TOLEDO, O., May 8 .- [Special Telegram to THE BEE. |- The prettiest thing about today's game was the number of people who saw it. Seventy-five hundred saw the Omahas knock Dewald out of the box in the fourth inning. The crowd was wilder then Dewald, and prevented brilliant work. President Gunnells finds that Olympic park isn't half large enough. No policemen had been detailed to preserve order, and three times did Umpire Snyder stop the game and drive the howling horde back off the foul lines. After the fourth mning the mob lost interest in the game and seemed intent on creating as much noise as possible. Some nudacious advertiser increased confusion by firing several thousand cards with United States flags printed on one side at Umpire Snyder. The crowd rushed for them and it took ten minutes to restore peace.

Nichols is Himself Again.

Toledo opened up by Armour flying out. Gettinger hit for two bags, and Nichols, who had not wholly recovered from the blow he received yesterday, raised the first one Darby pitched far over the left fence. All of Omaha's basemen shook hands with him as he cantered around, and the throng was

Gilks made a single, on which Darby ran in. Played it on the Parson.

National league: Boston at Cleveland,

Brooklyn at Chicago, New York at Pittsburg, Philadelphia at St. Louis, Baltimore at Cincinnati. There are no Western league games scheduled for today. NEWS FOR THE FIGHTERS.

Sinvin and Jackson Training London, May S .- Peter Jackson is training at Brighton for his fight with Slavin in a somewhat peculiar manner. He does no sweating, but takes long jaunts inland generally by himself and he never spars with anyone, because he says it has a tendency to make him slow. He has reduced himself in three weeks nearly fifteen pounds, and will mter the ring weighing about 185 pounds.
Frank Slavin is training at Dovercourt on the cast coast, and his method of procedure is the very opposite of Jackson's. He says his fighting weight will be considerably over

190 pounds. There is little or no betting, but what there has been has favored Jackson. Jack Slavin and Con Riordan of San Fran-cisco have been matched for £200 a side and a big purse. The men will fight at the Ormonde club June 2. The fancy here favor Slavin, but the match ought to be a good

thing for Riordan.
Fred Johnson, who is matched to fight George Dixon, will leave for New York or the Majestic Wednesday. He ought to whip Dixon if he gets into good condition. He has trouble in getting to 118 pounds and fights better at 122 pounds, but he will make the weight all right.

Ended in the Usual Manner.

INDIANAPOLIS, Ind., May 8 .- A special to the Sentinel from Muncie, Ind., says: A rough and tumble prize fight took place northeast of Muncie in Randolph county at 2 o'clock this morning, in which James Patton of Philadelphia knocked out Al Fogle of Muncie in the third round with a blow in the in the first round the young men went at it rough and tumble and with diffi culty were separated at the expiration of

In the final round a general fight ensued In the dual round a general light ensued between seconds and backers in which the referee was chased out of the ring by Jack Hanley, a prize fighter of indianapolis, be-cause he would not allow fouls that should have given Fogle the fight in the round. During the general meles Patton was hit on the head with a beer bottle and badly in jured. The fight was for a \$200 purse and gate receipts, amounting to over \$1,000 at \$6 per head. This was Fogle's first ring fight per head. This was Fogle's first ring fight but the eighth contest for Patton, whose scieace outwinded Fogie.

Another Tug-of-War Challenge. South OMARA, May 7 .- To the Sporting Editor of THE BEE: In regard to the Omaha Swedish tug-of-war team challenge to the state champion team, the Omaha Danes, we would like to make the following remarks:
The state tournament gotted ip by John
Prince, manager, was declared for the state
championship, and open for all comers. The
Omaha Swedish tug-of-war team, being the
champion team of Omaha, accepted to enter
into the state tournament in the first place,
but withdrew by reason of family affairs of

their anchorman. Up to that time we agreed to enter gent, but withdrew also when the Omaha Swedish toam made the above mentioned ex-cuse, which we regard as a loophole, and is groven by their late challenge to the champ

Our main object in entering into the tournament in the first place was to try the strength of the best team in existance, which were to engage in such tournament. As things stand now it is undecided which is the best team in the state. To decide this matter, and to commence with, we challenge the Omaha tug-of war team to a contest, five or six men in the team, for a \$500 purse and gate receipts.

Time, place and other details to be agreed upon. Hoping this challenge will not be misconstrued or discredited, our opponents are kindly requested to make appointment for further arrangements in the im mediate foture. SOUTH OMAHA GERMAN TUO-OF-WAR TEAM.

Work for the Council. This evening's session of the city council will be an important one. The occupation tax ordinance, which was laid over from last week, will come up for final action. With slight revisions the ordinance may be passed, and if it is will be immediately enforced The friends of the measure claim that by levying the occupation tax the deficiency in

he several funds will be made up and the finances placed upon a proper basis.

