News Notes.

The Burlington Railway company is mak-

ing preparations for improvements in tho

freight depot which will enable them to fur-

nish their patrons better facilities. The tre-

mendous amount of business which is being

done in the implement line renders it impos

sible for the improvements to be made at once, but they will be begun as soon as the

spring rush is over. The freight depot, which is in two sections at present, will be brought to grade and the two sections

united, the whole being surrounded by platform, which will be about 100 feet longo

on each end of the depot than it now is. The

paved, so that the heavily laden wagons will

not sink out of sight in the mire as they have done in the past. The lumber for the platform is already on the ground and work

will be commenced as soon as possible with out interfering with the freight traffic.

With reference to a new passenger depot, matters are at a standstill. W. J. Daven-port, freight agent of the company in this city, states that the officials of the company

are all ready to build a new local depot as soon as it is decided definitely that Council

Bluffs is not to have a union depot. He has been trying for many months past to induce

the company to build without waiting for the other matter to be decided. The officials, however, are not willing to spend \$10,000 or

\$15,000 on a local depot with a probability o having to spend \$35,000 or so on a unior

Incidentally it might be mentioned that the construction of the Northwestern local

depot is to be commenced at once, word to

that effect having been received from head

quarters. The officials of this road state that the erection of a local depot will have no effect, whatever, on their connection with the union

depot scheme, either for or against. They are so situated that a local depot will be

necessity to their business, and they still consider themselves bound by their contract to go into the union depot scheme when the

ther roads are induced to fulfil their share

AMUSEMENTS. The retirement of Edwin Booth from the stage, which promises to be permanent, leaves America without a great "Hamlet," but there are several younger men striving to become worthy the successorship of that eminent actor. This aspiration is wholly commendable and is the justification of any earnest, intelligent effort for its realization. Mr. Robert Mantell has entered the lists for the coveted honor, and Omaha was afforded the opportunity at the Boyd last evening to test his powers and measure their promise. The result is hardly reassuring to the critical ob-server. Mr. Mantell brings spirit and intelligence to his work, and in some of the pas sages of stormy emotion sweeps away criti-cism, but by far the greater time his acting is palpable. His posing is too obvious, his falsetto too sybillant, his reading too decla-matory and his subtlety too elusive. Despite

matory and his sublety too elosive. Despite these faults Mr. Mantell presents an inter-esting interpretation, which finds much favor with the general audience. Miss Charlotte Bebrens is an act-ress of moderate powers, who has the good sense to keep within her limitations, and ab presented a groupful and accentable and she presented a graceful and acceptable characterization of "Ophelia." Conway, the brother of "Tim the councilman," attempted to commit suicide last even ing by shooting a 32-caliber ball through his left lung at his room at the corner of Six-teenth and Corby streets. Young Conway

had been drinking heavily all day. About noon Conway remarked to his land-lady, Mrs. Stevens, that he would rather die than live, but no attention was paid to his talk as he was pretty drunk.

About 6:30 Mrs. Stevens heard a pistol shot up stairs over the saloon and larme the men who were in the saloon below. The door leading into the room occupied by young Conway was locked, but was broken down. Conway was found lying on the bed with a bullet hole in his left breast just above the heart. A doctor was called and after an examination ordered a removal some hospital. This was objected to by his friends.

He is badly hurt, the doctor says, but the chances are favorable for his recovery.

# WON A DIPLOMATIC VICTORY

England Scores a Success Against France and Russia in Egyptian Matters.

OBJECTING TO AN IRISH PARLIAMENT

Red Hot Talk at a Meeting of the Ulster De fense Committee-Happenings in Parliament-Tectotalers in Manchester-Mrs. Maybrick Interviewed.

Copyrighted 1892 by New York Associated Press. 1 LONDON, April 8.-Lord Salisbury has scored a victory in the diplomatic contest with France and Russia over the firman of investure of the khedive of Egypt. The position has for a past week harassed and perplexed the foreign office, perhaps more than even the Bering sea question ever did. The sultan stole a march upon English diplomats in sending a firman so phrased as to exclude from the Egyptian frontier the whole Sinai peninsula and part of the Red sea which has been held by Egypt for half a century. Before the firman was drafted the English ambassador at Constantinople, alive to some action of this sort, demanded that the document should not introduce any question concerning the frontier and received assurance that the firman should not touch the khedive's rights.

