IS HAVING ITS GOLD CHILL

Wall Street in the Midst of the Annual Congestion of Speculation.

EFFECT OF THE TERM OF ONE PENNY

How a Cent Up or Down Sends Gold Across the Atlantic-Where is the Mythical Balance of Trade-Rise in Chicago Gas.

New York, Feb. 21 .- | Special Telegram to THE BEF. |- The market has got its spring chill. It nearly always gets one about this in February we begin our spring export of gold, and in the autumn we import. Regulariy for years our exports have started in February and as regularly the stock market has been chilled by it. Half a million of gold was engaged by another half million Saturday, Immediately there was a sagging of prices. The bull ardor of the traders was checked. They sold stocks for both accounts, and Saturday, after the bank statement appeared showing an increase of \$10,000,000 in the loans (due to trade movements and customary in February) and a decrease in the surplus reserve of \$2,000,000, there was more seiling of stocks and the market closed rather weak.

It may weaken more on Monday or the next day, but the big houses are not likely to allow a serious break to occur. They can handle this market because it is still narrow and professional. The coal deal, which made transactions of over 1,000,000 shares a day, was strictly professional.

Not Safe to Be On.

The general public had little part in it, and while there is nothing in sight to cause sellin any considerable volume by the public, the great bull houses can take care of things with but little trouble. There are no blocks of stock hanging over the market so large as

to be threatening.

To carry out the purposes of the coal combination a majority of Lackawanna stock must be held permanently. To the same end a majority of Reading must be held. This must have been calculated when the deal was originally planned. It is safe to calculate that the stock is paid for and laid away in the strong boxes of the great capitalists. The floating minority of the stock is small compared with the forces available for handling it. But it does not follow because the market can be held in easy control that the big capitalists and leading operators are going to start another buil movement right away. On the contrary, they may think this is a good time to let things drift back a little; for the last part of February and the month of March is usually a bad time to bull stocks. It is the stormiest season of the year, when the canger from storms, floods, violent changes of temperature and widespread injury is the

One Cent in a Hundred.

Then, too, there is the gold exports. The difference in the price of a dollar bill which makes the difference between the importing goods and exporting gold, is 1 per cent. One cent on a dollar is enough under normal con-That is to say if a man having to buy a bill of exchange that place will cost him \$1.01 on that place can more profitably send gold and does so. If, on the contrary, the man in London finds that a bill on New York is 101 cents, he sends 89 cents per £1 gold can be sent more profit ably, and in the spring of the year the de-mands of the trade generally do send it there. In fact gold can be and is sent out be fore the 489 mark is reached, as is the case now. In the fall the case being reversed, the London man paying his New York debts sends gold rather than buy his New York bills at 489 cents, but the New York man who may have to remit to London at that time can buy his bills at 484 cents. When, therefore, exchange is cents we export, and when at 484 cents we import.

"Balance of Trade" Fictions.

ne have the dealers in exchange brought their calculations. At the market rate of ex change now, it does not appear there is any pront in sending out gold. But it nearly always happens that the first transactions are prominent treasury official last soring set out to sternly discountenance "special" transac-tions as being obnoxious to public morality. But, now, where is our "balance of trade! Where is the \$155,500,000 that Europe owes us at this moment, according to the statistics? One Philadelphia paper recently suggested that we demand the money be returned forthwith, as we need no foreign entanglements. Some one facetiously added that the new navy might be employed to make the demand. Anyway here we are, with a statistical balance of \$155,500,000 of gold owing us. We are selling our foreign balances in gold just the same as before, and just as if these statistics did not show the foreigners that they ought to be sending millions of gold to us instead of our sending some to them.

while the market is getting to its custo-mary spring gold chill, it is also a little dis-turbed by the silver men, and perhaps there may be some disposition to wait and see just how far these people are to be allowed to go. This is another reason why the market as a whole may be dull and possibly lower except

Chicago Gas Kiting.

