The millinery displays this season have been particularly nandsome and attractive, and none have afforded greater pleasure to the ladies than that arranged by Miss Ella Ragsdale. The tasteful decorations of the room with natural and artificial flowers called forth a good deal of favorable comment. The artificial flowers are so perfect that it was difficult to distinguish them from the natural. The special features of the display that attracted the most attention was the profusion of the new macre tints, iridiscent colors stolen this year from the sea's shells and blended in perfeet shading in braids, ribbons and flowers. Miss Ragsdale has been highly complimented upon her success, and it has been the means of bringing her new friends in Council Bluffs and Omaha,

Some Important Business Transacted by the City Council.

LIST OF NEW OFFICIALS AND SALARIES

Condition of the Affairs of the City as Indieated by the Reports of Different Dapartments-How the Votes Were Received.

The city council met last evening, with the mayor and a full board of algermen present, It was known that the appointments of the members of the police force would be made and an effort would also be made to select a clers. The council chamber was consequently crowded to its utmost capacity. At the opening of the meeting Mayor Lawrence made his inaugural address, which was sub-

made his inaugural address, which was substantially as follows:

Upon due consideration of the reports of the c ty auditor and treasurer I am confident that you will draw the conclusion that a system of rizid economy in expenditures becomes at solutely necessary. While I should be both to see practiced an unwise economy which would place a check upon our progress. I would still recommend that you carefully defiberate before deciding what expenditures may be necessary and with what you can productly dispense, constituty seeplar in clew the necessity of retaining our expenditures within the limits of the receipts that we may with probability expect, and also the desirability of diminishing the present rate of taxation, which from the general stagnation of business becomes so burdens me to our citizens.

Itizens
I would recommend, therefore, that each laim presented to the council for payment be horoughly scrutin zed, and every one in the east exorbitant be fearlessly rejected. This san important duty and sufficient time hand be devoted to it so that no eaim shall se allowed without thorough investigation. I would recomment that the needs of each de-partment be carefully investigated and that every employe with whose services you can dispense without detriment to the efficiency of the service should be immediately dis-

harged. The police department was refered to at a charged.

The police department was refered to at a previous meeting of the council. As then stated, I believe it thoroughly efficient but the expenditure for this department has for the I st two years been at the rate of over \$18,000 per year. The fire department is also unquestionably efficient and I believe it has been ably managed during the last two years, but its cost has been over \$2,000 per year.

From the report of the city physician the general health of the city appears exceptionally good. By it we learn that the deaths from all contacious and infectious diseases have decreased from eighty-three in the year ending. February 28, 189, to sixty-cight in 1890, and to only thirty-two in 1891. I would urge open the council stremuous and continuous efforts to maintain the city in the best possible similary condition.

That our public parks, under the able, energetic and skillful management of the present park commissioners, are growing in improved.

ent park commissioners, are growing in im-portance and becoming each year more at-tractive, is manifest to every observer. By tractive, is manifest to every observer. By
the report of the commissioners it appears
probable that the long pending litigation in
regard to the title to a portion of these beautiful grounds may be brought to a termination. I would recommend, therefore, that the
council, in conjunction with the commissloners, should make every possible effort to
accomplish so desirable an object.

During the afternoon a committee meeting
had been held at which a decision was
reached with reference to the salaries of the

reached with reference to the salaries of the city officials, and and ordinance was passed in accordance with the views of the majority of the council. The ordinance provided for the following salaries: Chief of police, \$80 per month; night captain, \$65; patrol driver, 850; clerk, \$1,000 per annum; deputy clerk, \$55 per month; reading clerk, \$65; clerk of the finance committee, \$65; street superviser, \$65; electrician, \$90; chief of the fire department, \$90; members of the fire department, \$60. An ordinance was also passed providing that the police force should consist of fourteen men is addition to the city marshall and his deputy, besides such extra men as the mayor, subject to the decision of the council, might deem necessary. In accordannounced that he had made the following

new city building in order that the jail may be heated by the same means as the other building was brought up for discussion. J. C. Bixby offered to put in a boiler suf-ficiently large to do the extra work for \$125. was referred to the committee of the

Alderman Smith reported unfavorably on a petition for the opening o. Nineteenth avenue from High to Sixth street. The report was concurred in.

