

DELYING IMPORTANT BILLS

Democrats Not Inclined to Favor Some Good Measures.

CONGRESSMAN FUNSTON'S EXPLANATION

Paddock's Pure Food Bill and the Anti-Option Measure Not Likely to Be Acted Upon at the Present Session—Washington Gossip.

WASHINGTON BUREAU OF THE BEE, 513 FOURTEENTH STREET, WASHINGTON, D. C. Representative Funston of Kansas, at present a member of the house committee on agriculture and in the last congress chairman of that committee, takes a very keen interest in the Hatch-Washburn anti-option bill. Today he said of the outlook for that measure:

"I have no idea it will be called up at this session and I don't think very much of it being passed by this congress, although it would go through both houses if it were given a chance. The men who have charge of the bill appear to have lost all interest in it. The measure is a very important one for the farmers and if it was a law would have an important influence upon the prices of farm products for five days immediately preceding the primaries. Any republican residing in the city or county, who is a qualified elector, and whose name has been omitted, may apply to the secretary or other officer of the county committee and have his name properly placed on the registration lists. The primary election will be held this afternoon, April 21. Poll open at 12 and close at 7 p. m.

The polling places are as follows: First Ward—Eleventh and Pierce streets. Second Ward—Sixteenth and Williams streets. Third Ward—134 North Twelfth street. Fourth Ward—334 South Fifteenth street. Fifth Ward—1510 Sherman avenue. Sixth Ward—Twenty-fourth and Lake streets. Seventh Ward—1212 Park avenue. Eighth Ward—2107 Curving street. Ninth Ward—Twenty-ninth and Farnam streets.

In all other precincts at the same place as held last year unless changed by the authority of the members of the committee for the several precincts. The republican primary election will be governed by the rules adopted by the republican county central committee of Douglas county.

ing with marked success. The director, Mr. Joseph Ritter, is highly pleased with the beginning and predicts in the near future another fine vocal organization for Omaha. A ladies society will be added soon. There are more who would perhaps like to join, but they must attend at the next meeting, tomorrow evening that they may not retard those already in it.

NEW UNION PACIFIC HEAD

Captain R. S. Hayes Selected to Succeed Sidney Dillon as President.

JAY GOULD AND SAGE TO BE RETIRED

Dillon Will Be Retained as Director—How the Change Was Brought About—Mr. Clark May Stay—The New President.

Authoritative dispatches from New York received at noon yesterday make a positive announcement of a change in the Union Pacific management. They say that President Sidney Dillon will be retired at the annual election of the Union Pacific Railway company and that unless obstacles present themselves which do not now appear, Captain Richard Somers Hayes will be elected in his stead.

At the suggestion of General Graunville M. Dodge the office was offered to Captain Hayes and he has consented to assume its duties.

Messrs. Jay Gould and Russell Sage will be dropped from the board of directors, and Mr. Dillon retained only as a consultant to his long services to the company. A suggestion that the place of chairman of the board be created for him, was not favorably considered by the people who will represent the controlling interest.

There was a consultation yesterday in Boston between General Manager and Vice President S. S. H. Clark, Mr. Frederick L. Ames and Mr. Bossevain, who represents large foreign holders. It is possible that this will result in a new agreement to continue Mr. Clark's connection with the company upon condition that he resign his position as general manager of the Missouri Pacific railway, which it is said, he has expressed a willingness to do.

The New York Sun yesterday has this to say: "These changes will be brought about by a combination of foreign holdings with American stockholders who desire a change of management and the movement is said to have the approval of the directors." It is also stated that the new president will have proxies for about 300,000 shares, about one-third of the capital stock. The stock interest of the Gould party is about 30,000 shares as nearly as can be ascertained, and they also hold about \$9,000,000 of the collateral trust notes. There will be no effort made by Mr. Gould nor Mr. Sage to thwart the purposes of the adverse party and Mr. George Gould said last night that his father was entirely satisfied to leave these gentlemen to wrestle with the problem.

"Mr. Russell Sage said: 'I was aware that there had been talk of offering the presidency of the company to Captain Hayes, but I do not want to believe that such an insane scheme as that of taking from Mr. Gould a voice in the management in the company will really be carried out. He stood by the company when it was in sore financial straits and it will be the greatest folly to put its affairs in other hands at this time. I joined him in advancing money to pay off the floating debt and have still the collateral trust notes that represent my advances. He has appointed a man who is found with courage to assume the responsibility that will attach to the office of president of the Union Pacific Railway company for some time to come.'