Another important matter which will claim the attention of the council will be the accepting or rejecting of the proposition made by the California Pe-troleum and Asphalt company. This company has the contract for paving Twenty fourth street and nearly completed the same finishing the work last fall with the exception of the west half of the street, from street north to A street. By the terms of the contract a monthly estimate of the work lone was made by the city engineer and allowed by the council, and the company re seived 80 per cent of the amount in warrants. It was claimed that the last estimate was

illegal and the council refused to allow the same. The company stopped work and since that time has been endeavoring to secure the amount of the estimate. Suit was brought against the city and judgment for the amount of the estimate secured. The company now makes a proposition to dismiss the sull and finish its contract, provided the city will allow the estimates. If the proposition is not accepted tonight the company says it must protect itself and intimates that a damage suit against the city will follow, the grounds for such an action being that the city engineer stopped the company from work and pre-

Just what action will be taken by the conncil is not known. Public opinion upon this question is about equally divided. Those who oppose accepting the proposition claim that the pavement laid is worthless and will not stand the extreme hot weather. The friends of the company, however, claim that the payement is good and will answer all purposes and give satisfaction. The committee on viaducts, streets and alleys has conferred with the city attorney and will report upon the company's proposition at tonight's meet-ing of the council.

Fought for the Dry Spot. Two tramps sought shelter Saturday night upon a porch at the old dance hall at Twenty-fourth and G streets. When the storm began they had trouble over which one should occupy the dry spot. After pummeling each other for a few moments one of the tramps drew a revolver and fired two shots as the other took a lively spin down Twenty-fourth street. The tramp met George Dale and Charles Vaugnan and sought their protection. These gentlemen provided him with lodging at a cheap hotel.

WARM WORDS OF WELCOME.

Swedish Conference Delegates from the Mother Country Handsomely Received. A large audience greeted the delegates from Sweden and the Northwest Swedish conference at the Swedish Methodist Episcopal church on Eighteenth street, Friday evening, under the auspices of the lady patronesses of the church. It was a most gelightful success. The Swedish and American national colors decorated the walls, and an abundance of nature's lilles and flowers the pulpit. Rev. F. J. Swanson presided. After singing by the choir and reading of the scriptural lesson there was prayer by the venerable and oldest minister of the Methodist church in Sweden, Father J. P. Larson. Rev. Alfred Anderson, presiding elder of Chicago, welcomed the distinguished guests from Sweden,

He spoke as follows: "Reverend Brethren, Laymen and Members of the Church: I stand before you tonight as the representative of our Swedish church, and with heartfelt greetings and brotherly love, welcome you to the shores of America, and let me say to you that us long as you remain with us during the conference and afterwards, our cities, churches and homes are yours. For twenty-six years have I worked in this cause, and we have a large field before us. It is different here from in Sweden. While we become Amer-icanized and forget it in time, the Swedish icanized and forget it in time, the Swedish language, yet our work grows and we prosper continuously. God is with us. We have an open head here in America for hundreds of fivedish ministers, and your visit with us we trust, will be most agreeable to your plant and expectations. We again say welcome honored guests from Sweden to the shores of mighty America."

The next speaker was Rev. P. J. Berg of Dayton, Ia. As an old Omaha man his address was interesting. His description of

dress was interesting. His description of the struggles of the small class which first met on Tenth street to the large congregation now in the city showed Omaha's grit and energy. Why an Iowa Liquor Law Violator Thinks He Should Not Be Panished, FORT DODGE, 1g., May 8 .- [Special to THE Bre.]-John Culjen, a young man under indictment for viciating the liquor laws, has filed a petition before Judge Hindman asking that the case against him be dismissed on unique grounds. Chillen states that he is au inmate of a cold cure institute, and is rapidly being cured of his appetite for liquor. His petition sets forth that with this cure has come a repugnance to the entire traffic, such as would prevent him from ever engaging in it again. This, bearques, should be sufficient grounds for discontinuing the case and his

Loved Another Man's Wife.

HER HUSBAND WAS IN THE WAY. Murder Attempted by a Chicago Pole Who

CHICAGO, III., May 8.-Tonight Stephen Mykel, a Pole, was arrested on a charge of assault with intent to kill Stephen Lewkowichz. The wife of the latter is implicated in the charge. A week ago, while asleep with his wife. Lewkowichz was shot at through the window of his room, the bullet entering his body. The wound, however, was not dangerous and he has since recovered. No possible explanation was given of the matter until tonight. Mykie was locked up on the statements made by the wounded man's wife which, the police declare, says that she had been unfaithful to her husband, and that an attachment had sprung up between her and the accused, who had made her presents of money and with whom she had talked of marriage. She further says that Mykle had agreed to shoot her husband on condition that she would marry him. She does not confess that she agreed to abide by any such arrangement, but states that Mykle left her with the understanding, notwithstanding her opposition, that he would remove the only obstacle to their union, and in a few days after the attempt was made upon the husband's life. Mykei would not namit having done the shooting nor did he deny it.