A pentition for better fire pratection in the vicinity of Avenue B and Eleventh street was refused.

Two ballots were taken for city clerk. Van Brant nominated A. J. Stephenson, Jennings nominated J. C. Lauge, and Smith nominated W. M. Shepard. Both ballots resulted the same. Stephenson and Lange re ceiving four votes each. There was no election, and the matter was laid over until the next meeting.

A ballot was taken for president of the council, Brown and Smith being the candi-dates. Brown refused to vote for Smith for fear that Smith would vote for himself and give bimself a majority. He accordingly throw his vote to Graves and Smith passed. threw his vote to Graves and Smith passed, giving them each three votes. A second trial was made with the same result. Pace and Jennings were then put up as candi-dates and a vote showed four votes for each. Surveyor Cook reported that he had appointed S. L. Etnyer assistant, and Heary Alberta and James Armstrong rodmen, the former at a salary of month, as has been the rule heretofore. The question of the confirmation of these ap-pointees called forth a hearty objection from Alderman Brown, who had a son in the de-partment who would be left out by this ar-rangement. The appointments were confirmed, however, with a few dissenting

Marshal Templeton submitted the appointments of his deputies to the council for confirmation. John Barbyte and F. P. Fowler are jailors and L. B. Cousins bailiff of the

superior court. Confirmed.
A vote was taken for chief of the fire department, with the following result: Charles Nicholson, 2; O. H. Lucas, I; O. B. Hauen, I; F. Levin, 4. There being no choice, the matter was deferred. The attempt to elect a street supervisor was also a failure, H. H. Lucas receiving 4 votes, A. F. Avery 2, and D. K. Dodson and E. Huntington 1 apiece. For poil tax collector Joe Spaulding received 3 votes, A. J. McClaren 3, and P. D. Mottaz 2, and still there was no selection. It being evident that no officers could be elected, the council turned its attention to other busi-

Woodbury appeared with the re quest that he be allowed to put a high curb stone in the street in front of his house at the cerner of Birff and Story streets, as he had been flooded on Sunday and wanted to provent such a thing from occuring again. The matter was referred to the committee of the whole. Engineer Cook reported that the Second street bridge had been caused to settle by the same storm, and this also was re-

Attorney Hazelton reported that the city had been served with a notice by the city of Omaha that an application would be made to the supreme court next Monday for the appointment of a commission to determine where the old channel of the river was. Council Bluffs, he said, did not want this commission, as it would cause a large expense and was not necessary, as he had no doubt the boundary could be agreed upon without the interposition of any outside parties. The city of Omaha has not made the slightest effort to arrive at an agreement with this city. The city attorney and the mayor were apsointed a committee to lock after the matter

rith power to act.
The council then adjourned and recovened as a board of health. The only item of business transacted was the appointment of a city physician. There were two candidates in the field, Dr. H. B. Jennings and Dr. F. W. Houghton. On the first ballot Jennings received six votes and was declared elected

A Beautiful Millinery Display. The great feature of interest in the city yesterday afternoon and evening was the spring display in Misses Sprink & Fearon's new millinery parlors at No. 19 Main street. The room was tastefully and richly decorated with flowers Easter lilies predominating, but the magnificent display of millinery overshadowed the glories of the new hats and bonnets gaining in contrast with the perfections of the greenhouse. The tadies who filled the room all afternoon and evening pronounced the display to be one of the finest ever made in the city and heartily commended the artists who created the wonderful things. All the new styles that have been bought in London, Paris and New York for this season were shown, many of them in the richest materials, and they are simply wonderful creations.

The display will last until Wednes day evening and if there are any ladies in the city who neglect to see this display they will miss something fine.

Lightfingers at Work.