Captain R. S. Hayes has been connected with the railroad since he entered the shops of the Pennsylvania railroad at Altoona in order to learn the rudiments of the profession. In 1870 he was appointed by General Dodge chief engineer of the Texas & Pacific railway, then building, and afterwards held a like position with the International & Great Northern. He was for a number of years first vice president of what was known as Mr. Gould's southwestern system. In 1888 he succeeded to the presidency of the St. Paul & Duluth Railroad company, where he remained until November, 1884. Then he was elected to the office he now holds as president of the New York and Northern Railroad company. Captain Hayes is about 50 years of age and is regarded as an able railroad man.

An Omaha official closely associated with General Manager Clark says that when the latter left Omaha for St. Louis he had no intention of going soon to New York. Mr. Clark was elected almost immediately, however, and the Omaha official announced yesterday that there would be a change in the Union Pacific management. He also stated that the action which had now secured control of the property had called Mr. Clark to order to return to remain at the head of the operating department. If he consents to continue as general manager of the Union Pacific in the event of the change of management he will have a salary of \$100,000 per annum, which is the same as he received in the Missouri Pacific. Such a change would bring Mr. Clark back to Omaha, but the official who volunteered the information says that he does not believe he will accept such a proposition. His position with the Missouri Pacific is secure, and Mr. Dillon would not be likely to be broken at any annual upheaval.

Denver—Omaha Service. The Burlington has completed the time card for its fast passenger service between Omaha and Denver, which will go into effect next Sunday. The train now running between Chicago and McCook will be extended to Denver and the time quickened. Leaving Chicago at 10:30 p. m. as at present, it will leave Omaha at 1:30 p. m. and reach Denver at 7:10, Lincoln at 6:30, and reach Denver at 9:10. The return train will leave Denver at 9:10 a. m., Lincoln at 10:30 the same night and Omaha at 11:50 p. m., reaching Chicago at 2:15 the next afternoon. There will be a new train between Omaha and Hastings to accommodate local travel. It will leave this city at 6:30 p. m., Lincoln at 7:30 and reach Hastings at 12:35 a. m. Returning it will leave Hastings at 10:15 a. m. and reach Omaha at 1:15 in time to connect with the river and lie over there until 4:45, reaching Omaha at 6:37 p. m. The other changes are slight. The east bound driver will stop in Omaha forty minutes instead of twenty-five, leaving at 4:45 p. m. instead of 4:30.

For Cattle Country News. The Elkhorn has sent a telegram operator to Douglas, Wyo., to handle newspaper dispatches. The telegraph line between Douglas and Buffalo is known as the Wyoming island, and it is said to be in such bad condition that breaks are frequent even in good weather. Telegraphers aver that it has been repaired in some places with fence wire. The Elkhorn reports fourteen inches of snow south of Crawford, and the Union Pacific advices indicate thirteen inches in Wyoming with a blizzard raging. Buffalo is cut off from the outside world, and the fate of the soldiers who started overland for Taylor and McEwing, Mr. W. S. Marshall, quartermaster.

NEW SCHOOLS AND NEW GROUNDS.

Board of Education Committee Proposes Several Improvements and Expenditures. The Board of Education committee on buildings and property met yesterday and instructed the superintendent of buildings to finish the plank walks at the Kellom school according to the plans and sketch submitted by him.

The superintendent of buildings was also instructed to secure the lowest bid of the local iron grating manufacturers and have new gratings at once placed in position at the Pacific school.

The committee decided to report that a play ground at the Kellom school could be prepared at a cost not exceeding \$2000 a square yard, and authorized the superintendent of buildings to obtain bids for placing gravel upon the west side of the grounds as an experiment to quote future similar work on the various school sites.

They will also report in favor of purchasing the Black and Decker lots at the price proposed, \$12,500, to furnish additional ground at the Hartman school, where a new building is to be erected. The lots give a frontage of over 200 feet on Fifteenth street, directly abutting on the present Sixteenth street site, and will admit of the erection of the new building without moving any of those now there, thereby saving the cost of ten or twelve additional rooms for nearly a year.

The report of the superintendent of buildings regarding the poor condition in which the blackboard walls at the Kellom school were left by the plasterer was considered, and the committee decided that the cost of placing them in shape to receive the slating should be charged back to the plasterer.

They will recommend renting an additional room for the Pacific school at a monthly rental not to exceed \$25.

Mr. A. B. Laforme, Boston, Mass., says: I ordered and distributed one dozen large bottles Bradley's Eye Cure, and in every case it has afforded almost instantaneous relief.
