## PURELY A PRIVATE MARKET

Professional Operators Have Wall Street All to Themselves.

PUBLIC NOT INTERESTED IN STOCKS

Money is Altogether Too Plentiful on Both Sides of the Atlantic and People Who Own it Do Not Care to Speculate.

New York, May 8,- [Special Telegram to

THE BEL |- If it were not for easy money the bears would make a bad smash of this market. They have had good chances in the past three or four weeks. That a seesaw sort of movement, up today and down tomorrow, with fractional changes for the general list, has been the sole result of the efforts of either buil or bear, may be attributed mainly to the fact that money is drug. When a man, tired of holding a stock which he expected to advance and which does not, asks himself of what use it is to sell it when he can get only 1 or 2 per cent for his money on deposit, the chances are he will conclude to hold it. It is hard work shaking him out. If on the other hand he had a chance to lend his money on good rates of interest, and on the other saw heavy interest charges pilling up against him, then not much shaking of the market would be necessary to make him drop his speculative holdings. But to argue that we should have a bear market if it were not for easy money is merely to repeat the familiar old phrase that If things were not as they are they would be different. Money is easy and that is all there is to it. Not only easy now, but when money is offered at 4 per cent on mixed collateral for long periods, six and twelve months, it may be

A mixed collateral loan at 314 per cent for six months was recently offered to the head of a commission house. "This," said he, "is the cheapest money ever offered me, but I don't want it." He had no use for it. Cus tomers were not buying lead enough to give him any chance to employ it profitably. Same on the Other Side.

assumed that bankers expect it will remain

ensy.

In London a like condition prevails. Idle money is piling up in the banks in enormous volume, speculation is stagnant, time loans are quoted at the ridiculous figure of fifteensixteenths of 1 per cent. The public is not in the market there or here. Many of the old channels through which the public money sought investment or speculation have been discredited through the South American collapse and the Baring failure, while houses which have maintained themselves, untainted, are unwilling to out much while the Bank of England is still holding over the market £7,000,000 worth of

securities taken over in the great liquidation Thus there is stagnation. And further-more, it is probable we shall get very tired on this side waiting for the revival to come on the other, for though it will come some day as surely as the sun rises, the day may be more distant than we in our im patience imagine. It was two years quite after we on this side had made up our minds that the South American speculation must collapse, that the collapse came. may be an equally long time after we have determined that a great revival must come before it does come. Action and reaction are equal in the domain of speculation, as in the

Hope for the Busy Bears.

There has been enough material to bear the market on lately. A cold and backward spring could be made much of, delaying farming operations, although it cannot be said that such weather is injurious to the growing winter wheat crop, since that does well by a low temperature at this season. The great floods, causing great actual damage to railroad prop-erty, and more indirectly by hampering traffic and vastly increasing the cost of doing the work are a sound bear argument. Then the air is full of suits, investigations, legal proceedings and legislative actions against the large class of industrial stocks; and this has powerful influence in unsettling the minds of investors and discouraging bull

governments seem to have been entered on a campaign against this class of securities and all Wall street is talking about it. The sugar trust is to be proceeded against, the whisky trust officers are also under indictment, the cordage company is to be hauled into court and the coal combination is threatened both by congress and state au-

thorities. The concensus of opinion in the street sed on the famous case of the Broadway Railroad company is that whatever be the outcome of the suits, the property itself in each case will not be touched at all, but speculatively the moral effect may be serious enough in depressing the prices of all the se-curities. In respect to the Reading company, the managers of that have a much more serious problem before them than legal proceedings present, in affecting an active ensolidation of the working management the several companies, now only formally

FOREIGN FINANCIAL REVIEW.

Ease of Money in London Expected to Continue for Awhile.

LONDON, May 8 .- During the week past discount was quiet at 1 per cent for three months and one-half of 1 per cent for short. All the indications point to the continuance of the extreme case of the money market, as a single gold shipment from the east of £500,-000 sterling, is now due and further shipments from New York are also expected, while the supplies are about to be further increased by the payment of treasury bills aggregating £1,200,000. At the same time there is no inquiry in the open market for export bullion. In fact, the plethora of money is embarrassing the banks, and some of them are so loaded with that they are reluctant to grant any interest on them. During the week silver fluctuated slightly. The market had a show of strength till Wednesday when the meager allotment of India council bills caused a reaction. Later the price hardened, owing to a perceptible demand for