Some stocks have been exceptionally strong the last week. Western Union has, and it is inferred that at next month's meeting the dividend will be increased. Chicago Gas has been largely bought by Chicago houses. It is officially announced that a syndicate of friends of the company have purchased the Economic concern, and also the natural gas properties in Indiana and the natural gas properties in Indiana and Chicago will have fuel gas sup-plied at low cost when pro-jected plans are perfected. It is an instructive lesson in speculation that the people who are such persistent bears on Chi go Gas stock when in the tifties have tely been the largest buyers of it at twentyfive to thirty points higher. There wer men here who were believers in the property and large holders of its shares, but they could do nothing singly against the Chicago bear clique. Therefore they made a little combination and put their interests unre-servedly into the hands of Mr. Keene. As seen as that was done the soon as that was done the Chicago clique were already beaten. All the little market tricks that they could play were nothing against the skill of a man that Wall street acknowledges has never had his superior in handling properties on the stock exchange. His skill is really a sort of intuitive genius. He never was beaten except when he beat nimself, and that was when he utterly overworked himself. He took charge of Chicago Gas stock and the profits of the overstion accuracy to took charge of Chicago Gas stock and the profits of the operation aggregate about \$2,-250,000. A large part of this was contributed by the Chicago bears, who now see the property they condemned in a different light. Nor did our Mr. Keene make a more brilliant campaign than when he took that discredited stock in the fifties and carried it up easily and agely to a figure more nearly. up easily and safely to a figure more nearly corresponding to the dividends it pays.

Richmond Terminal Next.

The next big thing to be done in the mar-ket is the floating of the Richmond Terminal securities, and the chances are that it will be successfully done. It is in the main a re-funding operation, and if holders of the ex-isting securities see such a plan is good they may accept it for want of a better one, if for

no other reason.

Erie securities may be good for a rise when the market is in the right shape. The earnings of the property are increasing with a steady growth.

FOREIGN FINANCIAL REVIEW.

There Was a Good Demand for Discount

During the Past Week. London, Feb. 21.-There was a good demand for discount during the past week at 234 per cent for three months and 234 per cent for shorter. Revenue payments continue to transfer large balances and the money market continues active. Tax payments deposited during the week reached a total of nearly £2,000,000. The withdrawal

of gold for the continent amounted to £410,-000. On the Stock exchange pusiness during On the Stock exchange pusiness during the first half of the week was active, and afterwards lessened owing to bad weather, interruptions of cable communications, the renewal of adverse rumors in connection with the Murietta settlement and dealings due to death of John Snaw, who was an outside

American railway recruits at first prom-

ised to maintain their revival, and buying was brisk early in the week. Variations for was brisk early in the week. Variations for the week in prices of American railways securities include: Decreases—Northern Pacific 3½ per cent; Erie ordinary, ½ per cent; Norfolk & Western and New York, Octaria & Western, ½ per cent each; New York, Pennsylvania & Onio first mortrage, ½ per cent; Pennsylvania & Onio first mortrage, ½ per cent; Pennsylvania, 1% per cent. Increases—Wabash depontures, ½ per cent; Union Pacific shares, Wabash preferred, ¾ per cent each; Atchison, Denver & Rio Grande preferred; Lake Shore, Mexican Central and Onio & Lake Shore. Mexican Central and Ohio & Mississippi, by per cent each. In foreign governments, Spanish bonds fell by per cent, owing to Hiness of Queen Regent Christiana. Argentine bonds rose 14 per cent; on account of reduction of Buenos Ayres gold premium advanced to 215 per cent; Brazilians advanced 1 per cent, while Chilians declined

Havana Market Review. HAVANA, Feb. 21. -Only a small business was done in sugar this week. Holders were too high for buyers. The sales made were

for the most part of a speculative character.

Quotations were: MOLASSES SUGAR-Regular to good polariza-Molassas Sugar—Regular to good polariza-tion, \$2.3114 @2.3454: muscovada, fair to good refining, \$5≈ to 100≈ polarization, \$2.3746 2.50 gold perquintal; centrifugal, 92≈ to 96≈ polarization, in hogsheads, bags and boxes. \$2.08\\(\frac{1}{2} \) \(\text{and per quintal.} \) Stocks in warehouses at Havana and Mantanas, 129,000 bags, 729 hogsheads; receipts from the 1st to 10th instant, 163,000 bags, 266 hogsheads; exports for the same period, 96,000 bags, of which 3,000 to the United States.

On the Berlin Bourse.