The merry burglac is still a burgling. Sev eral new cases were reported yesterday. When the barkeeper at Ed Sherlock's saloon on Broadway opened the place yesterday morning he found that some one had already been there and had left the back door oper when he went out. An investigation showed that the visitor had put in his time well while there, for 4,000 eigars had been taken out of the showcase, and a gallon of whisky was also among the missing. The safe door had been opened and the papers it contained were lying scattered promiscuously about the floor. No cash had been left over night either in the safe or the cash drawer, so the burglar had to be contented with taking as much of the stock and fixtures as he could

carry away with him.

The residence of L. A. Hauser, paster of the German Lutheran church, at 110 Gien avenue, was also visited by burrlars Sunday evening. The back door was found unlocked when the family returned home from church and a lot of silver plated forms and spoons were taken, besides a purse containing a small amount of money.

No action.
The committee on heating and ventilation reported in favor of the election of the fol lowing janitors: William Morrow, Kellom school; Edward Shoonover, Clifton Hill; Mrs. Ernestine Eponet, Monmouth Park.
Mr. Eigutter had a word to say against the adoption of the report. He was satisfied that it did not meet the approval of the ma-jority of the members. He was opposed to the election of ward politicians, who were thus to be rewarded for favors past received or expected in the future.

Mr. Wehrer insisted that the parties were all reputable and deserving.
Mr. Morrison thought 'that Mr. Elgutter had had some unsatisfactory experiences with ward politicians.

Mr. Eigutter insisted that the whole jan-

Mr. C. E. Babcock offered a resolution in structing the committee on buildings and property to advertise for bids for sodding the school grounds. Referred. Mr. Elgutter presented a resolution sus-pending further action in the matter of pur-

chasing a Central school site until the archi

tect of the board, in conjunction with the city engineer, could report on the probable cost of building a foundation on the Johnson site.
Mr. Morrisor, didn't want the city engineer to have any finger in the pie,

Mr. Elgutter said there was a doubt in the minds of many people as to what a founda-

tion would cost there. If it would cost no more than anywhere else all well and good, out if it would entail an expense of \$5,000 or \$10,000 it would be well for the board to Architect Latenser said there was considerable slope to the lot, and he heard there was some filled ground there, but he did not

believe it. The lowest point was at the southeast corner, where it was seventeen feet below the curb line. Mr. Martin could not see that this matter cut any figure. The property was already bought, and it made no difference whether

berings were made or not.
Mr. Gibson stated that it was a fact that the board would buy a hole in the ground if it purchased that site, as it was filled ground. and the foundation would have to go to the bottom of it. He favored Mr. Elgutter's resolution.
Mr. C. E. Babcock, was opposed to throw-

ing away money in boring noies to prespect for oil or anything else. He was in favor of going ahead.

Mr. Smyth said he was informed by the architect that he would have to do the bormr before plans could be prepared.

Mr. Morrison said that it was bancombe to talk about filled ground, as trees were growing there that had been there since long

before Omaha was started.

Architect Latenser said that if borings were not made a clause would have to be put in the specifications providing for so much per thousand for removing such dirt as was necessary to secure a foundation. The sum of \$50 was finally appropriated to defray the expense of the necessary but the city engineer clause was snowed under.

any good fu ther than giving my shor temporary relief. I suffered night an day, and continued to grow worse not withstanding all the medicine I hall taken. I had almost given up my case as hopeless when I was informed by a friend of Dr. C. Gee Wo, the Chinese doctor, and advised to go and see him in the hope of getting relief at least, if not a permanent cure for my trouble. I was slow in making up my mind to make such a radical change in my treatment, as I knew a trial with the Chinese doztor would bring mo, but I finally con-cluded to give him a trid, so I called at his office with that intention. I round the doctor a clever, entertaining gentle man, thoroughly posted on my coall tion, and it took only a very short time to convince me that he was the party I was so long in search of. He told me my case was curable, and that he could cure me, and prepared me a special treatment to suit my condition, and in two weeks I was so much better that I
