to her home.

The erring daughter was arrested on the street and was taken to the city jail. When she met her parent there a look of shame came over her face, and when the officers asked her wheteer she wished to go home with her father or be imprisoned, she gladly took the former alternative and went out with her father. St: Agnes Cadets.

The newly adopted rules and regulations of the cadet corps of St. Agnes' church provide that the officers of the corps shall be as follows: Spiritual director, president, vice president, treasurer, secretary, drum and fife majors. All elections are to be made by ballot, to take place quarterly, and be subject to the approval of the spiritual director. All candidates must be between 11 and 18 years of age, and must sign the temperance pledge apon admission. Each and every member of the cadet corps shall prepare by a good con-fession to receive holy communion on the third Sunday of each month, or when or-dered by the spiritual director, Father Hickey. Any member may be expelled for fighting, stealing, getting drunk, not being prompt, for awearing or using grossly im-proper language, being absent from three consecutive practices, or for being in arrears for three months' dues.

Single Tax Discussed.

The Club held a meeting last night in Lininger's art gallery to hear a paper by C. A. Eastman on the single tax question. He read an exhaustive treatise on the subject.

He said the history of taxation had been one of extortion and cruelty to the poor and isboring classes who had to carry the burden of heavy taxation. It was necessary to look for a remedy. He also claimed that the personal tax was unjust and should be abolished. On improvements the tax was nothing more or less than a heavy fine. He illustrated this hy saying that as soon as one man erected a building it was assessed, while the unimproved lot adjoining it was enhanced in value, but the tax was not increased.

The question was discussed pro and con.

TO STOP JUGGLING WITH BIDS

Commissioner Stenberg's Plan for Protecting the County From Fraud.

HOW THE SCHEME HAS BEEN WORKED

An Indian's Claim for a Pension-Econom; in Schools-Jangling About a Jury Room-Keeping the County Records.

County Commissioner Stenberg has an dea, which, if carried into offect, he says, will save the county many bundreds of dol ars each year. The idea applies to the purchase of blank

books. Heretofore it has been the custom to invite bids and award the contract to the lowest bidder. This pian, on its face looks fair enough, but the commissioner states that it has resulted in the county being robbed right and left.

For instance one house would look over the affairs and approximate what would be accounted. tually needed during the year in the way of books and blanks. The supplies that were needed would be put in at ten to twenty times what they were really worth, and books that were not needed would be bid down to

aimost nothing. In the auditor's office, as an example, there is a book which is intended to contain the annual statements of the treasurer. This book was made two years ago and cost something like \$300. It is large enough to last the county during the next twenty years. This year one house bid \$1 for making one of these books, knowing that it would not be Leeded. This brought the bid of that house down to as low figures in the aggregate, notwith-standing the fact that for eight quire records the same house bid did double their average

Mr. Stenberg now thinks that by having the heads of the various departments make lists of the supplies that they will need during the year and then ask for bids on these there will be a great saving of expense. ECONOMY IN THE SCHOOLS.

The Council's Resolution Raises the Ques tion of Reducing Salaries. The resolution introduced in the council Tuesday night asking the Board of Education for a detailed statement of the estimated expense of running the schools has caused considerable discussion among those personally connected with the management

For months it has been the opinion of sev eral members of the Board of Education that the janitors were being paid too much, and others think that teachers' salaries might be cut some, and still be as high as in other

western cities.

Speaking of the matter yeaterday,
Mr. Poppleton said: "I think it
will be a wholesome thing for
the scouncil to scrutinize carefully
the expenditures of the board. As a matter
of law I have no doubt that the board can compel the council to make any reasonable levy for the support of the schools, but I like the idea of the two bodies working in conjunction for the benefit of the city at large. I have been convinced for some time we were paying the janitors of our schools too much and our teachers' salaries are higher than in any other city in the west I think. For these reasons I favored asking the council for a levy of but 114 mills iu-stead of 2 mills. I believe there will be a movement soon in the board to cut janitors salaries, but just how soon that will come could not now predict."

The law governing schools of the metro-politan class relating to tax lovies reads as

follows:

"The Board of Education shall annually during the month of January report to the city council an estimate of the amount of funds required for the support of the schools, for the purchase of school sites, the erection and furnishing of school buildings, the payment of interest upon all bonds issued for school purposes and the creation of a sinking fund for the payment of such indeptedness, and the city council is hereby authorized and required to levy and collect sail amount the same as other taxes; provided, however, that in case the purchase of school sites and the creation of buildings shall require an expenditure exceeding twenty-five thousand dollars (25,500) for any one calendar year, the question shall be submitted to a vote of the electors of the district." It will be of interest to taxpavers to make

a few comparisons of the salaries paid to jan-itors in Omaha and other cities.

