THE SPECULATIVE MARKETS

Wheat Was Unsettled and Unusually Nervous Yesterday.

CABLE REPORTS WERE MORE FAVORABLE

Corn Was Unsettled with Frequent Changes in Price-Longs Sold Freely at the Opening with a Stight Advance.

CHICAGO, Ill., June 8.-Wheat was unsettled and nervous today and closed with a loss of most of yesterday's gain. The opening was and storus just night and to firmer cables, but soon declined lise on the reports of a heavy bank failure in London and rumors of a flurry in Paris. A raily of 14c followed on unfavorable news which caused an advance at Liverpool. The advices in this regard were conflicting, however, some cables reporting the outlook more favorable in both Russia and France. The result was a nervous market for the rest of the day, compared with that of yesterday. Corn was unsettled, with frequent changes in prices, the weather and the nervousness in wheat being the controlling influences. At the opening the longs sold freely and the start was at a slight advance; the price soon worked down from the fall was afterwards lost and the close showed a loss of from 14c to 14c.

Outs followed, but the gain was afterwards lost and the close showed a loss of from 14c to 14c.

Outs followed wheat and corn and showed a loss of from 5c to 5c. heavy bank fallure in London and

less of from %e to %e.
Provisions were largely influenced by grains and closed somewhat lower.

suffering for want of rain. The weather in the near future is the great factor on values. With present conditions we feel friendly to wheat, and believe purchasers on weak markets will make money. There has been heavy realizing on corn today. July opened at 51c, closed at 49%c. The weather is more settled and planting progressing favorably. The crop cannot be anything but late, and we think the acreage will be greatly reduced. On breaks it will pay to buy. The fluctuations in oats were in sympathy with corn. The provision market was quiet until near the close, when there was considerable liquidation. The buying was by local operators.

STOCKS AND BONDS.

There Was no Change in the General Char neter Today, New York, June 8.—The stock market showed no change a general character today. There was a resumption of the outward movement of gold but the amount was not suffi cient to have any influence upon the course of prices, especially in view of the unusually strong position of the banks. The crop prospects were discussed and the reports are taking on a more favorable turn, though the bears still regard the grangers as the most vulnerable points in the market. Today, however, both St. Paul and Burlington were remarkable during most of the session for the stubbornness of their resistance to pressure and the material losses were generally out-side of that group of stocks. The claim of the bears, however, that prices cannot go up without leadership on the part of the bulls was

out leadership on the part of the buils was fully exemplified in the stagnation in prices seen when the selling pressure was lifted and the covering demands satisfied with the utter neglect of the whole list.

It is evident also that the coming presidential cambaign is beginning to have its usual influence to restrict speculative operations. Late in the day, bowever, there was a sharp upward spurt in North American and Northern Pacific preferred which was based on buying by the insiders and a rumor that the Vanderblits have been purchasers of North American and were about concluding a traffic agreement by which freight would be diverted from the Union Pacific. But the rumor lacked confirmation and both Northern Pacific preferred and North American rose about 1 per cent each, and the ent ro can rose about 1 per cent each, and the ent re

London Financial Review. Copyrighted 1892 by James Garcian Bennett. 1
LONDON, June 8.—[New York Herald Cable—Special to The Beel.—Today has been adversely influenced by rumors of the difficulties of an important eastern financial institution which has exercised a very eccided check on new business. Consols have given way from 1-16 to ½ per cent. Indian rupee paper advanced % per cent. Indian rupee paper advanced % per cent will be a rise in the price of silver. Foreign government securities close somewhat heavy. The feature is the fall of 2½ per cent in Portuguese on the rejection by the government of the bondholders proposition. A decline also occurred in Spanish, Italian, Egyptian, Brazilian and Argentine issues. In spite of the very favorable traffic statements, home rallways have been more or less dull all day. In the majority of cases a decline of % to % per cent is established. Brighton deferred is the exception, which is % per cent bigher. American railways have Copyrighted 1892 by James Gardon Bennett.1 to \$\frac{2}{3}\$ per cent is established. Brighton deferred is the exception, which is \$\frac{2}{3}\$ per cent higher. American railways have been more or less flat all day on continued realizations by weakened ho ders. Eric preferences have fallen \$\frac{2}{3}\$ per cent. Atchison income 1 and nearly all others \$\frac{1}{3}\$ to \$\frac{1}{3}\$. New York bought all shares thrown on the market here. Canadian lines have been very little dealt in and closed dull in sympathy with American. Prices are not altered to any apprecable extent. There has scarcely been any demand made. Short loans have been obtained at \$\frac{1}{3}\$ to \$\frac{1}{3}\$ per cent. The discount market has been equally quiet. Two and three months bitis were quoted at \$\frac{1}{3}\$ to \$\frac{1}{3}\$ per cent.