#### Suspected Duplicity.

When the sultan's envoy, Aoub Pasha, arrived at Cairo, the British minister, Sur Evelyn Baring, suspecting some duplicity asked for a copy of the document, and when Aoub Pasha refused to communicate the con tents of the firman until after the investure Minister Baring advised the khedive not to proceed with the ceremony. Acub Pasha then disclosed the substance of the firman, the nature of which had been known to and approved by France and Russia before the missive left Constantinople.

The consuls general at Cairo at once arranged themselves on two sides, the Italian and Austrian representatives meeting at the English embacsy and the French and Russian diplomats at the residence of the Turkish pleupotentiary. The Italian squadron. which was about to leave Alexandria, got orders to stay and the officers on leave were recalled to their ships, including the admiral. who was junketing at Cairo. Yesterday the British and Italian ambas

sadors at Constantinople sent a note to the grand viceroy saying that the firman mus be altered or Aonb Patha recalled. There seems to have been no mistaking the em phatic and percuptory character of the note and there was an immediate result. A telegram was received by the skiedive from the sultan today, saying that the firman would be modified, omitting that definition would be modified, omitting the definition of the frontier

It transpires that Aoub Pasha had two documents of investure, one setting off a portion of Egypt and the other consonant with Lord Salisbury's view.

Tonight's Cairo dispatches say that the statement has excited the great-est satisfaction there. The foreign office is reticent, except that it confirms the statement that the difficulty is on the point of solution, although the day for nvesture of the shedive is not fixed.

Meeting of the Ulster Defense Committee. The meeting in Belfast of the Ulster defense committee, the mayor presiding, to provide for a convention, went a degree beyond the recent Ulster commissioner's "gathering in the violence of their tirades." The pretense of secrecy of the proceedings trumpetings, and the resolutions recorded Ulster's determination to have nothing to do with the Dublic Parliament, which is certain to be controlled by men who are responsible for the crimes of the land league, cruchties and boycotting, and mere tools of clerical domination and an attempt to set up such a parliament will inevitably result in disorder, violence and bloodshed to an extent that has

#### TALK WHICH DIDN'T COUNT.

Squires' Street Sweeping Contract Dis cussed by the Board of Public Works.

The street sweeping controversy was before the Board of Public Works at the session held yesterday afternoon, but it was not settled by any means. Major Furay pro-duced a copy of THE BRE, from which he read the correspondence that passed between Mayor Bemis and Contractor Squires. After concluding he turned to Mr. Squires with the remark: "Is this final and conclusive?"

"The mayor and myself are attending to this matter at the present time," answered Mr. Squires. Chairman Birkhausor explained the con-

dition of affairs and what brought about the writing of the two letters. He denied that he had any personal feeling in the matter. "What you have talked don't count," re-sponded Major Furay, 'as it is the contract

should be allowed extra compensation for cleaning some of the streets, "While that may be true," answered Chairman Birkhauser, "you must take into consideration that the city has paid for cleaning at its own expense, eight miles of the worst streets in the city." Then Mr. Squires spoke. He said that if a running conversation was come on he

a running conversation was going on, he would make a few remarks. When he went to work last season it was with a string tied to his contract. He had spent \$4,000 and had received \$500 in return. This spring he had been asked to clean streets where breaking plows and wheel scrapers would do better

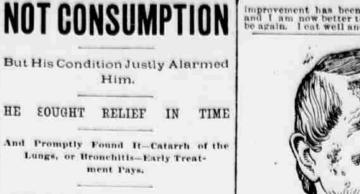

work than sweepers. Major Furay asked what streets were in that conditio He was informed that North Fourteenth

