B. J. Donaghue appeared in police court yesterday morning in a state that apparently bordered on the delirium tremens. The peculiarity of the case was that he had just finished a course of treatment at a jag-cure establishment, and had purchased a ticket for Dakota. He started for his new home Thursday afternoon, and being croubled with asthma took a dose of asthma medicine. The dose turned out to be an overdose, however, and he knew nothing more until he was rounded up by the police charged with being drunk. He stated that he had not the while under the influence of the opium in the asthma cure he had managed to get aboard a large load. When he explained his case to the court he was discharged and went on his way to Dakota.

## THE OMAHA BEE. NEWS FROM COUNCIL BLUFFS

Commencement Exercises at the High School Properly Observed.

PERSONNEL OF THE GRADUATING CLASS

Superb Floral Offerings Subjects of the Various Essays-An Interesting Program Successfully Rendered-No Hope for W. M. Jones.

Last evening the commencement exercises of the High school occurred in the opera house, which was filled to overflowing with the friends of the graduates. Shortly after so'clock the curtain arose and displayed a rare combination of feminine and floral beauty, the arrangement of which had evidently been planned with artistic eye. The platform was decorated with cut flowers, palms and other tropical plants, while above the class and at the rear of the stage hung the motte of the class, "Non sibl,

sed patric."

After an invocation by Rev. G. W. Crofts and a musical selection by Hens Albert's orchestra Miss May Botts delivered an oration on "How to Succeed in Life."

She held that effort lies at the bottom of

success and that the humblest endeavor is worth a thousand aspirations. Miss Mattie A. Clurk followed in a well prepared oration on "Silent Forces." The speaker was a trifle nervous at first, out atter the nervousness had worn off she handled her subject in a very interesting

manner. Miss Sadie A. Davis' subject was "A Noble Life, Count Lee Tolstoi," and she traced the interesting literary life of this eccentrite but gifted man in a discriminating

"Antiquated Maidens" was the subject chosen by Miss Annie de Groat, and she handled this apparently uncaptivating sub ject in a very captivating manner, giving the young men in the audience to understand that the members of the class welcomed the prospect of being old maids, in a way that led the casual observer to believe that the speaker and her companions were matri

monially provided for.

Miss Helon M. Donahey read a well written poem on "Masters of the Situation," after which a class sketch (after Colsor) was presented by Miss Belle Fietcher, in which the trials and tribulations of the school life though antiquated language.

A song entitled "The Little Shaking Quakers," by a number of the pupils of the

High school, was quite a novelty and brought down the house. It received an encore. Miss Hattie Groneweg then delivered an excellent oration on "Man, a Nautilus." Miss Nellie Hepford gave her idea as to what is a practical education. She considered the two main points to be looked after by one who wishes a practical education, th

building up of a strong moral character and the training of the mind to think accurately and continually. The man who can earn an honest living, who places purity before all things else and who has learned the secret of utilizing his mind to the best advantage has attained a practical education.

After a violin solo by Hans Albert, a "Faust Fantasie," there was a discussion

on the question, "Should the president be elected by direct popular vote!" the affirmative being argued by Bertie L. Marsh, and the negative by Frances E. Mansheld. "A Social Question" was Miss Alice Nelson's subject, which she treated in an interesting manner.

An excellent oration was that of Miss Katie M. Shepler on "Crowding In and Crowding Out," and her delivery was very good. Charles W. Waite, the only centleman in

the class, closed the program with a stirring oration on "Patriotism." All through the exercises there was one notable feature, and that was the almost en-tire absence of morbid sentimentalism which so often creeps into graduating orations and mars the pleasure of the audience. Without an exception the orations presented a com mon sense view of things, and in this way bore record to the excellent instruction the nembers of the class have received during their years of school training.

After another selection by the orchestra
the graduates were presented with their
diplomas by Superintendent Sawyer in a
pleasing address, and the evening's enter-

tainment closed with the singing of the class Reiter, thetailor, 310 Broadway, has all the latest styles and newest goods.

