

TWENTY-FIRST YEAR.

ARGUMENTS OF SILVER MEN

Majority Report of the Coinage, Weights and Measures Committee.

IT IS A STRONG PLEA FOR FREE COINAGE

Benefits to Be Derived from the Passage of the Bland Bill—Other Nations Would Follow the Lead of the United States, Etc.

WASHINGTON, D. C., Feb. 14.—The report of the majority of the committee on coinage, weights and measures, recommending the passage of the Bland free-coinage bill, will be presented to the house tomorrow by Mr. Bland, and, by consent of the minority of the committee, it has been made public today.

The report is a long and carefully prepared document, which discusses the various objections made against free coinage, showing where, in the opinion of the majority, these objections are ill founded and how free coinage of silver would greatly benefit this country, and especially the producers.

The report begins with an explanation of the provisions of the bill reported. Free coinage of silver is provided for, and it is required that it be of standard fineness to meet the cost of the alloy used, the alloy being all the expense of the mints.

When the other inconsistencies and fallacies of all the other objections to free coinage of silver are considered, it is concluded that our ratio was such that our coin and bullion silver was worth more, as compared to gold, at European mints than here, and that the same result would again follow, our ratio remaining at 16 to 1 while the French mints open to free coinage at 15 to 1.

The report says that the reason we exported silver bullion while our mints were open to free coinage, was that our ratio was such that our coin and bullion silver was worth more, as compared to gold, at European mints than here, and that the same result would again follow, our ratio remaining at 16 to 1 while the French mints open to free coinage at 15 to 1.

It is believed that it will greatly tend to promote equality in all respects. There will no longer be issued gold notes or silver notes, but bimetallic notes, payable in either coin at the pleasure of the government.

The report says that the reason we exported silver bullion while our mints were open to free coinage, was that our ratio was such that our coin and bullion silver was worth more, as compared to gold, at European mints than here, and that the same result would again follow, our ratio remaining at 16 to 1 while the French mints open to free coinage at 15 to 1.

WORK AHEAD FOR CONGRESS

What Will Be Done in the National Legislature This Week.

MEASURES THAT WILL BE CONSIDERED

Work That Has Been Mapped Out for the Statesmen—Silver Men Preparing for the Fight in the House—A General Forecast.

WASHINGTON, D. C., Feb. 14.—There are indications that this week will be notable in congressional annals as one in which political battles will be fought in the house there may be an alignment of members on the silver question and it is probable that in the senate will be defined the economical policy of the democrats as a sequence of the program adopted by the majority in the house.

The Paddock bill, to prevent adulteration and misbranding of food and drugs stands as the large redoubt for protection of the public health, for protection of the public documents, and, indeed, the democratic senators are disposed to question the statements made by the majority of the committee to the effect that the entire measure is expected to occupy several days.

The power is to be developed at the shaft in the center of the walking beam, and the speed is regulated by the governor, which is at either end, making the grade of the track more or less inclined, thereby adjusting the ball to run fast or slow as desired.

The machine has been seen by several scientists, machinists, etc., from Lead, Deadwood, and other places, and has attracted a wonder. Parties from Deadwood with unlimited means have been negotiating with Mr. Mattox the past week trying to buy the machine, but he has refused to sell.

It is the intention of the Indian affairs committee to call up the Indian appropriations bill early in the week, and its consideration may operate to postpone all other measures, but the act of last congress will not be permitted to go unchallenged.

It is believed that it will greatly tend to promote equality in all respects. There will no longer be issued gold notes or silver notes, but bimetallic notes, payable in either coin at the pleasure of the government.

The report says that the reason we exported silver bullion while our mints were open to free coinage, was that our ratio was such that our coin and bullion silver was worth more, as compared to gold, at European mints than here, and that the same result would again follow, our ratio remaining at 16 to 1 while the French mints open to free coinage at 15 to 1.

IT MAY KILL PROHIBITION

Senator Yeomans Has a Bill Which Will Pass the Legislature.

REPUBLICANS WILL SUPPORT IT

Thought Not as Radical as the Democrats Prefer It Will Modify the Present Law—Governor Hoopes Favors the Idea.

PIEDMONT, S. D., Feb. 14.—[Special Telegram to THE PRESS.]—The premature publication today of a license bill prepared by Senator Yeomans of this county will cause a genuine sensation in democratic circles throughout Iowa. The bill was prepared some time ago, and the intention was to keep it in the background till it became apparent that the Schmidt bill, or democratic caucus bill, could not pass.

The bill is really far more obnoxious to prohibitionists than the prohibition law. It is known that it will encounter vigorous opposition from the democratic party, and it may precipitate a bitter factional fight.

The machine has been seen by several scientists, machinists, etc., from Lead, Deadwood, and other places, and has attracted a wonder. Parties from Deadwood with unlimited means have been negotiating with Mr. Mattox the past week trying to buy the machine, but he has refused to sell.

It is the intention of the Indian affairs committee to call up the Indian appropriations bill early in the week, and its consideration may operate to postpone all other measures, but the act of last congress will not be permitted to go unchallenged.

It is believed that it will greatly tend to promote equality in all respects. There will no longer be issued gold notes or silver notes, but bimetallic notes, payable in either coin at the pleasure of the government.

SOCIALISM'S DARK SHADOW

Spreads Like a Pall Over Kaiser Wilhelm's Dream of Immortal Greatness.

ANXIOUS TO SUPPRESS ITS GROWTH

No Definite Policy Yet Adopted, but a Decision May Be Reached Soon—Result of the Great Secret Pottery Works.

WEST POINT, Neb., Feb. 14.—[Special Telegram to THE PRESS.]—A meeting of the Nebraska Tobacco Growers' association will be held at the office of Wells & Newman in Schuyler, on Saturday, February 20, at 2 P. M. All those interested in the subject of growing tobacco are cordially invited to attend.

The machine has been seen by several scientists, machinists, etc., from Lead, Deadwood, and other places, and has attracted a wonder. Parties from Deadwood with unlimited means have been negotiating with Mr. Mattox the past week trying to buy the machine, but he has refused to sell.

LAWFYERS THINK IT LEGAL

Plan to Combine Eastern Coal Companies Will Be Carried Through.

NEW YORK, Feb. 14.—[Special Telegram to THE PRESS.]—The plan for reorganizing the Richmond & West Point Railway and Terminal Warehouse company will be announced early next week.

The following details were whispered in Wall street yesterday: In all there will be \$300,000 in securities of the new company issued. The bill will be divided as follows: There will be \$125,000 for a 4 per cent first mortgage bond, \$150,000 of income bonds, \$75,000 of preferred stock and \$50,000 of common stock.

TO BUILD UP NEBRASKA

Establishment of an Immigration Bureau Suggested as a Means of Increasing the Population.

OMAHA, Feb. 13.—To the Editor of THE PRESS: I read a letter in Saturday's Edition from a gentleman in South Omaha, in which he struck the keynote when he suggested the idea of establishing a freight or transportation bureau.

The machine has been seen by several scientists, machinists, etc., from Lead, Deadwood, and other places, and has attracted a wonder. Parties from Deadwood with unlimited means have been negotiating with Mr. Mattox the past week trying to buy the machine, but he has refused to sell.

WORLD FAIR MATTERS

That \$4,000,000 Appropriation and Handling of Exhibits Discussed.

CHICAGO, Ill., Feb. 14.—[Special Telegram to THE PRESS.]—President Harrison's special message on the subject of appropriation in aid of the World's fair will probably be sent to congress after the members of the national board of control, now in session, sent a report to the president on the subject of the appropriation.