BERLIN, Feb. 21 .- On the bourse during the last week business was light, but prices showed a tendency to firmness, except in the case of Spanish securities, which were flat at decline of 1/4 per cent. Banks and industrials were in better demand. The final quotations include the following: Prussian 4s, 106,50; Mexican 6s, 89.70; Dutch bank, 160,70; Bochumer, 11; Hapsner, 139; Roubles, 201,40; short exchange on London, 20.3014; long exchange on London, 20.28 Private discount, 134 per cent. The official details of the subscription for the new im perial loan show numerous applications by smaller investors. The general rate of al-lotments is fixed at 14 per cent. Subscrip tions to 5,000 marks are accepted in full. On the Frankfort Bourse,

FRANKFORT, Feb. 21.-During the past week business on the bourse was farly active and prices were firm. Today's closing quotations (unofficial) include the following: Hungarian gold rente, 92.70; Italian, 89.40; Portuguese, 60.60; Spanish, 61.10; Austrian credit, 264; short exchange on London, 20.40 private discount, 214.

THE SPECULATIVE MARKETS.

Wheat Was Quite Dulland Generally Lower

Yesterday. CHICAGO. Ili., Feb. 20.—The wheat market was dull and generally lower today. Telegraphic communication was seriously inter-fered with, and trades were left largely to helr own devices. Bad weather in Great Britain played havor with the wires, similar to those felt in this country, and the Board of Trade did not receive its Liverpool markets until late in the day, though some private dispatches said the market was quiet and unchanged, while others quoted prices easier. The board's London cable noted no change in values there, but Liverpool, which was re eived, was 1d lower. Domestic markets wer ali lower. Crop news was somewhat conflictng, many private dispatches being very discouraging. On the contrary, the Farmers' Review had a summary of the situation.

Review had a summary of the situation, which was unexpectedly favorable, and the weather reports indicated that the danger from the predicted cold wave was past.

The committee of the board which was sent to Washington to oppose the anti-option bill returned this morning and its members were inclined to the opinion that the bill would be probably passed by the house. This doubtless had something to do with the weakness which prevailed during most of the session. On the whole the prices were disinclined to deal heavily on either side and the result was an unusually small business. The fluctuations were confined to a narrow range. Cudahy was a good buyer of wheat at the start and Brosseau also bought freely. Pardridge was believed to be covering some wheat on all the weak spots, but did not make much reduction in his line. The New Yorkers were perhaps the best buyers for the first hour and picked up a good deal. The selling was not urgent, still this was about all to be had that was wanted. The longs let go of a good deal and there was some short sales. The export movement was not very encouraging. New York having cleared but 106,000 bu, and other points hardly any. Bradstreet's reported the clearances of wheat and flour from both coasts last week at 4.041,000 bu, against 3.641,000 bu, the week previous. 1.041.000 bu. against 3.641,000 bu. the week pro

lous.
After the noon hour there was some show of After the noon hour there was some show of strength for a time, but late cables quoted Parls lower and Berlin 334 marks off and Antwerp was a shade higher. This checked the advance and prices receded again. May opened at from 9344 to 9344 argainst 9446 at the close yesterday, sold up to from 9344 to 96, declined to 93546, advanced to 916, receded to 93546, reacted to 9456, weakened and closed steady at 9356.

Corn was quiet and easy, the receipts were liberal and there was rather free selling by longs, with but little demand. The duliness in trade, with the weakness in wheat and provisions, caused corresponding weakness in corn. May was 456 lower and fluctuated all day within a range of 46, and closed 36 lower than yesterday at 4456.

Outs were quiet and weak and show a loss of 46.

of 4c.
Hoz products were dull and easy, simply because trade was dull and the other pits weak. The receipts of live hozs at the yards were smaller than expected, and prices there were firm. Pork closed with a loss of 74c on the active options, with lard and ribs showing insignificant changes.

Estimated receipts for Monday; Wheat, 170 cars; corn, 630 cars; oats, 133 cars; hogs, 40,000. cars; corn. 630 cars; oats, 313 cars; hogs, 40,000. The leading futures ranged as follows: ARTICLES. | OPEN. | HIGH. | LOW. | CLOSE

STOCKS AND BONDS.

