SWIFT JUSTICE.

Judge Lynch Disposes of a Barly Black Horse.

Port Jervis, N. Y., June 3.—A crime, heinous and revolting in its nature and characterized by circumstances of extreme brutality, was perpetrated yesterday upon the person of Miss Lena McMahon, the daughter of Mr. and Mrs. John McMahon of this village.

The crime was committed by a negro known as Hob Jackson. It was witnessed by a number of young girls who were in the village.

The crime was committed by a negro known as Hob Jackson. It was witnessed by a number of young girls who were in the village.

They were kept at bay by a revolver. Jackson, after his fearful crime, fled, leaving his victim in a condition which will probably prove fatal.

A posse was organized and the brute was captured about nine miles from Port Jervis.

On the way back to the town Jackson confessed and implicated one William Foley, a white man, who he claimed was in the conspiracy to ruin Miss McMahon. On his arrival at the jail he was taken in hand by a mob. The village police endeavored to protect him, but their efforts were unavailing.

A noise was adjusted about his neck and he was strung up to a neighboring tree in the presence of a mob of about 1500 people.

For over an hour the body hung suspended from a tree, where it was viewed by crowds of people.

The mob is looking for Foley, who had been paying attention to Miss McMahon against her parents' wishes, and if he is found another lynching is probable.

Home Industry Booming.

Last Tuesday the F. E. Sanborn Co. of this city shipped to one of their agents in Chicago, Ill., 25,000 pounds of Standard horse and cattle food. This immense order constituted a car load and created quite a sensation at the depot. The sides of the car were decorated with large banners on which were printed in large letters the following: "25,000 pounds of Standard horse and cattle food, manufactured by the F. E. Sanborn Co., Omaha, Neb., by Mr. Joseph Graff, Frank Grove, Ill. This is the largest shipment of the kind ever made in the west, and probably the largest ever made in the United States, and speaks volumes for the worth and popularity of the article." It was learned from Mr. F. E. Sanborn, president of the company, that this large order for Standard food was made by their agent at that point to meet a demand for it as a flesh and milk producer among the farmers of Lee county, Ill. This being one of the largest milk producing counties in Illinois, the dairy farmers there are the best posted and most thoroughly equipped of their class, and their approval of an article of Omaha manufacture is a cause of congratulation, not only to the manufacturers themselves, but to the home industrial interests of Omaha as well.

The F. E. Sanborn Co. is a home industry in the best sense of the word, having started on the ground floor and grown to its present magnificent proportions right in Omaha. This it has done without the aid of large capital, but simply on the merits of its goods and the known integrity of its managers and the company. It is understood that they will have a fine display at the Coliseum during the coming exposition and help to swell the grand array of products which will be shown from Omaha and Nebraska in general are no justly proud.

CAMPAIGN RUMORS IN CIRCULATION

Many Absurd Reports Denied by the President's Friends—How Mr. Rusak Views the Situation—Interesting Washington Political Gossip.

WASHINGTON BUREAU OF THE BEE, 513 FOURTEENTH STREET, WASHINGTON, D. C., June 3.

A sufficient quantity of political papers have been made to the effect that there is an estrangement between President Harrison and Secretary Blaine was afforded today by the warmth with which the two gentlemen, who have not met since the president's trip to Rochester, greeted each other this morning at the cabinet meeting. It was not the affected cordiality of political opponents but the hearty sincerity of tried friends. Mr. Blaine was in good spirits and there was no suspicion of bad feeling in the manner of either.

The political gossip here today is almost entirely confined to the refutation of the numerous rumors which have been in circulation on the subject of a national convention. Secretary Rusak took occasion to nail one of these numerous campaign lies, which had represented him as having more or less inclined to oppose the president in order to secure his own selection at either the head or tail of a ticket to be rushed through the convention by the anti-administration ticket. These intimations were both unjust and without any foundation in fact, for few persons know how disloyal to the president work has been done by him for his chief in an unadmissionary way.

Secretary Rusak said today: "Mr. Harrison's position is the logical conclusion of the unanimous verdict of approval passed upon his administration. The short term of four years justifies a re-nomination by his party, whatever the president's administration receives the country's unqualified endorsement. Moreover, stability of public affairs is essential to the progress and interests of the country, which always suffer from frequent changes."

A report which gained general circulation in the city, to the effect that the president is a victim to the effect that if by Saturday night Mr. Blaine has not written a letter declining to have his name used at Minneapolis, Mr. Harrison will recognize him as a candidate and withdraw his own candidacy. At the white house this was said to be too absurd to be considered, much less denied. Another story, which received more credence for a time, has it that Chauncey M. Depew has sent a telegram to New York on the part of the conservatives of the party at Minneapolis are seriously concerned at the grave possibility of a disunion in the party unless a change is made in the tactics of Mr. Blaine's friends. The plan of the administration is proposed to have a mutual friend of Mr. Blaine and Mr. Harrison call upon Mr. Blaine today and urge him to use the same frankness and candor now that he displayed in 1888. This story cannot be traced to any authoritative source, nor can it be learned that any conference of republican leaders to take action in this direction has been called, and the story is generally discredited.