Another Burglary, Dr. Seybert had the pleasure last night o shooting a couple of times at a brace o burglars who were in the act of robbing the residence of W. H. Olemacher at 129 South Eighth street. The doctor was on his way to the Woman's Christian association hospital, accompanied by C. C. Jones and H. A. Adams, the Sandwich gentle men and when they were passing the Olemacher residence they saw two fellows jump from one of the windows and start to run away. 1 Seybert called to them, but they did not answer or stop running and realizing that they were burglars he endeav-ored to stop them with cold lead. Neither shots took effect as far as could be learned. Mr. Olemacher and his family were away from home during the evening and when they returned they found the house had been thoroughly ransacked and several articles of small value taken, including two razors. The police were notified of the burglary by telephone and an an officer was dispatched to the scene and made a search of the neighborhood in the made a search of the neighborhood in the hope that one of Seybert's bullets had taken effect and that a wounded burgiar might be

SOME PERSONAL OPINIONS.

Various Leaders Express Themselves Concerning the Probable Outcome.

MINNRAPOLIS, Minn., June 3.-Miles Kehoe. an Illinois delegate-at-large, and an officeholder, is for Harrison and believes that at least forty-four of the ferty-eight delegates from his state will be with him, supporting the president. He says he likes Blaine, but feers that it would be dishonorable for Blaine to accept.

Chauncey I. Filley of St. Louis, delegateat-large, said he believed his delegation would obey its instructions and vote for Hurrison, at least on the first ballot. He thought, however, Missouri would cast two-thirds of its vote for Blaine with Harrison out of the way, but beyond that he made no predic-

tions.
R. R. Shiel of Indianapolis, a delegate from the Indianapolis district and one of the Harrison delegates, had considerable to say about the situation from his point of view. "We are now satisfied," said he, "that we have a majority of the national committee and can control the temporary organization if we should wish to do so, which we do not. We do not consider that that cuts much of a figure with the main question. We are get-ting not only the doubtful delegates, or those so considered, but have had a number that were elected as delegates ; and supposed to be against Harrison come into our headquarters and say they wented to join the Harrison

forces."
Senator Felton of California said: "I am not for Blaine. I do not want things to get so hot here, though, that the horse we bet on will be badly handicapped at the start." It has been said that Felton would second Harrison's nomination on behalf of California, but the senator states that he was in rited to do so but has declined the honor.

South Dakota All Right. When interrogated as to his views Gov ernor Mellette of South Dagota answered the query by a question of his own. Said he "Is it logic to turn down a man who beat Grover Cleveland when the patronage of the government was against him and put up a man who was beaten by Grover Cleveland when the republicans had the patronage?" and he immediately added: "It is well to remember that if Blaine is nominated Cleve-

land is sure to be nominated on the other Colonel H. Clay Evans, a delegate-at-large from Tennessee, discredits the report of stampede to Blaine in the Tennessee delega tion. "I am for Harrison," said he, "and I think our delegation is solid for him with one exception. John C. Houck is understood to be for Blaine, but I believe the remaining twenty-three votes will be for Harrison."
Colonel James Lewis of New Orleans, the colored veteran of Louisiana, gave similar tidings from the sugar state. "With two exceptions," said he, "our entire celegation will be for Harrison. They were instructed or him and they will follow their instructions. Even William Pitt Kellogg's convenions, the state of the st

ion instructed him for Harrison, aithough he says he will vote for Blaine." Colonel W. O. Bradley of Kentucky, national committeeman and a delegate-at-large, said: "Kentucky is for Harrison. We have twenty-six delegates and every district convention except two instructed for Harrison. Blaine may get these two districts, but I don't think he can possibly get any

Senator Hiscock of New York Talks. Senator Frank Hiscock of New York, a Senator Frank Histors of New York, a delegate-at-large, does not agree with J. Sloat Fassett, as his views, given with great deliberation, will show. "I am for he nomination of Harrison. In my judgment the republican party should have bad but one candidate before this convention, Mr. Blaine thought so and the president thought so, and Mr. Blaine declined to be a candidate for reasons which were very satisfactory to him and which would have been satisfactory to every one else. The delegates have been elected with the understanding that he was not in the fight. Mr. Blaine has never indicated any change of his purpose and it would be unfortunate at this late day to change the policy adopted by him—very unfortunate in-

deed. I have always been a supporter of Mr. Blaine, as have many others. "As to how the vote of New York will be divided, I do not desire to make any predictions. The other delegates will be here to speak for themselves in a day or two."