India, closing yesterday at 30% per cent for bars, Mexican deliars were also better. The leading feature on the stock market was the expansion of the public demand for investment securities. The revival has not yet touched speculative stocks, but the activity of the best class is certain to extend soon. The refusal of bankers to allow in terest on fresh deposits diverts money to the Stock exchange, causing a stream of invest-ing orders. British funds were in demand during the week and closed 14d lower. For-eign securities were strong. Portuguese gain 1134 per cent on favorable rumors about the new loan. Greek securities rose B per cent on the prospect of the Greek elections assisting the financial position of the Baitie. Argentine securities rose 34 per cent under the influence of the decline of the Argentine gold premium, and the quieter political situation in the republic railway securities benefitted from the investment demand and from good traffic, reports the average rising for the best kinds being 1% to 2 per cent. This upward movement did not affect the American railroads. Some investment deal-ngs helped to strengthen prices, but

operators, awaiting, as usual, an impulse from New York, are still apathetic. Tentative movements here appear to be powerless to give spring to this department. Dealers have ceased predicting an early boom in the face of the fact that every condition favorable for a revival has been neglected by New York. Variations for the week in prices of American railway securities include the following: Increases - Lake Shore, three-fourths of 1 per cent; New York, Pennsylvania & Increases - Lake Shore, Pennsylvania & per cent; New York, Pennsylvania & Obio first mortgage and Atchison, one-half of 1 per cent each; Eric seconds, 12 per cent; Pennsylvania, one-fourth of 1 per cent; Pennsylvania & Pennsyl cent. Decreases: Wabash debentured three-fourths of 1 per cent; Mexican Cen tral, 3 per cont; Northern Pacific, Missouri, Kansas & Texas and Wabash preferred, one-half of 1 per cent each; Denver & Rio Grande preferred and Union Pacific shares, one-fourth of 1 per cent each. Canadian railway securities were weak. Grand Trunk second preferred relapsed 1 per cent on the

week and Grand Trunk first preferred threeweek and Grand Trunk first preferred target fourths of 1 per cent. There was some in-quiry for securities from Mexican railways and securities advanced 1% per cent on the week; firsts, 1% per cent and ordinary, 1 per cent. Among the miscellaneous securi-ties the Eastmans shares gained one-fourth ties the Eastmans shares gated one-fourth of 1 per cent on the week and Rio tintos one eighth of 1 per cent. Among the security issues placed on the market last week are the Hinois Central railroad's \$3,000,000 of 4 per cents: £509,000 of South American Capie stock in £10 shares and £500,000 of the Mexican and Central American railway mortgage 6s. The Anglo-American delegation has de-American debenture corporation has de-clared a dividend of 6 per cent.

On the Paris Bourse.

Panis, May 8,-There was an easy bourse settlement last week. Money was abundant and prices terded toward firmness, although dealings were slack. Three per cent rentes advanced 72 centimes in the week, Credit foncier shares one eighth of a franc and Ric tintos 234 francs. The poursiers have finally forbidden Coulissiers to bet in Russian, Italian or French stocks or to do any business except during official hours. The Coulissiers propose to start a free bourse and this will open the question of boursier's pri the Chamber of Deputies.

On the Berlin Bourse,

HERLIN, May 8 .- Business on the bourse during the week was limited but prices were firm. The final prices include: Prossian 4s, 106 f0; Deutsche bank, 103.30; Mexican 5s, \$4.50; Bochnumer, 118; Harpener, 142; Roubles, 215.40; short exchange on London, 20.42; long exchange on London, 20.30%; private discount, 12 per cent. Bleichroder & Hassan have agreed on the terms of the Hungarian conversion loan. All 5 and 41, per cent loans are to be converted into 4 pe The Austrian government aims complete the operation and begin the currency reform in July.

On the Frankfort Bourse.

FRANKFORT, May 8 .- On the bourse during the week trading was quiet, but demand good. Portuguese securities rose 1% per cent yesterday on a report that the French syndicate had taken the Portuguese loan. The final quotations include: Hungarian gold rente, 12; Italian, 88,30; Portuguese, 10.60 : Sounish 60.10 : Austrian silver rente. short exchange on London, 20.43; private discount, 234.

THE SPECULATIVE MARKETS.

War Talk in Europe Caused Wheat to Advance. CHICAGO, Ill., May 7.-A right-about-face up

turn in prices with light trading were the features today on the Chicago Board of Trade. Compared with last evening the wheat after its decline made an advance of Fig. and tonight shows a net gain of \$4e, corn is the up. The firmness was mainly attributable to

tonight shows a net gain of \$2c, corn is 15c up.

Oats 25c and pork 125c.

The firmness was mainly attributable to war talk, it being reported that the Russians were massing their forces on the Austrian frontier and the Prossians were more warlike than for some time. The weather again turned colder with snow in some sections of the market. Receipts for the week at primary markets were about the same as last week, while the exports were larger and it was estimated that the visible supply ought to show a liberal increase through some of the wheat which has heretofore been counted out may turn up again. Bradstreet's reported that the available supply in Europe, affoat and in the United States was 31,000,00 bu. larger than a year ago, and also that there had been a decrease in the supplies of \$2,000,00 bu. larger than a year ago, and also that there had been a decrease in the supplies of \$2,000,00 bu. In four months. Cables were a little mixed, some markets being higher and others lower. The advance late in the session was helped along by reported excessive cold weather on the continent, with apprehensions of damage to the crop in Germany.