Opposed the Appropriation.

The postoffice appropriation bill now before the house carries \$25,500,000, that the estimate for the railway postoffice car service. Today this paragraph was reached, and Representative Butler of Iowa did his best to kill the full amount of the estimate appropriated. He made a short talk to the appropriation and said that being an old railroad man himself he thought he knew something about what was necessary for the service. The house, however, refused to make any change in the provisions of the bill, and the full amount was appropriated.

Not Contract Labor Employed.

Mr. Oscar of Grand Island, Neb., is in the city. Mr. Oxnard has been much annoyed by the report that he was employing Chinese labor from abroad in his extensive beef fields.

"I have," said he, "often had a good deal of trouble in securing the proper kind of labor in sufficient quantities at the time of the year when the crops have most needed attention and I have always given employment to men from the north and west, and not Norfolk and Grand Island. This report has a few weeks ago aroused a number of Missouri farmers who were about 200 of them in Hastings looking for work of some kind and being short of hands at the time I engaged some of them. The story that I have employed contract labor is a malicious falsehood. Besides, I have no desire to make myself amenable to prosecution under the United States law passed by the last congress which makes it an offense, punishable with severe penalties, to engage contract labor from abroad. I can assure you that I do not wish to get into any trouble over the employment of my help."

Representative Washington's Scheme.

Representative Washington of Tennessee, the chairman of the house committee on territories, has been circulating a paper today with the object of securing enough support to warrant him in attempting to take up the subject of conference on the subject of a new territory in New Mexico. Mr. Washington stated to THE BEE correspondence that he had received very liberal assurances of support and that he had every hope of being able to carry the project through.

Will Remember the Alliance.

The committee on rules of the house has decided that after the appropriation bills have all been disposed of three days shall be given to the representatives of the farmers and mechanics to present petitions and resolutions as they may desire to call up. This arrangement is the result of the persistent efforts of the non-slavery members of the alliance men in congress to have a debate upon the abetment bill, and it is probable that the three days allotted them will mostly be consumed in the consideration of this matter.

Representative Catchings of Mississippi said today that he had made a careful canvass of the state and had no doubt that the friends of the river and harbor bill would be able to carry out their program on Monday and take the bill from the calendar and send it to the floor.

Miscellaneous.

The establishment of a postoffice at Troy, Saunders county, and the appointment of Louise Glassman as postmaster was today recommended by Senator Padonck.

Mr. Day of Beatrice, Neb., is in the city.

Roy Haswell and Mr. Moore of Nebraska went to Minneapolis today.

The South Carolina delegates to the Minnesota convention have taken leave of their way through. The chairman of the delegation said this evening the vote of the delegates being for President Harrison, and the other three being against him and presumably for Mr. Blaine.

A favorable report has been made by the house committee on war claims on the bill introduced by Congressman Bryan to pay to Nebraska \$25,000 for money expended in suppressing the outbreak of the Sioux Indians. It is the intention of Mr. Bryan to take the earliest opportunity of securing consideration for the measure, and he believes that he will succeed in passing it.

Postmasters have been appointed to fourth class offices as follows in this city: Max hall was crowded with members of the Tevelocina Jostola Soko and their friends, who had assembled to meet their distinguished guests, Mr. W. D. Condit, who was given an excellent program by the members of the society carried out. A lunch was spread after the performance, and the balance of the evening was pleasantly passed.

Max hall was crowded with members of the Tevelocina Jostola Soko and their friends, who had assembled to meet their distinguished guests, Mr. W. D. Condit, who was given an excellent program by the members of the society carried out. A lunch was spread after the performance, and the balance of the evening was pleasantly passed.

UNANIMOUS FOR HARRISON

(CONTINUED FROM FOURTH PAGE.)

covered the position of secretary of war, while Harrison, the present chairman of the republican national committee, sought to be made secretary of the interior. Foraker of Ohio is also making a noise, hoping to acquire a little additional notoriety. These are the men who are trying to dominate the republican party, and these are the men who are responsible for the unfavorable position Secretary Blaine occupies today in the estimation of fair-minded men. These men never have and are not now supporting him because they are his friends, but because they love Harrison less. We are their enemies of Harrison? Because he is and ever has been in opposition to bossism, and with the people. With such professional wire pullers and political tricksters against him, he should be loved the more for the enemies he has