With an enrollment of a little over 14,000 and a daily attendance of 9,715 pupils, Omaha paid \$32,676.21 for janitors' services last year. Minneapolis had at the same time an enroll ment of 21,000 pupils, and a daily attendance of 16,534 pupils, and paid \$32,813 for janitors'

The city of Milwaukee, with an enrollment of 28,000 eniluren in its schools, and a daily attendance of 20,000, paid only \$24,488.22 for janitors' services. The janitors' sataries range all the way from \$25 to \$75 per month in Milwaukee, depending upon the class to which they belong. The work is divided which they belong. The work is divided into grades or classes according to the number of rooms taken care of and the character of the work necessary.

Janitors' salaries in Omaha run from \$50 to \$150 per month, depending on the number of rooms they take care of and the peculiar and profitable positions that the board has made possible by detached buildings and other irregularities.

JANGLING ABOUT JURY ROOM.

There Will Be Trouble Between the Court and Commissioners. When the February term of the district court convenes next Tuesday morning there s a prospect of a clash between the judges thereof and the county commissioners and the chances are that it will be a survival of the fittest. It is going to be a fight to see

the fittest. It is going to be a fight to see who is in authority.

For years the small room opposite the county commissioners' room has been used for a jury room. A few days ago the commissioners pre-empted this room and took possession of it for a private parlor, a place where they might smoke, consult one with another and entertain their friends. They now hold to the opinion that they had better continue in possession. If they succeed in their undertaking the courts will have to hund eisewhere for a jury room as this is the only room in the court house that could be occupied for the purpose.

The old jury room up stairs will be occupied by the grand jury, which will prevent

pied by the grand jury, which will prevent any trial jury from getting in there. How the courts will dispose of their juries is something that is not worrying the com-missioners, although they know that three courts, all with juries, will be in session for two months or more, and no place to put

WARRING UNIONS. Courts Hearing the History of the Machine Molders' Troubles.

The somewhat shopworn case of Edward D. Mullery, a member of the International Brotherhood of Machinery Molders of North America against Iron Molders' Union No. 190 of Omaha, was argued before Judge Irvine yesterday. This case has a history. In 1890 Mullery

The members of the Omaha union held a meeting at which they requested Mullery to withdraw from the former association. This he refused to do.

Don't Want His Salary Reduced. The members of the Board of Public Works have a load on their minds in the shape of a grievance, and ere long they propose to pour the story of their sorrows into the ears of the mayor.

It is a fact that the ordinance now in the hands of the council committee contemplates the reduction of the secretary's salary from \$100 to \$75 per month. This, members of the board argue, is an injustice. They will show that their man works from ten to fifteen hours per day and even then is not able to keep up with his work. They propose to show further that their secretary has to keep all of the records of the office, and that he is doing much more work than the employes in the city clerk's office, who are paid from \$125 to \$150 per month. In addition to this they also propose to show that the secretary is doing the same amount of work that was formerly performed by two men. the reduction of the secretary's salary from

California Shippers Will Do Anything to Destroy the Monopoly of the Southern Pacific in the Pacific Coast Territory.

Cuicago, Ill., Jan. 27.-Evidently the Atchison, Topeka & Santa Fe road cannot extend its line to San Francisco any too soon to please the people of that city. California shippers and business men are crying out against the monopoly of the Southern Pacific and urging other companies to come in and give them the facilities they desire in order to retain their prestige as the business center of the Pacific coast. Recently there have been a number of rumors concerning the designs of other roads to secure a suitable route to San Francisco but none of them has been traced to any official foundation. Some credence, however, is given to the report that the Atchison is making preparations to extend its line to the city of the Golden Gate.

A careful comparison of Dr.

Price's Delicious Flavoring Extracts with the other flavoring extracts offered for sale, will convince any person that for strength, purity, delicate and natural flavor, Dr. Price's are far superior. Ladies of taste once having enjoyed the delicious flavor that is given to cakes, puddings, creams, etc., by Dr. Price's Vanilla or Lemon Extract, could not be induced to use any other.