The opening was from \$2c to \$2c higher than the closing yesterday. A decline of \$2c caused by liberal selling was followed by an advance of 14c with several halts on the way up. The fact that Parls and Berlin quotations were lower, notwinstanding the builish news, caused a less of \$2c from top prices. The feeling at the close was steady. Pardridge was said to have been a good each. Late signal service reports indicated that more rain was probable in the northwest and helped to impart strength to the wheat market. To that was added dispatches from Minneapolis to C. A. Pillsbury, who was on the floor here, saving that London and Bristol sent orders for flour and that a ship was convenient.

A decrease in the week's visible, it is said, of under 2007,000 bu. is not likely to be ne-

venient.

A decrease in the week's visible, it is said, of under 2,002,000 but is not likely to be accepted as builish. The improvement in the condition of the winter wheat reported by Kansas and Onlo, leads some to expect an advance in the general estimate to be furnished by Bodge on Tueslay. That, however, is by others pronounced r rather unsafe assump-tion on the ground that if private advices from California are borne out by the official figures, there has been enough deterioration to more than counterbalance the betterment of Kansas and Ohio.

to more than counterbalance the betterment of Kansas and Ohlo.

There was much nervousness in corn all day and the prices kept climbing slowly with bidding both by shorts and those who were in the market for a buige. The seiling late yesterday was so free that a fresh short interest was created, the advancing wheat market helped bullish feeling; receipts were under the estimate at 18 cars; grading gets worse instead of better, with but one car of contract corn today; cables were hister on corn while lower on wheat; export clearances for the week were \$\delta\_i\$ (200 bu, more than last week at 2-453,000 from Atlantic ports and liberal from New Orleans. More than all this the weather was little inproved over the corn states and there was reports of further rains in Nebraska and clsewhere. The cash market responded first, and lots of No. 3 grade went at \$\frac{1}{2}c\text{ Over yesterday. There was nothing in sight to sell corn on except the high prices, while shorts and lones were forced to look for an advancing market under the existing adverse weather. Cudahy was among the active buyers.

The strength in corn and unfavorable weather in the west, together with good buying of May by Harry Wadhams, who was undoubtedly covering shorts, combined to make oats firmer and higher.

The provision market opened strong in sympathy with high prices for corn and

oats firmer and higher.

The provision market opened strong in sympathy with high prices for corn and wheat. There was some realizing and a reaction from the opening prices: but the market firmed up again toward the end of the session and closed strong at the best prices of the

day.

Freights were slow with light offerings Rates held steady at 2c for wheat and 14c for corn to Buffalo.

Estimated receipts for Monday: Wheat, 130 cars; corn, 220 cars; oats, 190 cars; hogs, 31,000 head. The leading futures ranged as follows:

LIVE STOCK MARKETS.

Cattle Values Improved, Hogs Steady and Cattle Values Improved, Hogs Steady and Sheep Scarce and Uncertain.

OMARA, May 7.—Receives for the past week, 15,566 cattle, 28,743 hogs and 3,503 sheep, against 18,369 cattle, 28,743 hogs and 3,503 sheep, against 18,369 cattle, 28,649 hors and 5,418 sheep last week and 2,429 cattle, 24,063 hogs and 2,742 sheep for the first week of May last year.

The violent fluctuations that characterized the cattle market the previous week were again a marked feature of this week's trade. Receipts were very uneven and in the present extremely sensitive condition of the market prices went up or down with the increase or decrease in supplies. The buying has been free all week, both by local houses and outsiders, and as receipts were some 3,000 lighter than last week, it naturally follows that prices have advanced. Handy light steers are selling 1 to 190 better than a week ago. They have been in active demand and free sellers all week. Heavy cattle, especially unfinished and rough steers, have been but indifferent safe all week and prices are no better, while nice, smooth, medium and heavy steers are about a dime higher than last week. Everything depends on receipts. The demand is good enough to absorb any reasonable supply, but when everyone tres to get to market at the same time disaster is facvitable. Butchers' and canners' stock, and stockers and feeders have develoned nothing new and are still in active demand at strong prices. Sheep Scarce and Uncertain.

canners' stock, and stockers and feeders have developed nothing new and are still in active demand at strong prices.

The hog market has been rather monotonously steady, although in the main prices have been rather on the upiturn. Receipts have been preity much the same as last week and the quality has not shown any particular change at least not important. Eastern packers have been free buyers all the week and the advance in prices of all grades amounts to about a dime compared with last week.