Tuesday evening Omaha Ccuncil No. 65 Royal league, entertained its members and their friends, to the number of about 200, in a very pleasant and sociable manner. Dr. Stone, who, by virtue of his office in the council, or well as his most efficient accomplishments as an entertainer, had charge of the evening's program. He briefly stated the object of the Royal league to be fraternal insurance, with special attention given to social features, and urged all present to place all formality aside and make the most of the time in real pleasure. The following program was rendered:

Chicago and the World's Fale World's Fair Souvenir, illustrated, being a complete and consise history of the principal world's fairs from the Crystal Palace, London, 1851, to the World's Columbian Expection in Chicago, 1888. With explanatory tables and maps. Published by The Anabozov Publish ng company, Chicago, bound neatly in cloth,

It carely falls to the lot of the reviewer to notice so exhaustive a work as the 'World's Fair Souvenir," which has been compiled with so much care by a former resident of Omaha, John D. Jones. For purposes of reference, of comparison and for general information the work is a magnificent reflex of the push and energy of a city that is the wonder of the world.

In its compilation expense has not been thought of, and the richness of its illustrations of the World's fair buildings, cuts of the men and women who are directing to a successful issue what bids fair to be the greatest exposition of ancient or modern times, pictures of the colossal pusiness blocks that stand as monuments to the enterprise of their owners and builders, is typical of the "Chicago gait," as the rush and bustle of the great city by the inland sea has been described. The book has been arranged upon a

most comprehensive plan, the object of the publisher being to give a complex resume of what may be seen in Chicago in 1893, and at the same time give the information in a compact form, so that the work may be a valuable adjunct to the library and reading room. Its useulness will not end with the close of the exposition, but on the contrary will grow in value with years, for it is the most perfect compendium yet issued of an event which cannot fail to have an influence for many decades to come upon all lines of art, literature and commerce. As Mr. Jones says in the introduction to the work: "As an educator this event will leave its impress upon succeeding generations and bear fruit in all realms of human thought, ingenuity and progress."

In addition to its complete epitome of what has been done, is doing and will be done when the fair opens, it comes to the general public at a most opportune time. It brings before the American people the forces that are actively at work to make the exposition a success worthy of a nation that in a little over a century has, from nothing, builded the mightiest republic of earth. It not only gives full page art type illustrations and descriptions of the principal buildings of previous world's fairs and all the buildings of the present World's Columbian Exposition, together with portraits and biographical sketches of its officers and chiefs of departments, but it tells "How to Reach the Fair," gives descriptions of Chicago's parks and boulevards, its places of amusement, the wholesale and jobbing interests, its railroad facilities, and in general is the most complete guide book to the city that stands at the edge of Lake Michigan.

Utica Observer: Henry Watterson thinks the nomination of Cleveland would be un-wise. He says that he would lose the state of New York as surely and as disastrously as it was lost by Judge Folger, when 100,000 republicans stayed away from the polis and gave the state to Mr. Cleveland by nearly 200,000 majority. The reference by the Kentucky statesman to the Folger campaign only recalls the force with which the voters of New York can sit down upon purely machine candidates. Also that nothing could be the demand for Grover Cleveland.

JUST A LITTLE HELP. that is all Which is Required at This Time

of the Year-Do You Know What to Do? We hear a great deal, just now, about Spring It is known that people feelown after the labors and seeze of winter, and it is assumed they need a spring medicine This is not true. Spring medicines are not needed; nature will throw off the rheums in the blood which have accumulated during the winter, if she has only a little help. Nature is able to clean her own house, and take care of er own household, with a little assistance, and a ifftle gentie stimulant is all the Sprinedicine anyone requires. "But," y m may say, "what do you mean by stimulant, and what do I require?" We answer, something absolutely pure, powerful, and which has been proved to abundantly answer the purpose inquestionably, whiskey, if of the right kind, s the proper thing to use, but unfortunately there are few good whiskies in the market, and my one which is absolutely pure, and ases medicinal qualities. That whiskey is Duffy's Pure Mait. It has been upon the murket for years. It has the unqualified enmurket for years. It has the unqualified endorsement of physicians and chemists, and it is the only whiskey which can be recommended. It is true certain unscrupulous drogalists and grocers seek to sail other and inferior goods, claiming they are equal to Daily's, but they possess little purity and no medicinal power whatever, whereas Duffy's is specially designed as a medicinal whiskey. It would be well to be arthese facts in mind when considering the subject of Spring medicines, and how to best put the system in shape for the requirements of the season.