#### Room for a Harness Factory.

A couple of wealthy capitalists from the cast are in correspondence with local parties with a view to locating a harness factory here which will employ in the vicinity of 100 men the year round. They have a capital of \$50,000 which they are willing to invest in the enterprise in case a man of the right kind can be found to go in with them, furnish a share of the stock and undertake the management of the business. They have been led to look up Council Bluffs as a prospective location on account of its excellent railroad facilities, and according to the state ment of a prominent implement dealer the only thing that now stands in the way is their inability to interest local capitalists in

the plan. It is to be hoped that the scheme will not be allowed to fail through. There are only two barness factories of any size in this part of the country, and almost the entire supply has to be brought from the cast. There is plenty of room for an enterprise of this kind, and what is waiting for the men who engage in it may be judged from the case of an Omaha firm which embarked in the business eight or ten years ago with a capital stock of nothing but push and is now rated at \$70,000 by the commercial agencies.

The term of federal court is nearing the end, and it is likely that the middle of next week will see court adjourned and the lawyers, witnesses and bootleggers gone to their nomes. There have been sixty-five bootlegging cases disposed of during the term, and fifty new indictments have been re turned by the grand jury for next term. The following parties were sentenced vesterday S. D. Viers, \$175 and thirty days; Charles Glark, 300 and ninety days; Charles Rhoades, \$250 and forty days; W. W. city have waited far beyond what could reasonably be expected of them for the city contractor to sweep the streets and keep them in decent condition. Therefore, Resolved, That in our judgment the time has come when it is the duty of the city of-ficials to settle the question whether business men and other citizens are to suffer from the neglect of contractors or whether they have rights which contractors are bound to re-spect. We are in favor of vigorous, immedi-ate and imperative action on the part of the mayor and city officials which will place the streets of the city in the proper condition and so keep them. If there are any differences between the city and the contractor for sweeping streets the place to adjust such dif-ferences is in the courts. Meanwhile the streets of the city should not be neglected. There is a very grievious wrong being perpe-trated upon our citizens by the shameful con-dition of the streets and we call upon the proper authorities to correct the evil without delay. A committee of three, composed of Messrs. Taylor, Reed and Bedford, was appointed to act in conjunction with a similar committee of the council in devising some means t remedy the unequal assessment on taxable

Mr. Boggs said that the city needed inside parks for the poor people who could not afford every evening to expend their savings in street car fare to go away out. Arrested the Attorney. Attorney William Simeral enjoyed the ex-

Schurz, a B luffs attorney, on a similar charge, and was successful. His own arrest was the result of Schurz' attempt to retailate. It seems that Schurz collected \$42.15 due Milton Rogers & Son from R. L. Williams, and refused to turn it over when the demand was made. He claimed that he was about to collect it on execution even after it was in his possession, and when Simeral went over on the first of the month and in-sisted on a settlement Schurz gave him

sisted on a softlement Schurz gave him a check on the Clizens bank in part pay-ment. The check was protested when pre-sented for payment at the bank. Schurz al-leged that Whinams did not pay the full amount of the judgment and that when he (Schurz) refused to receipt the docket in full Williams tracted him not to furn over full Williams instructed him not to turn over the money. Williams, however, denied this the money. Williams, however, denied this and showed Schurz' personal receipt for the

full amount. Simeral decided to act, and had Schurz arrested. The latter filed a complaint alleg-ing that Simeral had collected a note for \$25 and withheld the proceeds. Simeral states that he did not collect the money, but on the contrary returned the note to Schurz some

time ago. Both defendants were released on bail in the sum of \$300 each. Simeral states that Schurz' assertions to the effect that the matter will be settled and prosecution dropped is without foundation, as he proposes to push

the case to the end. The Nebraska Futurity.

Happenings in Parliament.

Dr. Goshen, the chancellor of the ex-chequer, will issue his annual budget on Monday. Before the house adjourns on Tuesday for the Easter recess, the only gov-ernment bill hear will be the small bolding bill, this being the barrenest record for many

weeks sitting ever known. The labor candidates who refuse obedience to the liberal electoral executive are every-where disappearing. Mr. Schadhort's agents have succeeded in inducing the district committees to oust the independents. The executive has approved twenty labor candidates, most of whom are certain of election The payment of the labor men selected is secured partly by the general and partly by

#### MURDERED IN COLD BLOOD.

Dr. Poninski, a Distinguished Ecclesiast o Posen, Assassinated by Anarchists.