The situation remains practically unchanged. Too few sheep have been received to test the real strength of the market, but it is only reasonable to suppose that other markets having experienced a decline or sheep would sell lower here. Local shau therers want the mattons so had that they are buying them in the country and at kansas City to meet the demands at their trade. Prices however are strong compared with other markets and will so remain until supposes increase several fold.

CATTLE—For a Saturday the run of cattle was very fair, a few hundre! more than last Saturday, although the weeks' receipts foot up some dood short of last week. There was a notable scarcity of prime heavy cattle, but pienty of light and medium weight steers.

day in nearly every particular. Heavy cattle were slow and dull an account of the light demand from shippers and exporters: fair to good 1.20 to 1.40-10, steers selling at from \$1.75 to \$1.25 to \$1.25. Handy fat killers weighing 1.00, to 1.20 lbs were in active demand and sold briskly at from \$1.60 to \$1.00, while the usual row! Dof common light stuff sold around \$1.20 to \$1.00. Business at no time during the day could have been called over y active, but the cattle kept moving, and in the end a very fair-elearance was effected.

The dozen or lifteen loads of cows and mixed stock changed hands briskly at steady to strong prices, inferior to choice cows and helf-ers selling at from \$1.00 to \$1.40. Calves were unchanged at from \$1.00 to \$1.25. Calves weak and lower at from \$2.00 to \$1.25. Calves weak and lower at from \$2.00 to \$1.05.

There was but little doing in the stocker and feeder line, but that little was at good strong prices, mostly above \$1.25, and from that up to \$1.40. The demand is improving, but supplies are not keeping pace with it. Representative sales: day in nearly every particular. Heavy cattle were slow and dull on account of the light

Hogs-The run of hogs did not come up to last Saturday by about 1,000 head, the week's supply being about the same as last week and 4,700 heavier than for the same week a year

Shippers opened the market, paying fully steady prices for good heavy and butcher weight hogs for the eastern trade, but other weight hogs for the eastern trade, but other grades were right around a nickel lower than Friday, and it was not long after the opening till all kinds of hogs were quoted fully 5e lower and none were moving. Improved eastern advices caused buyers to raise their bids somewhat, and a part at least, of the early decline was regained before the close. There was very little noticeable spread between light and heavy hogs, the fair to lood stuff, regardless of weight, selling at \$4.35 to \$4.40, prime stuff at \$4.42\foxed to \$4.43, and inferior loads at \$4.35 to \$4.40 Friday, the general average of prices paid being \$4.35\foxed, against \$4.35 to \$4.40 Friday, the general average of prices paid being \$4.35\foxed, against \$4.35\foxed friday has \$4.45\foxed friday. Total ..... Chicago Live Stock Market.

Chicago. Ill., May 7.—[Special Telegram to The Bre.]—Few cattle were wanted today, the principal buyers having fully supplied their present needs and drooped out. Therefore holders had hard work to dispose of the small number in the yards, even at the low prices of the day before. The range of quotations was from \$1.25 to \$1.0 for poor to choice cows and heifers, \$2.2 to \$3.85 for sto kers and feeders, \$1.80 to \$5.50 for common to extra steers, \$1.75 to \$4.10 for Texas cattle, and \$1.00 to \$4.75 for calves. The bulk of the day's receipts belonged to local dressed beef firms. The range of the hog mar-et was from \$4.25 to \$4.475. The outside quotation was for extra sorts and wis seidom reached, fully seven-citats of all the hogs on saic going within a range of from \$4.50 to \$4.625. The ave age was just a shade lower than for yesterday.

Trade in sheep was slow at unchanged prices. Quotations ranged at from \$4.50 to \$4.00 for lambs; shorn sheep sell about \$1.00 per 100 lbs. under the above prices.

Receipts were: Cattle, 25.000; hogs, 13.000; sheep, 1.000. Chicago Live Stock Market.

The Evening Journal reports: CATTLE-Receipts, 2,500; shipments, 8:0; market steady; tod y's sales: Natives \$1.5544.5; stockers, \$2.505.30; heifers, \$1.005.30; cows, \$1.5562.73, Hogs-Receipts 12,00; shipments, 7,000; market netive steady to 5: higher; rough and common \$1.0054.43; mixed and packers \$4.566. 4.60: prime heavy and butchers' weights \$1.60 @1.70: light, \$1.70. SHEEP-Receipts, 2.700; shipments, 1.500;

SHEEP-Receipts, 2.700; shipments, 1.500; market weaker; Texans, \$1.3055.2; westerns, \$5.1526.20; prime lambs and yearings, \$6.5036 5.10. BONDS WANTED