Guarded in His Opinion. Hon J. C. Burrows, the distinguished Michigan congressman, expressed himself tersely, but carefully: "I am for the man who can carry the election," said he. "I think every man should come here with the view of bringing his best thought and best judgment to the consideration of one question-who can carry the country and bring success to the republican party! and the man who comes here for one individual, re-gardless of consequences, is not a wise party

An afternoon paper creates some sensa tion by the statement that a nephew of James G. Blaine, who lives in Minneapoils, wears a Harrison badge. The nephew says he does not believe that there is sincerity in the present hurran for his uncle.

A confidential letter has been sent out by the Utah Gentiles, addressed to all the delegates to the convention. It warns them against the Mormons and asks to have the contesting delegation denied admittance to the convention. It is in part as follows: "Contesting delegations will be sent from Utah to Minneapolis, one by the regular organization, which has been in existence for the past twenty years, the second by a few disgruntled men who have joined with the democrats and with their own motion appointed committees and proceeded to organize, as they call it, the repubfore the convention will be between the ceeded to organize, as they call it, the repub-lican party. The latter are for Blaine or any one to beat Harrison. The Mormons do not like Harrison and the Gentile member of this delegation is connected with Blaine by marriage. The regular party have chosen C. C. Goodwin, editor of the Salt Lake Tribune, and C. E. Allen, county clerk, both strong republicans from away back, who will stay by Harrison from first to last,"

Appointment of Ushers.

The appointment of the Minnesota contin gent of ushers, which means the majority of them, has kept clear of politics to a consider-able extent. Sergeant-at-orms Meck appor-tioned them out to one or two local organizations and institutions which selected their representatives. So far as presidential preferences are concerned they are as impartial as could be secured.

Work of the National Committee. The republican national committee will begin its sessions tomorrow. On it fairs the work of arranging all the details for the conduct of the convention. Tomorrow the

work of making up the roll will begin. It is the duty of the national committee to make work of making up the roll will begin. It is the duty of the national committee to make up the temporary roll of delegates enti-tled to admission to the convention. The roll of states will be called and where seats are contested each delegation will be given a hearing. There are more contests thus year than ever before. In more than eighty cases two persons are figuring contests this year than ever before. In more than eighty cases two persons are fighting for the same seats. The south furnishes by far the largest number of these disputes. In some of them the seats of the entire state delegations are at issue. The most bitter northern contest comes from the Fort Wayne, Ind., district, where McDonald, a Blaine man, declares the Harrison delegation were not elected. He will be here to make a contest with 200 followers to back it up. From the District of Columbia Perry Carson and Andy Gleason have on a fight with Calted Andy Gleason have on a fight with Cal-vin Chase and Signon Wolfe. If these men were not contestants the old-timers would think something was wrong. Harrison Against the Field,

There were some bets made during the evening, of which the largest was \$1,000 even on Harrison's nomination against the field. Marcus Johnson, revenue collector at St. Paul, took the Harrison end of the bet, and Delegate Eustis of Minneapolis, a Blaine man, the other end.

man, the other end.

There is no change in the chairmanship talk tonight. All parties seem to agree on McKinley for permanent chairman. He is warmly supported by the Harrison men, and the Blaine people are apparently not opposed to him. The only question in that connection is whether he will have the united support of his own state. In case the Ohio descration is united for him his selection will be assured.

For temporary chairman John M. Langston of Virginia is still the favorite. The selection of temporary chairman will probably be made after tomorrow's meeting.

### AMERICAN IN EVERYTHING.

Some of the Principal Planks in the Platform to Be Adopted.

