NICE PRACTICE GAME AT THE PARK

ESTERDAY afternoon was an ideal one for ball playing and Manager Rowe did not allow it to pass without due acknowledgment. The full team, with the exception of Sprague and Ivory, were out at Sportsman's Park -that is

what President Stout has christened the grounds-and after an nour's vigorous practice at batting, catching, throwing and running a team of amateurs and semi-professionals was made up and 'pitted for six innings against the regulars. This was the first auggestion of a genuine contest the boys had been engaged in and the first time they have been arrayed in regular position with each other. There was a large crowd present in the stands and on the bleachers, and despite the fact that the boys all lacked the necessary limbering up to render it pos-sible to do anything like the work they are capable of the unanimous verdict was that they are all right. If they continue to improve like they have in the last two days, there is little fear but what they will be able to hold their own with any aggregation in Kelley is a luminary. There is no discount

on the reputation that preceded him here. As a fielder he is the peer of many a man holding down a position in the big league. bound to take rank with the the business. He runs like a deer, is a dead certain catch, up grounders like up grounders like an old finished vet, and his batting—well, yesterday after-noon it was electrifying. He was four times at the but and connected safely four times once for a clean "homer," once for a two cushion drive and twice for singles-each hit being a rifle shot in itself, line drives every one of them to deep left center.

Bob Gilks, too, won the crowd by his ad-mirable work both in the field and at the bat. Haves was strong behind the plate, hit out from the shoulder, once for the trip 'round the globe, and ran the bases like a ten-second man.

Nick Handiboe took his turn in the box with Young Darby and conclusively demon srated that he is out for a winner this year. Speed! Well wait until you see him. Vickery also did mee work at practice, out will take no chances until he gets thoroughly accli-mated. Darby is all that Rowe claims for him, a regular little cracker-jack. In the box Omaha is as strong as any of them, and her outfield is immense. Fitzgerald puts up a beautiful fielding game at second and is a speedy man on the lines. He didn't do much with the club, but will give a good account of himself later on. Collopy is a quiet genius, but always has his mind on the game. He shoots them across like a catapult, and is

For the picked team Lew Camp played third like an old campaigner, his fielding being up to the very highest standard. There's a boy good enough for any team. Gadke caugh splendidly, Stevenson did good work in the points, as did Stoney at second. Baldwin, Chamberlam, Haskell and Metrose led at the bat. The score OMARA.

Charged Against the Guttenberg Tracks. JERSEY CITY, N. J., April 6. - Supreme Justice Werts, in charging the Hudson county grand jury, made distinct remarks to the Guttenberg bookmakers. He said: "Pool selling or bookmaking on horse races, or any

other event, is contrary to the laws of this state, and any place, whether open or in an enclosure, where such practices are habitually carried on, is a nuisance and the person who keep such or wno participate in its maintenance, whether as owners or members of the co-partnership or corporation, are in-dictable as keepers of a disorderly house."

FOUND HIS SISTER'S MURDERER.

After Two Years' Search Edward Solid Discovers His Man in Chicago.

CHICAGO, Ill., April 6 .- After two years' fruitless effort to locate the murderer of his sister, Edward Solid of Davenport, Ia., suddealy found the man in the Desplaines street court this morning. Over two years ago Mrs. Alexander Meyers was found dead in her home at Davenport, Ia., with a partly emptied bottle of landanum beside her. husband, Alexander Moyers, could not be found. Two weeks later he was discovered in an adjoining city and brought back charged with murder, but escaped and has been at large ever since. The dead woman's brother Solid continued the search. He was in the police court this morning when a warrant was sworn out for Meyers for stealing 5 cents from a bootblack. Soli 1 secured a de-scription which satisfied him that Meyers was the man be had been looking for, and swore out a warrant for Meyers' arrest for murder. Meyers claims he has resided in Chicago two years. He is now proprietor of a beer bottling establishment on West Randolph street. The police are looking for him.

PASSED THE APPORTIONMENT BILL New York Congressional Districts Will Be

Rearranged. ALBANY, N. Y., April 5 .- The bill providng for an apportionment of the counties of the state into new congressional districts passed the senate tonight. The democrat leader, Senator Canter, replying to criticisms of the bill, said the new arrangement was a fair one, whereupon Mr. Saxton said said he had examined it and found, on the basis of the last congressional vote, that twenty-one districts would be democratic and thirteen republican. The basis of representation would be 176,000. The average population of the democratic districts was 172,000 and of the republican districts 183,-000. This looks very much like fairness.