OMAHA, June S.—Receipts are running somewhat lighter than last week, the three days' supply being 5,60 cattle, 15,721 hogs and 437 sheep against 6,603 cattle, 15,721 hogs and 437 sheep against 6,603 cattle, 32,411 hors and 1,335 sheep the first half of last week.

The general cattle market was active and rather steadier than for the preceding two days. Continued mo icrate offerings and a more favorable tone to eastern markets made the situation a little more favorable to the seiling interests. There was no quotable advance in prices, but good stock of all kinds moved more freely at firm prices. Occasional sales of handy fat steers were at 5c to 10c advance while half fat or rough heavy cattle were hard to sell at Tuesday's prices. Fair to good 1,200 to 1,400-lb, steers sold from \$3,75 to \$1,15, Fair to choice to) to 1,200-lb, steers sold from \$1,50 to \$4,15. It was, taken all together, a fairly satisfactory market and everything decent found a purchaser before the close.

The market for cows and mixed stock snowed no particular change, prices being pretty much in Tuesday's notches. Extreme sales of cows and helfers were at from \$1,75 to \$3,45, the bulk of the fair to good stuff selling from \$2,05 to \$2,00. Bulls, oxen and stags sold at from \$2,50 to \$3,15 and calles at from \$2,75 to \$4,50.

Be it resolved by the city council of the city
of Omaha, the mayor concurring:
That wooden sidewalks be constructed in
the city of Omaha as designated below, within
five days after the publication of this resolution, or the personal service thereof, as by ordinance is authorized and required; such
sidewalks to be laid to the present grade on
the streets specified herein, and to be constructed of pine plank of such width and
thickness and be taid upon joists of such
dimensions and in such manner as is prescribed by the specifications on file in the
office of the Board of Public Works and under
its supervision, to wit: Chicago Live Stock Market.
Chicago Live Stock Market.
Chicago Live Secial Telegram to The Beel-There was a better tone to the cattle market today. The demand from the different sources showed improvement and with receipts of only 14,020 head, the trend of the market was slightly in the direction of an advance, though none resulted. All grades except common grassy stuff were in demand at steady prices. The latter are beginning to arrive in considerable numbers, and, as is usually the case, are being more or less severely discriminated against. Fat cows and heifers, good to choice light and middle light steers, averages of from 200 to 1,320 lbs., sold to the best advantage, though the heavier weights were less weak than for a number of days past. Quotations range from \$1.50 to \$1.75 for lean old cows and thin Texans to from \$4.50 to \$4.75 for extra shippings in steers. Most of today's trading was better then at \$4.35 and sales 4.elow \$2.50 were also few. The general market closed firm.

The hog market made a further gain of 5c today, the limit again being reached. There were not many sales at that figure and it is thought that many could have been obtained for anything at the close of the day's work, but there were many sales at from \$1.97 to \$4.97%, and the bulk of the business was transacted at better than \$1.80. The increased strength was a result of the dropping off in the arrivals from the recent average both as regards quantity and quality. Around the opening some hozs changed hands at prices that looked the hose more than 5c, scarcely that much on the late

ORDINANCE NO. 3083. An ordinance declaring the necessity of grad-ing the alley in block 10 in Kountze's Fourth Supplemental addition from Hickory street to Center street; also in block I, Kountze's Fourth addition from Center to alley north of Dorcas street, and appointing three disinterested appraisers to assess and determine the damages; if any, to the prop-erty owners, which may be caused by such grading. grading. e it ordained by the city council of the city

changed hands at prices that looked ite higher than Tuesday, but the apprient gain was not more than 5c, scarcely that much on the late sales.

Closing quotations were \$4.65 to \$4.97\frac{1}{2} for medium and heavy weights and \$4.60 to \$4.90 for light. Culls and light pigs went at from \$2.75\frac{1}{2} for the sales.

Trading in sheep was at about Tuesday's prices. The lighter receipts served to impart a somewhat steadier feeling, but there was no appreciation in values. Good to choice sheep were quoted at from \$5.00 to \$4.25, and poor to fair quantities from \$4.00 to \$4.75. Lambs were unsettled and weak at from \$4.50 to \$7.25. Of late supplies of spring lamps have "been by far too liberal to be consistent with firmness.