MINNEAPOLIS, Minn., June 3. - On the platform there is substantial unanimity except as to two or three planks. The silver plank is the one which will receive the most careful consideration to meet the divergent views prevailing in different sections, and the precise extent to which declaration shall be made relative to federal elections is also a matter on which delegates differ. A number of the most important men now here have been consulted and, as a result, the principal features of the platform can now be given. Its keynote will be "American" throughout and in everything The platform will begin with a general re-

cital of the record of the republican party and the fact that it has always been in favor of freedom and the protection of the rights and liberties of the American people at home and abroad. President Harrison's administration will be endorsed as nonest, able, conscientious,

and as having promoted the peace of the country and the prosperity and safety of its business interests. The firm, dignified and patriotic conduct of foreign relations by President Harrison and Secretary Blaine will be especially commended. The Tariff and Silver Planks.

The McKinley tariff law will be endorsed, and attention drawn to the fact that under it many new industries have been established giving employment to American labor. The reciprocity section of the bill will be especially mentioned.

The Springer free wool bill will be de-

nounced as an attempt to destroy an industry of the American farmer, built up by the wise protective policy of the republican party, and the general tariff policy of the democratic house will be assailed. The sliver plank is likely to be more liperal than that of other conventions, based upon the firm expectation of the administration that the approaching monetary confer-ence will result in such agreements as will make it possible to utilize our entire silver

roduct as money.

On the subject of federal elections, the right of every American citizen to cast one bailet and have that, ballet counted will be upheld as the greatest safeguard of a repubican constitution.

Our Merchant Marine. Ever mindful of the promotion of the wel

fare and glory of the United States, the necessity for the rehabilitation of the merchant marine to its former high place on the high seas will be a clause in the platform. In this connection attention will be drawn to the progress which has been made toward the restoration of the American navy and liberal appropriations for the navy will be advo cated with an allusion to the niggardly naval appropriations of the democrats. Encouragement will be recommended to made in American shippards of America

material and made by American workmen may once again fly the American flag in overy part of the ocean, carrying American manufactures and protected by an American navy with guns of American make. A careful supervision of immigration will be recommended to prevent undesirable persons landing on our shores, and approval will be given to the exclusion of contract and of Chinese labor as necessary to the protection against degradation of American labor. American homes for American and labor, American homes for Americans and the honest people of other natious who come

here to become American citizens, will occur in this or other parts of the platform. Union Veterans Will be Remembered, The party will renew its acknowledgment of obligations to the soldiers and sailors who fought for the union, and reference will be made to the dependent and disability pension bill by which the party redeemed its pledge to keep from the poorhouse the veterans of the war and their families who had become

heipless through no fault of their own.

Appropriations will be recommended for all internal improvements necessary to provide easy and cheap facilities for intercours between the people.

The Nicaragua canal project will be endorsed as a measure, which will bind the dif-ferent sections of the country closer together

and aid in the maintenance of our promin Other measures for the good of the coun try, which became laws in the Fifty-first congress will be enumerated, in-cluding the meat inspection bill; the antitrust bill; the copyright bill; the bill maintaining the public land in the interest of the actual settlers; the airen land bill; the private land claims bills; the custom administration bill; the antilottery bill; the bill to provide an exposition to celebrate the 400th anniversary of the discovery of America and a long list of other important

measures. Miscellaneous Matter Mentioned. Home rule for Ireland may possibly also find a place in the pintform.

The platform will see to it that no charge be made against the republicans as a party in connection with the Bennett school law. which in state elections has caused many Germans in Illinois and Wisconsin, who are naturally republicans, to bolt. The plank on this subject will be drawn carefully, but in such terms as to show that the party is in

favor of personal liberty and against inter-ferences with that right.

A vigorous effort is to be made by Chica-goans, and those who are working with them in the World's fair project, to have the convention endorse the grant of government aid to the fair.

Proposed Constitutional Amendment. A memorial to the republican national committee has been prepared, in which the endorsement of the platform of the conven-tion is asked for the following sixteenth amendment to the constitution: "No state tion is asked for the following sixteenth amendment to the constitution: "No state shall pass any law respecting an establishment of religion or prohibiting the free exercise thereof, or use its property or credit, or any money raised by taxation or authorize either to be used for the purpose of founding, maintaining or aiding, by appropriation, payment for services, expenses or otherwise, any church, religious denomination or religious society, or any institution, society or undertaking which is wholly or in part under sectarian or ecclesiastical control."

FLORIDA DEMOCRATS.