DR. PARKHURST THREATENED.

He is Warned to Stop His Urusade Against Crime or Die,

New York, April 6.-Rev. Dr. Parkhurst's life has been threatened if he persists in the crusade which he has pursued with such relentless vigor. He has been informed of his fate in anonymous letters, which were evidently written by responsible persons. Dr. Parkhurst is afraid he will be assaulted at night. The letters are all written on one kind of paper and in one hand. The entrog raphy, which is evidently disguised, is thought to be that of an educated person Dr. Parkhurst is understood to have re ceived eleven letters. Some promise bodily harm and others threaten to destroy him.

Lumber Trust Formed in Georgia. NEW YORK, April 6 .- A Macon, Ga., dispatch to the Times tells how the Georgia Lumber association met in Macon Monday and organized a lumberman's exchange, which is in reality a gigantic trust, having its headquarters in Macon. Forty-five of the most prominent lumber men in the state were represented. S. R. West of Albany was in the chair, with Merritt W. Dixon of Savannan as secretary. A committee advised the organizing of local branches, each with an executive committee, which com bined will form the general committee, with an office in Macon. This executive commit-tee will control the business. The general executive committee will meet in Macon, April 9, and elect president, six vice presi dents and a secretary. The prices are to be uniform and will be fixed by the executive session. The combine thus fermed is in-tended to eliminate the commission men, thus throwing the middle men out of work.

New York Police Officials Mad. NEW YORK, April 5.-The interview with Henry M. Tabor, foreman of the grand jury. caused something of a sensation in police circles. Inspector Williams was seen this morning and asked in reference to Mr. Tabor's charges. He waxed warm over the implied and direct charges. He said: "It is all nonsense that any man it this city can be intimidated through fear of the police to withhold facts from a grand jury. If there is bribery or corruption why doesn't the grand jury indict instead of throwing out in nuendoes! I am willing to stand an indict ment, as I can prove my innocence at any time. Let them give us a chance to vindicate ourselves."

Cuief Inspector Byrnes said: "Any mar who would make the statement attributed to Mr. Tabor is a good subject for an asylum.

NEW YORK, April 5 .- E. F. Stanton, successor to Theodore Banta, a cashier of the New York Life Insurance company, has resigned his place. His resignation has not been accepted, but a trustee said today that it would be and that the appointment of a successor was left to Mr. McCall, president of the company. It is considered probable that Mr. McCall will reinstate Mr. Banta in his old place.

The reason for Mr. Stanton's resignation it was said, was that the place was not con genial to him and also that he did not exactly "fill the bill." It is probable that he will be appointed to another place in the company's service.

Republicans Capture the Legislature by

Good Majority. REPUBLICAN STATE OFFICERS ELECTED

Senator Aldrich Will Be Returned to the United States Senate-Republican Gains Everywhere-Political News from Other States.

PROVIDENCE, R. L. April 7 .- At 2 o'clock this morning the returns from all over the state were not in, owing to the extra counting necessary under the new Australian system. The returns at hand are sufficient, however, to indicate that there is no election for state officers, with a probability of a republican plurality in the legislature. The state law requires a majority vote to elect, and there are a sufficient number of republicans returned up to this hour to secure the election of Senator Aldrich to the United States senate and the choice of the repubnean candidates for state offices.

Newport probably elects but one representative, and it will require another election to determine the choice of the other four. It requires fifty-four members of the legislature to elect on joint !ballot, ! and the republicans have at present fifty-one, with prospects of baying elected six more.

The city of Providence went democratic by about 400 majority, but the city assembly

Pawtucket was carried by the democrats by about 100 majority, and Woonsocket by a little less. The democratic assembly fleater in Woonsocket is elected by thirty, but the Pawtucket assembly ticket is in doubt. The ote polled was the largest in the history of the state. The result is a surprise to every body, and shows that there are several thousand people in the state whom the party managers can never locate.

Excitement Ran High.