Grangers Weaker on Reports of Probable Adverse Legislation in Nebraska. NEW YORK, Feb. 20.—The stock market today was quiet and dull and narrower than for any day during the last two weeks, while displaying a decidedly weak tone under pressure to sell for both sides of the account. London was a seller to some extent, but the opening was quiet and fairly steady, generally at insignificant changes from last night's figures either way, but Chicago Gas was upliper cent. Realizations in it, however, forced its prices off rapidly in the early dealines, and the opening gain was soon lost, carrying the rest of the list with it. Other changes, except in Lake Eric & Westers, which was the strong point of the list throughout the session, rising I per cent, were for small fractions only. The coal stocks were very quiet but firm to strong, but the grangers yielded to attack because of the reports of probable adverse legislation in Nebraska. Burilington sold ex-rights and exdividend and opening off 2½ per cent retired over 1 per cent from its opening flurre, with Rock Island in close attendance. Priceshalted toward the end of the first hour, but the issue of the coming statement was the signal for a more vizorous assault on the list and Union Pacific and the grancers in general were made the special points of attack in connection with Chicago Gas. All retired mannet. day during the last two weeks, while display-

terinly in the instales minutes and the marterinly in the instates minutes and the marher linally closed settice and weak at about
the last prices of the Hey. The Brid changes,
however, are renerably fractional bisses, but
Union Paedis and Rock Island are such down
to per cent with Englington canal to about
the same and Jersey Centrall percent.
Government bonds have been dull and
steady. State binds have been ducted.

Financial Review. New York, Feb. 20.—The Post says: The stock market today was such a one as was to be expected at the end of a week of declining prices and diminishing volume of business som ng as it did, before a double holiday. Th dispositions to regize was as marked as yesterday and the provailing sentiment of the streat, in view of the new movement of gold outward, together with the high prices which a certain group of stocks have been make to, was bearish. The market as a whole wa reactionary, and as a rule large fractiona losses are the result of the day's operations.

LIVE STOCK MARKETS.

Omaha's Week Closes with a Fair Supply and Steady Prices.

Omaha's Week Clases with a Fair Supply and Sigady Prices.

OMAHA, Feb. 20.-Receipts for the week 15,964 cattle, 29,168 hors and 2,771 sheep, against 13,38 cattle 64,25 hors and 2,771 sheep has tweek, and 12,971 cattle, 34,05 hors and 2,775 heep the corresponding week last year. During the early-part of the week, owing to the unusually heavy receipts the tendency of prices was downward, and by Thursday, the low day of the week's decline of from 15c to 25c had been realized on all grades of beef steers. On butcher stock the decline was not so great. Even, stockers and feeders partook of the general weakness and were slow sale at lower prices. Toward the latter part of the week, however, with only moderate receipts and a sight improvement in the shipping demand a resettion has been the result and part at least of the early decline has Been regained. In hogs while there has naturally been some fluctuating prices have let he main advanced and are fully 10c higher than last Saturday. Shipping orders have been litheral for good hors of all weights and this fact is mainly responsible for the strength in the market as packers coult mue very bearish and stubbornly light the advance at every turn in the road. Sheen receipts have been rather limited and the demand continues active and stron.

The week closes with a moderate run, a little short of fast Saturday, but the week's receipts show an increase of over 2,5% head compared with last week. There were no eattle here that could be called choice or prime but plenty of very decent staff, nevertheless. Shippers did a very light business, but the local demand was fair and the general tone of the market slightly improved. Medium and heavy cattle did not show any material advance, hut on the handy light cattle there was an active competition from feeders and prices were accordingly stronger. Good light 1,000 to 1,20-1b, steers went at \$1,50 to \$4,50 Good 1750 to 1,450-1b, steers went at \$1,50 to \$4,50 Good 1750 to 1,450-1b, steers went at \$1,50 to \$4,50 Good and early clearanc

with a moderate shipping and fair local dewith a moderate slipping and fair local de-man trade was active and receipts quickly changed owners. Sales of cows were largely at from \$2.00 to \$2.90, with choice stuff as high as \$4.25 and canners as low as \$1.25. Buils, oxen and stags were firm at from \$1.00 to \$1.75; yeal calves, steady at from \$1.00 to \$5.16. There was an active trade in the stocker and feeder line, both yard traders and out-siders taking hold freely at good strong prices, mostly at from \$2.80 to \$1.25. Representative sales:

Russell Sage, the well-known financier, writes:

> "506 FIFTH AVENUE, NEW YORK CITY, Dec. 20, 1890.

'For the last twenty years I have been using Allcock's Porous Plasters. They have repeatedly cured me of rheumatic pains, and pains in my side and back, and, whenever I have a cold, one on my chest and one on my back speedily relieve me. My family are never without them."

Rassicisage

Beware of imitations, and do not be deceived by misrepresentation. Ask for ALLCOCK'S, and let no solicitation or explanation induce you to accept a substitute.