They Combine with the Alliance Men and Nominate a Ticket. TAMPA, Fla., June 3.- About midnight the democratic convention completed its permanent organization to the advantage of the Mitchell adnerents. Mitchell then sought to push his advantage by moving to proceed to nomination for governor. His opponents sought to stave off action by dilatory motions and the alliance men demanded the adoption of the platform before the nominations were made, but the Mitchell men were too strong And pushed the nomination of Mitches for governor through without allowing any other name to be mentioned. Judge Mitchell in his speech of acceptance

declared against the third party, and strongly advocated the free coinage of silver. The convention completed its ticket by the of state; W. B. Lamar, attorney general, and W. B. Blockson, lieutenant Governor.

C. D. Collins was nominated for state treasurer, L. N. Sheats for super-intendent of public instruction, L. B. Wombell for commissioner of agriculture. The only new men in the state nominations are Sheats and Collins. The latter is a very prominent alliance man, Both had the solid support of the alliance. National electors were also chosen, and then the convention acjourned to 4 p. m.

Wanted to See Alger. DETROIT, Mich., June 3.-General Alger received the following message this afternoon:

"The Maine, New Hampshire and Vermont delegations will arrive in Detroit at 7 o'clock tonight. They will be delighted to see you at the station. J. H. Manler." At 7:30 the delegation passed through Detroit. They were met at the depot by General Alger and took supper with him. As they were about to leave they gave three

cheers for the general.

At 8 o'clock the train departed. A poll of the delegates shows that twenty-nine are for Blaine, two for Harrison and one for Reed. With Blaine out of the race Mr. Manley says large number of the delegates will be for Alger, and in case Blaine is placed in nom-ination he thought three-fourths would be for Alger for vice president.

### REPUBLICAN MEETINGS.

Ward Clubs Getting Ready for the Coming Campaign.

A number of the republicans of the Eighth ward met last evening at Schroeder's hall, Twenty-fourth and Cuming streets, for the purpose of reorganizing the Eighth Ward Republican club, in accordance with the instructions of the central committee. The officers elected were: John W. Nichols, president; T. L. Barnett, secretary; Dr. Spaiding, treasurer.

The meeting was unanimously in favor of

holding the proposed rally after the Minne-apolis convention, and will participate in the demonstration. The following committee was appointed by the chair to make arrangenents by which the club can make a credit able showing at that time: C. E. Bruner, T. S. Crocker and Ed. Leader. As soon as the campaign is fairly opened the club will hold a meeting every week.

The Second Ward Republican club held a

meeting last night at Kaspar's hall on South Thirteenth street. George Stryker, the president, presided over the meeting. As no vice president was elected when the club was organized a week ago, F. G. Fleming was chosen to that position The committees on by-laws and constitu-

tion and halis were given more time in which to make their reports.

A committee composed of Messrs Swick-ard, Kaspar, Masterman and Franks was appointed to confer with other ward clubs for the purpose of making arrangements for a rally just after a republican candidate for president is nominated at the Minneapolis

convention. Major Peirman made a brief talk on what the club should do. He believed that it should discuss, besides political matters, all subjects of municipal and state importance, such as the Nebraska Central propo-The club will again meet next Friday

WEALTH OF THE NATION. Report of the Census Bureau on the As-

sessed Valuation of the Country.
Washington, D. C., June 3.—The census bureau today issued a bulletin on the subject of assessed valuation of property in the United States in 1890. The bulletin shows that the assessed value of all property, ex cluding railroad property, except in certain specified states, has increased from \$16,902, 993,543 in 1880 to \$24,651,585,465 in 1893, an in crease during the decade of \$7,748,591,922, or 45.84 per cent. Should it be found upon the completion of the inquiry in relation to the true value of property that the same relations exist as existed in 1880 the absolute wealth of the United States, according to the eleventh census, may be estimated at \$63,000 (NO) or more than \$1.000 per capita as 648,000,000, or more than \$1,000 per capita, as against \$514 per capita in 1830, \$780 per capita in 1870 and \$870 per capita in 1880. Owing, however, to the fact that in some states property is assessed at its full value and in others at only a fraction of its value, comparisons of the wealth of the states are quite impossible. In some states the lists of the kinds of taxable property vary greatly from those in others