NEWPORT, R. I., April 7 .- The state election in this city has been a hot fight, and in-dications point to the election of the full democratic legislative ticket. One district is yet to be heard from, which will not prob-ably change the result. The vote poiled has been very large and the ward rooms have been centers of excitement all day. This culminated in the Fifth ward, where the republicans claim that a democratic paper owner, who is also president of the commo council, violated the ballot law by giving un solicited assistance to voters. The repub-licans propose to bring a criminal suit agains the president and Supervisor Boyle and per haps the warden of the ward as well, and also if necessary appeal to the supreme court and contest the seats of members of the legis lature elected here.

There was a serious row over the election

in Jamestown, culminating in a personal assault by a republican representative, J. B. Banders, upon Dr. Howland, a democrat which necessitated the attendance of a phy sician and may result scriously. The town of Lincoln elected six republican semblymen, thus insuring the republicans at least fifty-seven votes on joint ballot.

Aldrich will be returned to the senate. The democrats made legislative gains several towns, but the result is a surprise to the democrats. The ordinary stay-at-home voters came out and outnumbered the demo-

cratic registration. At 1 a. m. returns give Brown for governor 23,178; Burton, 176; Gilbert, 1,411; Wardweil, 22,072. Total vote, 46,846, the largest vote ever cast in the state.

FRENCH SOLDIERS IN DANGER. Six Thousand Dahomevans Surrounding the

Garrison at Porto Novo. [Copyrighted 1892 by James Gordon Bennett.] Paris, April 6 .- | New York Herald Cable-Special to THE BEE. |- We are still receiving bad news from Dahomey. King Behanzin has sent an insolent letter to the commander of the French troops, in which he says: "I have not gone to France in order to wage war, but you have come to make war upon Africa. What do you mean! If you are not satisfied, here I am ready for bat-

Under such circumstances France has been obliged to prepare for war, and has decided to send two regiments of Sengalez sharp shooters and two batteries of artillery to Africa. Unfortunately it is feared that they will not arrive in time, as the latest dis-patches say that 6,000 Dahomeyans have arrived at Porto Novo, where there are only 700 Frenchmen. If the French soldiers are repulsed the ministry will be in danger.

A WASHINGTON LETTER. One Firm in Buffalo Spends More Money at the Buffalo Post-office than all the Banks and News-papers combined.

A Washington (D. C.) letter says, that the post-office authorities at Washington report that one firm in Buffalo—the World's Dispen-sary Medical Association—spends annually one hundred thousand dollars (\$100,000) for stamps alone, in carrying on their extensive proprietary business. This is more than all banks and newspapers of Buffalo com ined spend for postage. Here's a firm which has grown, step by

step, through many years to greatness. The reason for this wonderful growth has been that they have faith in what they sell, so much faith that if they can't benefit or

For many years they have been selling Dr. Pierce's remedies—one, Dr. Pierce's Golden Medical Discovery, for regulating and invigorating the liver and purelying the blood; the other, Dr. Pierce's Favorato Prescription, the hope of weakly womenhood, and they've been sold for years, sold by the million bot-tles: sold under a positive quarantee of benefiting or curing, or your money will be WHAT IT REALLY IS

The Most Dangerous of Modern Disorders Defined-Posumonia and What CHUSCS It.

There has been a great mistake us to what pneumonia really is. People, and even some physicians have called it a dangerous disease. Pneumonia is always an after effect. If the system is run down, weakened, debilitated, if the life is at a low obb, the lungs may fill up and the person die suddenly, and it is called pneumonia. No man or woman ever died of pneumonia when the body was strong, vigor ous and healthy. It comes upon one when weakened by grip, by a severe cold or over work and a generally weakened condition Such being the case how can this dreadful trouble known as pneumonly be prevented or warded off? Manifestly, by strengthening and fortifying the body by having the health and strength so secure that pneumonia will not attack, or if it should, can easily be warded off. This can be done by careful ilving, careful diet and a moderate use of a pure stimulant. To cently assist nature a stimulant is required, something that adds to the life and vigor. Nothing for this purpose can equal pure whiskey, and it should be borne in mind that the only pure and needleinal whiskey which has received the unqualiffed endorsement of physicians and seemista is Duffy's Pure Mait. It is no ordinary whiskey, but possesses properties known to no other article. It willeffectively ward off pneumonia and has saved the ives of thousands of peopie. It should be remembered, however, that it is the only whisky which can accommish this, and any groser or druggest who seeks to convince you to the centrary is deceiving. warded off? Manifestly, by strengthening ionvince you to the contrary is deceiving. Insist upon having Duffy's Pure Malt.