BERLIN, Aprill 8 .- A story comes from Posen that Dr. Poninski, a high Polish ecclesiast, was set upon and assassinated by four men. He resisted desperately and killed two of the men. The other two suicided. Cards were found on the bodies showing they were anarchists selected to kill Poninsik. The cause is unknown.

Further details regarding the murder o Dr. Poninski show that the first report was inaccurate in some respects. It now appears that Dr. Poninski was sitting in a room when the four assassins appeared at the house and requested to see him. They were ushered into the presence of the aged doctor, who asked them their business with him. In reply he was handed a red card on which was printed a command, signed by the "Committee on the Polish anarchists," calling upon him to surrender all the money he had in his possession, for the benefit of anarchists. The card stated that if he re-fused to obey the command he would be

From his position in the church the doctor reforming position in the charted this fact was well known and thien advantage of by the anarchists. Dr. Poninski, who was fery infirm from old age, was startled from the message hauded him. He ran to a window and jumped to the garden. The anarchists followed him to the window, and before he window here to the garden of a start of a window tonower and to have what what we have a solution of a volley of bullets into him. RAPID CITY SNOWBOUND.

For a Week All Communication with the Outside World Was Cut Off.

RAPID CITY, S. D., April 8 .- [Special Telegram to THE BEE. |-From Friday of last week until yesterday but one train entered the Black Hills from the outside world and until today all wires were down and press messages were refused. While not as severe as in Kausas or Nebraska, a fierce snew and wind storm raged all day Sunday and Monday, the snow drifting six feet and more in the streets and on rough lands. Owing to the warm weather which prevailed dur-ing and after the storm, very few cattle were lost. No fatalities have been reported. though fears are expressed for several per-sons who started to cross the reservation Friday and Saturday and who must have been caught in the bad lands.

#### HONORS TO A SCOTCH HERO. A Fine Statue of Sir William Wallace to Be

#### Presented to Baltimore.

It is that not start of the sta Scotchmen all over the country will be interested in the colossal bronze statue of Sir William Wallace, to be presented to the city of Baltimore by W. W. Spence. The statue will be placed on a pedestal representing a series of crags, which will be thirteen feet six inches high and will occupy a prominent position in Druid Hill park. The figure represents Wallace clad in a suit of mail and brandishing his sword. The left hand rests on a shield, part of which is con-cealed behind the figure. A Scottish horn, like the one with which Wallace summoned his clansmen, is swung at the side. The bearded face bears an expression of determination and courage. The whole figure is full of spirit.

The statue is an exact reproduction of the national monument to Wallace's memory which stands on Abbey Craig, a mass of rugged stone near Stirling Scotland. It was designed by D. W. Stevenson, in whose studio in Edinburgh Mr. Spence saw it before the unveiling in 1887. Mr. Spence has commissioned Mr. Stevenson to make the reproduction for Baltimore. The following inscription will be placed on the pedestal: "Wallace-Patriot and Martyr for

Scottish Liberty-1305."

### Tropical Fruit.

Some of the revelations of the census will startle a good many people. For instance, there are now more than 500,-000 almond trees actually bearing in United States; there are hundreds of thousands of bearing cocoanut trees: there are more than 250,000 olive trees producing fruit equal to the best Medi erranean varieties. There are more than 500,000 bearing banana plants. 200,000 bearing lemon trees, 4,000,000 orange trees and 21.000,000 pineapples. And the value of tropical and semi-tropical fruits grown under the American flag is nearly \$20,000.000.

STATEMENT OF A WELL KNOWN CITIZEN Many people have the idea that catarrh af-fects only the nose and throat. This is a creat error, for the more serious results of this dis-case are frequently found affecting the heart, lungs, stomach and bowels. In such cases there is immense anxiety and soffering. In time these forms of catarrhai disease become serious, if not fatal. It is the business of the physician to find out just what's the matter. Then the cure is easy.]
